

7/27/97

Dear FTC,

I recently heard that you are considering a change, a relaxation, in what can be labeled "Made-in-the-USA."

I am strongly against this proposed change. The truth should be told. Purchasers should be able to know the history of their purchase - labeled as such; made in USA, made in ---, % made in USA, etc.

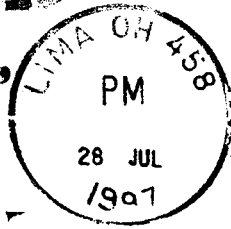

Please stand up for the rights of the American people and don't bow to the pressure of manufacturers who are trying to make the most profit.

- P M Stetter
