Semiannual Regulatory Agenda

FEDERAL COMMUNICATIONS COMMISSION (FCC)

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Ch. I

Unified Agenda of Federal Regulatory and Deregulatory Actions — Fall 2002

AGENCY: Federal Communications Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: Twice a year, in spring and fall, the Commission publishes in the **Federal Register** a list in the Unified Agenda of those major items and other significant proceedings under development or review that pertain to the Regulatory Flexibility Act. *See* 5 U.S.C. 602. The Unified Agenda also provides the Code of Federal Regulations citations and legal authorities that govern these proceedings.

ADDRESSES: Federal Communications Commission, 445 12th Street SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Maura McGowan, Telecommunications Specialist, Federal Communications Commission, 445 12th Street SW., Washington, DC 20554, (202) 418-0990.

SUPPLEMENTARY INFORMATION:

Unified Agenda of Major and Other Significant Proceedings

The Commission encourages public participation in its rulemaking process.

To help keep the public informed of significant rulemaking proceedings, the Commission has prepared a list of important proceedings now in progress. The General Services Administration publishes the Unified Agenda in the **Federal Register** in the spring and fall of each year.

The following terms may be helpful in understanding the status of the proceedings included in this report:

Docket Number — assigned to a proceeding if the Commission has issued either a Notice of Proposed Rulemaking or a Notice of Inquiry concerning the matter under consideration. The Commission has used docket numbers since January 1, 1978. Docket numbers consist of the last two digits of the calendar year in which the docket was established plus a sequential number that begins at 1 with the first docket initiated during a calendar year (e.g., Docket No. 96-1 or Docket No. 99-1). The abbreviation for the responsible bureau usually precedes the docket number, as in “MM Docket No. 96-222,” which indicates that the responsible bureau is the Mass Media Bureau (now the Media Bureau). A docket number consisting of only five digits (e.g., Docket No. 29622) indicates that the docket was established before January 1, 1978.

Notice of Inquiry (NOI) — issued by the Commission when it is seeking information on a broad subject or trying

to generate ideas on a given topic. A comment period is specified during which all interested parties may submit comments.

Notice of Proposed Rulemaking (NPRM) — issued by the Commission when it is proposing a specific change to Commission rules and regulations. Before any changes are actually made, interested parties may submit written comments on the proposed revisions.

Further Notice of Proposed Rulemaking (FNPRM) — issued by the Commission when additional comment in the proceeding is sought.

Memorandum Opinion and Order (MO&O) — issued by the Commission to deny a petition for rulemaking, conclude an inquiry, modify a decision, or address a petition for reconsideration of a decision.

Rulemaking (RM) Number — assigned to a proceeding after the appropriate bureau or office has reviewed a petition for rulemaking, but before the Commission has taken action on the petition.

Report and Order (R&O) — issued by the Commission to state a new or amended rule or state that the Commission rules and regulations will not be revised.

Marlene H. Dortch,
Secretary, Federal Communications Commission.

CONSUMER AND GOVERNMENTAL AFFAIRS BUREAU—Long-Term Actions

Sequence Number	Title	Regulation Identification Number
3975	Policies and Rules Governing Interstate Pay-Per-Call and Other Information Services Pursuant to the Telecommunications Act of 1996	3060-AG42
3976	Implementation of the Subscriber Selection Changes Provision of the Telecommunications Act of 1996	3060-AG46
3977	Implementation of Section 255 and Section 251(a)(2) of the Telecommunications Act of 1996; Access to Telecommunications Services Equipment and Customer Premise Equipment for Persons With Disabilities	3060-AG58
3978	In the Matter of the Telecommunications Relay Services, the Americans With Disabilities Act of 1990, and the Telecommunications Act of 1996	3060-AG75
3979	In the Matter of Telecommunications Relay Services and Speech-to-Speech Services for Individuals With Hearing and Speech Disabilities; CC Docket No. 98-67	3060-AG76
3980	Establishment of Rules Governing Procedures To Be Followed When Informal Complaints Are Filed by Consumers Against Entities Regulated by the Commission	3060-AI02

FCC

ENFORCEMENT BUREAU—Long-Term Actions

Sequence Number	Title	Regulation Identification Number
3981	In the Matter of Amendment of Part 73, Subpart G, of the Commission's Rules Regarding the Emergency Alert System	3060-AF21

OFFICE OF ENGINEERING AND TECHNOLOGY—Long-Term Actions

Sequence Number	Title	Regulation Identification Number
3982	MSS Spectrum Allocation	3060-AF75
3983	Unlicensed National Information Infrastructure at 5 GHz	3060-AG19
3984	Dedicated Short Range Communications of Intelligent Transportation Services	3060-AG94
3985	Regulations for RF Lighting Devices	3060-AG95
3986	Industry Coordination Committee System for Broadcast Digital Television Service	3060-AH13
3987	3650-3700 Government Transfer Band	3060-AH14
3988	Fixed Satellite Service and Terrestrial System in the Ku-Band	3060-AH17
3989	Spread Spectrum Devices	3060-AH25
3990	Wireless Medical Telemetry Service	3060-AH27
3991	Establishment of an Improved Model for Predicting the Broadcast Television Field Strength Received at Individual Locations	3060-AH37
3992	Conducted Emission Limits	3060-AH46
3993	Revision of the Rules Regarding Ultra-Wideband Transmission	3060-AH47
3994	Software Defined Radio Authorization	3060-AH64
3995	New Advanced Wireless Services	3060-AH65
3996	Reallocation of 27 MHz Spectrum	3060-AH66
3997	Revisions to Broadcast Auxiliary Service Rules	3060-AH78
3998	Part 15 Biennial Review	3060-AH92
3999	Amateur Radio Service Rules	3060-AI04

OFFICE OF ENGINEERING AND TECHNOLOGY—Completed Actions

Sequence Number	Title	Regulation Identification Number
4000	Allocation of 455-456 MHz and 459-460 MHz	3060-AG89
4001	Certification of Equipment in the 24.05-24.25 GHz Band at Field Strengths Up to 2500 mV/m	3060-AH16

OFFICE OF GENERAL COUNSEL—Long-Term Actions

Sequence Number	Title	Regulation Identification Number
4002	Amendment of the Ex Parte Rules in Joint Board Proceedings	3060-AH02
4003	Amendment of Section 1.1204 of the Commission's Ex Parte Rules	3060-AH58
4004	Amendment of Section 1.17 of the Commission's Rules Concerning Truthful Statements to the Commission	3060-AH86

INTERNATIONAL BUREAU—Long-Term Actions

Sequence Number	Title	Regulation Identification Number
4005	Streamlining the Commission's Rules and Regulations for Satellite Application and Licensing Procedures; IB Docket No. 95-117	3060-AD70
4006	Satellite Communications — NGSO Mobile Satellite Service; CC Docket No. 92-166	3060-AF42
4007	Establishing Rules and Policies for the Use of Spectrum for Mobile Satellite Service in the L-Band; IB Docket No. 96-132	3060-AF89

FCC

INTERNATIONAL BUREAU—Long-Term Actions (Continued)

Sequence Number	Title	Regulation Identification Number
4008	Establishment of Rules and Policies for the Digital Audio Radio Satellite Service in the 2310-2360 MHz Frequency Band; IB Docket No. 95-91; GEN Docket No. 90-357	3060-AF93
4009	Redesignation of the 27.5-29.5 GHz Frequency Band; CC Docket No. 92-297	3060-AF94
4010	Amendment of Policy To Allow Non-U.S. Licensed Space Stations To Provide Service in the United States; IB Docket No. 96-111; CC Docket No. 93-23	3060-AG31
4011	Allocate & Designate: Spec for Fixed-Sat Srv (37.5-38.5, 40.5-41.5 & 48.2-50.2 GHz Bands). Allocate: Fixed & Mobile 40.5-42.5 GHz; Wireless 46.9-47 GHz; Gov Oper 37-38 & 40-40.5 GHz; IB Doc No. 97-95	3060-AH23
4012	Establishment of Policies and Service Rules for the Mobile Satellite Service in the 2 GHz Band; IB Docket No. 99-81	3060-AH28
4013	Policies for the Direct Broadcast Satellite Service; IB Docket No. 98-21	3060-AH29
4014	1998 Biennial Regulatory Review — Review of Accounts Settlement in Maritime Mobile & Maritime Mobile-Satellite Radio Services and Withdrawal of the Commission as Accounting Authority; IB Doc No. 98-96	3060-AH30
4015	Global Mobile Personal Communications by Satellite; IB Docket No. 99-67	3060-AH49
4016	Direct Broadcast Public Interest Obligations; MM Docket No. 93-25	3060-AH59
4017	Streamlining Earth Station Licensing Rules; IB Docket No. 00-248	3060-AH60
4018	2000 Biennial Review — Amendment of Parts 43 and 63 of the Commission's Rules; IB Docket No. 00-231	3060-AH62
4019	Licensing and Coordination of Earth Stations in the Fixed-Satellite Services; IB Docket No. 00-203	3060-AH63
4020	Policies and Rules for Non-Geostationary Satellite Orbit, Fixed Satellite Service in the KA-Band; IB Docket No. 02-19	3060-AH93
4021	Enforcement of Other Nations' Prohibitions Against the Uncompleted Call Signaling Configuration of International Callback Service; IB Docket No. 02-18	3060-AH94
4022	Space Station Licensing Reform; IB Dockets 00-248 and 02-34	3060-AH98
4023	Alaska Bush Earth Station Policy; IB Docket No. 02-30	3060-AH99
4024	Flexibility for Delivery of Communications by Mobile Satellite Service Providers in the 2 GHz Band, the L-Band, and the 1.6/2.4 GHz Band	3060-AI05
4025	Mitigation of Orbital Debris; IB Docket No. 02-54	3060-AI06

INTERNATIONAL BUREAU—Completed Actions

Legal Authority: 47 USC 228

CFR Citation: 47 CFR 64.1501; 47 CFR 64.1504; 47 CFR 64.1510

Legal Deadline: None

Abstract: The Commission has received comments on proposed rules designed to implement the 1996 Telecommunications Act with respect to information services to prevent abusive and deceptive practices by entities that might try to circumvent the statutory requirements. The proposed rules address generally the use of dialing sequences other than the 900 service access code to provide information services.

Legal Deadline: None

Abstract: In December 1998, the Commission established new rules and policies implementing section 258 of the Communications Act of 1934, as

amended by the Telecommunications Act of 1996, which makes it unlawful for any telecommunications carrier to "submit or execute a change in a subscriber's selection of a provider of telecommunications exchange service or telephone toll service except in accordance with such verification procedures as the Commission shall prescribe." The rules provide, among other things, that any telecommunications carrier that violates such verification procedures and that collects charges for telephone exchange service or telephone toll service from a subscriber, shall be liable to the carrier previously selected by the subscriber in an amount equal to all charges paid by the subscriber after such violation. In the FNPRM, we sought comment on several proposals to further strengthen our slamming rules. In April 2000, the Commission modified the slamming liability rules by giving victims of slamming adequate redress, ensuring that carriers that slam do not profit from their fraud, and allowing states to act as the primary administrator of slamming complaints.

