

on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings. Please include the project number (P-2113-148) on any comments or motions filed.

The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person in the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

j. *Description of Amendment:* The proposed amendment would (1) remove the requirement to development Site 2 in 2002 from the Recreation Plan, close vehicle access to Site 2 for erosion control and public safety reasons and retain it in the Recreation Plan for possible future development; (2) Reinstate Site 7 in the Recreation Plan for development in 2004; (3) Close Site 1 for public safety reasons when Site 7 opens.

k. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. l. Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

m. Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION",

"PROTEST", "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. An additional copy must be sent to Director, Division of Hydropower Administration and Compliance, Federal Energy Regulatory Commission, at the above-mentioned address. A copy of any notice of intent, competing application or motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

n. Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-7419-7]

**Agency Information Collection Activities: Proposed Collection; Comment Request: NSPS for Coal Preparation Plants (40 CFR Part 60, Subpart Y); EPA ICR Number 1062.08; OMB Control Number 2060-0122; Expiration Date February 28, 2003**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit the following continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB): NSPS for Coal Preparation Plants (40 CFR part 60, subpart Y); EPA ICR Number 1062.08; OMB Control Number 2060-0122; expiration date February 28, 2003. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the

proposed information collection as described below.

**DATES:** Comments must be submitted on or before February 7, 2003.

**ADDRESSES:** Compliance Assessment and Media Programs Division, Office of Compliance, Office of Enforcement and Compliance Assurance, Mail Code 2223A, United States Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460. A hard copy of a specific ICR may be obtained without charge by calling or sending an E-mail to the contact person listed in this notice.

**FOR FURTHER INFORMATION CONTACT:** Dan L. Chadwick of the Office of Compliance at (202) 564-0754 or via E-mail at [Chadwick.Dan@epa.gov](mailto:Chadwick.Dan@epa.gov) and ask for EPA ICR Number 1062.08; OMB Control Number 2060-0122; expiration date February 28, 2003.

**SUPPLEMENTARY INFORMATION:**

*Title:* NSPS for Coal Preparation Plants (40 CFR Part 60, Subpart Y); EPA ICR Number 1062.08; OMB Control Number 2060-0122; expiration date February 28, 2003.

*Affected Entities:* Entities potentially affected by this action are owners or operators of coal preparation plants subject to the Clean Air Act New Source Performance Standards (NSPS) published 40 CFR part 60, subpart Y.

*Abstract:* The Agency has determined that the emissions from coal preparation plants cause, or contribute significantly to air pollution that may reasonably be anticipated to endanger public health or welfare. As such, the Agency published a standard at 40 CFR part 60, subpart Y to control emissions from coal preparation plants.

Owners or operators of coal preparation plants must make certain one-time-only notifications including: notification of any physical or operational change to an existing facility which may increase the regulated pollutant emission rate, notification of the initial performance test; including information necessary to determine the conditions of the performance test, and performance test measurements and results; notification of demonstration of the continuous monitoring system (CMS). Owners or operators are also required to maintain records of the occurrence and duration of any start-up, shutdown, or malfunction in the operation of an affected facility, or any period during which the CMS is inoperative. CMS requirements specific to coal preparation plants provide information on the operation of the emissions control device and compliance with the opacity standard. Periodic reports of excess emissions are

also required. Any owner or operator subject to the rule shall maintain a file of these measurements, and retain the file for at least two years following the date of such measurements, maintenance reports, and records.

**Burden Statement:** The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

In the previously approved ICR, the estimated number of respondents for this information collection was 390 with 390 responses per year. The annual industry reporting and recordkeeping burden for this collection of information was 15,463 hours. On the average, each respondent reported once per year and approximately 40 hours were spent preparing each response. The total annual reporting and recordkeeping cost burden for this collection of information was \$15,000. This included an annual cost of \$1,000 associated with capital/startup costs and \$14,000 associated with the annual operation and maintenance costs.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

An agency may not conduct or sponsor, and a person is not required to

respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

Dated: November 27, 2002.

### Diazinon; End-Use Products Cancellation Order

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces EPA's cancellation order for the product and use cancellations as requested by companies (hereafter collectively referred to as the "EUP Registrants") that hold the registrations of pesticide End-Use Products (EUPs) containing the active ingredient diazinon and accepted by EPA, pursuant to section 6(f) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This order follows up an September 11, 2002, notice of receipt from the EUP Registrants, of requests for cancellations and/or amendments of their diazinon product registrations to terminate all indoor uses, certain agricultural uses and certain outdoor non-agricultural uses. In the September 11, 2002 notice, EPA indicated that it would issue an order granting the voluntary product and use registration cancellations unless the Agency received any substantive comment within the comment period that would merit its further review of these requests. The Agency did not receive any comments specific to these cancellations. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is only permitted in accordance with the terms of the existing stocks provisions of this cancellation order.

**DATES:** The cancellations are effective December 9, 2002.
