Revisions to the California State Implementation Plan, Monterey Bay Unified Air Pollution District, Ventura County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Monterey Bay Unified Air Pollution District (MBUAPCD) and the Ventura County Air Pollution Control District (VCAPCD) portions of the California State Implementation Plan (SIP). These revisions concern general requirements for continuous emissions monitoring systems and the use of credible evidence to demonstrate compliance with emission limits. We are proposing to approve these local rules under the Clean Air Act as amended in 1990 (CAA or the Act).

DATES: Any comments on this proposal must arrive by January 8, 2003.

ADDRESSES: Mail comments to Andy Steckel, Rulemaking Office Chief (AIR-4), U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901.

You can inspect copies of the submitted SIP revisions and EPA's technical support documents (TSDs) at our Region IX office during normal business hours. You may also see copies of the submitted SIP revisions at the following locations:

California Air Resources Board,
Stationary Source Division, Rule

Evaluation Section, 1001 "I" Street, Sacramento, CA 95814.
Monterey Bay Unified Air Pollution Control District, 24850 Silver Cloud Court, Monterey, CA 93940.

Ventura County Air Pollution Control District, 669 County Square Drive, 2nd floor, Ventura, CA 93003.

A copy of the rule may also be available via the Internet at <http://www.arb.ca.gov/drdb/drdbtxt.htm>. Please be advised that this is not an EPA website and may not contain the same version of the rule that was submitted to EPA.

FOR FURTHER INFORMATION CONTACT: Andy Steckel, EPA Region IX, (415) 947.4115.

SUPPLEMENTARY INFORMATION: This proposal addresses the following local rules: MBUAPCD 213, MBUAPCD 421, and VCAPCD 103. In the rules and regulations section of this **Federal Register**, we are approving these local rules in a direct final action without prior proposal because we believe these SIP revisions are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. Please note that if we receive adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, we may adopt as final those provisions of the rule that are not the subject of an adverse comment.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

Dated: October 30, 2002.

Alexis Strauss,

Acting Regional Administrator, Region IX.

[IN146-1b; FRL-7411-8]

Approval and Promulgation of Implementation Plans; Indiana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to approve as a revision to the Indiana

particulate matter (PM) State Implementation Plan (SIP) emission control regulations that pertain to Knauf Fiber Glass (Knauf) which is located in Shelbyville, Indiana, as requested by the State of Indiana on October 17, 2002. This SIP submission contains changes to federally enforceable Indiana air pollution control rules. The rule revisions modify the PM emissions limits adopted by the State in the 1980s which are part of the current Indiana SIP. The revised rules delete references to equipment no longer in use by Knauf and update names equipment which remains in use. Because the revised rules reduce both allowable emissions and the allowable emissions rate, and reflect current operations at the Knauf facility, EPA approval of these revisions should not result in an adverse impact on air quality.

In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's request as a direct final rule without prior proposal because EPA views this action as noncontroversial and anticipates no adverse comments. The rationale for approval is set forth in the direct final rule. If EPA receives no written adverse comments, EPA will take no further action on this proposed rule. If EPA receives written adverse comment, we will publish a timely withdrawal of the direct final rule in the **Federal Register** and inform the public that the rule will not take effect. In that event, EPA will address all relevant public comments in a subsequent final rule based on this proposed rule. In either event, EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time.

DATES: Comments on this action must be received by January 8, 2003.

ADDRESSES: Written comments should be mailed to: J. Elmer Bortzer, Chief, Regulation Development Section, Air Programs Branch (AR-18J), USEPA, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.

A copy of the State's request is available for inspection at the above address.

FOR FURTHER INFORMATION CONTACT: Randolph Cano, Environmental Protection Specialist, Regulation Development Section, Air Programs Branch (AR-18J), USEPA, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886-6036.

SUPPLEMENTARY INFORMATION: Throughout this document whenever "we," "us," or "our" are used we mean the EPA.

I. What action is EPA taking today?

II. Where can I find more information about this proposal and corresponding direct final rule?

I. What Action Is EPA Taking Today?

The EPA is proposing to approve as a revision to the Indiana particulate matter SIP emission control regulations that pertain to Knauf Fiber Glass (Knauf) which is located in Shelbyville, Indiana, as requested by the State of Indiana on October 17, 2002. This SIP submission makes changes to federally enforceable Indiana air pollution control rules. Indiana made these changes at the request of Knauf, and they apply to the operation of the Knauf fiberglass plant in Shelbyville, Indiana. The rule revisions modify the PM emissions limits adopted by the State in the 1980s which EPA approved as part of the current Indiana SIP. The revised rules delete references to equipment no longer in use by Knauf and update names of equipment which remains in use. Because the revised rules reduce both allowable emissions and the allowable emissions rate and reflect current operations at the Knauf facility, EPA approval of these revisions should not result in an adverse impact on air quality.

