

**Julian Imes**  
**Director, Exhaust Emissions Technology**  
**Donaldson Company, Inc.**

Julian Imes is Director of Adv. Technology and Gov't Affairs, Exhaust Emissions B.U., Donaldson Company. He has held a wide variety of engineering and management positions specializing in heavy duty exhaust systems for diesel engines used in On-road and Off-road markets. In exhaust product support, he has directed the technology development and application of heavy duty mufflers, exhaust system components and exhaust emission control systems.

Julian is a SAE member and a past chairman of the Minnesota TWIN CITIES SECTION of SAE. He also serves as Donaldson's representative for the Manufacturers of Emission Control Association (MECA) and for the Diesel Technology Forum (DTF). He holds a BSME and an MBA from the University of Minnesota and is also a Registered Professional Engineer.
