BEZ 902700974

Dear Secretary Clark:

"Made in USA" is a statement of pride and something that should not be changed!!!!

Our forefathers gave their ALL to secure our nation and we owe it to them and to our workers security to make sure that the "made in USA" label only appears on items that are assembled in the USA of American parts. Please don't let your love of money get ahead of patriotism or our great country will go down the drain.

Show your colors and help keep America great — I would ask you not to allow that label to mean other than what it says.

Violet Gambrel
