38. Union affiliation of employed wage and salary workers by sex, annual averages, 1983-2007	94
Technical Note	96

Women in the Labor Force: A Databook

Introduction

The past several decades have been marked by notable changes in women's labor force activities. Since the 1970s, women's labor force participation has risen substantially, particularly among women with children, and a larger share of women work full time and year round than ever before. In addition, women have increasingly attained higher levels of education: among women ages 25 to 64 who are in the labor force, the proportion with a college degree more than tripled from 1970 to 2007. Women's earnings as a proportion of men's also have grown over time. In 1979, women working full time earned 62 percent of what men did; in 2007, women's earnings were 80 percent of men's.

This report presents historical and current labor force and earnings data for women and men from the Current Population Survey (CPS). The CPS is a national monthly survey of approximately 60,000 households conducted by the U.S. Census Bureau for the U.S. Bureau of Labor Statistics. Unless otherwise noted, data are annual averages from the CPS. Users should note that the comparisons of earnings in this report are on a broad level and do not control for many factors that can be significant in explaining earnings differences. For a detailed description of the source of the data and an explanation of concepts and definitions used, see the Technical Note at the end of this report.

Highlights

- In 2007, 59 percent of women were in the labor force, and this share has been quite stable over the past few years. Women's labor force participation rate peaked at 60 percent in 1999, following several decades in which women increasingly entered the labor market. (See tables 1 and 2.)
- The unemployment rate for women was 4.5 percent in 2007. Although higher than its most recent low of 4.1 percent in 2000, the unemployment rate for women in 2007 was relatively low by historical standards. Unem-

ployment rates for women varied by race and Hispanic ethnicity in 2007. Asian women had the lowest rate (3.4 percent), followed by white (4.0 percent), Hispanic (6.1 percent), and black (7.5 percent) women. (See tables 1, 2, and 3.)

- From March 1975 to March 2000, the labor force participation rate of mothers with children under age 18 rose from 47 percent to a peak of 73 percent. (These data were collected in the March CPS.) By 2004, the rate for these mothers had receded to 71 percent, where it remained through 2007. In general, mothers with older children (6 to 17 years of age, none younger) are more likely to participate in the labor force than mothers with younger children (under 6 years of age), and unmarried mothers have higher participation rates than married mothers. In 2007, 76 percent of unmarried mothers were in the labor force, compared with 69 percent of married mothers. (See tables 6 and 7.)
- The educational attainment of women in the labor force aged 25 to 64 rose substantially from 1970 to 2007. Thirty-five percent of these women held college degrees in 2007, compared with 11 percent in 1970. Only 7 percent of women were high school dropouts in 2007, down from 34 percent in 1970. (See table 9.)
- In 2007, women accounted for about 51 percent of all persons employed in management, professional, and related occupations, somewhat more than their share of all employed workers (46 percent). The share of women in specific occupations within this broad category varied in 2007. For example, 8 percent of engineering managers and 33 percent of lawyers were women. In contrast, 92 percent of registered nurses and 82 percent of social workers were women. (See table 11.)
- Employed Asian women were more likely (47 percent) to work in the higher paying management, professional, and related occupations in 2007 than

were employed white (40 percent), black (31 percent), or Hispanic (23 percent) women. Hispanic women (31 percent) and black women (27 percent) were more likely than white and Asian women (each 19 percent) to work in service occupations. (See table 12.)

- In 2007, women accounted for more than half of all workers within several industry sectors: financial activities, education and health services, leisure and hospitality, and other services. However, women were substantially under-represented (relative to their share of total employment) in agriculture, mining, construction, manufacturing, and transportation and utilities. (See table 14.)
- Women who worked full time in wage and salary jobs had median usual weekly earnings of \$614 in 2007. This represented 80 percent of men's median weekly earnings (\$766). Earnings of Asian (\$731) and white (\$626) women were substantially higher than the earnings of their black (\$533) and Hispanic (\$473) counterparts. Women's-to-men's earnings ratios were higher among blacks (89 percent) and Hispanics (91 percent) than among whites (79 percent) and Asians (78 percent). (See table 16.)
- In 2007, female full-time wage and salary workers with only a high school diploma had median usual weekly earnings of \$512. This represented 80 percent of the earnings for women with an associate degree (\$640), and 55 percent of those for women with a bachelor's degree or higher (\$932). (See table 17.)
- In 2007, 25 percent of employed women usually worked part time—fewer than 35 hours per week. In comparison, about 11 percent of employed men usually worked part time. (See table 20.)
- Women in nonagricultural industries worked an average of 36.1 hours per week in 2007. The average workweek for men in nonagricultural industries was 41.6 hours. (See table 21.)
- Of all women who worked at some point during calendar year 2006, 61 percent worked full time and year round, compared with 41 percent in 1970. During the same period, the proportion of men who worked full time and year round grew from 66 to 75 percent. (See table 22.) (These data were collected in the 2007 Annual Social and Economic Supplement to the CPS and refer to work experience during the prior calendar year.)
- Both the wife and husband had earnings from work in 57 percent of married-couple families in 2006, up from 44 percent in 1967. Couples in which only the husband worked represented 18 percent of married-couple families in 2006, compared with 36 percent in 1967. (See table 23.) (These data were collected in the 2007 Annual Social and Economic Supplement to the CPS and reflect earnings and work experience of the prior calendar year.)
- In 2006, working wives' contributions accounted for 36 percent of their families' incomes, up by 9 percentage points from 1970, when wives' earnings accounted for 27 percent of their families' total incomes. The proportion of wives earning more than their husbands also has grown. In 1987, 18 percent of working wives whose husbands also worked earned more than their spouses; in 2006, the proportion was 26 percent. (See tables 24 and 25.) (These data were collected in the 2007 Annual Social and Economic Supplement to the CPS and reflect earnings and work experience of the prior calendar year.)
- In 2007, approximately 1.2 million women paid at an hourly rate had earnings at or below the prevailing Federal minimum wage. This was 3 percent of all women paid at an hourly rate. Among women 25 years and older who were paid hourly rates, 2 percent had earnings at or below the minimum wage, compared with 7 percent of women aged 16 to 24. (On July 24, 2007, the Federal minimum wage level rose from \$5.15 to \$5.85 an hour. Data in this report reflect the average number of workers who earned \$5.15 or less from January 2007 through July 2007 and those who earned \$5.85 or less from August 2007 through the end of the year.) (See table 26.)
- Among workers who were in the labor force for at least 27 weeks in 2006, women were slightly more likely than men to live in poverty—5.8 percent compared with 4.5 percent. Black and Hispanic women who were in the labor force for 27 weeks or more were significantly more likely than their white or Asian counterparts to be among the working poor. The poverty rates for black and

