SUBJECT: Child-Resistant Aerosol Overcap Packaging

DATE OF MEETING: February 1, 2001

PLACE: Room 711 CPSC Headquarters, Bethesda, MD

LOG ENTRY SOURCE: Suzanne Barone, Ph.D., Pharmacologist, HS

COMMISSION REPRESENTATIVES: See attached sheet

NON-COMMISSION REPRESENTATIVES: See attached sheet.

SUMMARY OF MEETING:

Mr. Robert McCabe and Mr. Ted Pierson representing Pierson Industries Incorporated requested a meeting with the staff to discuss a senior-friendly child-resistant aerosol overcap that they had developed. A copy of the promotional flier is attached.

Mr. Pierson talked about the development and the costs of making the closure system. Pierson has developed different sizes and designs that can either cover the entire aerosol can top or a smaller version that covers the actuator. They brought samples of the closures. The patents and child-resistant test data were also discussed.

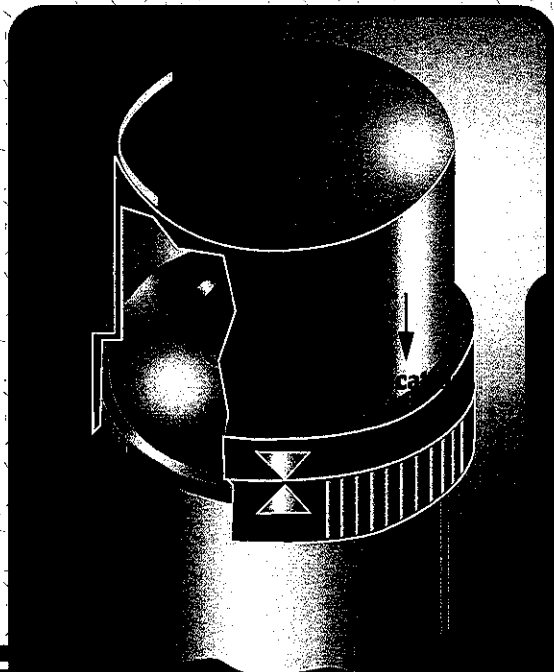

CPSC Staff Meeting With Pierson Industries, Inc.

**February 1, 2001
Room 711, 10:30am**
