

8/12/97

Mr Donald Clark

FTC

It is bad enough That Thousands of jobs ^{That} once belonged to Americans have been sent elsewhere without the bat of an eye, but to bastardize the MADE IN AMERICA LABEL IS UNACCEPTABLE! OR MADE IN USA

You must NOT allow goods or materials from anywhere else but the USA or made or assembled elsewhere to be able to use the Made in USA label!

Americans have a right to be able to voice our disapproval of the loss of American jobs by purchasing only MADE IN USA goods & products. If you bastardize this label, how will we be able to send that message to companies who want

to continue to send our jobs elsewhere &
to defraud us? You must NOT
allow the misuse of This label!
Who else can we turn to if you
abandon us too?

Please keep the regulations STRONG
and focused on what MADE IN USA
means. Let it NOT mean anything
else but what it now means

100% MADE IN USA

BY AMERICAN WORKERS
WHO ARE FAIRLY PAID!

All marketers should have to say
where their goods are made -- if they're
imported they should have to say that
in loud, clear wording. If made in USA,
we should be able to depend on it truly
being made in USA--100%!
