

Vessel List for the Pilot Rockfish Program for the Central Gulf

Following is a list of vessels with target rockfish history that may be eligible for the Central Gulf of Alaska rockfish pilot program. For purposes of generating this list, eligibility for the program is assumed to be based on having one or more targeted landings in the Central Gulf rockfish fishery (i.e., Pacific Ocean perch, northern rockfish, and pelagic shelf rockfish) between 1996 and 2002 and a valid LLP with trawl and Central Gulf endorsements. For catcher vessels, fish ticket data were assigned a weekly target based on retained fish only (not including fish destined for meal production). For catcher/processors, NMFS Blend data weekly target determinations were used.

The list was developed by identifying vessels that:

- 1) have one or more targeted rockfish landings in the CGOA in the month of July in at least one of the years 1996 to 2002, inclusive; and
- 2) received a CGOA trawl endorsed LLP license by
 - a) meeting the requirements for that license; or
 - b) transfer.

For each license/vessel meeting these requirements, the most recent vessel associated with the LLP license is identified below. In the case of licenses that have been transferred, the original vessel is also referenced in parentheses. LLP data, current to May 7, 2004, were used to assess LLP license/vessel associations. If no vessel is currently associated with the LLP, then the original vessel, which generated the LLP license is included on the list. Only vessels that are either currently associated with an LLP license or the original vessel that generated the LLP are included on the list. Only one LLP per vessel is shown; some vessels have more than one Gulf trawl LLP. Also, note that the Intrepid Explorer received both CV and C/P LLPs through transfer, and is included on both the catcher vessel and the catcher/processor lists.

Note: The list is being produced solely for analytical purposes and to assist industry members in facilitating discussion of the program. The presence or absence of a vessel on these lists does not establish eligibility for the program. The methodology used is admittedly incomplete, in that it does not capture all transfers or transfer history. Eligibility for the program will be determined by NOAA Fisheries after adoption by the Council and approval by the Secretary of Commerce. Due to confidentiality requirements that protect catch data, this list will not be revised in the analysis, as doing so could compromise some data released concerning landings.
