Summary of Meeting

The bulk of the meeting consisted of a line-by-line review of the draft standard for non-egress window guards. Assignments were made to complete needed references or wording. Submissions will be compiled by Kathy Coen. A revised draft will be circulated to the working group as soon as possible, with the intention of having a draft to submit for subcommittee ballot in January 1998.

The requirements for an egress window guard were discussed briefly. It is anticipated that specifications for operability may be difficult to develop.

The next meeting was scheduled for Thursday, February 26, 1998, at ASTM's Washington office in the ASME Washington Center.
