## ABOUT BOOK "B"

The line-item budgets contained in this separate budget document are organized into five major sections covering all special funds included in the 2006 Adopted Budget.

The first section provides line-item appropriation and revenue detail for the county's 2006 grants, and contains grant budgets for each department. Grants are budgeted in a separate fund, the Grant Fund, which is not a part of the county's operating budget. County share portions of grant budgets are, however, included as interfund expenditures in each department's operating budget.

The grant budget information for each department contained in Book "B" includes a brief description of each grant, as well as line-item appropriation and revenue detail. Personal services information includes historical data similar to that included in the operating budget. Appropriation detail is included only for the 2006 requested, recommended and adopted amounts. Estimated revenues for each grant, listed by account, follow the project's appropriation detail. Revenue detail is included only for the 2006 requested, recommended and adopted amounts for each grant.

The second section covers various sewer districts and the Division of Sewage Management in the county's self-supporting Sewer Fund. It provides a brief description of each entity's operations and a detailed

budget. Appropriation and revenue detail is included for 2003 and 2004 actual amounts, the current year adopted and adjusted budgets and the 2006 requested, recommended and adopted amounts.

The sewer districts and the Sewer Fund are self-supporting and are not a part of the county's operating budget. To the extent that General Fund departments provide services to the Sewer Districts, interfund revenues are budgeted in the General Fund departments.

The third section provides line-item appropriation and revenue detail for the Erie County Medical Center and the Erie County Home, which are part of the Enterprise Fund. The format is the same as that included in Book "A" for the General Fund departments. The Erie County Medical Center Healthcare Network (ECMC) became a Public Benefit Corporation in 2004. The new ECMC is fully independent and no longer is part of the County's Enterprise Fund.

The fourth section includes the 2006 Adopted Capital Budget and the 2006-2011 Capital Improvement Program. Information provided in this section includes project descriptions, location of projects, total project cost and 2006 capital budget allocations for each project. Also included are detailed schedules for each department showing recommended projects and project expenditures for the six-year capital program period.

The fifth section covers the Debt Service Fund, which is a part of the county's total operating budget. The section begins with explanations of the county's debt management policies and the purposes of the Debt Service Fund, the types of expenditures paid out of the fund, and its sources of revenue. This introduction is followed by schedules showing line-item appropriation and revenue detail. Information is provided for 2003 and 2004 actual revenues and expenditures, the current year adopted and adjusted budgets, and the 2006 requested, recommended and adopted amounts. The section concludes with schedules showing the county's outstanding debt and debt service payment requirements for each fund and each issue. Also provided are a statement of the county's bonded indebtedness and a calculation of the county's total net indebtedness.

The index for Book B is followed by budget resolutions which pertain to implementation of the 2006 Budget.

# DISTRICT ATTORNEY-GRANTS

## AID TO PROSECUTION

This project is a continuation of an existing grant for the entitlement period 4/1/06 to 3/31/07. The purpose of this state grant is to provide funding for increased effectiveness in prosecuting serious, violent crimes. Assistant District Attorneys and support staff are assigned to provide specialized, expedient and efficient prosecution of serious, violent and repeat felony offender cases. Studies have shown that a disproportionate number of crimes are committed by a small cohort of “career criminals”. Targeting these felons with vigorous prosecution should result in long-term incarceration which is an effective means of significantly reducing crime.

<b>Federal Share</b>		—
<b>State Share</b>	<b>\$</b>	<b>670,815</b>
<b>County Share</b>	<b>\$</b>	<b>736,805</b>

## BE-SAFE

This project is a continuation of an existing grant for the entitlement period of 10/1/06 to 9/30/07. BE-SAFE is designed to develop a comprehensive approach and strengthen multi-disciplinary cooperation between the District Attorney’s Office, probation, law enforcement and victim services to ensure the safety of domestic violence victims. Investigative resources of the District Attorney’s Office and victim assistance are strengthened, and needs/safety assessments and referrals provided. BE-SAFE improves both the prosecutorial and investigative skills by providing training and education.

## CRIMES AGAINST REVENUE PROGRAM

This project is a continuation of a grant, which was new to the District Attorney’s Office in 2005, and is for the entitlement period 7/1/06 to 6/30/07. The program is designed to establish and enhance the investigation and prosecution of those who violate sales and income tax laws as well as those who commit white-collar crimes and fraud. The District Attorney’s Office will be working with both the New York State Department of Taxation as well as the United States Attorney’s Office in order to reclaim lost revenue and increase voluntary compliance with applicable laws.

## DRUG COURT PROGRAM

This project is a continuation of a grant, which was new to the District Attorney’s Office in 2005, and is for the entitlement period 7/1/06 to 6/30/07. The mission of the Drug Court is to intervene in the criminal justice continuum as early as possible for the purpose of identifying, screening and referring substance-abusing offenders to treatment. Through treatment and the closely managed community reintegration process, drug court aims to break the cycle of addiction, criminality, arrest, prosecution, conviction, incarceration, release, relapse, associated criminality and re-arrest.

This project is a continuation of an existing grant for the entitlement period of 3/1/06 to 2/28/07. The purpose of this grant is to support programs designed to detect, prevent, deter and reduce automobile theft and insurance fraud. Aggressively investigating and prosecuting perpetrators of motor vehicle theft and insurance fraud should reduce the number of motor vehicles stolen, stripped and abandoned, as well as increase community awareness of the prevalence of this issue.

This project is the continuation of an existing grant for the entitlement period 7/1/06 to 6/30/07. OPERATION IMPACT (Integrated Municipal Police Anti-Crime Teams) is part of a comprehensive strategy to reduce crime in New York State. Through improved coordination among federal, state and local law enforcement, this program attacks violent street crime and addresses illegal guns, gangs and drugs. The Buffalo Police Department is a partner of the Erie County District Attorney's Office under this grant program.

