

Strength through Industry & Technology

Honeywell Discussion Topics

Susan Pucelik

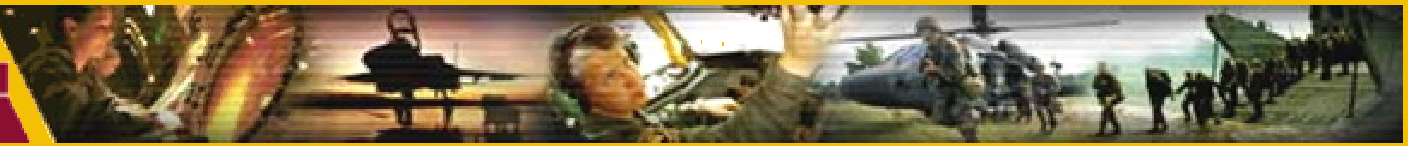

Honeywell Topic 1

Is First Inspection verification adequate to assume readability in the future?

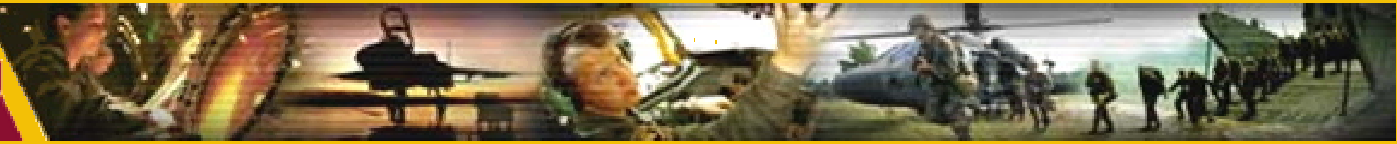

Honeywell Topic 2

How can internal productivity gains be accomplished if the machine readable part number is not the mfr part number?

Honeywell Topic 3

How can internal processes be consistent if the customer demands unique marking?

Honeywell Topic 4

How successful, if at all, have other suppliers been in combining ATA and UID into a single solution?

If successful what are some lessons learned?
