

compensation a payment by cash or check for the amount specified above, on the day and at the place the involuntary denied boarding occurs. If the airline arranges alternate transportation for the passenger's convenience that departs before the payment can be made, the payment shall be sent to the passenger within 24 hours. The air carrier may offer free or discounted transportation in place of the cash payment. In that event, the carrier must disclose all material restrictions on the use of the free or discounted transportation before the passenger decides whether to accept the transportation in lieu of a cash or check payment. The passenger may insist on the cash/check payment or refuse all compensation and bring private legal action.

Passenger's Options

Acceptance of the compensation may relieve (name of air carrier) from any further liability to the passenger caused by its failure to honor the confirmed reservation. However, the passenger may decline the payment and seek to recover damages in a court of law or in some other manner.

■ 9. In § 250.10, remove the word "carrier" and replace it with the phrase "reporting carrier as defined in 14 CFR 234.2 and any carrier that voluntarily submits data pursuant to § 234.7 of that part."

■ 10. Section 250.11(a) is revised to read as follows:

§ 250.11 Public disclosure of deliberate overbooking and boarding procedures.

(a) Every carrier shall cause to be displayed continuously in a conspicuous public place at each desk, station and position in the United States which is in the charge of a person employed exclusively by it, or by it jointly with another person, or by any agent employed by such air carrier or foreign air carrier to sell tickets to passengers, a sign located so as to be clearly visible and clearly readable to the traveling public, which shall have printed thereon the following statement in boldface type at least one-fourth of an inch high:

Notice—Overbooking of Flights

Airline flights may be overbooked, and there is a slight chance that a seat will not be available on a flight for which a person has a confirmed reservation. If the flight is overbooked, no one will be denied a seat until airline personnel first ask for volunteers willing to give up their reservation in exchange for compensation of the airline's choosing. If there are not enough

volunteers, the airline will deny boarding to other persons in accordance with its particular boarding priority. With few exceptions, including failure to comply with the carrier's check-in deadline (carrier shall insert either "of ___ minutes prior to each flight segment" or "(which are available upon request from the air carrier)" here), persons denied boarding involuntarily are entitled to compensation. The complete rules for the payment of compensation and each airline's boarding priorities are available at all airport ticket counters and boarding locations. Some airlines do not apply these consumer protections to travel from some foreign countries, although other consumer protections may be available. Check with your airline or your travel agent.

SUPPLEMENTARY INFORMATION:

Background

This rule amends the Export Administration Regulations (EAR) to make various technical corrections and clarifications to the EAR as a result of a systematic review of the Commerce Control List (CCL) that was conducted by the Bureau of Industry and Security (BIS) beginning in 2007. This rule is the first phase of the regulatory implementation of the results of that review. This rule focuses on making needed technical corrections and clarifications to the CCL. The BIS CCL review benefited from input received from BIS's Technical Advisory Committees (TACs) and public comments received in response to a BIS notice of inquiry (July 17, 2007, 72 FR 39052).

BIS intends to publish another rule later this year that will implement the

second phase of the regulatory implementation of the results of that systematic review of the CCL. That rule is tentatively titled, "Revisions to the Export Administration Regulations based upon a Systematic Review of the Commerce Control List" (RIN: 0694-AE33). That second rule will include substantive changes to the CCL.

As a part of the implementation phase of the CCL review, the agency is also taking other non-regulatory actions to improve the public's understanding of the CCL. These BIS actions involve publishing certain advisory opinions and creating new web guidance to provide greater clarity to exporters and reexporters regarding existing provisions of the CCL. BIS has also created a new process whereby BIS has stated its intention to conduct similar types of systematic reviews of the CCL in the future in order to continuously improve the CCL.

This rule makes the following technical revision to the Export Administration Regulations (EAR):

In Supplement No. 1 to Part 748 (BIS-748P, BIS-748P-A; Item Appendix, and BIS-748P-B; End-User Appendix; Multipurpose Application Instructions), this rule amends the instructions for "Block 6: Documents submitted with application", to provide guidance to applicants who wish to include foreign availability support material for items not controlled for national security reasons. This new instruction guidance under Block 6 explains the procedure applicants should follow for submitting this information. The purpose of submitting this foreign availability information would be to make the U.S. Government more aware of the foreign availability of items not controlled for national security reasons.