Also, because there is a need for better coordination of the follow-up to the Notification sessions (in terms of coordination of information held by the various law enforcement agencies about offenders who have been session attendees), the Probation Officer will serve as the coordinator for this information and will work with the University of Buffalo Regional Community Policing Center to gather data on offender outcomes.

## HIGH IMPACT INCARCERATION PROGRAM (HIIP)

This grant is funded through the New York State Division of Parole for the period 11/1/06 to 10/31/07. It provides intensive substance abuse treatment for parolees currently incarcerated at the Erie County Correctional Facility. Successful completion of the counseling program qualifies the parolee for early release. Counseling within the facility and follow-up services after release are provided through a sub-contract with Horizon Health Services. All decisions for program eligibility and early release are made by the New York State Division of Parole.

# SOCIAL SERVICES-GRANTS

## ENERGY SERVICES PACKAGING PROJECT 06-07

This grant project is a continuation of an existing grant for the entitlement period 10/1/06 to 9/30/07. The purpose of this federal program is to assist low income households, regardless of age, with household energy problems. The program identifies energy-vulnerable households in need of energy packaging services and provides energy case management services and consumer education for household members. The program also helps to coordinate energy suppliers, community groups and Department of State Weatherization Program providers to meet the needs of targeted households. The Department of Social Services contracts with the Department of Senior Services for these services through an interdepartmental agreement. The grant is 100 percent reimbursed with Federal funds passed through New York State.

## DAY CARE REGISTRATION PROGRAM

This grant project is a continuation of an existing grant for the entitlement period 1/1/06 to 12/31/06. The purpose of this program is to ensure the provision of safe, quality child day care through registration and inspection of family day care providers and after-school programs. These providers are an important component of the child day care delivery system to both low income non-public assistance recipients and also to public assistance parents assigned to "Work First" activities. The program was expanded in 2001 to include new inspection, monitoring, training and fingerprinting responsibilities mandated by the federal government. The Department also contracts with the Child Care Coalition of the Niagara Frontier via this grant for orientation and training programs for family day care providers and fingerprinting provider staff. The grant is 100% funded by Federal reimbursements passed through New York State.

## HOME ENERGY ASSISTANCE PROGRAM (HEAP)

This project is a continuation of an existing program for the entitlement period 10/1/06 to 9/30/07. The purpose of this Federal program is to assist low income families and individuals to meet their home energy costs and to assure continuing utility service. The funds are used to pay basic heating assistance benefits as well as emergency heating assistance benefits to avoid utility disconnection. Payments are made to utility companies and other home energy providers on behalf of eligible households based on eligibility criteria and benefit levels established by New York State. Approximately 100,000 payments for heating assistance are processed annually under this program.

Program benefit payment expenses only are funded in this grant project. Administrative costs of the program, for application processing, eligibility determination, and payment authorization, have been moved to the Department's operating budget as a result of conversion to the County's new accounting system. This change is consistent with the way these expenses are claimed for reimbursement. Outreach activities, including a portion of intake and certification for both basic and emergency benefits, are subcontracted to the Department of Senior Services through an interdepartmental agreement. Outreach services are provided in both semi-permanent and temporary community sites as required. Funds for the administration of the Senior HEAP program are also passed through to the Department of Senior Services through an interdepartmental agreement.

Any reduction in Federal support for the HEAP program during the entitlement period may require a reduction in program service and a shift of the cost of heating assistance provided to Public Assistance clients to Family Assistance (FA) and Safety Net Assistance (SNA) programs. Also, the heating costs of non-Public Assistance families and individuals would shift to the Emergency Assistance to Families (EAF) and the Safety Net Assistance (SNA) programs. HEAP program benefits are 100 percent funded by Federal reimbursements passed through New York State.

**MEDICAID MANAGED CARE**

This grant project is a continuation of an existing grant for the entitlement period 4/1/06 to 3/31/07. This grant provides resources to the Department to cover a portion of the costs of administering the Medicaid Managed Care program. It supports staff who process and maintain the enrollment of eligible clients into various managed care plans. Erie County has been a statewide leader in the development and utilization of managed care options for Medicaid clients since their inception. These programs provide clients with a primary care physician to manage their care and ensure access to regular preventive care. In addition to better meeting the health care needs of the client, they are a more cost-effective option to expensive emergency room care.

Enrollment of the majority of individuals is mandatory under a federal waiver. Others enroll voluntarily, while others are ineligible. Nearly 73,000 individuals participate in the Medicaid Managed Care program annually. New York State estimates that managed care enrollment of these individuals reduces the annual Medicaid cost by \$28 Million (\$7 Million County Share) as compared to the costs of actuarially equivalent individuals who are not enrolled. The grant is 100 percent funded by a combination of Federal reimbursements passed through New York State and State matching funds.

**NEW YORK WORKS BLOCK GRANT**

This grant project is a continuation of an existing grant for the entitlement period 1/1/06 to 12/31/06. The grant is part of a statewide Transitional Services program that is used to facilitate the transition to work of clients in receipt of public assistance. In Erie County the funds are used to provide wage subsidies to private sector and not for profit employers who agree to hire Family Assistance clients through the County's PIVOT wage subsidy program. Actual wages may be

subsidized for up to three months while the new employee undergoes training and makes the transition to full-time, permanent employment. The placements are further supported by the county's Transition to Work staff and Transitional Services program. These programs ensure that transitional benefits such as child care, food stamp assistance and Medicaid are in place as needed when the Family Assistance case is closed, and that former clients successfully adjust to the world of work. Approximately 220 new PIVOT placements are made annually. The grant is 100 percent funded by Federal reimbursements passed through New York State.