In July 2000, the Commission took further action to improve the existing carrier change process for both consumers and carriers, protect the right of consumers to exercise choice among carriers, and ensure that consumers' choices are honored. In December 2000, the Commission adopted a Biennial Review FNPRM seeking comment on proposals to amend the slamming rules to lighten administrative burdens associated with selling or transferring customer bases by eliminating the need to obtain a waiver, while continuing to protect consumers. In February 2001, the Commission adopted an order modifying and clarifying certain aspects of the reporting and registration requirements it had adopted in July 2000. In May 2001, the Commission adopted streamlined procedures for the carrier-to-carrier sale or transfer of customer bases, as proposed in the Biennial Review FNPRM.

IN THE MATTER OF TELECOMMUNICATIONS RELAY SERVICES AND SPEECH-TO-SPEECH SERVICES FOR INDIVIDUALS WITH HEARING AND SPEECH DISABILITIES; CC DOCKET NO. 98-67****Priority:** Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.**Legal Authority:** 47 USC 151; 47 USC 154; 47 USC 225; 47 USC 255; 47 USC 610**CFR Citation:** 47 CFR 64.601; 47 CFR 64.603; 47 CFR 64.604; 47 CFR 64.605**Legal Deadline:** None**Abstract:** In the Report and Order, released on March 6, 2000, the FCC adopted additional rules to increase the availability and usefulness of the telecommunications system for Americans with hearing and speech disabilities. Specifically, the FCC required that speech to speech and Spanish language relay services be provided. The FCC also encouraged the provision of video relay interpreting service by making it eligible for reimbursement from the telecommunications relay service (TRS) fund. In addition, the FCC revised its minimum standards in accordance with the statutory mandate that TRS must be "functionally equivalent" to voice telecommunications service to the extent possible. Among other things, these rules will improve the speed at

which calls are answered and conversations relayed.

In the Further Notice of Proposed Rulemaking (FNPRM), the FCC asked for comment on how to further improve TRS. Specifically, the FNPRM asked what changes are necessary to increase public awareness of TRS among all callers, not just those with disabilities, including how a national awareness education campaign can be established; and whether other technologies, services, and features should be made available to TRS users.

In the Order on Reconsideration released on June 5, 2000, the FCC, on its own motion, amended the effective date by which parties must comply with most of the amended rules adopted in the Report and Order. The Order on Reconsideration also established a fixed date for the annual submission of complaint log summaries by States and TRS providers to the FCC by July 1 of each year. The FCC also more rigorously conformed the text of the rules concerning the submission of contact information and the treatment of emergency calls to the precise language in the Report and Order. Moreover, the FCC clarified the requirement regarding the transfer of customer profile information between outgoing and incoming TRS providers, and clarified the review process and possible disposition of informal complaints under our amended TRS rules. In addition, the Order on Reconsideration changed the nomenclature in our rules from "video relay interpreting" to "video relay services." Finally, the Order on Reconsideration corrected various typographical errors.

3980. ESTABLISHMENT OF RULES GOVERNING PROCEDURES TO BE FOLLOWED WHEN INFORMAL COMPLAINTS ARE FILED BY CONSUMERS AGAINST ENTITIES REGULATED BY THE COMMISSION

Priority: Substantive, Nonsignificant

Legal Authority: 47 USC 151; 47 USC 152; 47 USC 154(i) and 154(j); 47 USC 303(r); 47 USC 403

CFR Citation: 47 CFR 1.716 to 1.718

Legal Deadline: None

Abstract: This proceeding seeks comment on proposals to establish a unified, streamlined process for the intake and resolution of informal complaints filed by consumers in order

to promote maximum compliance with the requirements of the Communications Act of 1934, as amended, (the Act) and our implementing rules and orders.

The Commission has previously emphasized that our consumer complaint mechanisms are a principal vehicle for achieving such compliance and promoting the pro-competitive goals underlying the Act and our rules. We are concerned, however, that our existing complaint mechanisms require consumers to navigate an array of rule provisions and disparate procedures administered by various offices within the Commission in order to file complaints about practices they believe violate the Act or our rules and orders. Our goal in this proceeding is to consolidate and streamline the consumer complaint mechanisms consumers use when submitting informal complaints to the Commission.

We propose to establish a consumer complaint mechanism patterned after our existing rules for informal complaints filed against common carriers pursuant to Section 208 of the

Act contained in Sections 1.717-1.718 of the Commission's rules. We also invite comment on whether we should make changes to our existing informal common carrier complaint rules.

Federal Communications Commission (FCC) Enforcement Bureau

Long-Term Actions

3981. IN THE MATTER OF AMENDMENT OF PART 73, SUBPART G, OF THE COMMISSION'S RULES REGARDING THE EMERGENCY ALERT SYSTEM

Priority: Substantive, Nonsignificant

Legal Authority: 47 USC 151; 47 USC 154; 47 USC 303; 47 USC 544; 47 USC 606

CFR Citation: 47 CFR 11; 47 CFR 73; 47 CFR 76

Legal Deadline: None

Abstract: The Commission adopted new rules to replace the old Emergency Broadcast System (EBS) with a new Emergency Alert System (EAS), in order to alert the public in the event of a national emergency. The Report and Order requires broadcast stations and cable TV systems to participate in the EAS and streamlines operational procedures for system participants. The new rules prescribe how existing communications services such as broadcasting, cable, and other public service providers will function under

the technical standards and operational procedures of the new system. It also removed the old part of the Commission's rules concerning EBS in its entirety and incorporated the new EAS rules in a new part of the Code of Federal Regulations.

The Commission issued a Further Notice of Proposed Rulemaking (NPRM) seeking comments regarding whether the Multipoint Distribution Service (MDS), Satellite Master Antenna TV (SMATV) system, and Video Dial Tone should also be required to participate in EAS. It also sought comments on several cable issues such as whether a defined class of small cable systems should be exempted from participation in EAS, and how the Commission should define small cable systems. The Commission subsequently adopted a Second Report and Order to (1) modify EAS as it applied to cable systems; (2) address whether other video providers should be required to participate in the system; and (3) adopt rules to address

issues of concern to persons with hearing disabilities.

In response to concerns that voluntary EAS activations could interrupt the transmission of emergency programming by local broadcast stations, the Commission issued a Second Further NPRM requesting comment on whether it should adopt rules to prohibit cable systems from transmitting EAS alerts for state or local emergencies during the broadcast of emergency programming by a broadcast station. In the Third Report and Order, the Commission amended its rules to permit cable systems and broadcast systems to enter into voluntary agreements regarding the transmission of local emergency information. The Commission, however, declined to adopt rules requiring cable systems to prevent the interruption of local broadcast station emergency programming. In April 2000, the Commission issued an order in which it deleted obsolete rules or rules that were no longer needed.

FCC—Enforcement Bureau

Long-Term Actions

In March 2001, the Commission issued an NPRM proposing various revisions to the EAS rules and seeking comment on requests for rule changes filed by the National Weather Service and the Society of Broadcast Engineers.

The Commission adopted rule changes in the Report and Order that are intended to enhance the capabilities and performance of the EAS during state and local emergencies. The Commission adopted rules that add new state and local event codes to the EAS and rules that permit broadcast stations and cable stations to upgrade their existing EAS equipment to add the new event and location codes on a voluntary basis until the equipment is replaced. Additionally, the Commission adopted rules that require all existing and new models of EAS

equipment manufactured after August 1, 2003, to be capable of receiving and transmitting the new codes. The Commission noted that this approach strikes an appropriate balance between promoting public safety by permitting enhancements to state and local EAS and ensuring that any such enhancements do not result in reduced voluntary participation in state and local EAS activities.

3982. MSS SPECTRUM ALLOCATION

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 47 USC 154; 47 USC 302; 47 USC 303; 47 USC 304

CFR Citation: 47 CFR 2

Legal Deadline: None

Abstract: The Second Report and Order finalized the reallocation of the 1990-2025 MHz band from Broadcast Auxiliary Service, including the Cable Television Relay Service and the Local Television Transmission Service, licensees to the new Mobile-Satellite Service (MSS), and established rules for the relocation of incumbent licensees from the 1990-2110 MHz band as well as incumbent Fixed Service (FS) microwave licensees from the 2165-2200 MHz bands, in cases where sharing between MSS and FS is not possible. The Second Memorandum Opinion and Order confirmed the Commission's decision to require new MSS licensees to bear the cost of relocating incumbent licensees in these bands.

3983. UNLICENSED NATIONAL INFORMATION INFRASTRUCTURE AT 5 GHZ

Priority: Economically Significant. Major under 5 USC 801.

Legal Authority: 47 USC 302; 47 USC 303

CFR Citation: 47 CFR 2; 47 CFR 15

Legal Deadline: None

Abstract: The MO&O amends the rules to permit fixed, point to point

unlicensed National Information Infrastructure (U-NII) devices in the 5.725-5.285 GHz band to operate with one-watt maximum transmitter output power and directional antennas of up to 23 db:gain. It clarifies the rules regarding unwanted emissions and specifies these limits in terms of absolute radiated power levels. These actions will add to the flexibility and capability of U-NII operations without causing an increase in harmful interference to incumbent operations sharing the same spectrum.

3984. DEDICATED SHORT RANGE COMMUNICATIONS OF INTELLIGENT TRANSPORTATION SERVICES

Priority: Substantive, Nonsignificant

Legal Authority: 47 USC 154(i); 47 USC 157; 47 USC 303

CFR Citation: 47 CFR 2; 47 CFR 90

Legal Deadline: None

Abstract: The FCC proposes to allocate 75 megahertz of spectrum for use by Dedicated Short Range Communications (DSRC) of Intelligent Transportation Systems (ITS). DSRC systems are being designed that require a short range, wireless link to transfer information between vehicles and roadside systems. ITS services are expected to improve traveler safety, decrease traffic congestion, and facilitate reduction of air pollution and conservation of fossil fuels. This action furthers the goal of the U.S. Congress, the Department of Transportation, and the ITS industry to improve the efficiency of the Nation's transportation infrastructure and facilitate the growth of the ITS industry.

CFR Citation: 47 CFR 18

Legal Deadline: None

Abstract: The FCC proposed to update the regulations for RF lighting devices. This action was taken in response to new developments in RF lighting technology. Recent developments and advances in microwave RF lighting technology offer potential economic and environmental benefits for consumers and industry. The current FCC rules do not easily accommodate these advancements, and thus hinder the further development and implementation of these promising new products.

3987. 3650-3700 GOVERNMENT TRANSFER BAND

Priority: Substantive, Nonsignificant

Legal Authority: 47 USC 154; 47 USC 157(a); 47 USC 303(c); 47 USC 303(f); 47 USC 303(g); 47 USC 303(r)

CFR Citation: 47 CFR 2

Legal Deadline: None

Abstract: The First Report and Order allocated 50 MHz of spectrum on the 3650-3700 MHz band to the fixed and mobile (base stations) terrestrial services on a primary basis. It also ensures the continuity of fixed satellite service (FSS) operations and permits new FSS operations to help alleviate congestion in the adjacent 3700-4200 MHz FSS band.

The Second Notice of Proposed Rule Making proposes to establish licensing and service rules for the assignment of fixed and mobile services licenses in the 3650-3700 MHz band. It also seeks comments on whether technical requirements or other reasons justify licensing the 3650-3700 MHz and the 4940-4990 MHz band at the same time.

