

U.S. ELECTION ASSISTANCE COMMISSION
1225 New York Ave. NW – Suite 1100
Washington, DC 20005

Statement of Commissioner Rosemary E. Rodriguez Monday, June 23, 2008

On May 5, 2008, the Veterans Health Administration (VHA) issued VHA Directive 2008-025 defining the policy for assisting patients who seek information on voter registration and voting (attached). As a result of this action, Veterans Integrated Service Network (VISN) Directors, and facility directors are responsible for ensuring that each facility has a policy that addresses assistance to VA patients who seek to exercise their right to register and vote. Information on the voting assistance program is posted in inpatient wards, domiciliaries, and nursing homes. I have attached the Directive to this statement.

I encourage state and local election officials to support the work of the VISN and facility directors in their efforts to comply with this Directive by providing non-partisan information and voting assistance to the numerous VHA facilities across the United States. State and local election officials are frequently called upon to assist patients in care facilities in their communities and, I believe, will welcome the opportunity to assist the VHA in providing voting access to the veterans in their system.

The U.S. Election Assistance Commission is prepared to assist the VHA by providing registration materials, management guidance and technical assistance.

VOTING ASSISTANCE FOR VA PATIENTS

1. PURPOSE: This Veteran Health Administration (VHA) Directive defines the policy for assisting patients who seek information on voter registration and voting.

2. BACKGROUND: VHA is committed to assisting veterans exercise their Constitutional right to vote; longstanding Department of Veterans Affairs (VA) policy ensures patients' assistance and the opportunity to exercise their voting privilege. The right to register and vote is one of the explicit rights set forth in the VA patients' rights regulation at Title 38 Code of Federal Regulations (CFR) § 17.33. Pursuant to this regulation, information about these rights, including the right to vote, is posted at each nursing station, and each patient is provided a copy when they are admitted to a VA facility. This policy establishes a uniform approach to assembling and providing information on voter registration and voting to veterans who request it.

3. POLICY: It is VHA policy to assist patients who seek to exercise their right to register and vote; however, due to Hatch Act (Title 5 United States Code (U.S.C.) §§ 7321-7326) requirements and to avoid disruptions to facility operations, voter registration drives are not permitted.

4. ACTION

b. Each facility Director must ensure:

(1) There is a written published policy on voter assistance that addresses the following:

(a) Patients are granted authorized absence for such periods of time as are necessary to register and to vote, subject to the opinions of their healthcare providers.

(b) If patients are unable to leave the facility, assistance is provided for registering and for voting by absentee ballot.

(c) Information on the voting assistance program is posted on inpatient wards, domiciliaries, and nursing homes.

(a) Informing all inpatients or residents of the opportunity to receive voting assistance information. **NOTE:** *This also needs to be done when the patient is admitted to the facility.*

(b) Ensuring all VA Voluntary Service (VAVS) personnel (including volunteers), prior to providing any information or assistance to VA patients who seek to register to vote or vote, annually review and sign the attached "Political Activities Fact Sheet and Certification," (VA Form 10-0462) and maintain the completed form in the volunteer's file .

(c) Obtaining and maintaining all materials used to assist with voter registration and voting.

1. As the requirements and procedures for absentee voting vary widely by state and because there is currently no single form that allows a voter in the United States to request an absentee ballot from any and all states, VAVS offices at each facility need access to timely and accurate state voting information.
