To Donald Clark;

Dear sir, it is my understanding, that your committee is going to change the Made In U.S.A. label. How can something be started in Thailand, Bangkok or even Mexico & assembled here in America & still be called made in U.S.A.? We have lost so very very much to other countries & still you want us to lose some more. Please do not let this pass. Thank you.

Sincerely,  
 Wm. Urbanick
