MUST BE RECEIVED BY: JANUARY 22, 2002

**TO THE BOARD OF DIRECTORS OF THE
CREDIT UNION ADDRESSED:**

This booklet contains the yearend 2001 Call Report. All credit unions must complete pages 1, 2, 3, 4, 5, 6 and 7, as well as questions 7 through 11 on page 12. Page 15 is the PCA Net Worth Calculation Worksheet and requires no input unless you intend to use an optional Total Assets Election to compute your net worth ratio. Other pages with supplementary schedules should be completed as applicable.

The Call Report should be completed using accounting and statistical information from your credit union's records as of December 31, 2001. A paper copy of the form has been provided for your convenience. However, we urge you to prepare the Call Report using the PC 5300 System which accompanies this report. This system is more efficient to use, more cost effective and helps to ensure more accurate data.

Please return your completed Call Report information as soon as possible, but no later than **January 22, 2002**. Also submit a copy of your December 31, 2001, financial statements. There is an instructional letter accompanying this report which provides you with the appropriate return address. Please follow these instructions carefully.

If you have any questions, please contact your National Credit Union Administration Regional Office or your state credit union supervisor, as appropriate.

PCA NET WORTH CALCULATION WORKSHEET

No credit union is required to provide input on this page unless the credit union intends to use an optional Total Assets Election to compute its new worth ratio.

At its discretion, a credit union may elect a measure of total assets for its net worth denominator other than quarter-end total assets. If the credit union decides to use one of these Total Assets Elections it must input this amount in either line 9, 10 or 11 as appropriate. Otherwise, the PCA Net Worth Calculation Worksheet will compute the credit union's net worth ratio and resulting net worth classification using quarter-end total assets from line 8. (Please see NCUA Rules and Regulations §702.2 (j) for further information regarding total assets.)

All Credit Unions: This worksheet provides a means of measuring the net worth ratio. All credit unions must determine their net worth category at the end of each calendar quarter by measuring their net worth ratio. (See NCUA Rules and Regulations §702.101)

Credit unions with Assets Greater than \$10,000,000: In addition to measuring a net worth ratio, credit unions with assets greater than \$10 million must also review their Risk Based Net Worth (RBNW) Calculation Requirement at the end of the June 2001 and December 2001 calendar quarters. (Credit unions that are greater than \$50 million in asset size as of December 2000 will begin to review their RBNW Calculation Requirement each quarter beginning with the March 2001 calendar quarter.) Line 13 of the PCA Net Worth Calculation Worksheet provides the RBNW Requirement.

Manual Call Report Filers: Manual Call Report filers may leave the PCA Net Worth Calculation Worksheet blank, use it to select an optional total assets election, or use it as a manual net worth calculation worksheet. NCUA will compute the Net Worth Ratio and RBNW Requirement Calculation for manual Call Report filers with the information entered on the Call Report.

Semiannual Call Report Filers: Semiannual Call Report filers may choose to copy this work sheet and use it as a means of computing net worth manually for the March and September quarters.

STANDARD COMPONENTS OF RISK BASED NET WORTH (RBNW) REQUIREMENT

No credit union is required to provide input on this page. NCUA provides the Standard Components of Risk Based Net Worth (RBNW) Requirement worksheet to demonstrate the underlying source information of the RBNW requirement. NCUA provides this for your information only.

Credit unions with Assets Greater than \$10,000,000: As noted on page 15a, in addition to measuring a net worth ratio, credit unions with assets greater than \$10 million must also review their Risk Based Net Worth (RBNW) Calculation Requirement at the end of the June 2001 and December 2001 calendar quarters. (Credit unions that are greater than \$50 million in assets size as of December 2000 will begin to review their RBNW Calculation Requirement each quarter beginning with the March 2001 calendar quarter.) Line 13 of the PCA Net Worth Calculation Worksheet provides the RBNW Requirement.

Manual Call Report Filers: NCUA will compute the RBNW Requirement Calculation for manual Call Report filers with the information entered on previous pages of the Call Report.
