

We are totally against the 8-4-97
Federal Trade Comm. changing the definition
of "Made In the U.S.A." This is really trying
to pull the wool over the American public's.
How dare you!!!

We are in Marcy Kaptur's district - get
with it Marcy!

We are sick and tired of all this foreign
crap coming here. No wonder our country is
so full of crime, etc. - no jobs worth working
for - low moral'. Most of all - stop shipping
no foreign fruits, vegetables, etc. They
should be labeled as to Country of Origin.