# MENTAL HEALTH-GRANTS

## SINGLE POINT OF ACCOUNTABILITY Children's Intensive Community Services

This grant represents the consolidation and expansion of several projects that are targeted to high risk/high need children and youth with a serious emotional disturbance (SED) and/or behavioral disorder and their families. Its entitlement period is 1/1/06 to 12/31/06. The SPOA process targets children and youth at risk and/or with a history of hospitalization or out-of-home placement, with multi-system involvement or needs, with functional impairments and/or psychiatric symptoms, and an unsuccessful history of mental health treatment. The primary goals of SPOA include maintaining high risk/high need children in the community with their families, reducing out-of-home placements, facilitating the earlier return of children and youth already placed out-of-home, increasing access to community based services, utilizing an individualized care model with a strength-based approach and assuring active parent involvement at all levels of SPOA. In 2006, the focus of these initiatives is expanded to include PINS and JD Diversion Services to reduce placements to institutional care for these at-risk populations. Through this consolidation and expansion, the grant provides the funding levels necessary to contract for a comprehensive array of community services for children in the above target population including each of the following:

- Expanded access to clinic treatment for children referred to Family Court;
- Children's Services Enhancement Program;
- Children's Mental Health Wraparound Reform;
- Mental Health Wraparound Residential Demonstration;
- Family Support/ Mentoring;
- Urgent Access Short Term Intensive In Home; and,
- Step Down/Diversion Wraparound Services;
- Early Intervention/Residential Treatment Diversion;
- Overnight Respite';
- Mobile Crisis Outreach.

Approximately thirteen hundred (1300) children and their families can be served with this continuum at any point in time. Reflecting the multiple system needs of children and their families served, this grant is funded with a combination of New York State Office of Mental Health State Aid and Erie County Department of Social Services interdepartmental transfer funds.

## FAMILY VOICES: CHILDREN'S SERVICE SYSTEM REFORM SAMHSA Child Mental Health Initiative

This grant represents an award made by the Substance Abuse and Mental Health Services Administration (SAMHSA) under the Department of Health and Human Services' Comprehensive Community Mental Health Services for Children and Their Families Program. Its entitlement period is 1/1/06 to 12/31/06. The grant's overall goal is to augment and expand an ongoing reform process for the County's system of care serving children who are at risk of out of home, school, or community placements due to the behavioral manifestations of serious emotional disturbance. The initiative will emphasize prevention of residential placements, reducing the length of stay when a child has been placed in residential services and improved clinical outcomes for children and families through linkage to intensive services in the community. These services will be provided consistently with the national wraparound model of care coordination. The wraparound model is an evidence based approach in which services are planned and implemented on an individual family basis by an interdisciplinary team of professionals and other individuals with significant relationships to the family in a manner that is family driven and consistent with the child's and his/her family's strengths and needs.

Other program components to be developed include the creation of a specialized mobile crisis response team, overnight respite and short-term emergency residential services. The project will also increase the number of family advocates in the children's mental health system and expand the role of families and youth toward planning for future service development and the oversight of service delivery and policy formation. A total of 1,500 families will receive services through this six year reform initiative.

## WIC VENDOR MANAGEMENT

This grant is for the entitlement period 10/1/06 to 9/30/07. The purpose of WIC vendor management is to authorize and provide oversight to the retail food stores (vendors) used in the delivery of prescribed foods to WIC Program participants. Vendor management activities include application processing, contracting, training and monitoring. Vendor management agencies must enroll an appropriate number of vendors to ensure participant access to prescribed foods. These agencies must also develop cooperative working relationships with vendors to ensure compliance with contractual and regulatory requirements.

## WOMEN, INFANTS AND CHILDREN'S SUPPLEMENTAL NUTRITION PROGRAM (WIC)

This grant is a continuation of an existing grant for the entitlement period 10/1/06 to 9/30/07. The purpose of the grant is to reduce the incidence of nutrition-related illness in pregnant women, infants and children. The target populations are pregnant and nursing women, infants up to 12 months of age, and children up to five years of age who are at nutritional risk and meet financial eligibility requirements established by the US Department of Agriculture. The grant provides nutrition education, diet counseling, mandated breastfeeding education and postpartum lactation assistance by a Board Certified (IBCLC) Lactation Consultant, as well as distributing WIC checks for the purpose of approved supplemental foods high in nutrients. Encouraging breastfeeding over formula feeding is a priority issue in WIC, and is further enhanced in this funding year with an additional (exclusive) grant from the NYSDOH to distribute quality breast pumps to those clients who choose to exclusively breastfeed. The WIC grant is funded with US Department of Agriculture monies channeled through the state.

# ENVIRONMENT AND PLANNING COMMUNITY DEVELOPMENT FUND - GRANTS

The following pages contain both the Operations Budget for the administration of the Community Development Block Grant Programs and the estimated Grant Budgets for the three awarded programs. These programs are a continuation of three existing grants from the U.S. Department of Housing and Urban Development for the entitlement period of 04/01/06 to 03/31/07. It is anticipated that federal support for these programs will continue at the following levels:

<b>Community Development Block Grant</b>	
Federal Share	\$ 3,317,009
Program Income	\$ 696,054
<b>HOME Investment Partnership</b>	
Federal Share	\$ 1,234,748
Program Income	\$ 85,000
<b>Emergency Shelter Grant</b>	
Federal Share	<u>\$ 124,203</u>
<b>TOTAL</b>	<b>\$ 5,457,014</b>

A resolution will be presented to the Legislature in February authorizing the Department of Environment and Planning to administer the awarded amounts and execute any and all agreements to implement the programs. The awarded amounts will be accounted for as Funded Programs in SAP.

