It has come to my attention that the "Made in U.S.A." label regulations and meaning is being discussed with an eye to change. Do NOT change the "made in U.S.A." regulations. We Americans have been hurt enough in our heritage and job market by changing federal regulations. It is about time our government stand up for the average American worker. We have been sold out too many times already. Stand up for all of us who pay our taxes regularly, who work 40/50/60 hours a week.