II. Where Can I Find More Information About This Proposal and Corresponding Direct Final Rule?

For additional information see the direct final rule published in the rules and regulations section of this **Federal Register**.

Authority: 42 U.S.C. 4201 *et seq.*

Dated: November 7, 2002.

Bharat Mathur,

Acting Regional Administrator, Region 5.

RIN 2060-AK52

National Emission Standards for Hazardous Air Pollutants for Source Categories: General Provisions; and Requirements for Control Technology Determinations for Major Sources in Accordance with Clean Air Act Sections, Sections 112(g) and 112(j)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; amendments.

SUMMARY: In this action, we are proposing specific amendments to the General Provisions for national emission standards for hazardous air pollutants (NESHAP), and to the rule establishing requirements for case-by-case determinations under Clean Air Act (CAA) section 112(j). We are proposing to establish a new timetable for the submission of section 112(j) Part 2 applications which is derived from our agreed timetable for promulgation of the remaining NESHAP. This new timetable for Part 2 applications is intended both to avoid the expenditure of unnecessary resources by affected sources and permitting authorities, and to create new incentives for prompt completion of the remaining standards. We are also proposing to make several changes in the section of the General Provisions rule that establishes general procedures for preparation, maintenance, and periodic revision of startup, shutdown, and malfunction (SSM) plans. These amendments are being proposed pursuant to a settlement agreement concerning a petition for judicial review of the prior amendments to these rules published on April 5, 2002. We are also proposing to revise a recordkeeping provision which we adopted in response to comments we received on the prior amendments because we have concluded that the recordkeeping provision should be more narrow in applicability.

DATES: *Comments.* Submit comments on or before January 20, 2003.

Public Hearing. If anyone contacts us requesting to speak at a public hearing by December 16, 2002, a public hearing will be held on December 19, 2002.

ADDRESSES: *Comments.* Written comments may be submitted to: Air and Radiation Docket and Information Center, Attention Docket Number OAR-2002-0038, Part 63 General Provisions (Subpart A) and Section 112(j) Regulations (Subpart B) Litigation Settlement Amendments II, Mailcode 6102T, 1200 Pennsylvania Avenue, NW, Washington, DC 20460.

Public Hearing. If a public hearing is held, it will be held at 10 a.m. on December 19, 2002 in our EPA facility complex, 109 T.W. Alexander Drive, Research Triangle Park, North Carolina, or at an alternate site nearby.

FOR FURTHER INFORMATION CONTACT: Mr. Rick Colyer, Emission Standards Division (C504-05), U.S. EPA, Research Triangle Park, North Carolina 27711, telephone (919) 541-5262, e-mail colyer.rick@epa.gov.

SUPPLEMENTARY INFORMATION:

Regulated Entities

Categories and entities potentially regulated by this action include all section 112 source categories listed under section 112(c) of the CAA.

Industry Group: Source Category

Fuel Combustion:

- Coal- and Oil-fired Electric Utility
- Steam Generating Units
- Combustion Turbines
- Engine Test Facilities
- Industrial Boilers
- Institutional/Commercial Boilers
- Process Heaters
- Reciprocating Internal Combustion Engines
- Rocket Testing Facilities

Non-Ferrous Metals Processing:

- Primary Aluminum Production
- Primary Copper Smelting
- Primary Lead Smelting
- Primary Magnesium Refining
- Secondary Aluminum Production
- Secondary Lead Smelting

Ferrous Metals Processing:

- Coke Ovens: Charging, Top Side, and Door Leaks
- Coke Ovens: Pushing, Quenching, Battery Stacks
- Ferroalloys Production: Silicomanganese and Ferromanganese
- Integrated Iron and Steel Manufacturing
- Iron Foundries
- Steel Foundries
- Steel Pickling—HCl Process Facilities and Hydrochloric Acid Regeneration

Mineral Products Processing:

- Asphalt Processing
- Asphalt Roofing Manufacturing
- Asphalt/Coal Tar Application—Metal Pipes
- Brick and Clay Products Manufacturing
- Ceramics Manufacturing
- Lime Manufacturing
- Mineral Wool Production
- Portland Cement Manufacturing
- Refractories Manufacturing
- Taconite Iron Ore Processing
- Wool Fiberglass Manufacturing

Petroleum and Natural Gas Production and Refining:

- Oil and Natural Gas Production
- Natural Gas Transmission and Storage
- Petroleum Refineries—Catalytic Cracking Units, Catalytic Reforming Units, and Sulfur Plant Units
- Petroleum Refineries—Other Sources Not Distinctly Listed

Liquids Distribution:

- Gasoline Distribution (Stage 1)
- Marine Vessel Loading Operations
- Organic Liquids Distribution (Non-