The Community Development Block Grant is used to assist participating municipalities in the development of locally approved community or economic development activities which are eligible under federal program regulations. It is also used for a housing rehabilitation loan program and for job-creating economic development loan programs.

The HOME Investment grant is used to rehabilitate the homes of low and moderate income homeowners, as well as assisting in the purchase of homes to qualified first time homeowners. Additionally, non-profit community housing development organizations receive funds to purchase and rehabilitate housing for low income households.

The Emergency Shelter Program funds several non-profit agencies to provide homeless services to participating communities.

These programs serve all cities, towns and villages in the County with the exception of the cities of Buffalo, towns of Amherst, Cheektowaga and Tonawanda, and the villages of Kenmore, Sloan, Williamsville and the Cheektowaga portion of Depew.

# COUNTY EXECUTIVE - COMMUNITY DEVELOPMENT FUND-GRANT -

## OFFICE OF WORKFORCE DEVELOPMENT

This is a continuation of an existing project for the period 1/1/06 to 12/31/06 to fund activities of the Buffalo and Erie County Workforce Investment Board (WIB). The Office of Workforce Development provides staff support for the WIB and advises the County Executive on workforce development issues. The WIB has the key role of providing direction on local strategic workforce issues, identifying needs, and developing strategies to address those needs. It is responsible for overseeing the Title I program under the Workforce Investment Act, Welfare-to-Work programs, and the Youth Opportunity Grant for the City of Buffalo. Appointed by the County Executive and the Mayor of Buffalo, the WIB works in partnership with these elected officials to develop the five-year workforce investment plan, select One-Stop Operators and providers of training for workers, coordinate a wide variety of Federal and other employment and training programs, promote private sector involvement in the workforce development system, and coordinate workforce training with local economic development efforts. In its role as overseer of the local workforce development system, the WIB must establish program performance standards in conjunction with the New York State Department of Labor.

All costs associated with the Office of Workforce Development are reimbursed to Erie County from federal funds provided under the Workforce Investment Act.

# SEWER FUND APPROPRIATIONS/ REVENUES

# SEWER DISTRICTS

## DESCRIPTION

The Erie County Sewer Districts are special service districts created pursuant to state and local law.

They have been created to provide sewer services to communities within their respective boundaries, as specified by contracts between each district and the local jurisdictions served. Sewer districts are responsible for the construction, operation and maintenance of lateral and interceptor storm and sanitary sewer systems, and wastewater treatment facilities.

The Sewer Districts are governed by Boards of Managers appointed by the County Executive.

The Sewer Districts are self-supporting entities with the power to assess appropriate service fees and levy local sewer taxes. Their annual revenues, which are sufficient to cover all operating costs and capital debt service, are derived from a combination of flat rate charges, parcel charges, footage charges, user charges, and sewer taxes based on the assessed value of real property.

The Erie County/Southtowns Sewage Treatment Agency is an independent agency which is made up of five municipal members. As one of the members, Erie County finances, operates and maintains the Southtowns' facilities for the Agency. The Erie County/Southtowns Sewage Treatment Agency receives revenue from a unit charge.

Capital construction is eligible for both federal and state aid when available; however, only low interest loans are presently available. The Sewer Districts have received 34 low interest loans totaling \$60 million as part of a multi-million dollar construction program.

### ERIE COUNTY SEWER DISTRICT NO. 1

This District serves the southern portion of the Town of Cheektowaga and the northern portion of the Town of West Seneca.

It provides a network of interceptor and lateral sewers which transport sanitary sewage for treatment by the Buffalo Sewer Authority.

### ERIE COUNTY SEWER DISTRICT NO. 2

This District serves portions of the Towns of Evans, Eden, Hamburg and North Collins, including the Villages of Angola and North Collins. Out-of-District agreements also provide service to the Brant-Farnham and Lotus Bay Area Sewer Districts, and Evangola State Park. The District operates and maintains a network of lateral and interceptor sewers which convey flow into the District's own sewage treatment facility at the mouth of Big Sister Creek near Lake Erie. The Sewage Treatment Facility is staffed and operates 24 hours/day.

### ERIE COUNTY/SOUTHTOWNS

#### SEWAGE TREATMENT AGENCY - SEWER DISTRICT NO. 3

The Sewage Treatment Agency serves the Towns of Hamburg, Boston, Orchard Park, Eden, and the Mt. Vernon, Locksley Park, Wanakah, Amsdell Heights and Cloverbank areas in the Town of Hamburg; and Woodlawn, Blasdell and Sewer District No. 3. Sewer District No. 3 also includes the Towns of West Seneca and Holland.

District No. 3 also operates and maintains two modern sewage treatment facilities in the Town of Holland and the Village of Blasdell for treatment of the sewage from those communities as well as portions of the Town of Hamburg tributary to the Village of Blasdell's system. These treatment facilities are staffed Monday through Friday 8:00 a.m. – 4:00 p.m. Currently District 3 provides services by contract to the Village of East Aurora and the Town of Aurora. It is proposed that Erie County Sewer District No. 8 be formed to serve the Village of East Aurora and the Town of Aurora in 2007. Erie County Sewer District No. 8 will include a network of sanitary sewers in the Village of East Aurora and 3 sewer districts in the Town of Aurora as well as a modern sewage treatment facility in the Village of East Aurora.

Additionally, the Erie County/Southtowns Sewage Treatment Agency operates and maintains a network of interceptor sewers which transport sewage to its modern treatment facility on Lake Erie. The sewage treatment facility is staffed and operates 24 hours/day.

