

Aug. 13, 1997

To the Federal Trade Commission:

We wish to voice our opinion against the policy shift being considered for "Made in the USA" labeling. Please keep this process as it now is. It is a matter of pride in our own country - not in the slave countries so many imported items come from. We, as a family, look for the USA labels and often are willing to pay more because we know we are supporting our country's workers and their ability to care for their families, too. What's the American worker supposed to do — all go on welfare so we can buy Chinese? I think not. Please keep the Made in the USA label —

We are proud of our country
and its workers and want to
help them.

Thank you and with
good old American pride -

Norma Palmer