Abstract: The Report and Order amends the Commission's rules for Radio Frequency (RF) devices to modify the limits on the amount of RF energy that is permitted to be conducted onto alternating current (AC) power lines. These limits protect against interference to licensed radio services operating below 30 MHz. The rule changes also harmonize our domestic requirements with the international standards developed by the International Electrotechnical Commission, International Special Committee on Radio Interference. The Commission believes that such harmonization will benefit consumers and manufacturers by providing better interference protection to licensed radio services as well as promoting a global marketplace for RF devices.

RIN: 3060-AH46**3993. REVISION OF THE RULES REGARDING ULTRA-WIDEBAND TRANSMISSION****Priority:** Economically Significant**Legal Authority:** 47 USC 154; 47 USC 302; 47 USC 303; 47 USC 304; 47 USC 307; 47 USC 544A**CFR Citation:** 47 CFR 15**Legal Deadline:** None

Abstract: The First Report and Order amends the Commission's rules to permit the marketing and operation of certain types of new products incorporating ultra-wideband (UWB) technology. UWB devices operate by

employing very narrow or short duration pulses that result in very large or wideband transmission bandwidths. UWB technology holds great promise for a vast array of new applications that we believe will provide significant benefits for public safety, businesses and consumers. With appropriate technical standards, UWB devices can operate using spectrum occupied by existing radio services without causing interference, thereby permitting scarce spectrum resources to be used more efficiently.

RIN: 3060-AH47**3994. SOFTWARE DEFINED RADIO AUTHORIZATION****Priority:** Substantive, Nonsignificant**Legal Authority:** 47 USC 151; 47 USC 154(i); 47 USC 154(j); 47 USC 155; 47 USC 225; 47 USC 303(r); 47 USC 309**CFR Citation:** 47 CFR 1; 47 CFR 2**Legal Deadline:** None

Abstract: The NPRM proposes to streamline the equipment authorization procedures for software defined radios. We propose to define software defined radios as a new class of equipment with equipment authorization rules that reflect the additional flexibility incorporated into such radios. The frequency and technology agility of software defined radios could increase the use of presently underutilized frequency bands.

Abstract: The NPRM proposes to reallocate a total of 27 MHz of spectrum, transferred from Federal Government use, for non-Government services pursuant to the Omnibus Budget Act of 1977. The transfer of these bands to non-Government use should enable the development of new technologies and services, provide additional spectrum relief for congested private land mobile frequencies, and fulfill our obligation as mandated by Congress to assign this spectrum for non-Government use.

4001. CERTIFICATION OF EQUIPMENT IN THE 24.05-24.25 GHZ BAND AT FIELD STRENGTHS UP TO 2500 MV/M

Priority: Substantive, Nonsignificant

Legal Authority: 47 USC 154; 47 USC 301; 47 USC 302; 47 USC 303

CFR Citation: 47 CFR 15

Legal Deadline: None

Abstract: The Report and Order amends the Commission's rules to allow the operation of fixed point-to-point transmitters in the 24.50-24.25 GHz band at field strengths of up to 2500 mV/m. Devices operating at these higher levels will be required to use highly directional antennas to minimize the possibility of creating harmful interference to other services in the band. This action facilitates the introduction of a variety of new,

innovative products and services in the band, such as managing the network traffic on a high-speed wireless internet service or connecting a multiple building intra-office network.

Legal Deadline: None

Abstract: The Commission proposes to amend its regulations specifying presentations that are treated as exempt under the ex parte rules. Under the current rule, presentations to or from the Department of Justice and the Federal Trade Commission regarding telecommunications competition matters are treated as exempt. The item would expand the scope of the exemption to include the Competition Directorate of the European Commission and other international and foreign bodies with analogous functions. The item would clarify that the term "telecommunications competition matters" in the existing rules was intended to be construed broadly and was not limited to common carriers.

4005. STREAMLINING THE COMMISSION'S RULES AND REGULATIONS FOR SATELLITE APPLICATION AND LICENSING PROCEDURES; IB DOCKET NO. 95-117

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 47 USC 4; 47 USC 154; 47 USC 303; 47 USC 554; 47 USC 701 to 744

CFR Citation: 47 CFR 25

Legal Deadline: None

Abstract: On February 10, 1997, the FCC adopted rules and policies that streamlined the application and licensing requirements of part 25 of its rules, which deals with communication satellites and earth stations. The streamlined rules waived the construction permit requirement for satellite space stations; changed the license term for temporary fixed earth stations; and adjusted or changed the rules concerning minor modifications and basic requirements for satellite service applications. The streamlined rules also resulted in the creation of a new application form, FCC Form 312. Form 312 eliminated from the International Bureau's use the FCC Form 493, FCC Form 430, FCC Form 702, and FCC Form 704. Petitions for Reconsideration were filed in this matter. In March 1997 the Commission released a Public Notice concerning these petitions, which are presently pending before the International Bureau.

4007. ESTABLISHING RULES AND POLICIES FOR THE USE OF SPECTRUM FOR MOBILE SATELLITE SERVICE IN THE L-BAND; IB DOCKET NO. 96-132

Priority: Routine and Frequent. Major status under 5 USC 801 is undetermined.

Legal Authority: 47 USC 154; 47 USC 303; 47 USC 316; 47 USC 403

CFR Citation: 47 CFR 25.136(d)(1-8), (e)(1-10)

Legal Deadline: None

Abstract: The Commission has established licensing policies to govern mobile-satellite services (MSS) in the L-band. Specifically, the Commission has modified the license of Motient Services, Inc. (Motient), the only U.S. MSS system currently authorized to operate in the L-band, to use up to 20 megahertz of spectrum across the entire L-band. Previously, Motient was authorized only to operate in the upper portion of the L-band. In addition, the Commission has adopted and incorporated into part 25 of the rules specific operational parameters and technical requirements to ensure the integrity of maritime distress and safety communications service will not be compromised by MSS operation in the lower portion of the L-band.

4017. STREAMLINING EARTH STATION LICENSING RULES; IB DOCKET NO. 00-248

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 47 USC 701 to 744

CFR Citation: 47 CFR 23; 47 CFR 25

Legal Deadline: None

Abstract: The Commission has found several cases in which modifying or eliminating rules could facilitate licensing of earth stations, thereby expediting the provision of useful satellite services to the public, without unreasonably increasing the risk of harmful interference to existing earth station or space station operators, or terrestrial wireless operators in shared frequency bands.

Specifically, this NPRM considers the following rule revisions: (1) codifying streamlined procedures for case-by-case examination of earth stations using “non-routine” antennas, non-routine power levels, or both; (2) relaxing some current requirements, such as increasing power and power density limits, and allowing some temporary fixed earth stations to begin operation sooner than is now permitted; (3) streamlining the very small aperture terminal (VSAT) rules, and revising the Commission’s power level rules to provide for various types of VSAT multiple access methods; (4) adopting a simplified license application form for “routine” earth stations; and (5) other miscellaneous rule revisions. The Commission also invites comment on extending these proposed rules to the Ka-band.

Legal Deadline: None

Abstract: This adopted proceeding further streamlines measures for international telecommunications services. The Report and Order amended the procedures for filing pro forma assignments and transfers of control of Section 214 international authorizations, eliminated the benchmark settlement rate condition, and modified the rules requiring dominant international carriers to seek prior approval to discontinue service. The Report and Order also clarified rules and eliminated others no longer needed.

CFR Citation: None

Legal Deadline: None

Abstract: The Notice of Proposed Rulemaking seeks comments on whether the Commission should eliminate the existing comity-based prohibitions and thus discontinue the policy that allows a foreign government or entity to make use of the enforcement mechanisms of the Commission to prohibit the U.S. carriers from offering one form of call-back abroad. International call-back arrangements allow foreign callers to take advantage of low U.S. international services rates, many of which are

significantly lower than the rates available in their home countries.

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: The Commission has adopted a Notice of Proposed Rulemaking to streamline its procedures for reviewing satellite license applications. Currently, the Commission uses processing rounds to review those applications. In a processing round, when an application is filed, the International Bureau (Bureau) issues a public notice establishing a cut-off date for other mutually exclusive satellite applications, and then considers all those applications together. In cases where sufficient spectrum to accommodate all the applicants is not available, the Bureau directs the applicants to negotiate a mutually agreeable solution. Those negotiations usually take a long time, and delay provision of satellite services to the public.

The NPRM invites comment on two alternatives for expediting the satellite application process. One alternative is to replace the processing round procedure with a “first-come, first-served” procedure that would allow the Bureau to issue a satellite license to

FCC—International Bureau

Long-Term Actions

the first party filing a complete, acceptable application. The other alternative is to streamline the processing round procedure by adopting one or more of the following proposals: (1) placing a time limit on negotiations; (2) establishing criteria to select among competing applicants; (3) dividing the available spectrum evenly among the applicants.

4029. CABLE TELEVISION RATE REGULATION

Priority: Other Significant

Legal Authority: 47 USC 154; 47 USC 543

CFR Citation: 47 CFR 76

Legal Deadline: None

Abstract: The Commission has adopted rate regulations to implement Section 623 of the 1992 Cable Act to ensure that cable subscribers nationwide enjoy the rates that would be charged by cable systems operating in a competitive environment. Reconsideration was requested. The 14th Order on Reconsideration addresses petitions on issues governing regulated services by cable systems.

Abstract: The Commission has established rules pursuant to which cable operators may set rates for regulated cable service in accordance with traditional cost-of-service principles, as modified to take account of unique characteristics of the cable industry. These rules are the subject of pending petitions for reconsideration. In addition, the Commission is considering comments received in response to a Further Notice of Proposed Rulemaking concerning the rate of return that should be applied in cost-of-service cases.

4034. CABLE HOME WIRING

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 47 USC 544(i)

CFR Citation: 47 CFR 76

Legal Deadline: None

Abstract: On October 6, 1997, the FCC adopted a Report and Order and Second Notice of Proposed Rulemaking (FCC 97-7360) that amends its cable inside wiring rules to enhance competition in the video distribution marketplace. The Second FNPRM seeks comment on, among other things, whether there are circumstances where the FCC should adopt restrictions on exclusive contracts in order to further promote competition in the multiple dwelling unit marketplace. A Petition for Review was filed in the U.S. Circuit Court of Appeals for the 8th Circuit on November 24, 1997. The FCC has received petitions for reconsideration and has requested the 8th Circuit to hold the pending court case in abeyance until the Commission takes action on the pending petitions. The Court granted the Commission's request.

Priority: Other Significant

Legal Authority: 47 USC 613

CFR Citation: 47 CFR 79.1; 47 CFR 79.2

Legal Deadline: None

Abstract: The FCC adopted regulations to ensure that video programming is accessible to persons with hearing disabilities through closed captioning. The rules were adopted in August 1997 and modified in response to petitions for reconsideration in September 1998. In April 2000, the FCC adopted rules to ensure the accessibility of televised emergency information to persons with hearing disabilities through closed captioning or another method of visual presentation.

4037. COMPETITIVE AVAILABILITY OF NAVIGATION DEVICES**Priority:** Substantive, Nonsignificant**Legal Authority:** 47 USC 549**CFR Citation:** 47 CFR 76**Legal Deadline:** None

Abstract: The Commission has adopted rules to address the mandate expressed in section 629 of the Communications Act to ensure the commercial availability of "navigation devices," the equipment used to access video programming and other services from multichannel video programming systems. Petitions for reconsideration were resolved in a recent order. The Commission also issued a Further Notice of Proposed Rulemaking and Declaratory Ruling. The Further Notice sought comment as to the effectiveness of the Commission's rules for achieving the commercial availability of navigation devices. Accompanying the Further Notice was a Declaratory Ruling which found that technology licenses requiring copy protection measures to be located within a navigation host device are consistent with the Commission's navigation devices rules.