### ERIE COUNTY SEWER DISTRICT NO. 4

This District serves the Villages of Depew and Lancaster and the Town of Lancaster to a point approximately 1,000 feet east of Pavement Road. The District was recently extended along the Walden Avenue industrial corridor. It provides a network of lateral and interceptor sewers which transport sanitary sewage for treatment at the Buffalo Sewer

Authority. By contract it also services the Lancaster and Alden Town Sewer Districts.

**ERIE COUNTY SEWER DISTRICT NO. 5**

This District serves the Transit Road area of the Towns of Amherst and Clarence, in addition to adjacent residential areas and Clarence Center. It is primarily a network of sanitary sewers which transport sanitary sewage to the Town of Amherst for treatment at the town's treatment facility. This District also operates two small sewage treatment plants and services various Town of Clarence Sewer Districts by contract.

**ERIE COUNTY SEWER DISTRICT NO. 6**

This District serves the City of Lackawanna and several out-of-district areas by contractual agreement. It operates and maintains the network of sanitary and storm sewers in the City of Lackawanna as well as a sewage treatment facility. The Sewage Treatment Facility is staffed and operates 24 hours/day.

**DIVISION OF SEWERAGE MANAGEMENT**

The Division provides management staff related to the administration, operation, design and construction of the sewer facilities. Engineering duties include: facilities planning, design, supervision of construction, inspection, approval of contractor payments, applying for the financing of new projects, accounting, and handling of construction claims. The Division also supervises the daily operation of the six Erie County Sewer Districts and the Erie County/Southtowns Sewage Treatment Agency. It is funded through interfund and interdepartmental revenues from various sewer districts and capital projects which, in turn, receive state and federal construction grants and loans.

# 2006 CAPITAL BUDGET

---

---

## Introduction to the 2006 Capital Budget

This section of the budget includes the 2006 Capital Budget and 2006-2011 Capital Improvement Program. The Erie County Charter, Article XVIII, requires the County Executive to submit annually to the Legislature a capital improvement program for the next six-year period. Article 18 of the Erie County Administrative Code establishes procedures for the Budget Director and a Capital Projects Committee to develop a recommended six-year Capital Improvement Program. The capital programming process for most projects normally takes place between May and August, with submission of a recommended Capital Improvement Program to the County Executive required by September.

Capital projects are defined as all physical projects having a minimum value of \$50,000 which meet the following criteria: (1) All physical projects of a non-recurring nature, including construction, improvements or renovations to buildings, roads, bridges, parks, etc.; (2) Acquisition of equipment which has a useful life of five years or more; or (3) Acquisition of property or planning/engineering studies which will lead to a capital project.

All projects proposed for inclusion in the six-year program are submitted by the sponsoring departments to

the Department of Environment and Planning, which is responsible for coordinating the development of the capital program. Information concerning cost, project justification, location and suggested programming year is submitted.

Each project is analyzed by the Department of Environment and Planning and the Capital Projects Committee. Certain projects are also analyzed by the Erie County Development Coordination Board, which is appointed by the County Executive. The Capital Projects Committee consists of representatives from those county departments prescribed by the Erie County Administrative Code. Projects are ranked according to criteria established by the Development Coordination Board. The Board is assisted by the Department of Environment and Planning. Projects with a significant impact on public health and safety receive the highest ranking. A six-year program is prepared which considers project relationships to each other, as well as financial requirements. The program includes an annual Capital Budget which defines those projects recommended for implementation during the coming year.

The Capital Projects Committee submits its

recommended Capital Improvement Program and proposed Capital Budget to the County Executive by September for his consideration in preparing the annual County budget.

The Capital Budget is a separate portion of the total County budget for the coming fiscal year. It represents the first-year implementation of projects in the six-year Capital Improvement Program. The Capital Budget is developed separately from the operating budget of the County for several reasons. Capital improvement projects usually involve substantial expenditures which may be required over a period of years.

Capital projects are also different from activities that are funded under the operating budget. Capital projects include physical development projects such as new public buildings, sewers or parks, and road or bridge construction. The operating budget, on the other hand, includes ongoing operating and normal maintenance expenditures.

Development of a six-year Capital Improvement Program is an effective way to plan for future physical improvements and to analyze both the expenditures that will be required to finance these improvements and the potential impacts of the projects at an early stage. It also sets priorities for capital improvements and thus ensures that the most critical needs are met first.

The capital planning process has been enhanced in a number of significant ways. The capital programming strategy considers and balances the County's ability to both complete previously authorized projects and undertake new projects. Financial as well as operational capabilities are assessed and capital borrowing targets are established.

In order for projects to be considered for the 2006 Capital Budget, they had to meet one of the following tests:

- **Health and Safety** - Projects which have a direct relationship to reducing hazards to the health and safety of county residents or employees. This is considered to be the highest priority criterion in the review process.
- **Previous Commitment** - Multi-year projects which were authorized in prior years, and which require necessary funding to complete the entire project.
- **Legal or Governmental Mandates** - Projects which the County is required to undertake by law or court order, or under federal or state mandate.
- **Special Considerations** - Projects which do not meet the above tests but which warrant further consideration due to special circumstances, such as the loss of outside funding if the project is not undertaken.

Any project which passed the initial screening was analyzed by the Planning Division using weighted review criteria. The use of weighted review criteria results in numeric scores and, subsequently, a preliminary priority listing of proposed capital projects. The process, however, develops a single listing of projects in priority order, and thus facilitates the balancing of projects to the availability of funds.