Hispanic women were 12.0 percent and 9.8 percent, respectively, compared with 4.8 percent and 3.4 percent, respectively, for white and Asian women. (See table 27.) (Data are from the 2007 Annual Social and Economic Supplement to the CPS and reflect earnings and work experience of the prior calendar year.)

- From January 2005 to December 2007, 1.6 million women and 2.0 million men were displaced from jobs they had held for at least 3 years. The women were somewhat less likely than the men to have found a new job at the time of the survey in January 2008: the reemployment rate for women was 64 percent, compared with 70 percent for men. Women were almost twice as likely as men to have left the labor force, 20 and 11 percent, respectively. (See table 32.) (Data are from the January 2008 Displaced Worker supplement to the CPS.)
- Among 2007 high school graduates, young women (68 percent) were slightly more likely than young men (66 percent) to be enrolled in college in October 2007. (See table 33.) (Data are from the October 2007 School Enrollment supplement to the CPS.)
- In October 2007, 45.6 percent of women aged 16 to 24 who were enrolled in either high school or college were in the labor force. Young men of the same age group who were enrolled in school had a lower labor force participation rate (39.6 percent). Among those not enrolled in school, women (73.0 percent) were less likely to be in the labor force than men (87.9 percent). (See table 34.) (Data are from the October 2007 School Enrollment supplement to the CPS.)
- Among 16- to 24-year-old women who were not enrolled in school, those who did not have a high school diploma (48.6 percent) were significantly less likely to participate in the labor force than those who had a high school diploma but no additional education (71.0 percent). Of those in

the labor force, the high school dropouts were more likely to be unemployed than the high school graduates (19.0 percent, compared with 12.4 percent). (See table 34.) (Data are from the October 2007 School Enrollment supplement to the CPS.)

- In May 2007, the multiple jobholding rate for women was 5.7 percent, the same as a year earlier. The May 2007 multiple jobholding rate for men was lower, at 4.9 percent. Multiple jobholding rates for both women and men have edged down since the mid-1990s, when they were at or near 6.5 percent. (See table 35.) (Data were collected in the May CPS.)
- Since 1976, the percentage of working women who were self employed has trended up (from 4.4 percent to 5.4 percent in 2007), while the percentage of employed men who were self employed has edged down (from 8.4 percent to 7.7 percent). In 2007, 38 percent of all self-employed persons were women, compared with 27 percent in 1976. (See table 36.)
- In 2007, foreign-born women (54.9 percent) were less likely than native-born women (60.1 percent) to be in the labor force. Of those in the labor force, foreign-born and native-born women were about equally likely to be unemployed (4.6 and 4.5 percent, respectively). Among men, the foreign born (81.9 percent) were more likely to be in the labor force than the native born (71.6 percent); the foreign born also were less likely to be unemployed (4.1 percent, compared with 4.9 percent). (See table 37.)
- About 12 percent of female wage and salary workers were represented by unions in 2007, compared with 14 percent of men. Union attachment for both sexes has fallen since 1983, when unions represented 18 percent of women and 28 percent of men in wage and salary jobs. (See table 38.)

NOTE: Children are "own children" and include sons, daughters, stepchildren, and adopted children. Not included are nieces, nephews, grandchildren, and other related and unrelated children. Estimates for the above race groups (white, black or African American, and Asian) do not sum to totals because data are not presented for all races. Persons whose ethnicity is identified

as Hispanic or Latino may be of any race.

¹ Includes never-married, divorced, separated, and widowed persons.

NOTE: Children are "own children" and include sons, daughters, stepchildren, and adopted children. Not included are nieces, nephews, grandchildren, and other related and unrelated children. Detail for the above race groups (white,

black or African American, and Asian) do not sum to totals because data are not presented for all races. Persons whose ethnicity is identified as Hispanic or Latino may be of any race.