Abstract: The Commission established rules relating to pole attachments. The Telecommunications Act of 1996 required that within two years the Commission prescribe regulations governing the charges for pole attachments for telecommunications attachers. These regulations are to be used by cable operators and telecommunications carriers to provide telecommunications services when the utility and attaching entity parties fail to resolve a dispute over such charges. The Report and Order released in 1998 prescribed regulations to govern these charges.

In April 2000, the Commission released a Report and Order addressing issues related to the formula used to calculate just and reasonable rates that utilities charge for pole attachments. Petitions for reconsideration of both the 1998 and 2000 orders were resolved by Order released in May 2001.

RIN: 3060-AG71**4040. REVIEW OF TECHNICAL RULES IN PARTS 73 AND 74 (MM DOCKET NO. 98-93)****Priority:** Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.**Legal Authority:** 47 USC 307; 47 USC 319**CFR Citation:** 47 CFR 73; 47 CFR 74**Legal Deadline:** None

Abstract: The Second Report and Order in this radio technical streamlining proceeding continues the Commission's efforts to make the broadcast application process simpler, faster, and more efficient. In the Second Report and Order, the Commission amended the separation requirements for short-spaced FM stations, section 73.215(e), to afford second- and third-adjacent channel stations minimum relief of six kilometers from the full spacing requirements of section 73.207. The order also expands the types of facility changes covered by expedited one-step licensing procedures and provides additional technical flexibility to FM stations licensed to Puerto Rico and the

FCC—Media Bureau

Long-Term Actions

U.S. Virgin Islands. The order also relaxes noncommercial educational FM second adjacent channel standard and establishes a noncommercial educational FM community coverage standard. Finally, the item creates a new commercial FM class, class C-zero, and a mechanism to reclassify class C stations that do not meet the new class minimum antenna height where there is a competing demand for spectrum.

4041. DIGITAL MUST CARRY

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 47 USC 534

CFR Citation: 47 CFR 76

Legal Deadline: None

Abstract: Section 614(b)(4)(B) of the Communications Act requires that, at the time the Commission prescribes standards for advanced television, it should "initiate a proceeding to establish any changes in the signal carriage requirements of cable television systems necessary to ensure cable carriage of those broadcast signals of local commercial television stations which have been changed to conform with such modified standards." In August of 1998, the FCC issued a Notice of Proposed Rulemaking seeking comments on the requirements of that section. In June 2000, based on responses to the Notice of Proposed Rulemaking, the Commission clarified that DTV-only television stations, in the context of auctioning analog channels 59-69, will ultimately have must carry rights. In January of 2001, the Commission issued a First Report and

Order and Further Notice of Proposed Rulemaking resolving a number of technical and legal issues, including clarification that digital-only TV stations are entitled to mandatory carriage.

4042. HORIZONTAL OWNERSHIP LIMITS

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 47 USC 151; 47 USC 154; 47 USC 303; 47 USC 533

CFR Citation: 47 CFR 76

Legal Deadline: None

Abstract: Section 613 of the Communications Act requires the Commission to "prescribe rules and regulations establishing reasonable limits on the number of cable subscribers a person is authorized to reach through cable systems owned by such person, or in which such person has an attributable interest." On October 8, 1999, the Commission issued a Third Report and Order, FCC 99-289, in this matter. The Commission revised the horizontal ownership rules as follows: (1) all multichannel video subscribers will be counted when calculating the 30 percent ownership limit; (2) actual subscriber numbers, rather than potential subscriber numbers, will be used for calculating an owner's share; and (3) the minority exception which allowed a 35 percent ownership limit for minority-owned entities under certain circumstances was eliminated. On March 2, 2001, the

District of Columbia Circuit Court reversed and remanded the cable horizontal and vertical limits. (Time Warner Entertainment Co. v. FCC, 240 F.3d 1126 (DC cir.2001)). Pursuant to the court's remand, the Commission is soliciting comment.

Priority: Other Significant

Legal Authority: 47 USC 339

CFR Citation: 47 CFR 73; 47 CFR 76

Legal Deadline: None

Abstract: The FCC proposed rules on its implementation of certain aspects of the Satellite Home Viewer Improvement Act of 1999. In October of 2000, the FCC issued an order adopting rules that apply the current cable rules for network non-duplication, syndicated program exclusivity and sports blackout to satellite carriers. Petitions for reconsideration were filed in response to that order.

4044. RETRANSMISSION CONSENT ISSUES — SHVIA

Priority: Other Significant

Legal Authority: 47 USC 325

CFR Citation: 47 CFR 76.64(m); 47 CFR 76.65

Legal Deadline: None

Abstract: The Satellite Home Viewer Improvement Act of 1999 (SHVIA) requires broadcasters, until the year 2006, to negotiate in good faith with satellite carriers and other multichannel video programming distributors (MVPDs) with respect to their transmission of the broadcasters' signals, and prohibits broadcasters from entering into exclusive retransmission agreements.

The First Report and Order (Order) determined that the statute does not intend to subject retransmission consent negotiation to detailed substantive oversight by the Commission. Instead, the Order concludes that Congress intended that the Commission follow established precedent, particularly in the field of labor law, in implementing the good faith retransmission consent negotiation requirement. Consistent with this conclusion, the Order adopts a two-part test for good faith. The first part of the test consists of a brief, objective list of negotiation standards. The second part of the good faith test is based on a totality of the circumstances standard. Under this standard, an MVPD may present facts to the Commission which, even though they do not allege a violation of the specific standards enumerated above, given the totality of the circumstances constitute a failure to negotiate in good faith. The Commission's rules regarding the good faith negotiation requirement sunset on January 1, 2006. An MVPD believing itself to be aggrieved may file a complaint with the Commission.

4045. DIGITAL AUDIO BROADCASTING SYSTEMS (MM DOCKET NO. 99-325)

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 47 USC 154; 47 USC 303

CFR Citation: 47 CFR 73

Legal Deadline: None

Abstract: The rulemaking proceeding was initiated to obtain comments concerning the Commission's proposals to foster the development and implementation of terrestrial digital audio broadcasting (DAB). In the NPRM, the Commission (1) reaffirms its commitment to providing radio broadcasters with the opportunity to take advantage of DAB technology; (2) identifies Commission public policy objectives for the introduction of DAB service; (3) proposes criteria for the evaluation of DAB models and systems; (4) evaluates IBOC and new-spectrum DAB models; (5) inquires as to the need for a mandatory DAB transmission standard; and (6) considers certain DAB system testing, evaluation and standard selection issues.

4046. SATELLITE BROADCASTING SIGNAL CARRIAGE REQUIREMENTS

Priority: Economically Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 47 USC 338; 47 USC 534; 47 USC 535

CFR Citation: 47 CFR 76

Legal Deadline: Final, Statutory, November 29, 2000.

Abstract: The Satellite Home Viewer Improvement Act of 1999 (SHVIA) requires satellite carriers, by January 1, 2002, to carry upon request all local broadcast stations' signals. These signals must be carried in all local markets in which the satellite carriers carry at least one broadcast station signal, assuming this signal is licensed pursuant to section 122 of the Copyright Act. The SHVIA requires the Commission to issue rules implementing the Act's mandatory carriage requirements within one year of the SHVIA's enactment. On November 29, 2000 the Commission adopted a Report and Order that places satellite carriers on equal footing with cable operators with respect to the availability of programming. The applicable statutory provisions are found in section 1008 of the SHVIA and codified at section 338 of the Communications Act. The Commission implementing satellite broadcast signal carriage rule is 47 CFR 76.66.

4047. ANCILLARY OR SUPPLEMENTAL USE OF DTV CAPACITY BY NON-COMMERCIAL LICENSEES (MM DOCKET NO. 98-203)

Priority: Substantive, Nonsignificant

Legal Authority: 47 USC 4(i); 47 USC 4(j); 47 USC 303(r); 47 USC 307; 47 USC 309; 47 USC 336

CFR Citation: 47 CFR 73

Legal Deadline: None

Abstract: The Report and Order amends the Commission's rules to require that noncommercial educational (NCE) television licensees primarily provide a nonprofit, noncommercial educational service over their entire digital bitstream, including ancillary or supplementary service; and apply to them the same program to assess and collect fees as that established for commercial DTV licensees' use of DTV capacity for the provision of ancillary or supplementary services. This Report and Order also determines that the Communications Act of 1934 prohibition against the provision of advertising by NCE licensees does not apply to nonbroadcast services, such as subscription services provided on their DTV channels. The intended effect of these actions is to clarify the manner in which NCE licensees may use their excess DTV capacity for remunerative purposes.

Legal Authority: 47 USC 4(i); 47 USC 4(j); 47 USC 303(r); 47 USC 307; 47 USC 309; 47 USC 336

CFR Citation: 47 CFR 73

Legal Deadline: None

Abstract: On January 18, 2001, the Commission adopted a Report and Order (R&O) and Further Notice of Proposed Rulemaking, addressing a number of issues related to the conversion of the nation's broadcast television system from analog to digital television. We received a number of petitions for reconsideration of the R&O. This Memorandum Opinion and Order on Reconsideration revised a number of the determinations the Commission made in the R&O, affirms other decisions, and provides clarification of certain rules and policies. The Commission also modifies the minimum hours of operation of certain DTV stations and establishes guidelines for television stations that may seek an extension of the May 1, 2002 and May 1, 2003 deadlines for construction of DTV facilities. The Commission will resolve several major technical issues in the R&O and FNPRM, including the issue of receiver performance standards, DTV tuners, revisions to certain components of the DTV transmission standard, and labeling requirements for television receivers, in a separate Report and Order.

4049. CHILDREN'S TV, OBLIGATIONS OF DIGITAL TV BROADCASTERS (MM DOCKET NO. 00-167)

Priority: Substantive, Nonsignificant

Legal Authority: 47 USC 154(i); 47 USC 303; 47 USC 307; 47 USC 336(d)

CFR Citation: 47 CFR 73.670; 47 CFR 73.671; 47 CFR 73.673

Legal Deadline: None

Abstract: This item seeks comment on a range of issues related to application of our existing children's programming rules to digital broadcasting. The NPRM focuses primarily on two areas: the obligation of commercial television broadcast licensees to provide educational and informational programming for children and the requirement that television broadcast licensees limit the amount of advertising in children's programs.

In addition, this document seeks comment on how to address the issue of the airing in programs viewed by children promotions that may be inappropriate for children to watch. Although this document seeks comment largely on challenges unique to the digital area, it also discusses several issues that apply equally to analog and digital broadcasting.

4050. EXTENSION OF FILING REQUIREMENTS FOR CHILDREN'S TV PROGRAMMING REPORT (MM DOCKET NO. 00-44)**Priority:** Substantive, Nonsignificant**Legal Authority:** 47 USC 154(i); 47 USC 303; 47 USC 308**CFR Citation:** 47 CFR 73.3526**Legal Deadline:** None

Abstract: This document seeks comment on the tentative conclusion that broadcasters who maintain Internet websites should be required to post their completed quarterly Children's Television Programming Reports (FCC Form 398) on these sites. The FCC Form 398 is required to be filed by commercial television broadcast stations each quarter. This form is used to provide information on the efforts of commercial television stations to provide children's educational and informational programs aired to meet its obligation under the Children's Television Act of 1990. Although the Children's Television Programming Reports are available in a central location on the FCC's website, members of the public may look first to their local broadcast station for information about programming at the station, making station website posting useful.