The 2006 Budget contains authorizations for four (4) General Projects, twelve (12) Road and Bridge Projects, three (3) Sheriff Projects, two (2) Information and Support Services Projects, one (1) Parks, Recreation and Forestry Project, three (3) Environment and Planning Projects, seven (7) Erie County Medical Center Projects, three (3) Erie County Home Projects, and three (3) Erie Community College Projects.

Table 1 summarizes projects in the 2006 Capital Budget. It totals \$29,994,840 including State and Federally funded projects. This table includes the project title in each project classification, a column showing the county six-year total project cost for the projects programmed in 2006, and a column showing the Capital Budget allocations in 2006. Brief descriptions of these projects follow Table 1.

Project descriptions include an indication of the operating budget impacts of capital projects. In many cases, there will be no operating impact in the 2006 budget, either because there will be no impact due to the nature of the project, or because project completion will not occur in 2006. Operating budget impacts that will occur in the future from project completion will be quantified and addressed in the appropriate future budgets.

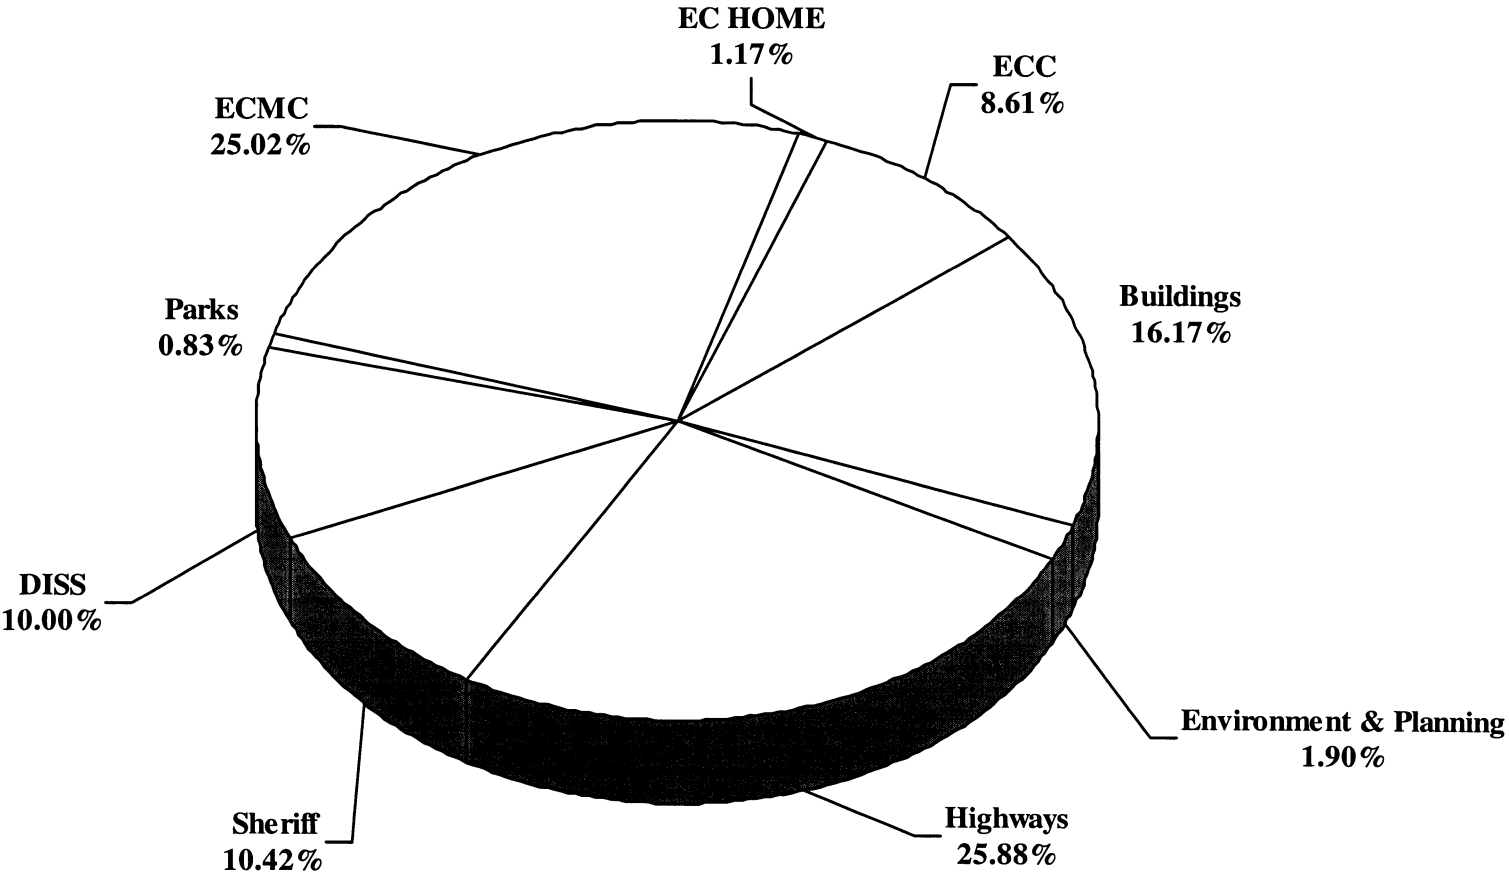

In some cases, such as road and bridge projects or heavy equipment purchases, the capital spending will enable current resources for maintenance and repair to be redirected, with no net change in operating costs.

Following the description of projects included in the 2006 Capital Budget are a series of tables which

represent the six-year Capital Improvement Program. The 2006-2011 Capital Improvement Program totals \$462,952,340. It is summarized in Table 2 by department. Schedules which show the six-year Capital Improvement Program projects for each department are provided in Tables 3 through 11.