NOTE: "Own children" include sons, daughters, stepchildren, and adopted children. Not included are nieces, nephews, grandchildren, and other related and unrelated children. Data for 1994 and subsequent years are not directly comparable with data for 1993 and earlier years because of the introduction of a major redesign of the Current Population Survey.

Table 9. Percent distribution of the civilian labor force 25 to 64 years of age by educational attainment and sex, 1970-2007 annual averages—Continued

Year	Civilian labor force (thousands)	Percent distribution				
		Total	Less than a high school diploma	High school graduates, no college ²	Some college, no degree, or associate degree	College graduates ³
Men						
1992 ⁴	56,428	100.0	13.7	34.2	24.3	27.8
1993	56,992	100.0	12.9	33.9	25.1	28.1
1994	57,205	100.0	12.4	33.0	25.9	28.8
1995	57,784	100.0	11.8	32.4	26.3	29.4
1996	58,692	100.0	12.2	32.3	26.1	29.4
1997	59,684	100.0	12.2	32.4	25.9	29.6
1998	60,255	100.0	12.0	32.1	25.6	30.3
1999	60,570	100.0	11.4	31.6	26.0	31.0
2000	62,001	100.0	11.5	31.2	26.1	31.2
2001	62,664	100.0	11.5	30.9	26.2	31.4
2002	63,318	100.0	11.6	30.8	25.8	31.8
2003	64,025	100.0	11.7	30.6	25.6	32.1
2004	64,519	100.0	11.5	30.7	25.6	32.3
2005	65,430	100.0	11.5	30.9	25.7	31.9
2006	66,350	100.0	11.5	30.6	25.5	32.3
2007	67,313	100.0	11.2	30.4	25.6	32.9

¹ Data from 1970-1991 are based on the March Current Population Survey.

² Includes persons with a high school diploma or equivalent.

³ Includes persons with bachelor's, master's, professional, and doctoral degrees.

⁴ Beginning in 1992, data on educational attainment are annual averages and are based

on the highest diploma or degree received rather than the number of years of school completed.

Order clerks.....	102	70.1
Human resources assistants, except payroll and timekeeping.....	49	-
Receptionists and information clerks.....	1,441	93.0
Reservation and transportation ticket agents and travel clerks.....	144	59.1

See note at end of table.

Table 11. **Employed persons by detailed occupation and sex, 2007 annual averages—Continued**

(Numbers in thousands)

Occupation	Total employed	Percent women
Information and record clerks, all other.....	101	88.9
Cargo and freight agents.....	21	-
Couriers and messengers.....	254	15.1
Dispatchers.....	286	55.1
Meter readers, utilities.....	42	-
Postal service clerks.....	172	53.0
Postal service mail carriers.....	364	36.9
Postal service mail sorters, processors, and processing machine operators.....	84	43.3
Production, planning, and expediting clerks.....	258	54.3
Shipping, receiving, and traffic clerks.....	539	33.4
Stock clerks and order fillers.....	1,512	35.5
Weighers, measurers, checkers, and samplers, recordkeeping.....	68	48.7
Secretaries and administrative assistants.....	3,401	96.7
Computer operators.....	160	51.1
Data entry keyers.....	449	78.6
Word processors and typists.....	214	89.6
Desktop publishers.....	4	-
Insurance claims and policy processing clerks.....	283	87.0
Mail clerks and mail machine operators, except postal service.....	123	48.6
Office clerks, general.....	1,097	85.3
Office machine operators, except computer.....	48	-
Proofreaders and copy markers.....	13	-
Statistical assistants.....	21	-
Office and administrative support workers, all other.....	603	75.9
Natural resources, construction, and maintenance occupations.....	15,740	4.2
Farming, fishing, and forestry occupations.....	960	20.9
First-line supervisors/managers of farming, fishing, and forestry workers.....	42	-
Agricultural inspectors.....	14	-
Animal breeders.....	8	-
Graders and sorters, agricultural products.....	81	64.1
Miscellaneous agricultural workers.....	683	19.3
Fishers and related fishing workers.....	34	-
Hunters and trappers.....	1	-
Forest and conservation workers.....	9	-
Logging workers.....	88	1.5
Construction and extraction occupations.....	9,535	2.7
First-line supervisors/managers of construction trades and extraction workers.....	918	3.2
Boilermakers.....	24	-
Brickmasons, blockmasons, and stonemasons.....	233	1.2
Carpenters.....	1,824	1.9
Carpet, floor, and tile installers and finishers.....	258	2.1
Cement masons, concrete finishers, and terrazzo workers.....	112	2.2
Construction laborers.....	1,771	2.7
Paving, surfacing, and tamping equipment operators.....	28	-
Pile-driver operators.....	5	-
Operating engineers and other construction equipment operators.....	411	2.7
Drywall installers, ceiling tile installers, and tapers.....	232	3.6
Electricians.....	912	1.7
Glaziers.....	52	1.3
Insulation workers.....	52	1.9
Painters, construction and maintenance.....	714	6.9

See note at end of table.

