Made in The USA 8 July 1997
Policy comment.

I only buy products that are
labeled, "Made in the U.S.A."

I rely on the "Made in the
United States" to mean what
it says.

The current standard allows
only 2 percent. Lets keep it
that way.

Fight for the American
people and the American
worker and not for
big business or foreign
manufacturers.

Be Americans and
protect our jobs.