Comprehensive schedules of outstanding capital debt and debt service requirements are included in the Debt Service Fund section of the 2006 Budget.

***Bonded Project: \$1,000,000***

## **V. PARKS, RECREATION AND FORESTRY PROJECTS**

### **PARKS EQUIPMENT (COUNTYWIDE)**

In July 2004, the County took over responsibility for the City of Buffalo's Parks. The equipment acquired in the consolidation is in serious need of upgrading. This project is to provide the Parks Department with new equipment for the County and City parks, which will reduce operating and maintenance costs and improve employee productivity.

***Bonded Project: \$250,000***

## **VI. ENVIRONMENT & PLANNING PROJECTS**

### **TIMES BEACH ACCESS TRAIL – PHASE II**

The restoration of Times Beach, a downtown brownfield, is among the highest priorities for redevelopment of Buffalo and Erie County's waterfront. By creating public access and investing in the restoration of this site, this unique resource will be leveraged for its natural habitat and tourist value.

***Bonded Project: \$120,000***

## **LAKE ERIE TRAIL – PHASE II**

This project entails the design and construction of a 2.5 mile long bicycle/pedestrian trail along Old Lake Shore Road in the Town of Evans. This phase would extend the trail from Evans Town Park to Lake Erie Beach Park. The total cost of this project is estimated to be \$700,000 including \$350,000 in State funding.

***Bonded Project: \$350,000***

## **BUFFALO RIVER WALLEYE MANAGEMENT (CHEEKTOWAGA)**

Lake Erie Walleye (or Yellow Pike) populations are down to record low numbers as a result of commercial fishing and environmental degradation of riverine spawning habitats. The restoration of Walleye requires input of local genetic Walleye fingerlings in sufficient quantity to restore walleye abundance in the Buffalo River and the adjacent areas of Lake Erie and the Niagara River. This project will fund the construction of an artificial pond near Cayuga Creek in the town of Cheektowaga. The one-acre rearing pond will raise 25,000 to 50,000 walleye fingerlings and subsequently release them into the Buffalo River system. The total cost of this project is \$350,000 including Federal funds of \$250,000.

***Bonded Project: \$100,000***

## **VII. ERIE COUNTY MEDICAL CENTER PROJECTS**

In addition, the investment will fund the replacement of existing desktop hardware that is inoperable due to age and high levels of utilization.

***Bonded Project: \$405,000***

### **DATA NETWORK REQUIREMENTS**

This project is part of a multi-phase project that will fund upgrades, replacement of aging components and increased capacity of ECMC's data network and servers. Also included is additional equipment needed for remote access, business continuity, Physician Order Management and E-Health.

***Bonded Project: \$450,000***

### **HEALTH INSURANCE PORTABILITY & ACCOUNTABILITY (HIPAA) COMPLIANCE**

The Health Insurance Portability and Accountability Act (HIPAA) of 1996 mandates standardizing certain electronic transactions used in healthcare between providers and payers. It also mandates compliance with a complex set of patient confidentiality and privacy regulations. In 2003, HIPAA adopted final regulations for security standards to protect electronic health information systems from

improper access or alteration. ECMC will use this project funding to address HIPAA's requirements. Once all facets of the project are implemented, ECMC expects to save approximately \$1,000,000 per year.

***Bonded Project: \$50,000***

### **ELEVATOR UPGRADE**

The current elevators have been in use since ECMC opened in 1978. Parts are no longer available to service these elevators. This funding will provide for the replacement of two elevators, with future allocations intended to replace one elevator per year.

***Bonded Project: \$150,000***

### **PATIENT UNIT RENOVATIONS**

Many of the patient units have not undergone renovation since the opening of ECMC in 1978. This project is part of a multi-phase plan that will allow ECMC to address fire and building codes, ensure compliance with all facility related JCAHO (Joint Committee Accreditation for Healthcare Organization) standards and improve overall patient and staff satisfaction.

***Bonded Project: \$2,000,000***

### **LAUNDRY UNIT EQUIPMENT REPLACEMENT**

The current equipment in ECMC's laundry unit is dated and needs constant service. This project will finance the purchase of new equipment which will increase efficiency and improve patient services.

***Bonded Project: \$450,000***

## **EQUIPMENT PURCHASE & REPLACEMENT**

The Erie County Medical Center is continually replacing and upgrading the equipment necessary to make the hospital a first-rate facility. This project is part of a multi-phase project to provide funds necessary to keep the hospital competitive in this area. Some of the equipment identified for this year includes: cardiac arrest carts, patient beds and chairs, infusion devices and various other mechanical and medical equipment.

***Bonded Project: \$4,000,000***

## **VIII. ERIE COUNTY HOME PROJECTS**

### **ELEVATOR UPGRADES**

The elevators at the Erie County Home are deteriorating due to age and extensive utilization. A safety inspection of the elevators resulted in a report that indicated non-compliance with all safety-related standards, including various citations concerning hydraulic systems, controllers, stop switching and braking gear. This project is part of a multi-phase project to renovate the remainder of the eleven elevators at the Home.

***Bonded Project: \$200,000***

### **RESIDENT EQUIPMENT & FURNITURE REPLACEMENT**

This project provides funding for a range of equipment and furniture that is necessary for the care and safety of the 600 patients housed at the Erie

County Home. Some of the equipment slated for replacement includes: patient beds and dressers, dining room furniture, and medication and treatment carts.

***Bonded Project: \$100,000***

### **FUEL OIL TANKS REPLACEMENT**

This project will finance the replacement of fuel tanks located on the grounds of the Erie County Home. Replacement will prevent oil spillage due to tank failure and ensure compliance with all environmental regulations.

