

## Protect Your Solar Rights

The New Mexico Energy Conservation and Management Division partners with citizens, businesses, industry, schools, universities and research laboratories to invest in *Clean Energy* infrastructure and to conduct *Clean Energy* programs.

**Learn how New Mexico can help you invest in Clean Energy:**

- ***SOLAR TAX CREDITS***

The New Mexico *Solar Tax Credit* works with the federal solar tax credit to pay up to 30% of your solar photovoltaic or solar thermal system. You can receive up to \$2,000 in a federal tax credit and up to \$9,000 in a state tax credit for your solar system. The Solar Gross Receipts Tax Deduction is a tax deduction for businesses from the sale and installation of solar energy systems.

For more information on New Mexico's solar rights visit