Table 11. **Employed persons by detailed occupation and sex, 2007 annual averages—Continued**

(Numbers in thousands)

Occupation	Total employed	Percent women
Paperhangers.....	6	-
Pipelayers, plumbers, pipefitters, and steamfitters.....	697	1.5
Plasterers and stucco masons.....	82	.6
Reinforcing iron and rebar workers.....	12	-
Roofers.....	269	.9
Sheet metal workers.....	143	3.7
Structural iron and steel workers.....	88	.4
Helpers, construction trades.....	117	4.2
Construction and building inspectors.....	107	10.0
Elevator installers and repairers.....	31	-
Fence erectors.....	35	-
Hazardous materials removal workers.....	17	-
Highway maintenance workers.....	109	.5
Rail-track laying and maintenance equipment operators.....	12	-
Septic tank servicers and sewer pipe cleaners.....	5	-
Miscellaneous construction and related workers.....	48	-
Derrick, rotary drill, and service unit operators, oil, gas, and mining.....	43	-
Earth drillers, except oil and gas.....	40	-
Explosives workers, ordnance handling experts, and blasters.....	4	-
Mining machine operators.....	58	1.0
Roof bolters, mining.....	4	-
Roustabouts, oil and gas.....	5	-
Helpers--extraction workers.....	5	-
Other extraction workers.....	50	4.0
Installation, maintenance, and repair occupations.....	5,245	3.9
First-line supervisors/managers of mechanics, installers, and repairers.....	330	5.4
Computer, automated teller, and office machine repairers.....	318	10.6
Radio and telecommunications equipment installers and repairers.....	203	14.8
Avionics technicians.....	14	-
Electric motor, power tool, and related repairers.....	27	-
Electrical and electronics installers and repairers, transportation equipment.....	5	-
Electrical and electronics repairers, industrial and utility.....	14	-
Electronic equipment installers and repairers, motor vehicles.....	28	-
Electronic home entertainment equipment installers and repairers.....	62	.3
Security and fire alarm systems installers.....	64	.4
Aircraft mechanics and service technicians.....	126	2.1
Automotive body and related repairers.....	155	1.6
Automotive glass installers and repairers.....	16	-
Automotive service technicians and mechanics.....	879	.7
Bus and truck mechanics and diesel engine specialists.....	365	1.1
Heavy vehicle and mobile equipment service technicians and mechanics.....	226	1.3
Small engine mechanics.....	68	2.5
Miscellaneous vehicle and mobile equipment mechanics, installers, and repairers.....	88	2.2
Control and valve installers and repairers.....	20	-
Heating, air conditioning, and refrigeration mechanics and installers.....	403	.9
Home appliance repairers.....	51	4.4
Industrial and refractory machinery mechanics.....	426	3.2
Maintenance and repair workers, general.....	488	3.1
Maintenance workers, machinery.....	55	.7
Millwrights.....	75	.9
Electrical power-line installers and repairers.....	103	1.4

See note at end of table.

Table 11. **Employed persons by detailed occupation and sex, 2007 annual averages—Continued**

(Numbers in thousands)

Occupation	Total employed	Percent women
Telecommunications line installers and repairers.....	227	7.5
Precision instrument and equipment repairers.....	58	12.6
Coin, vending, and amusement machine servicers and repairers.....	61	17.6
Commercial divers.....	7	-
Locksmiths and safe repairers.....	24	-
Manufactured building and mobile home installers.....	18	-
Riggers.....	8	-
Signal and track switch repairers.....	10	-
Helpers--installation, maintenance, and repair workers.....	22	-
Other installation, maintenance, and repair workers.....	198	8.5
Production, transportation, and material moving occupations.....	18,171	23.0
Production occupations.....	9,395	30.1
First-line supervisors/managers of production and operating workers.....	941	19.4
Aircraft structure, surfaces, rigging, and systems assemblers.....	10	-
Electrical, electronics, and electromechanical assemblers.....	205	57.9
Engine and other machine assemblers.....	14	-
Structural metal fabricators and fitters.....	33	-
Miscellaneous assemblers and fabricators.....	1,071	38.3
Bakers.....	192	54.1
Butchers and other meat, poultry, and fish processing workers.....	281	26.8
Food and tobacco roasting, baking, and drying machine operators and tenders.....	16	-
Food batchmakers.....	92	58.0
Food cooking machine operators and tenders.....	7	-
Computer control programmers and operators.....	55	8.7
Extruding and drawing machine setters, operators, and tenders, metal and plastic.....	18	-
Forging machine setters, operators, and tenders, metal and plastic.....	9	-
Rolling machine setters, operators, and tenders, metal and plastic.....	12	-
Cutting, punching, and press machine setters, operators, and tenders, metal and plastic.....	118	21.6
Drilling and boring machine tool setters, operators, and tenders, metal and plastic.....	2	-
Grinding, lapping, polishing, and buffing machine tool setters, operators, and tenders, metal and plastic.....	55	13.2
Lathe and turning machine tool setters, operators, and tenders, metal and plastic.....	15	-
Milling and planing machine setters, operators, and tenders, metal and plastic.....	4	-
Machinists.....	422	5.2
Metal furnace and kiln operators and tenders.....	24	-
Model makers and patternmakers, metal and plastic.....	15	-
Molders and molding machine setters, operators, and tenders, metal and plastic.....	75	18.1
Multiple machine tool setters, operators, and tenders, metal and plastic.....	5	-
Tool and die makers.....	80	2.0
Welding, soldering, and brazing workers.....	577	5.6
Heat treating equipment setters, operators, and tenders, metal and plastic.....	13	-
Lay-out workers, metal and plastic.....	8	-
Plating and coating machine setters, operators, and tenders, metal and plastic.....	18	-
Tool grinders, filers, and sharpeners.....	7	-
Metalworkers and plastic workers, all other.....	435	28.9
Bookbinders and bindery workers.....	47	-
Job printers.....	42	-
Prepress technicians and workers.....	52	46.8
Printing machine operators.....	222	17.2
Laundry and dry-cleaning workers.....	229	56.4
Pressers, textile, garment, and related materials.....	59	72.2

See note at end of table.