***Bonded Project: \$50,000***

This project will fund the replacement of elevator hydraulic cylinders located below ground level at the North and South Campuses. Elevators need to be upgraded to meet State building codes and to meet ADA code issues. The total cost of this project is

\$650,000, including State funds of 50 percent, or \$325,000.

***Bonded Project: \$325,000***

#### **EXTERIOR BUILDING RENOVATIONS (BUFFALO)**

This project will provide funding for multiple improvements to the exterior at the City Campus. This work will include, but not be limited to, replacement of defective bricks, copper gutter flashing and face board, mortar joints and window trim. The total cost of this project in 2006 is \$800,000, including State funds of 50 percent, or \$400,000.

***Bonded Project: \$400,000***

## Debt Management

The County administration's Fiscal Stability Plan sets forth objectives regarding prudent debt management. This plan articulated policies and initiatives to reduce the County's debt burden and to improve the County's financial position, including the objective to improve the County's credit rating. The underlying ratings of County bonds by Moody's, Standard and Poor's and Fitch are "Baa3," "BBB" and "BBB-" respectively.

The fundamental principles of the County's debt management policy include: restricting long-term borrowing to improvements too large to be financed from current revenues; continuation of good communication with rating agencies; continuation of full disclosure on all financial and official statements; and the use of bonds rather than Bond Anticipation Notes wherever possible to finance capital projects.

It is the County's intention to limit annual capital borrowing, exclusive of sewer fund debt, to assure a reduction in the amount of long-term debt outstanding. This policy is subject to change to take advantage of future opportunities that may develop.

Supplementing the County's debt management policy are a series of improvements to the County's Capital Planning process. The Capital Planning process is more fully described in the Capital Fund section of the Budget.

## Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for the payment of principal and interest on long-term debt. The Debt Service Fund was established at year-end 1986 to segregate resources for a "Reserve for Bonded Indebtedness" created by the Legislature pursuant to Section 6-h of the General Municipal Law. A Debt Service Fund is required for the legally mandated segregation of resources represented by the reserve. The Debt Service Fund is used only for the accumulation of resources for and payment of General Fund and Sewer Fund debt service.

The types of expenses paid out of the Debt Service Fund are the following:

**Bond Principal:** When a bond is sold, the County agrees to pay back the amount borrowed over a set period of time. This is called an amortization schedule. It is determined by the "Period of Probable Usefulness" of an item. This time period is set by Local Finance Law. Each bond issue includes a schedule of how much principal will be paid back each year. The annual principal payment expense is paid out of the Debt Service Fund.

**Bond Interest:** When a bond is sold, it is priced according to market conditions and the credit rating of the County. Typically, these rates change each year and are printed on the cover page of the Bond Official Statement along with the payback schedule. The annual interest expense is paid out of the Debt Service Fund.

**Reserves:** The County, at its option, can establish a reserve during a year to fund future years' debt service. These reserves must be identified as to that specific debt service they will pay. Local Finance Law restricts the amount of the reserves that can be used in a given year to the amount of the scheduled annual debt service payment. Any excess reserves over this amount must be set aside in the reserve to pay future years' debt service for that project.

Debt service payments on short-term indebtedness are not paid out of the Debt Service Fund. Interest payments on Revenue Anticipation Notes (RAN's), Tax Anticipation Notes (TAN's) and Bond Anticipation Notes (BAN's) are paid directly out of the General Fund. BAN principal payments are made out of the Capital Fund. Debt Service payments on all

Enterprise Fund indebtedness are paid directly from the Enterprise Fund rather than from the Debt Service Fund.

The sources of revenue for the Debt Service Fund are the following:

**Accrued Interest:** Typically, a bond sale is not closed on the same day as the date of sale. For example, the bonds may be dated September 1st and the closing date may be September 5th. During that five day period, the County is responsible to pay interest to the bond holders. The bond underwriter, therefore, holds the cash for the five days and pays interest to the County equal to the amount of interest expense the County incurs for those five days. This interest income must be restricted for payment of future debt service on the bonds issued.

**Interest Earnings:** Bonds are typically sold to finance Capital projects. A capital project can take from six months to six years or longer to complete. Therefore, the County invests the bond proceeds and draws against the proceeds only as needed to pay bills. The interest generated on the invested bond proceeds is restricted to pay debt service for the specific project for which the bonds were borrowed.

**State/Federal Aid:** If any aid is received as a reimbursement for debt service incurred by the County, this aid must be restricted for payment of debt service for the specific project for which the aid was received.

**Unexpended Bond Proceeds:** The amount borrowed for a capital project is an estimate of the cost of the project. If the project is completed for less than the estimate and less than the amount borrowed, these excess

bond proceeds may then only be used for the following purposes: if debt service still exists for the project, then the excess bond proceeds must be used and/or reserved to pay this debt service; if no debt service for the project exists, then the excess bond proceeds may either be used to pay other debt service, or to fund other "like" capital projects, or they may revert back to the General Fund.

**Subsidies:** The difference between debt service to be paid during a year and revenues available from any other sources must be funded. This funding is provided in the form of subsidies from the General Fund, Public Library Fund and the Sewer Fund. The subsidies are provided in the form of interfund transfers to the Debt Service Fund.

The schedules which follow detail the debt service principal and interest payments and installment purchase debt to be paid out of the Debt Service Fund in 2006. These payments include General Fund, Public Library Fund, Erie County Medical Center, Erie County Home and Sewer Fund debt service obligations. The schedules also detail the various sources of revenue available to the Debt Service Fund, including the subsidies provided by the General Fund, Public Library Fund and Sewer Fund.
