Mr. Donald Clark; Sir

I am writing in regards to the words - Made in the U.S.A. label.

These four words appears on products that I look for and purchase, believing that the product in hand was genuinely made and put together by American workers.

This is what this label means to me.

It has been brought to my attention that the FTC is considering cheapening the meaning of this label to include products that are "substantially" made here to be labeled made in the U.S.A.

I question this!;
Isn't substantial the same
as partially, kind of made
here or not really made for
the U.S.A.?

In my house, this
wording would be uncalled
for and Totally WRONG!

I am asking the FTC to
NOT allow such a regulation
to become law.

Let's keep these words -
Made in the U.S.A. genuine
in its meaning.

The Lord tells us in Matthew
5:37

But let your yes be yes, and
your No, No. For whatever is
more than that is from the
evil one.

I believe this principal

applies here.

Thank you for your
times and attention.

In Christ Jesus.
