

**Log of Meeting**

Subject: ASTM Mini-Hammock Voluntary Standard meeting

Date of Meeting: January 22, 1998

Date of Entry: January 29, 1998

Log Entry Source: Scott Snyder, ESME (x1317)

Location: U.S. CPSC Headquarters, 4330 East West Highway  
Bethesda, MD 20814, starting at 10:00 am in room 410A.

CPSC Attendee(s): See Attendance List

Non-CPSC Attendees: See Attendance List

Summary of Meeting:

The meeting was called to order at approximately 10:00 am by Acting Chairman and ASTM representative, Mr. John Blair.

A draft mini-hammock voluntary standard was presented to Mr. Blair by CPSC staffer, Scott Snyder, for discussion by the meeting participants. The meeting participants worked on the draft language proposal. After agreeing in principle (with minor changes) to the proposed language in most of the draft, Mr. Blair requested that CPSC do further work to improve the language relating to warnings, and send a revised draft proposal to him for review.

Mr. Blair stated that after he received the revised draft proposal he would pass it on to ASTM for review, and that modification might be required according to ASTM's policy. He stated that the draft proposal would then be sent by ASTM to all mini-hammock producers for review and comment, with a request for them to join and further participate by mail. CPSC would then be contacted by ASTM regarding who wanted to participate and what the comments were, if any.

The meeting adjourned at approximately 11:30 am.
