SUMMARY OF MEETING:

The ASTM Committee D-13 on Textiles met during ASTM's March Committee Week in Phoenix, Arizona.

During the meeting of Subcommittee D13.52, Flammability, negatives and comments regarding three standards up for re-approval were reviewed. An update on the Camping Tentage Standard was also presented. Kay Villa updated the group on the current status of ASTM's technical and professional training courses on Regulatory Compliance for the Flammability of Wearing Apparel and Children's Sleepwear. The first course on Children's Sleepwear was offered in 2001. Both courses are offered four times per year at selected locations. Onsite corporate training is also available. The proficiency testing of D1230 was also discussed. A source for Class 2 and Class 3 fabrics is needed. During other business, the group was informed of CPSC's activities regarding flammability standards.

Subcommittee D13.63, Home Furnishings, met to discuss 2 new standards and 9 re-approvals. All negatives and comments were reviewed. The changes will be made and the standards will be re-balloted.

Subcommittee D13.99 was updated on international standards activities and recent ISO TC38 (Textiles) actions. During the joint ASTM-AATCC meeting, the group reviewed current work items and new programs and discussed potential topics for seminars and training opportunities.

The next D-13 Committee meeting is scheduled for October 13-16, 2001 in Norfolk, Virginia.