Table 11. **Employed persons by detailed occupation and sex, 2007 annual averages—Continued**

(Numbers in thousands)

Occupation	Total employed	Percent women
Sewing machine operators.....	265	81.6
Shoe and leather workers and repairers.....	12	-
Shoe machine operators and tenders.....	9	-
Tailors, dressmakers, and sewers.....	90	75.3
Textile bleaching and dyeing machine operators and tenders.....	5	-
Textile cutting machine setters, operators, and tenders.....	6	-
Textile knitting and weaving machine setters, operators, and tenders.....	13	-
Textile winding, twisting, and drawing out machine setters, operators, and tenders.....	25	-
Fabric and apparel patternmakers.....	5	-
Upholsterers.....	53	14.9
Textile, apparel, and furnishings workers, all other.....	16	-
Cabinetmakers and bench carpenters.....	91	6.5
Furniture finishers.....	20	-
Model makers and patternmakers, wood.....	1	-
Sawing machine setters, operators, and tenders, wood.....	52	9.1
Woodworking machine setters, operators, and tenders, except sawing.....	30	-
Woodworkers, all other.....	35	-
Power plant operators, distributors, and dispatchers.....	48	-
Stationary engineers and boiler operators.....	95	1.3
Water and liquid waste treatment plant and system operators.....	72	6.2
Miscellaneous plant and system operators.....	44	-
Chemical processing machine setters, operators, and tenders.....	47	-
Crushing, grinding, polishing, mixing, and blending workers.....	118	12.5
Cutting workers.....	94	24.4
Extruding, forming, pressing, and compacting machine setters, operators, and tenders.....	32	-
Furnace, kiln, oven, drier, and kettle operators and tenders.....	14	-
Inspectors, testers, sorters, samplers, and weighers.....	737	39.5
Jewelers and precious stone and metal workers.....	47	-
Medical, dental, and ophthalmic laboratory technicians.....	107	44.0
Packaging and filling machine operators and tenders.....	279	57.1
Painting workers.....	193	11.0
Photographic process workers and processing machine operators.....	64	56.4
Semiconductor processors.....	3	-
Cementing and gluing machine operators and tenders.....	16	-
Cleaning, washing, and metal pickling equipment operators and tenders.....	12	-
Cooling and freezing equipment operators and tenders.....	5	-
Etchers and engravers.....	8	-
Molders, shapers, and casters, except metal and plastic.....	39	-
Paper goods machine setters, operators, and tenders.....	49	-
Tire builders.....	15	-
Helpers--production workers.....	44	-
Production workers, all other.....	1,006	30.5
Transportation and material moving occupations.....	8,776	15.4
Supervisors, transportation and material moving workers.....	225	20.3
Aircraft pilots and flight engineers.....	123	4.2
Air traffic controllers and airfield operations specialists.....	33	-
Ambulance drivers and attendants, except emergency medical technicians.....	17	-
Bus drivers.....	578	51.6
Driver/sales workers and truck drivers.....	3,460	5.3
Taxi drivers and chauffeurs.....	333	15.4
Motor vehicle operators, all other.....	74	10.4

See note at end of table.

Table 11. **Employed persons by detailed occupation and sex, 2007 annual averages—Continued**

(Numbers in thousands)

Occupation	Total employed	Percent women
Locomotive engineers and operators.....	52	5.5
Railroad brake, signal, and switch operators.....	6	-
Railroad conductors and yardmasters.....	53	5.9
Subway, streetcar, and other rail transportation workers.....	18	-
Sailors and marine oilers.....	15	-
Ship and boat captains and operators.....	41	-
Ship engineers.....	2	-
Bridge and lock tenders.....	3	-
Parking lot attendants.....	90	15.4
Service station attendants.....	90	7.0
Transportation inspectors.....	43	-
Other transportation workers.....	19	-
Conveyor operators and tenders.....	6	-
Crane and tower operators.....	61	.6
Dredge, excavating, and loading machine operators.....	61	2.2
Hoist and winch operators.....	9	-
Industrial truck and tractor operators.....	571	5.9
Cleaners of vehicles and equipment.....	326	13.0
Laborers and freight, stock, and material movers, hand.....	1,877	18.6
Machine feeders and offbearers.....	29	-
Packers and packagers, hand.....	406	64.4
Pumping station operators.....	23	-
Refuse and recyclable material collectors.....	79	6.4
Shuttle car operators.....	4	-
Tank car, truck, and ship loaders.....	7	-
Material moving workers, all other.....	39	-

NOTE: Dash indicates data not shown for occupations where employment base is less than 50,000.

¹ The comparability of historical labor force data has been affected at various times by methodological and conceptual changes in the Current Population Survey (CPS). For an explanation, see the Historical Comparability documentation provided at http://www.bls.gov/cps/eetech_methods.pdf.

