LOG OF MEETING**

6/11/04
EXEMPTED BY SECTION 6
RULEMAKING ADMIN. PROCDG
WITH PORTIONS REMOVED

SUBJECT: ASTM F08 Committee Meetings (F08.10 Bicycles, F08.24 Paintball Markers)

DATE OF MEETING: 05/19-20/04

LOG ENTRY SOURCE: VJA

DATE OF LOG ENTRY: 05/27/04

LOCATION: Salt Lake City, UT

CPSC ATTENDEE(S): Vince Amodeo, Mark Kumagai

NON-CPSC ATTENDEE(S): Various Manufacturers

SUMMARY OF MEETING: F08.10.19 Bicycle Accessories Meeting - Discussed usage of new VIN Standard ASTM F2268 approved May 10. Patrick Logan of Burley distributed list of currently assigned three digit manufacturer codes.

F08.10.04 Bicycle Frames Meeting- Draft standard for Condition 3 cross country mountain bike frames is in public comment phase. Working group will begin development of draft standard for Condition 4 downhill/freeride mountain bikes

F08.10.01 Handlebars & Stems Meeting - Working group presented draft standard for children's and BMX bike handlebar end cap and grip dimension standard as

well as a draft standard for end cap material and removal force standard. Working group decided to merge these drafts into one standard to be worked on for next meeting.

F08.10.02 Suspension and Forks Meeting- No major activity since last meeting in October 03. Group will draft standards for disc brake fatigue test, quick-release performance and Condition 4 bicycle forks (Extreme riding conditions).

Meeting adjourned. Next meeting in Las Vegas, NV Oct 2004.

F08.24 Paintball Marker group discussed CPSC investigations into recent paint ball marker incidents involving ejection of CO2 cylinders from paintball markers due to cylinder pin valves unscrewing.

Group presented draft warning standard for inclusion on cylinders. Group approved edited warning verbage to be included in draft warning standard.

Two paintball marker suppliers presented prototype designs for solutions to inadvertant cylinder pin valve unscrewing. Group will develop draft performance standard and not specify a design standard.

Group worked on rectifying comments on draft standards for universal fill adapters, and some minor revisions to ASTM 1750 standard for pin valve interface and ASTM 1979 paintballs.
