

Timothy V. Johnson
Corning Incorporated

Tim Johnson is Director – Emerging Regulations and Technologies for Corning Environmental Technologies, Corning Incorporated. Dr. Johnson is responsible for tracking emerging mobile emissions regulations and technologies, and helps develop strategic positioning via new products. He has been with Corning for 20 years, with 10 years in the current position. He is an acknowledged expert and frequent speaker on diesel emission control technology and trends. In that regard, he received the 2007 Lloyd L. Withrow Distinguished Speaker Award from SAE.

Dr. Johnson is quite active in various advisory committee roles. He is currently the co-chair for the US EPA's Advisory Working Group on Diesel Emission Control Retrofits. He is also a member of the EPA Clean Air Act Advisory Committee, and the EPA Mobile Source Technical Review Subcommittee. Formerly he served on the US EPA Clean Diesel Independent Review Panel, and California Air Resources Board International Diesel Retrofit Advisory Committee. He is a member of the Northeast Center for a Clean Air Future (NESCCAF/NESCAUM) board of directors, and he is on the Board of Advisors for the Center of Environmental Research and Technology at the University of California, Riverside. He is also Co-Chairman of the Diesel Emission Control Committee at MECA (Manufacturers of Emission Controls Association). Finally, he recently edited the book, "Diesel Filter Technology", published by SAE.

He earned his BS and MS Engineering Degrees from the University of Minnesota in 1978 and 1979, and his Doctor of Science from MIT in 1987.