Abstract: This FNPRM proposes changes to local ownership rules and policies concerning multiple ownership of radio broadcasting stations. The Commission examines the effect our current rules have had on the public and seeks comments to better serve our communities. This action is also intended to consider possible changes to our current local market radio ownership rules and policies in accordance with the Telecommunications Act of 1996. Because of the similarity of the issues presented in the Multiple Ownership of Radio Broadcast Stations in Local Markets to those in the Matter of Definition of Radio Market, the two actions were, in effect, consolidated.

Abstract: This item concerns rules and policies on how commercial television broadcast station licensees provide public interest information to the public. This document proposes amendments to the public inspection file rules that would standardize the format used for providing public interest information to the public and make information contained in public inspection files available on the

Internet. The intended effect of this action is to propose rules that would make information regarding how television broadcast stations meet their fundamental public interest obligation to serve the needs and interests of their communities of license easier to understand or more accessible to the public.

RIN: 3060-AH71**4053. EXCLUSIVE CONTRACT PROHIBITION OF THE PROGRAM ACCESS RULES****Priority:** Substantive, Nonsignificant**Legal Authority:** 47 USC 548**CFR Citation:** 47 CFR 76.1002**Legal Deadline:** NPRM, Statutory, October 5, 2002.

Abstract: Section 628(c)(2)(D) of the Communications Act generally prohibits, in areas served by a cable operator, exclusive contracts for satellite cable programming between vertically integrated programming vendors and cable operators. Pursuant to section 628(c)(5), the prohibition on exclusive programming contracts contained in section 628(c)(2)(D) will cease to be effective on October 5, 2002, unless the FCC conducts a proceeding and finds that such prohibition continues to be necessary to preserve and protect competition and diversity in the distribution of video programming. In October 2001, the FCC issued an NPRM to initiate a proceeding in order to make that determination. In June 2002, the

FCC—Media Bureau

Long-Term Actions

Commission issued an order extending the prohibition on exclusive contracts to October 5, 2007.

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 47 USC 151; 47 USC 154; 47 USC 257; 47 USC 301; 47 USC 303; 47 USC 307; 47 USC 308; 47 USC 309; 47 USC 334; 47 USC 403; 47 USC 554

CFR Citation: 47 CFR 73.2080; 47 CFR 76.73; 47 CFR 76.75; 47 CFR 76.79; 47 CFR 76.1702

Legal Deadline: None

Abstract: This Second NPRM requests comments concerning a new broadcast equal employment opportunity rule and policies consistent with the decision of the U.S. Court of Appeals for the District of Columbia Circuit in Association. The Court therein found unconstitutional one of two options for achieving broad outreach provided by the broadcast EEO outreach requirements adopted in the Report and Order. The Second NPRM proposes to retain the Commission's ban on discrimination and to require broadcasters and cable entities to maintain an EEO program that would achieve broad and inclusive outreach in recruitment to ensure a fair

opportunity for all job seekers and provide administrative relief to small entities.

Abstract: This NPRM initiates a proceeding to seek comment on whether and to what extent it should revise the newspaper/broadcast cross-ownership rule, which prohibits common ownership of a broadcast station and a newspaper in the same geographic area. The local multimedia marketplace in which broadcast stations and newspapers operate has changed significantly since the Commission adopted the rule in 1975. This proceeding seeks comment on the relevance of these changes to the newspaper/broadcast cross-ownership rule.

OBLIGATIONS PERTAINING TO
COMMERCIAL MOBILE RADIO
SERVICES**

Priority: Substantive, Nonsignificant. Major under 5 USC 801.

Legal Authority: PL 103-66, sec 6002, Omnibus Budget Reconciliation Act of 1993

CFR Citation: 47 CFR 20; 47 CFR 22

Legal Deadline: None

Abstract: On an interim basis, the First Report and Order extends to broadband PCS and covered SMR providers the cellular rule that prohibits restricting resale of communications services. The new rules sunset five years after the last group of initial licensees for currently allocated broadband PCS spectrum is awarded. The rules also eliminate all exceptions to the rule that allowed cellular licensees to restrict resale by competing with fully

FCC—Wireless Telecommunications Bureau

Long-Term Actions

operational cellular licensees in the same geographic market. The Commission successfully adopted a Second Report and Order and Third Notice of Proposed Rulemaking in this proceeding. The Second Report and Order extends the Commission's cellular rules on manual roaming by any individual whose handset is capable of accessing the network of a cellular, broadband PCS, or covered SMR provider. The Third NPRM, among other things, sought comment on whether the Commission should adopt rules requiring cellular, broadband PCS, and covered SMR providers to provide automatic roaming in their coverage areas, and whether both automatic and manual roaming requirements should sunset five years after the initial grant of PCS licenses. The Third MO&O generally affirmed the Commission's earlier decision to extend the cellular resale rule to include certain PCS and SMR providers and to sunset the rule until November 24, 2002. However, it modified the prior decision by removing customer premise equipment (CPE) and CPE in bundled packages from the scope of the resale rule, by revising the scope of the resale rule to exclude all C, D, E, and F block PCS licensees that do not own and control and are not controlled by cellular or A or B block licensees, and by exempting from the rule all SMR and other CMRS providers that do not utilize in-network switching facilities.

FCC—Wireless Telecommunications Bureau

Long-Term Actions

Abstract: This proceeding is separate from the Commission's proceeding on Enhanced 911 Emergency Systems (E911) in that it is intended to implement provisions of the Wireless Communications and Public Safety Act of 1999 through the promotion of public safety by the deployment of a seamless, nationwide emergency communications infrastructure that includes wireless communications services. More specifically, a chief goal of the proceeding is to ensure that all emergency calls are routed to the appropriate local emergency authority

to provide assistance. The E911 proceeding goes a step further and is aimed at improving the effectiveness and reliability of wireless 911 dispatchers with additional information on wireless 911 calls.

Legal Deadline: None

Abstract: The Report and Order lays the foundation for the fair and effective administration of numbering in the United States. The Report and Order establishes a model for administration of numbering resources in a competitive environment. In this model, the FCC will set broad policy objectives, be the final arbiter of domestic numbering disputes and work closely with other member countries of the North American Numbering Plan (NANP), the States, industry and consumers to ensure fair and effective number administration. The Report and Order creates the North American Number Council (NANC) under the Federal Advisory Committee Act. In the Third Report and Order, released on October 9, 1997, the Commission affirmed the NANC's selection of Lockheed Martin IMS as the new NANP administrator. The NANP administrator is a nongovernmental entity that is not aligned with any particular telecommunications industry segment, and upon selection and following a transition period, assumed

Bellcore's current NANP administrator functions and the central office code administration functions currently handled by the dominant local exchange carrier in each area code. The rules were expanded to accommodate the requirements of the Telecommunications Act of 1996. See FCC 96-337, released August 8, 1996.

4088. USE OF N11 CODES AND OTHER ABBREVIATED DIALING ARRANGEMENTS

Priority: Substantive, Nonsignificant

Legal Authority: 47 USC 151; 47 USC 154(i); 47 USC 201 to 205; 47 USC 251(e)

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: In 1992, the FCC released a Notice of Proposed Rulemaking in CC Docket 92-105 proposing that local exchange carriers (LECs) be required to make N11 codes available for access to information service providers. In this proposal, LECs could establish any reasonable assignment criteria for such allocation, including "first come, first served." The FCC's General Counsel released a letter indicating it found no regulatory or legal obstacles to assignment of N11 codes for information services. On February 19, 1997, the FCC released a First Report and Order and Further Notice of Proposed Rulemaking in that Docket (FCC 97-51) which allows incumbent LECs, in addition to the States and Bell Communications Research (Bellcore), to continue to perform the N11 code administration functions that they performed at the time of enactment of the 1996 Act amendments to the 1934 Act, until further FCC action. The FCC concluded that: (1) 311 should be assigned as a national number for access to non-emergency police calls; (2) 711 should be assigned as a national number for access to telecommunications relay services (TRS); (3) all providers of telephone exchange service must be able to have their customers call 611 and 811 to reach their repair and business service offices; and (4) a LEC may not itself offer enhanced services using a 411 code or any other N11 code, unless that LEC offers access to the code on a reasonable nondiscriminatory basis to competing enhanced service providers in the local service area for which it is using the code to facilitate

FCC—Wireline Competition Bureau

Long-Term Actions

distribution of their enhanced services. In the FNPRM, the FCC asked for comment on: (1) the technical feasibility of implementing 711 for TRS access; (2) the possibility of developing an N11 gateway offering access to multiple TRS providers; (3) whether with such access, TRS calls would still be answered within mandatory minimum answer times; (4) whether such a gateway would be consistent with section 255; (5) whether other important disability services could be accessed thereby; (6) the possibility of providing both voice and text TRS services through the same abbreviated TRS code; (7) the proprietary nature of N11 codes; and (8) an FCC proposal to transfer administration of N11 codes at the local level from incumbent LECs to the North American Numbering Plan (NANP) administrator. Petitions for reconsideration or clarification on the order have been filed. Comments and replies were filed on March 31 and April 30, 1997, respectively. On June 16, 1999, the Commission released a Public Notice announcing that it would hold a public forum on September 8, 1999, on 711 access to TRS. The goal of the forum was to identify steps that must be taken to implement 711 access to TRS as well as obstacles to implementation and how those obstacles could be resolved.

On August 9, 2000, the Commission released a Second Report and Order (FCC 00-257) that addresses issues related to the deployment of 711 for access to TRS. The Commission required a nationwide rollout of 711 access to TRS and established an implementation framework. On July 31, 2000, the Commission released a Third Report and Order (FCC 00-256) that granted the petition of the United Way of America, and others, for nationwide assignment of the 211 abbreviated dialing code for access to community information and referral services. The Commission also granted the petition of the U.S. Department of Transportation for nationwide assignment of the 511 abbreviated dialing code for access to travel and traffic information. The Commission further addressed issues raised in petitions for reconsideration of the N11 First Report and Order and resolved outstanding issues from the N11 Further Notice of Proposed Rulemaking.

On August 29, 2000, the Commission released a Fourth Report and Order and

Third Notice of Proposed Rulemaking in CC Docket 92-105 and a Notice of Proposed Rulemaking in WT Docket 00-110 (FCC 00-327) to implement the Wireless Communications and Public Safety Act of 1999. The Commission designated 911 as the universal emergency number and sought comment on appropriate transition periods and how the Commission should facilitate States' efforts to deploy comprehensive emergency communications systems.

4089. IMPLEMENTATION OF THE UNIVERSAL SERVICE PORTIONS OF THE 1996 TELECOMMUNICATIONS ACT

Priority: Substantive, Nonsignificant

Legal Authority: 47 USC 151 et seq

CFR Citation: 47 CFR 54

Legal Deadline: NPRM, Statutory, March 8, 1996.

Other, Statutory, November 8, 1996, Recommended decision. Final, Statutory, May 8, 1997, Federal-State Joint Board R&O released May 8, 1997.