NOTE: Beginning in 2003, estimates for the above race groups (white, black or African American, and Asian) include persons who selected this race group only; persons who selected more than one race group are not included. Prior

to 2003, persons who reported more than one race were included in the group they identified as the main race. Data for 2000-02 are for the category Asians and Pacific Islanders. Starting in 2003, Asians constitute a separate category. For more information, see the Historical Comparability documentation. Data for Asians were not tabulated prior to 2000.

¹ Prior to 1994, total includes persons who usually work part-time but who worked 35 or more hours during the reference week; for 1994 and later years, such persons were included in the part-time total. In all years, the total includes those who usually work full time but who worked less than 35 hours during the reference week for noneconomic reasons, such as illness or holiday, and those absent from work for the entire reference week who usually work full time. These groups are not shown separately.

² For all years, total includes those who usually work less than 35 hours a week but who were absent from work for the entire reference week and

for 1994 and later years, those who worked 35 or more hours during the reference week. These groups are not shown separately.

³ The comparability of historical labor force data has been affected at various times by methodological and conceptual changes in the Current Population Survey (CPS). For an explanation, see the Historical Comparability documentation provided at http://www.bls.gov/cps/eetech_methods.pdf.

Women.....	12,276	711	5.8	117	594
Men.....	5,721	260	4.5	56	204

¹ The distinction between full- and part-time workers is based on hours usually worked. These data will not sum to totals because full- or part-time status on the principal job is not identifiable for a small number of multiple jobholders.

NOTE: The prevailing Federal minimum wage rose from \$5.15 to \$5.85 an hour on July 24, 2007. Data in this table reflect the average number of workers who earned \$5.15 or less from January 2007 through July 2007 and those who earned \$5.85 or less from August 2007 through the end of the year. Data are for wage and salary workers, excluding the incorporated self-employed. They refer to a person's

earnings on his or her sole or principal job, and pertain only to workers who are paid hourly rates. Salaried workers and other nonhourly workers are not included. Estimates for the above race groups (white, black or African American, and Asian) do not sum to totals because data are not presented for all races. Persons whose ethnicity is identified as Hispanic or Latino may be of any race. Dash represents or rounds to zero.

SOURCE: Current Population Survey, U.S. Department of Labor, U.S. Bureau of Labor Statistics.

¹ Number below the poverty level as a percent of the total in the labor force for 27 weeks or more.

² Data not shown where base is less than 80,000.

NOTE: These data, collected in the Annual Social and Economic Supplement, reflect the earnings and work experience of the entire year. Estimates for the above race groups (white, black or African American, and Asian) do not sum to totals because data are not presented for all races. Persons whose ethnicity is identified as Hispanic or Latino may be of any race. Dash represents or rounds to zero.

¹ Contingent workers are those who do not have an implicit or explicit contract for ongoing employment. Persons who do not expect to continue in their jobs for personal reasons, such as retirement or returning to school, are not considered contingent workers, provided that they would have the option of continuing in the job were it not for these personal reasons. *Estimate 1* includes wage and salary workers who expect their jobs will last for an additional year or less and who had worked at their jobs for 1 year or less. *Estimate 2* includes wage and salary workers, the self-employed, and independent contractors who expect their employment to last for an additional year or less and

who had worked at their jobs (or been self-employed) for 1 year or less. *Estimate 3* includes all workers who do not expect their jobs to last. This is the broadest definition of contingency and estimates 1 and 2 of contingency are included in estimate 3. Noncontingent workers are those workers who do not fall into any of the three definitions of contingency.

¹ *Independent contractors* are workers who were identified as independent contractors, independent consultants, or freelance workers, whether they were self-employed or wage and salary workers. *On-call workers* are workers who are called to work only as needed, although they can be scheduled to work for several days or weeks in a row. *Temporary help agency workers* are workers who were paid by a temporary help agency, whether or not their job was temporary. *Workers provided by contract firms* are workers who are employed by a company that provides them or their services to others under contract and who are usually assigned to only one customer and usually work at the customer's worksite.

NOTE: Workers with traditional arrangements are those who do not fall into any of the "alternative arrangements" categories. Detail may not sum to totals because the total employed includes day laborers (an alternative arrangement, not shown separately) and a small number of workers who were both "on-call" and "provided by contract firms." Dash represents zero.

SOURCE: Contingent and alternative work arrangements supplement to the Current Population Survey, February 2005, U.S. Department of Labor, U.S. Bureau of Labor Statistics.

¹ Includes persons who did not provide information on flexible schedules.

² Persons with flexible schedules are able to vary or make changes in their beginning and ending hours of work, whether or not they have a formal flexitime program on their job.

NOTE: Data relate to the sole or principal job of full-time wage and salary workers who were at work during the survey reference week and exclude all self-employed persons, regardless of whether or not their businesses were incorporated. Estimates for the above race groups (white,

black or African American, and Asian) do not sum to totals because data are not presented for all races. In addition, persons whose ethnicity is identified as Hispanic or Latino may be of any race and, therefore, are classified by ethnicity as well as by race. Own children include sons, daughters, stepchildren, and adopted children. Not included are nieces, nephews, grandchildren, and other related and unrelated children.

¹ Persons who usually work at home are defined as those who work at home at least once per week as part of their primary job.

² Unpaid family workers and wage and salary workers who did not report pay status are included in total but not shown separately.

³ Includes persons who did not provide information on work at home.

⁴ Includes both the incorporated and unincorporated self-employed.

