

BE AWARE. PREPARE.

A Pocket Guide on how to prepare for emergencies

Anthony J. Billittier IV, M.D., FACEP Commissioner of Health

Chris Collins County Executive

Being prepared for any emergency – whether a house fire, power outage, snowstorm, disease pandemic or terrorist attack – requires planning ahead. Take the time to work out a disaster plan and to gather supplies to keep in your home, workplace and in a "To Go" bag.

Develop a Disaster Plan

Include all of your household members in this plan so that everyone will know what to do, where to go & how to communicate in an emergency. Record your plan on the reference card provided

EMERGENCY Reference Card

Build an Emergency Supply Kit

In the event you need to evacuate quickly and take essentials with you, you will not have the time to shop or search for the supplies you and your family will need. Every household should assemble a disaster supplies kit and keep it up to date as your needs may change. A disaster supplies kit is a collection of basic items a family would probably need to stay safe and more comfortable during and after a disaster. Your kit should be stored as close as possible to the exit door in a portable container such as a back pack or suitcase with wheels. Also, consider having emergency supplies in each vehicle and at your place of employment. Your supply kit should include the following items below as well as any other items you feel important to include.

Supplies for your home kit should include

Three-day supply of nonperishable food & manual can opener (Select foods that require no refrigeration such as canned meals, vegetables, granola bars, energy bars, canned juices, etc.)

Three-day supply of water (one gallon of water per person, per day); Avoid using containers that will decompose or break, such as milk cartons or glass bottles

Paper plates, cups, plastic utensils

Portable, battery-powered radio and/or television & extra batteries Flashlight & extra batteries - do not use candles or any other open flame for emergency lighting

First aid kit & manual (over the counter medication, thermometer, gauze, tape, etc.)

Sanitation and hygiene items (alcohol based hand sanitizer, moist towelettes, toilet paper, toothbrush, toothpaste, feminine supplies, brush, masks, etc.)

Matches in waterproof container

Garbage bags, duct tape,

Supplies for your vehicle kit should include:

Flashlight, extra batteries, & maps
First aid kit & manual
White & florescent distress flag
Tire repair kit, booster/jumper cables, pump, & flares
Bottled water and non-perishable foods such as granola bars
Seasonal supplies (Winter blanket, hat, mittens, shovel, sand, windshield scraper, sunscreen lotion with SPF 15 or higher, umbrella, etc)

Whistle

Clothing & bedding needs for each person & consider the weather changes in your area (jackets, long pants, long shirts, sturdy shoes, hat, mittens, scarf, sleeping bag, warm blanket, etc)

Kitchen accessories & cooking utensils

Copies of your important documents in a waterproof container (ID, insurance cards, proof of address, credit & ATM cards, etc.)

Cash, at least \$50-\$100 in small denominations, & coins

Special needs items (prescription medications, eye glasses, contact lens solution, & hearing aid batteries; make sure to rotate these items so they do not expire)

Items for infants (formula, diapers, bottles, & pacifiers)

Pet supplies (disposable bowls, food, water, litter, plastic bags for waste)
Tools (wrench or pliers to turn off utilities, screwdriver, hammer, etc.)

Map of your local area with escape routes marked

Entertainment items such as books, paper, pens, deck of cards, games Extra set of car and house keys

Supplies for your Workplace kit should include:

Go to www.redcross.org/services/disaster/beprepared for a complete list of supplies recommended to keep at your worksite.
