SUBJECT: Meeting with Russ Kendzior, National Floor Safety Institute

DATE OF MEETING: January 11, 2007

LOG ENTRY SOURCE: Patricia Adair

DATE OF LOG ENTRY: July 16, 2007

LOCATION: Room 724

CPSC ATTENDEE(S): Chief of Staff Quin Dodd and Patricia Adair, Special Assistant

NON-CPSC ATTENDEE(S): Russell J. Kendzior, President of the National Floor Safety Institute

SUMMARY OF MEETING: Mr. Kendzior briefed Mr. Dodd and Ms. Adair on the standards activities of the National Floor Safety Institute (NFSI). NFSI is now an ANSI-accredited standards development body. NFSI standards for flooring will eventually become ANSI standards. NFSI is working on a consumer label that is meant to educate consumers on the slipperyness of flooring surfaces. NFSI is interested in having CPSC participation in both the standards development process and in educating the consumer about the safety label.