NOTE: Data refer to employed persons in nonagricultural industries. Own children include sons, daughters, stepchildren, and adopted children. Not included are nieces, nephews, grandchildren, and other related and unrelated children.

SOURCE: May 2004 Work at home supplement to the Current Population Survey, U.S. Department of Labor, U.S. Bureau of Labor Statistics.

¹ Multiple jobholders as a percent of all employed persons in specified group.

² Data for years prior to 1977 refer to the black-and-other population group.

see the Historical Comparability documentation provided at http://www.bls.gov/cps/eetech_methods.pdf.

Comprehensive surveys of multiple jobholders were not conducted in 1981-84, 1986-88, 1990, and 1992-93.

NOTE: Data beginning in 1994 are not strictly comparable with data for prior years. For an explanation,

¹ Data refer to members of a labor union or an employee association similar to a union.

² Data refer to members of a labor union or an employee association similar to a union, as well as workers who are not members but whose jobs are covered by a union or employee association contract.

³ Not strictly comparable with data for prior years. For an explanation, see the Historical Comparability documentation provided at http://www.bls.gov/cps/eetech_methods.pdf.

NOTE: Data refer to the sole or principal job of full- and part-time workers. All self-employed workers are excluded, regardless of whether or not their businesses are incorporated.

Technical Note

The estimates in this report were obtained from the Current Population Survey (CPS), a national monthly sample survey of approximately 60,000 households, which provides a wide range of information on the labor force, employment, and unemployment. Earnings and union affiliation data are collected from one-fourth of the CPS monthly sample. The survey is conducted for the Bureau of Labor Statistics by the U.S. Census Bureau, using a scientifically-selected national sample with coverage in all 50 States and the District of Columbia.

Material in this report is in the public domain and, with appropriate credit, may be reproduced without permission. This information is available to sensory-impaired individuals on request. Voice phone: (202) 691-5200; TDD message referral phone number: 1-800-877-8339.

Reliability of the Estimates

Statistics based on the CPS are subject to both sampling and nonsampling error. When a sample, rather than an entire population, is surveyed, there is a chance that the sample estimates may differ from the “true” population values they represent. The exact difference, or sampling error, varies depending on the particular sample selected, and this variability is measured by the standard error of the estimate. There is about a 90-percent chance, or level of confidence, that an estimate based on a sample will differ by no more than 1.6 standard errors from the “true” population value because of sampling error. BLS analyses are generally conducted at the 90-percent level of confidence.

All other types of error are referred to as nonsampling error. Nonsampling error can occur for many reasons, including the failure to sample a segment of the population, inability to obtain information for all respondents in the sample, inability or unwillingness of respondents to provide correct information, and errors made in the collection or processing of data. CPS data also are affected by nonsampling error. The full extent of nonsampling error is unknown, but special studies

have been conducted to quantify some sources of such error in the CPS. For further discussion of the reliability of data from the CPS and information on estimating standard errors, see the Household Data technical documentation provided at http://www.bls.gov/cps/eetech_methods.pdf.

Concepts and Definitions

Concepts used in this report are defined below.

Civilian noninstitutional population. Included are persons 16 years of age and older residing in the 50 States and the District of Columbia who are not confined to institutions (for example, correctional facilities and residential nursing and mental health care facilities), and who are not on active duty in the Armed Forces.

Civilian labor force. This group comprises all persons classified as employed or unemployed.

Employed persons. Employed persons are those who, during the survey week, (a) did any work at all as paid civilians; (b) worked in their own business or profession or on their own farm; (c) worked 15 hours or more as unpaid workers in a family business; or (d) were temporarily absent from their jobs because of illness, vacation, bad weather, or another reason.

Unemployed persons. Unemployed persons are those who had no employment during the survey week, were available for work at that time, and made specific efforts to find employment sometime in the prior 4 weeks. Persons laid off from their former jobs and awaiting recall did not need to be looking for work to be classified as unemployed.

Civilian labor force participation rate. This rate is the civilian labor force as a percent of the civilian noninstitutional population.

Employment-population ratio. This ratio represents the proportion of the population that is employed.

Unemployment rate. This rate represents the number of unemployed persons as a percent of the civilian labor force.

Race. White, black or African American, and Asian are terms used to describe the race of persons. Persons in these categories are those who selected that race group only. Data for the remaining race categories—American Indian or Alaska Native, Native Hawaiian or Other Pacific Islanders, and persons who selected more than one race category—are included in totals but are not shown separately because the number of survey respondents was too small to develop estimates of sufficient quality for publication. In the survey process, race is determined by the household respondent.

Hispanic or Latino ethnicity. This term refers to persons who identified themselves in the survey as being Spanish, Hispanic, or Latino. Persons whose ethnicity is identified as Hispanic or Latino may be of any race.

Family. A family is a group of two or more persons residing together who are related by birth, marriage, or adoption. Families are classified either as married-couple families or as families maintained by women or men without spouses.

Self-employed workers. Self-employed workers are those who work for profit or fees in their own business, profession, trade, or farm. Unincorporated self employed are included in the self-employed category. Self-employed persons whose businesses are incorporated are included in wage and salary employment.

Wage and salary workers. These are workers who receive wages, salaries, commissions, tips, payment in kind, or piece rates. The group includes employees in both the private and public sectors but, for purposes of the earnings series, excludes all self-employed persons, regardless of whether their businesses are incorporated.