Abstract: As required by the Telecommunications Act of 1996, the Commission sought comment on proposals for reforming universal service. On November 8, 1996, the Federal-State Joint Board on Universal Service issued a recommended decision

on changes to the universal service support mechanisms. In addition, on January 10, 1997, the Commission issued an NPRM and NOI on changes to the Board of Directors of the National Exchange Carrier Association (NECA), regarding the administration of universal service. On May 8, 1997, the Commission, at the direction of Congress, released its order implementing the universal service portions of the 1996 Act. On December 30, 1997, the Commission issued the 4th Order on Reconsideration which made changes and clarifications to the May 8 Order. On June 22, 1998, the Commission issued the 5th Order on Reconsideration which revised the collection levels for the schools and libraries support mechanism through June 30, 1999, and revised the collection levels for the rural health care support mechanism through December 31, 1998. The 5th Order on Reconsideration also revised the priority with which schools and libraries and rural health care providers will receive support. On October 28, 1998, the Commission issued the 5th Report and Order, in which it adopted the model platform for its forward-looking economic cost methodology, which will be used to determine support for non-rural carriers beginning July 1, 1999. On November 21, 1998, the Commission issued the 8th Order on Reconsideration in which it consolidated the administration of universal service into a single entity known as the Universal Service Administrative Company or USAC. On November 25, 1998, the Federal-State Joint Board on Universal Service issued its Second Recommended Decision in which the Joint Board made certain recommendations to the Commission regarding the high cost support mechanism.

On May 28, 1999, the Commission issued the 13th Order on Reconsideration in which it adopted the principles of a Federal high-cost support mechanism that conformed to the Second Recommended Decision and in which it sought further comment on specific elements of the support methodology. In the 13th Order on Reconsideration, the Commission also decided to implement the new high-cost support mechanism on January 1, 2000 instead of July 1, 1999, as previously planned. On May 28, 1999, the Commission also issued a Further Notice of Proposed Rulemaking

FCC—Wireline Competition Bureau

Long-Term Actions

in which it sought comment on proposed input values to be used in the forward-looking model to determine non-rural LECs' cost of providing supported services in high cost areas. On August 5, 1999, the Commission adopted a Further Notice of Proposed Rulemaking in which it sought comment to ascertain the availability of, and to understand the possible impediments to, deployment and subscribership in unserved and underserved areas of the Nation, including tribal lands and other insular areas.

On November 1, 1999, the Commission issued the Fourteenth Order on Reconsideration, in which it eliminated the requirement that only carriers that have been certified as eligible telecommunications carriers may receive credit against their universal service contributions for providing telecommunications services to rural health care providers at the lower urban rates. On November 1, 1999, the Commission also issued the Fifteenth Order on Reconsideration, in which it authorized support for any commercially available telecommunications service regardless of the bandwidth, and simplified the method for determining how much support a rural health care provider can receive. On November 2, 1999, the Commission issued the Ninth Report and Order and Eighteenth Order on Reconsideration in which it adopted a new forward-looking high-cost support mechanism that will enable States to ensure the reasonable comparability of non-rural carriers' intrastate rates. On November 2, 1999, the Commission also issued the Tenth Report and Order in which it completed the selection of a cost model to estimate forward-looking cost by adopting input values for the previously adopted cost model.

On June 30, 2000, the Commission issued the Twelfth Report and Order, Memorandum Opinion and Order, and Further Notice of Proposed Rulemaking, in response to the Further Notice of Proposed Rulemaking it adopted on August 5, 1999. In the Twelfth Report and Order, the Commission adopted measures to promote telecommunications subscribership and infrastructure deployment within American Indian and Alaska Native tribal communities.

On October 12, 2000, the Commission released a Further Notice of Proposed

Rulemaking and Order to seek comment on proposals to modify the Commission's rules relating to contributions to the Federal universal service support mechanisms. On January 12, 2001, the Commission released a Further Notice of Proposed Rulemaking seeking comment on the Recommended Decision of the Federal-State Joint Board on Universal Service (Joint Board) regarding a plan for reforming the universal service support mechanism for rural carriers. The Joint Board sent to the Commission the Rural Task Force Recommendation as a good foundation for implementing rural high-cost reform. The Rural Task Force recommends the use of a modified version of the current high-cost loop support mechanism based on carriers' embedded costs.

On May 23, 2001, the Commission released the Fourteenth Report and Order, Twenty-Second Order on Reconsideration and Further Notice of Proposed Rulemaking. In the Fourteenth Report and Order, the Commission adopted a five-year plan that makes modifications to the high-cost loop support mechanism for rural carriers. These modifications were based on the recommendation of the Joint Board and will provide predictable levels of support so that rural carriers can continue to provide affordable service in rural America, while ensuring that consumers in all areas of the nation, including rural areas, have access to affordable and quality telecommunications services.

On March 14, 2001, the Commission issued an order modifying the methodology used to assess contributions to universal service. The methodology was modified to reduce the interval between the accrual of revenues and the assessment of contributions based on those revenues. The order reduced the interval from an average of one year to an average of six months.

On May 8, 2001, the Commission issued a Notice of Proposed Rulemaking in which sought comment on how to streamline and reform both the manner in which the Commission assesses carrier contributions to the universal service fund and the manner in which carriers may recover those costs from their customers.

On May 22, 2001, the Commission adopted a five-year interim freeze of the Part 36 jurisdictional separations rules,

pending comprehensive reform of the separations process. The five-year interim freeze was based upon the July 21, 2000 Recommended Decision of the Federal-State Joint Board on Separations. Under the interim freeze, the Part 36 categories and jurisdictional allocation factors of price cap incumbent LECs are frozen, while rate-of-return carriers had the option to freeze only their jurisdictional allocation factors. The interim freeze is in effect from July 1, 2001, to June 30, 2006 or until comprehensive reform is completed, whichever comes first.

On November 8, 2001, the Commission released the Fifteenth Report and Order and Further Notice of Proposed Rulemaking (Further Notice) reforming the interstate access charge and universal service support system for rate-of-return incumbent carriers. The Order established a new interstate support mechanism to replace implicit support in the interstate access rate structure of rate-of-return carriers with explicit, portable support. Among other things, the Further Notice sought comment on consolidating the existing Long Term Support mechanism with the new support mechanism created in the Order.

On January 25, 2002, the Commission released a Further Notice of Proposed Rulemaking and Order (Further Notice), in which it sought comment on modifications to the rules governing the schools and libraries support mechanism. The modifications address changes that would make the program more efficient, ensure that the benefits of the program are distributed in an equitable manner, and prevent waste, fraud, and abuse. In addition, the order denied certain petitions for reconsideration relating to unused funds.

On February 15, 2002, the Commission released a Notice of Proposed Rulemaking and Order, in which it sought comment on the issues from the Ninth Report and Order remanded by the United States Court of Appeals for the Tenth Circuit. The Ninth Report and Order established a federal high-cost universal service support mechanism for non-rural carriers based on forward-looking economic costs. In addition, the order referred these issues to the Federal-State Joint Board on Universal Service for a recommended decision.

FCC—Wireline Competition Bureau

Long-Term Actions

On February 15, 2002, the Commission issued a Notice of Proposed Rulemaking examining the appropriate legal and policy framework under the Communications Act of 1934, as amended, for broadband access to the Internet provided over domestic wireline facilities.

On February 26, 2002, the Commission issued a Further Notice of Proposed Rulemaking and Report and Order, in which it sought comment on specific proposals to change the manner in which universal service contributions are assessed and recovered, including one proposal to assess contributions based on the number and capacity of connections provided to a public network. This proceeding also made certain modifications to the existing contribution system.

On April 19, 2002, the Commission issued a Notice of Proposed Rulemaking in which it sought comment on specific proposals to: clarify how it should treat eligible entities that also perform functions that are outside the statutory definition of "health care provider"; provide support for internet access; and change the calculation of discounted services, including the calculation of urban and rural rates.

4094. ACCESS CHARGE REFORM

Priority: Economically Significant

Legal Authority: 47 USC 151; 47 USC 154(i); 47 USC 154(j); 47 USC 201 to 205; 47 USC 403; 47 USC 553

CFR Citation: 47 CFR 61.41 to 61.49; 47 CFR 69

Legal Deadline: None

Abstract: On December 24, 1996, the Commission initiated a rulemaking to revise its access charge rules to make them compatible with a competitive market envisioned by the Telecommunications Act of 1996. On May 7, 1997, the Commission adopted revised access charge rate structure rules and adjusted the price cap productivity factor. The Commission also adopted a market-based approach to reducing overall access charge levels and moving such levels toward forward-looking economic costs. The Commission adopted a Further Notice of Proposed Rulemaking seeking comment on proposals to allow presubscribed interexchange carrier charges on special access lines and to adjust the allocation of General Support Facilities costs recovered through interstate access charges.

On July 10, 1997, on its own motion, and on October 9, 1997, in response

to reconsideration petitions, the Commission revised or clarified certain parts of the rules adopted in the May 1997 Access Charge Reform Order. On November 26, 1997, the Commission adopted rules requiring price cap carriers to adjust the allocation of General Support Facilities costs and to reduce their price cap indices to ensure that regulated access rates do not recover those costs which are related to nonregulated services. Reconsideration petitions filed in response to the Access Charge Reform Order, if not yet addressed, will be addressed in future reconsideration orders. On May 27, 1999, the Commission initiated a further rulemaking, seeking comment on how to adjust interstate access charges in conjunction with the removal from access charges of implicit universal service support for non-rural local exchange carriers. On August 5, 1999, the Commission adopted rules implementing the market-based approach to access charge reform, pursuant to which incumbent price cap local exchange carriers receive progressively greater pricing flexibility as competition develops. The Commission also initiated a Further Notice of Proposed Rulemaking, seeking comment on additional pricing flexibility, proposed changes to the rate structure for local switching and tandem-switched transport, and the need to constrain access charges imposed by competitive local exchange carriers. Reconsideration petitions filed in response to the November 1997 General Support Facilities Order will be addressed in a future reconsideration order. On May 31, 2000, the Commission adopted an industry proposal establishing a 5-year plan for price cap local exchange carriers and resolving many outstanding issues concerning interstate access charges and interstate universal service. On April 27, 2001, the Commission revised its tariff rules to establish benchmark access rates for competitive local exchange carriers, whereby access rates at or below the benchmark will be presumed just and reasonable and may be imposed by tariff, and access rates above the benchmark will be mandatorily detariffed. The Commission adopted a rural exemption to this benchmark scheme, recognizing that a higher level of access charges is justified for certain carriers serving rural areas. On May 21,

FCC—Wireline Competition Bureau

Long-Term Actions

2001, the Commission determined that price cap local exchange carriers should not be permitted to assess prescribed interexchange carrier charges on special access lines. On June 4, 2002, the Commission concluded a cost review proceeding in which it determined that price cap carriers' forward-looking costs justified scheduled increases to the subscriber line charge cap.

4095. IMPLEMENTATION OF THE LOCAL COMPETITION PROVISIONS OF THE TELECOMMUNICATIONS ACT OF 1996

Priority: Substantive, Nonsignificant

Legal Authority: 47 USC 151 to 155; 47 USC 157; 47 USC 201 to 205; 47 USC 207 to 209; 47 USC 218

CFR Citation: 47 CFR 51; 47 CFR 52

Legal Deadline: Final, Statutory, August 8, 1996.

