

Gentlemen,  
 "Made In USA," means made  
 in USA 100% materials + labor. No other  
 standard is acceptable. There should  
 be truth in labelling. Any other labelling  
 should specify %. I.E. <sup>Materials</sup> 50% made in USA  
 assembled in Guam etc. made in  
 America means north ~~of~~ South America.  
 Truth in labelling. Sincerely,  
 Matt Fogarty
