

Adewale Oshinuga
Air Quality Specialist,
Science and Technology Advancement
South Coast Air Quality Management District

Adewale Oshinuga has a BSc. Degree in both Mathematics and Physics, and MSc. in Petroleum Engineering. He joined the District in 1989, and worked for 7 years as a permit processing engineer. He later worked in the Planning and Rules Division, and participated in the development/implementation of federal and AQMD programs and policies, and in the adoption and amendments of many rules including New Source Review Rules, BACT/LEAR, Title V, and RECLAIM Rules. He also worked as the lead staff on many R&D, demonstration, and implementations projects from fuel cells to hydrogen/natural gas infrastructure, advanced technologies for off-road and on-road transportation sources, incentive programs, clean alternative fuel technologies, and retrofit programs.