Abstract: The Second Report and Order and Memorandum Opinion and Order implemented the dialing parity, nondiscriminatory access, network disclosure, and number administration provisions of the Telecommunications Act of 1996. The Order also denied the Petition for Expedited Declaratory Ruling on the area code relief plan for Dallas and Houston filed with the FCC by the Texas Public Utilities Commission on May 9, 1996. Finally, this Order addressed petitions for clarification or reconsideration in the matters of proposed 708 Relief Plan and 630 Numbering Plan Area Code by Ameritech and the Administration of the North American Numbering Plan. On July 19, 1999, the Commission released an order denying the petition for reconsideration of the Local Competition Second Report and Order filed by Beehive Telephone Company, Inc., Local Competition Second Report and Order, First Order on Reconsideration, CC Docket No. 96-98, FCC 99-170, 1999 WL 507245 (1999). On August 17, 1999, Beehive filed a Notice of Appeal of this order with the U.S. Court of Appeals for the D.C. Circuit. On May 18, 2000, the Court affirmed the Commission's decision without a published opinion. On June 30, 2000, Beehive filed a Petition for Rehearing with the Court. That petition was denied on July 18, 2000.

On September 9, 1999, the Commission released the Second Order on Reconsideration of the Local Competition Second Report and Order, FCC 99-227, resolving petitions for reconsideration of rules adopted in the Local Competition Second Report and Order to implement the requirement of section 251(b)(3), 47 U.S.C. section 251(b)(3), that LECs provide non-discriminatory access to directory assistance, directory listing and operator services. At the same time the Commission released a Notice of Proposed Rulemaking (NPRM), FCC 99-227, seeking comment on issues related to developments in, and the convergence of, directory publishing and directory assistance. On October 21, 1999, the Commission released the Third Order on Reconsideration of the Local Competition Second Report and Order, FCC 99-243, resolving the petitions for reconsideration regarding numbering administration under section 251(e)(1) of the Act, 47 U.S.C. section 251(e)(1). On January 9, 2002,

the Commission released an Order on Reconsideration dismissing petitions for reconsideration or clarification of the Local Competition Second Report and Order and Memorandum Opinion and Order regarding dialing parity under section 251(b)(3) of the Act, 47 U.S.C. section 251(b)(3), and network disclosure under Section 251(c)(1) of the Act, 47 U.S.C. section 251(c)(1). On January 23, 2001, the Commission released a First Report and Order, FCC 01-27, resolving issues raised in the September 9th NPRM, and concluding, among other things, that competing Directory Assistance (DA) providers that are certified as CLECs, are agents of CLECs, or that offer call completion services provide telephone exchange or telephone toll service, and thus are entitled to nondiscriminatory access to LEC local DA databases.

Petitions for Reconsideration in response to this Order are currently pending before the Commission.

4097. COMPUTER III FURTHER REMAND PROCEEDINGS: BELL OPERATING COMPANY PROVISION OF ENHANCED SERVICES

Priority: Other Significant

Legal Authority: 47 USC 151; 47 USC 152; 47 USC 154; 47 USC 160; 47 USC 161; 47 USC 202 to 205; 47 USC 251; 47 USC 271; 47 USC 272; 47 USC 274 to 276

CFR Citation: 47 CFR 51; 47 CFR 53; 47 CFR 64

Legal Deadline: None

Abstract: On January 30, 1998, the FCC released a Further Notice of Proposed Rulemaking (FNPRM) proposing to streamline the safeguards under which the Bell Operating Companies (BOCs) provide information (or enhanced) services, such as voice mail and electronic messaging. The FCC sought comment on tentative conclusions relating to nonstructural safeguards, Comparably Efficient Interconnection (CEI) plans, and network information disclosure rules, among other things. Finally, the FNPRM sought to build a record on which to respond to a partial remand of certain orders by the Court of Appeals for the Ninth Circuit. On

February 25, 1999, the Commission adopted a Report and Order which streamlined the Commission's CEI and network information disclosure rules. Although the BOCs must continue to comply with their CEI obligations, they are no longer required to obtain pre-approval of their CEI plans and amendments from the Commission before initiating or altering an intra-LATA information service. Instead, the Commission requires the BOCs to post their CEI plans on their publicly accessible Internet sites, and to notify the Common Carrier Bureau upon such posting. The Commission removed the network information disclosure rules set forth in the Computer II and Computer III proceedings, with the narrow exception of the Computer II rules that require carriers to disclose changes that could affect how customer premises equipment (CPE) is attached to the network. On March 7, 2001, the FCC released a Public Notice requesting further comment on the outstanding issues discussed in its January 30, 1998 FNPRM.

Because the issues in this FNPRM overlap with certain issues that the Commission is now considering in a separate docket regarding broadband services, the Commission has incorporated the FNPRM into the broadband proceeding insofar as the FNPRM relates to the BOCs' obligations to promote access to their networks with respect to broadband services. The broadband proceeding is entitled, "Appropriate Framework for Broadband Access to the Internet Over Wireline Facilities; Universal Service Obligations of Broadband Providers," CC Docket No. 02-33, NPRM, FCC 02-42 (rel. Feb. 15, 2002).

4098. DETARIFFING OF COMPETITIVE LOCAL EXCHANGE CARRIERS' INTERSTATE EXCHANGE ACCESS SERVICES

Priority: Substantive, Nonsignificant

Legal Authority: 47 USC 151 to 154; 47 USC 160; 47 USC 201 to 205

CFR Citation: 47 CFR 61.26

Legal Deadline: None

Abstract: In an Order released on April 27, 2001, the Commission addressed a number of interrelated issues concerning charges for interstate switched access services provided by competitive local exchange carriers (CLECs) and the obligations of interexchange carriers to exchange access traffic with CLECs. The Order seeks to ensure that CLEC access charges are just and reasonable, to reduce regulatory arbitrage opportunities, and to avoid disrupting the development of competition in the local telecommunications market.

In an attached Further Notice of Proposed Rulemaking, the Commission sought comment on whether tariffed CLEC-provided access service for toll free, or "8YY," numbers should be afforded different treatment than CLEC tariffed switched access traffic generally.

Legal Deadline: None

Abstract: On March 31, 1999, the Commission released a First Report and Order and Further Notice of Proposed Rulemaking (NPRM) (Advanced Services Order), in CC Docket No. 98-147, adopting several measures to enable competitive providers of advanced services such as those used to provide high-speed Internet access, to deploy new technologies on a faster, more cost-effective basis to consumers. This order is intended to create marketplace conditions conducive to the nationwide deployment of advanced telecommunications services consistent with the goals of section 706 of the Telecommunications Act of 1996. Because the Commission concluded that the record did not sufficiently address long-term spectrum compatibility issues, the Commission adopted a companion Further NPRM that sought comment on issues related to developing long-term standards and practices for spectrum compatibility and management. In the Further NPRM, the Commission also tentatively concluded that it is technically feasible for two different telecommunications carriers sharing a single line to provide traditional voice service and advanced services. The Further Notice sought comment on the operational, pricing, legal and policy ramifications of mandating such line sharing at the Federal level.

On November 9, 1999, the Commission released a Second Report and Order (Advanced Services Resale Order) in CC Docket No. 98-147, which addressed whether the discounted resale obligation of section 251(c)(4) applies to incumbent Local Exchange Carrier (LEC) provision of advanced services. The Commission determined that analysis of section 251(c)(4) requires a fact-specific evaluation of the features and characteristics of a particular transaction, and concluded that advanced services sold at retail by incumbent LECs to residential and business end-users are subject to the section 251(c)(4) discounted resale obligation, without regard to their

classification as telephone exchange service or exchange access service. The Commission, however, reached a different result as to advanced services sold to Internet Service Providers for inclusion in a high-speed Internet service offering, concluding that these advanced services are inherently different from advanced services made available directly to business and residential end-users, and as such, are not subject to the discounted resale obligations of section 251(c)(4).

On December 9, 1999, the Commission released a Third Report and Order in CC Docket No. 98-147 and Fourth Report and Order in CC Docket No. 96-98 (Line Sharing Order). In the Line Sharing Order, the Commission adopted measures to promote the availability of competitive broadband Digital Subscriber Line (DSL) services, especially to residential and small business customers. The Third R&O amended the Commission's network unbundling rules to require incumbent LECs to provide unbundled access to a new network element, the high frequency portion of the local loop. This enables competitive LECs to compete with incumbent LECs to provide DSL services through telephone lines that the competitive LECs can share with incumbent LECs. In addition, the Line Sharing Order adopted spectrum management policies and rules to facilitate the competitive deployment of advanced services. These rules will significantly benefit the rapid and efficient deployment of DSL technologies.

On January 19, 2001, the Commission issued an Order on Reconsideration and a Further Notice of Proposed Rulemaking in which the Commission reinforced its line sharing rules to promote availability of unbundled access to the high frequency portion of the loop. It also addressed issues in a variety of petitions for clarification and/or reconsideration filed in response to the Line Sharing Order.

On December 20, 2001, the Commission released a Notice of Proposed Rulemaking in CC Docket Nos. 01-338, 96-98, and 98-147 seeking comment on whether, in light of changed circumstances, it should retain the unbundling require

Legal Authority: 47 USC 151; 47 USC 154; 47 USC 201(b); 47 USC 202 to 205; 47 USC 218 to 220; 47 USC 303(r); 47 USC 403

CFR Citation: 47 CFR 65.301**Legal Deadline:** None

Abstract: This Notice initiates a proceeding to represcribe the authorized rate of return for interstate access services provided by ILECs. It marks the first prescription proceeding since we revised the rules governing procedures and methodologies for prescribing and enforcing the rate of return for ILECs not subject to price cap regulation, and the first prescription proceeding since the Commission adopted its price cap rules for local exchange carriers. In this Notice, we seek comment on the methods by which we could calculate the ILECs' cost of capital. In the Notice, we propose corrections to errors in the codified formulas for the cost of debt and cost of preferred stock and seek comment on whether this proceeding warrants a change in the low-end formula adjustment for local exchange carriers subject to price caps.

RIN: 3060-AH18**4102. LOCAL TELEPHONE NETWORKS THAT LECS MUST MAKE AVAILABLE TO COMPETITORS**

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 47 USC 251**CFR Citation:** 47 CFR 51 (Revision)**Legal Deadline:** None

Abstract: This revises the rules applicable to incumbent local exchange carriers (LECs) to permit competitive carriers to access portions of the incumbent LECs' networks on an unbundled basis. Unbundling allows competitors to lease portions of the incumbent LECs' network to provide telecommunications services. These rule changes are intended to remove uncertainty regarding the incumbent LECs' unbundling obligations under the Telecommunications Act of 1996 and are expected to accelerate the development of local exchange competition.

On April 10, 2001, the Commission issued a Public Notice seeking comment on a Joint Petition filed by BellSouth, SBC, and Verizon asking the Commission to find that high-capacity loops and dedicated transport should not be subject to mandatory unbundling. The Commission issued Public Notices on April 23, 2001 and May 14, 2001 seeking additional comment.

On December 20, 2001, the Commission issued a Notice of Proposed Rulemaking to comprehensively consider the appropriate changes, if any, to its unbundling policies in light of market developments and

technological advances. 67 Fed. Reg. 1947. As part of this triennial review, the Commission incorporated the records of several pending proceedings on unbundling into this docket, including: (1) the availability of loops, transport, and combinations thereof; (2) high-capacity loops and dedicated transport; (3) local switching; and (4) next-generation networks.