In addition, this rule makes the following technical revisions to the Commerce Control List (CCL) (Supplement No. 1 to Part 774 of the EAR):

(1) This rule revises the "Related Controls" paragraphs in the following twenty-four CCL entries: 0A018, 1A001, 1A003, 1A005, 1C004, 1C006, 1C008, 1C009, 1C011, 1C012, 1D001, 1D018, 1E002, 2A983, 2B004, 2B005, 2E101, 2E201, 3A002, 3B002, 3B992, 3D002, 4D003, and 5E002 by adding additional related controls references or making changes for greater specificity for the related controls references. BIS includes related controls references in CCL entries to assist exporters in classifying items on the CCL and in some cases provides cross-references for items that are listed on the CCL, but are under the export control jurisdiction of other U.S. Government agencies. Several of the public comments received by BIS, as a part of the CCL review process, requested that BIS add these types of additional related controls

references to better assist the public in classifying their items using the CCL.

(2) This rule is also amending the "Unit" paragraph in the following fourteen CCL entries: 1B003, 2B001, 2B003, 2B004, 4A001, 4A003, 4A004, 5B001, 6A002, 6A004, 6A005, 8A001, 9A004, and 9B009. Several of the comments received by BIS, as a part of the CCL review process, requested that changes be made to the "Unit" paragraphs of certain CCL entries, so that the unit of measurement in the "Unit" paragraphs would conform to standard quantities for the items controlled in those respective CCL entries. BIS agreed that these technical corrections should be made to the CCL in order to ensure that the "Unit" paragraphs conformed with the items controlled in those CCL entries.

(3) In three CCL entries, 6D003, 8D001 and 8E001, this rule removes outdated references in the "License Exceptions" section of each of these CCL entries that had incorrectly referred to License Exception TSR non-availability for items under those CCL entries controlled for Missile Technology (MT) reasons. None of these three CCL entries is controlled for MT reasons, so the reference to the restriction on the use of License Exception TSR in these CCL entries is outdated and confusing. This rule corrects that by removing the outdated reference to the MT restriction in each of these CCL entries.

Although the Export Administration Act expired on August 20, 2001, the President, through Executive Order 13222 of August 17, 2001, 3 CFR, 2001 Comp., p. 783 (2002), as extended by the Notice of August 15, 2007, 72 FR 46137 (August 16, 2007), has continued the Export Administration Regulations in effect under the International Emergency Economic Powers Act.

Rulemaking Requirements

1. This final rule has been determined to be not significant for purposes of E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid Office of Management and Budget Control Number. This rule contains a collection of information subject to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*). This collection has been approved by the Office of Management and Budget under control number 0694-0088, "Multi-Purpose Application," which carries a burden hour estimate of 58 minutes for a manual or electronic submission.

3. This rule does not contain policies with Federalism implications as that term is defined under E.O. 13132.

4. The Department finds that there is good cause under 5 U.S.C. 553(b)(B) to

waive the provisions of the Administrative Procedure Act requiring prior notice and the opportunity for public comment because they are unnecessary. The changes made by this rule are not substantive changes, but rather are updates to cross-references, conformance of units of measure to item descriptions, and removal of outdated references. This rule does not alter any right, obligation or prohibition that applies to any person under the Export Administration Regulations (EAR). Because these revisions are not substantive changes, it is unnecessary to provide notice and opportunity for public comment. In addition, the 30-day delay in effectiveness required by 5 U.S.C. 553(d) is not applicable because this rule is not a substantive rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under the Administrative Procedure Act or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) filed by Schering-Plough Animal Health Corp. The NADA provides for use of florfenicol injectable solution for the treatment of bovine respiratory disease.

DATES: This rule is effective April 18, 2008.

FOR FURTHER INFORMATION CONTACT:

Cindy L. Burnsteel, Center for Veterinary Medicine (HFV–130), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 240–276–8341, e-mail: cindy.burnsteel@fda.hhs.gov.

SUPPLEMENTARY INFORMATION: Schering-Plough Animal Health Corp., 556 Morris Ave., Summit, NJ 07901, filed NADA 141–265 for veterinary prescription use of NUFLOL GOLD (florfenicol) Injectable Solution by subcutaneous injection in beef and non-lactating dairy cattle for the treatment of bovine respiratory disease. The NADA is approved as of March 21, 2008, and the regulations are amended in 21 CFR 522.955 to reflect the approval.

In accordance with the freedom of information provisions of 21 CFR part 20 and 21 CFR 514.11(e)(2)(ii), a summary of safety and effectiveness

The agency has determined under 21 CFR 25.33(a)(1) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

This rule does not meet the definition of “rule” in 5 U.S.C. 804(3)(A) because it is a rule of “particular applicability.” Therefore, it is not subject to the congressional review requirements in 5 U.S.C. 801–808.