Hourly paid workers. Workers who are paid an hourly wage are a subset of wage and salary workers, representing approximately three-fifths of all wage and salary workers. Workers paid by the hour are, therefore, included in the estimates of median usual weekly earnings in this report, along with salaried workers and other workers not paid by

the hour. Data for workers paid at hourly rates are presented separately in Table 26.

Usual weekly earnings. Data are collected on wages and salaries before taxes and other deductions and include any overtime pay, commissions, or tips usually received (at the principal job in the case of multiple jobholders). Earnings of self-employed workers are excluded, regardless of whether their businesses are incorporated. Prior to 1994, respondents were asked to report earnings per week. Since January 1994, respondents have been asked to identify the easiest way for them to report earnings (hourly, weekly, biweekly, twice monthly, monthly, annually, other) and how much they usually earn in the reported period. Earnings reported on a basis other than weekly are converted to a weekly equivalent. The term “usual” is as perceived by the respondent. If the respondent asks for a definition of usual, interviewers are instructed to define the term as “more than half the weeks worked during the past 4 or 5 months.”

Medians of usual weekly earnings. The median is the amount that divides a given earnings distribution into two equal groups, one having earnings above the median, and the other having earnings below the median. The BLS estimating procedure for determining the median of an earnings distribution places each reported or calculated weekly earnings value into a \$50-wide interval that is centered on a multiple of \$50. The value of the median is estimated through a linear interpolation of the interval in which the median lies. Over-the-year changes in the medians for specific groups may not necessarily be consistent with the movements estimated for the overall group boundary. The most common reasons for this possible anomaly follow: (1) There could be a change in the relative weights of the subgroups. For example, the medians of both 16- to 24-year-olds and those 25 years and over may rise, but if the lower earning 16-to-24 age group accounts for a greatly increased share of the total, the overall median could actually fall. (2) There could be a large change in the shape of the distribution of reported earnings. This could be caused by survey observations that are clustered at rounded values, for example, \$250, \$300, or \$400. An estimate lying in a \$50-wide centered interval containing such a cluster, or “spike,” tends to change more slowly than one in other intervals. Medians, for

example, measure the central tendency of a multi-peaked distribution that shifts over time. As the distribution shifts, the median does not necessarily move at the same rate. Specifically, the median takes relatively more time to move through a frequently reported interval but, once above the upper limit of such an interval, it can move relatively quickly to the next frequently reported earnings interval. BLS procedures for estimating medians mitigate such irregular movements of the measures; however, users should be cautious of these effects when evaluating short-term changes in the medians, as well as in ratios of the medians.

Hours at work. These are the actual hours worked (at all jobs) during the reference week. For example, persons who normally work 40 hours a week but were off during the Columbus Day holiday would be reported as working 32 hours, even though they were paid for the holiday.

Usual hours, or usual full- or part-time status. Data on persons “at work” exclude persons who were temporarily absent from a job and therefore classified in the zero-hours worked category, “with a job but not at work.” These are persons who were absent from their jobs for the entire week for reasons such as bad weather, vacation, illness, or involvement in a labor dispute. To differentiate a person’s normal schedule from his or her activity during the reference week, persons also are classified according to their usual full- or part-time status. In this context, full-time workers are those who usually worked 35 hours or more (at all jobs combined). This group includes some individuals who worked less than 35 hours in the reference week for either economic or noneconomic reasons and those who were temporarily absent from work. Similarly, part-time workers are those who usually work less than 35 hours per week (at all jobs), regardless of the number of hours worked in the reference week. This may include some individuals who actually worked more than 34 hours in the reference week, as well as those who were temporarily absent from work.

Occupation and industry. This information applies

to the job held during the reference week. Persons with two or more jobs are classified in the occupation and industry at which they worked the greatest number of hours. The occupational and industry classification of CPS data is based on the 2002 Census Bureau occupational and industrial classification systems, which are derived from the 2000 Standard Occupation Classification (SOC) and the 2002 North American Industry Classification (NAICS). Additional information about these classifications is available online at <http://www.bls.gov/cps/cpsoccind.htm>.

Work experience. These data reflect work activity during the calendar year and are obtained from the Annual Social and Economic Supplement (ASEC) to the Current Population Survey. Estimates of persons who worked were based on “yes” responses to the following questions in the ASEC: “Did you work at a job or business at any time during [the survey reference year]?” or “Did you do any temporary, part-time, or seasonal work even for a few days during [the survey reference year]?” Since the reference period is a full year, the number of persons with some employment or unemployment greatly exceeds the average levels for any given month, which are based on a 1-week reference period, and the corresponding annual averages of monthly estimates.

Poverty classification. Poverty statistics presented in this report are based on definitions developed by the Social Security Administration in 1964 and revised by the Federal interagency committees in 1969 and 1981. These definitions originally were based on the Department of Agriculture’s Economy Food Plan and reflected the different consumption requirements of families, based on factors such as family size and the number of children under 18 years of age. The actual poverty thresholds vary in accordance with the makeup of the family. Poverty thresholds are updated each year to reflect changes in the Consumer Price Index for All Urban Consumers (CPI-U). The thresholds do not vary geographically. For more information on poverty data and thresholds, see <http://www.census.gov/hhes/www/poverty/poverty.html>.