On May 29, 2002, the Commission extended the reply comment date of the Notice of Proposed Rulemaking to July 17, 2002, to allow all interested parties to incorporate their review and analysis of *USTA v. FCC*, 290 F.3d 415 (D.C. Cir.2002). On August 1, 2002, the Commission issued a Public Notice seeking comment on a Verizon telephone companies' petition asking the Commission to forbear from applying certain section 271 checklist items if the Commission determines that the corresponding network elements no longer need to be unbundled. On August 13, 2002, the Commission issued a Public Notice seeking comment on a petition filed by WorldCom, Inc. asking the Commission to declare that requesting carriers are entitled to access certain data from incumbent LECs at cost-based rates when they use such data to provide interexchange and exchange access service.

Legal Deadline: None

Abstract: On October 11, 2001, the Commission adopted an Order reforming the interstate access charge and universal service support system for rate-of-return incumbent carriers. The Order adopts three principal reforms. First, the Order modifies the interstate access rate structure for small carriers to align it more closely with the manner in which costs are incurred. Second, the Order removes implicit support for universal service from the rate structure and replaces it with explicit, portable support. Third, the Order permits small carriers to continue to set rates based on the authorized rate of return of 11.25 percent. The Order became effective on January 1, 2002, and the support mechanism established by the Order was implemented beginning July 1, 2002.

The Commission also adopted a Further Notice of Proposed Rulemaking (FNPRM) seeking additional comment on proposals for incentive regulation, increased pricing flexibility for rate-of-return carriers, and proposed changes to the Commission's "all-or-nothing" rule. Comments on the FNPRM were due on February 14, 2002, and reply comments on March 18, 2002.

Legal Deadline: None

Abstract: On July 20, 2001, the Commission adopted a Notice of Proposed Rulemaking in CC Docket No. 01-150 (FCC 01-205) (Merger Streamlining NPRM). The Commission

FCC—Wireline Competition Bureau

Long-Term Actions

proposes to streamline application procedures under 47 USC 214 for common carrier authorizations to acquire domestic transmission lines through acquisitions of corporate control. The Commission requests comments on the criteria it should adopt for deciding which applications would require little scrutiny to determine that they would serve the public interests.

On March 14, 2002, the Commission adopted rules to streamline the review of applications for section 214 authorization to transfer control of domestic transmission liens. The streamlining procedures allow domestic telecommunications carriers to qualify for expedited review of their merger applications, thus eliminating unnecessary regulatory burdens on carriers while increasing the efficiency and transparency of the FCC review process.

4107. NUMBERING RESOURCE OPTIMIZATION

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Unfunded Mandates: Undetermined

Legal Authority: 47 USC 151; 47 USC 154; 47 USC 201 et seq.; 47 USC 251(e)

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: In 1999, the Commission released the Numbering Resource Optimization Notice of Proposed Rulemaking (Notice) in CC Docket 99-200. The Notice examined and sought comment on several administrative and

technical measures aimed at improving the efficiency with which telecommunications numbering resources are used and allocated. It incorporated input from the North American Numbering Council (NANC), a federal advisory committee, which advises the Commission on issues related to number administration.

In the Numbering Resource Optimization First Report and Order and Further Notice of Proposed Rulemaking (NRO First Report and Order), released on March 31, 2000, the Commission adopted a mandatory utilization data reporting requirement, a uniform set of categories of numbers for which carriers must report their utilization, and a utilization threshold framework to increase carrier accountability and incentives to use numbers efficiently. In addition, the Commission adopted a single system for allocating numbers in blocks of one thousand, rather than ten thousand, wherever possible, and established a plan for national rollout of thousands-block number pooling. The Commission also adopted numbering resource reclamation requirements to ensure that unused numbers are returned to the North American Numbering Plan (NANP) inventory for assignment to other carriers. Also, to encourage better management of numbering resources, carriers are required, to the extent possible, to first assign numbering resources within thousands blocks (a form of sequential numbering).

In the NRO Second Report and Order, the Commission adopted a measure that requires all carriers to use at least 60% of their numbering resources before they may get additional numbers in a particular area. That 60% utilization threshold increases to 75% over the next three years. The Commission also established a five-year term for the national Pooling Administrator and an auditing program to verify carrier compliance with the Commission's rules. Furthermore, the Commission addressed several issues raised in the Notice, concerning area code relief. Specifically, the Commission declined to amend the existing federal rules for area code relief or specify any new federal guidelines for the implementation of area code relief. The Commission also declined to state a preference for either all-services overlays or geographic splits as a method of area code relief. Regarding mandatory nationwide ten-digit dialing,

the Commission declined to adopt this measure at the present time. Furthermore, the Commission declined to mandate nationwide expansion of the "D digit" (the "N" of an NXX or central office code) to include 0 or 1, or to grant state commissions the authority to implement the expansion of the D digit as a numbering resource optimization measure at the present time.

In the NRO Third Report and Order, the Commission addressed national thousands-block number pooling administration issues, including declining to alter the implementation date for covered CMRS carriers to participate in pooling. The Commission also addressed federal cost recovery for national thousands-block number pooling, and continued to require states to establish cost recovery mechanisms for costs incurred by carriers participating in pooling trials. The Commission reaffirmed the Months-to-Exhaust (MTE) requirement for carriers. The Commission declined to lower the utilization threshold established in the Second Report and Order, and declined to exempt pooling carriers from the utilization threshold. The Commission also established a safety valve mechanism to allow carriers that do not meet the utilization threshold in a given rate center to obtain additional numbering resources.

In the NRO Third Report and Order, the Commission lifted the ban on technology specific overlays (TSOs), and delegated authority to the Common Carrier Bureau, in consultation with the Wireless Telecommunications Bureau, to resolve any such petitions. Furthermore, the Commission found that carriers who violate our numbering requirements, or fail to cooperate with an auditor conducting either a "for cause" or random audit, should be denied numbering resources in certain instances. The Commission also reaffirmed the 180-day reservation period, declined to impose fees to extend the reservation period, and found that state commissions should be allowed password-protected access to the NANPA database for data pertaining to NPAs located within their state.

The measures adopted in the NRO orders will allow the Commission to monitor more closely the way numbering resources are used within the NANP, and will promote more

FCC—Wireline Competition Bureau

Long-Term Actions

efficient allocation and use of NANP resources by tying a carrier's ability to obtain numbering resources more closely to its actual need for numbers to serve its customers. These measures are designed to create national standards to optimize the use of numbering resources by: (1) minimizing the negative impact on consumers of premature area code exhausts; (2) ensuring sufficient access to numbering resources for all service providers to enter into or to compete in telecommunications markets; (3) avoiding premature exhaust of the NANP; (4) extending the life of the NANP; (5) imposing the least societal cost possible, and ensuring competitive neutrality, while obtaining the highest benefit; (6) ensuring that no class of carrier or consumer is unduly favored or disfavored by the Commission's optimization efforts; and (7) minimizing the incentives for carriers to build and carry excessively large inventories of numbers.

In NRO Third Order on Recon in CC Docket No. 99-200, Third Further Notice of Proposed Rulemaking in CC Docket No. 99-200 and Second Further Notice of Proposed Rulemaking in CC Docket No. 95-116, the Commission reconsidered its findings in the NRO Third Report and Order regarding the local Number portability (LNP) and thousands-block number pooling requirements for carriers in the top 100 Metropolitan Statistical areas (MSAs). Specifically, the Commission reversed its clarification that those requirements extend to all carriers in the largest 100 MSAs, regardless of whether they have received a request from another carrier to provide LNP. The Commission also sought comment on whether the Commission should again extend the LNP requirements to all carriers in the largest 100 MSAs, regardless of whether they receive a request to provide LNP. The Commission also sought comment on whether all carriers in the top 100 MSAs should be required to participate in thousands-block number pooling, regardless of whether they are required to be LNP capable. In addition, the Commission sought comment on whether all MSAs included in Combined Metropolitan Statistical Areas (CMSAs) on the Census Bureau's list of the largest 100 MSAs should be included on the Commission's list of the top 100 MSAs.

Legal Deadline: None

Abstract: This Report and Order modifies the FCC's cost allocation and accounting rules as part of the biennial regulatory review process. Specifically, it (1) raises the threshold significantly for Class A accountings, thus allowing mid-sized carriers currently required to use Class A accounts to use the more streamlined Class B accounts; (2) establishes less burdensome cost allocation manual (CAM) procedures for the mid-sized incumbent local exchange carriers (LECs) and reduces the frequency with which independent audits of the cost allocations are required; and (3) makes several changes to the uniform system of accounts to reduce accounting requirements and to eliminate or consolidate accounts.

4112. 1998 BIENNIAL REGULATORY REVIEW — REVIEW OF ARMIS REPORTING REQUIREMENTS

Priority: Other Significant. Major under 5 USC 801.

Legal Authority: 47 USC 151; 47 USC 154; 47 USC 161; 47 USC 201; 47 USC 202; 47 USC 203; 47 USC 204; 47 USC 205; 47 USC 215; 47 USC 218; 47 USC 219; 47 USC 220; 47 USC 403

CFR Citation: 47 CFR 43.21

Legal Deadline: None

Abstract: This Report and Order reduces reporting requirements for incumbent local exchange carriers with annual operating revenues in excess of the annual indexed revenue threshold. These modifications are designed to minimize the reporting burden on carriers, improve the quality and use of the reported financial and operating data, and reduce the costs of collection, verification, and distribution of the data.

4113. 1998 BIENNIAL REGULATORY REVIEW — REVIEW OF DEPRECIATION REQUIREMENTS FOR INCUMBENT LOCAL EXCHANGE CARRIERS

Priority: Substantive, Nonsignificant

Legal Authority: 47 USC 151; 47 USC 154; 47 USC 161; 47 USC 201 to 205; 47 USC 215; 47 USC 218; 47 USC 220(h); 47 USC 403

CFR Citation: 47 CFR 32.2000; 47 CFR 43.43

Legal Deadline: None

Abstract: In the Report and Order we streamline further our depreciation prescription process by permitting summary filings and eliminating the prescription of depreciation rates for incumbent local exchange carriers, provided that the carrier uses depreciation factors that are within the ranges adopted by the Commission; expanding the prescribed range for the digital switching plant account; and eliminating theoretical reserve studies for mid-sized carriers. We also set forth conditions pursuant to which a waiver from the Commission's depreciation prescription process may be appropriate. In the Memorandum Opinion and Order, we deny United States Telephone Association's petition for forbearance of our depreciation prescription process. We find that the petition did not meet the three-prong

FCC—Wireline Competition Bureau

Completed Actions

forbearance test under section 10 of the Act (47 U.S.C. section 160).

In the Second Report and Order, we declined to adopt a proposal to relieve carriers of our depreciation requirements where carriers elect an above-the-line accounting treatment of the regulatory-to-financial book differential.

Legal Deadline: None

Abstract: This Report and Order eliminates the expense matrix filing requirement in Section 32.5999(f) of the Commission's rules, 47 CFR Section 32.5999(f), and eliminates or streamlines several other accounting requirements. In addition, this Report and Order eliminates several tables and reporting items from our ARMIS report 43-02.
