<b>2.2.1 Part of Body Affected--Definition, Rules of Selection</b>
--

The part of body affected identifies the part of the body directly affected by the previously identified nature of injury or illness.
---

**2.0 DEFINITION**

The part of body affected identifies the part of the body directly affected by the previously identified nature of injury or illness.

**RULES OF SELECTION:**

- 2.1 When the previously named injury or illness involves a single part, choose that part. *Example: For fractured jaw, choose **Jaw / chin**.*
- 2.2 **Traumatic Injuries and Disorders** including internal burns and are generally coded to the external part or location, including specific locations for the mouth and back. *Example: For lumbar sprain, choose **Lumbar region of the Back**. Exceptions are noted below.*
- 2.2.1 When **Intracranial Injury** (including Concussion) is identified, choose **Brain**.
- 2.2.2 When the injury or illness affects an entire body system, rather than a particular part, name **Body Systems**. *Example: For hypothermia, choose **Body Systems**.*
- 2.3 Internal body parts should be named when a disease, disorder, or condition originated at, or is limited to, that internal part. *Example: For hepatitis, choose **Liver**; for lung cancer, choose **Lung**.*
- 2.3.1 When the illness is cancer, choose the classification code for the original site of cancer.
- 2.4 When the injury is an amputation, choose the classification code that represents the nearest part of body lost. *Example: For amputation at knee, choose **Lower leg(s)**.*
- 2.5 When the previously named injury or illness involves two or more parts within the same division, select the multiple classification code that includes those parts. *Example: If lower leg, foot, and ankle are burned, choose **Multiple lower extremities locations, n.e.c.***
- 2.6 When the previously named injury or illness involves parts from two or more divisions, select **Multiple Body Parts**. *Example: For dislocated shoulder and fractured upper arm, choose **Multiple Body Parts**.*

### 2.2.2 Part of Body Affected--Titles and Descriptions

The Part of Body Affected code structure is arranged in order from the top of the body (Division 0, Head) to the bottom of the body (Division 4, Lower Extremities). Division 5 classifies body systems. Division 8 classifies multiple body parts from two or more divisions. Division 9 classifies Prosthetic devices and any human parts of the body which are not classified or listed under any of the other divisions.

Part of Body Affected code description pages are numbered from DP-1 through DP-13 (the "D" meaning "description, the "P" meaning "part of body affected").

The divisions are identified by title at the top right corner of each page.

The Part of Body Affected divisions are arranged as follows:

<u>DIVISION</u>	<u>TITLE</u>
0	Head
1	Neck, Including Throat
2	Trunk
3	Upper Extremities
4	Lower Extremities
5	Body Systems
8	Multiple Body Parts
9	Other Body Parts
9999	Nonclassifiable

**THIS PAGE INTENTIONALLY LEFT BLANK**

**0\***     **HEAD**

This division classifies the uppermost parts of the body. This region consists of the skull, its contents, and related external structures.

If the nature of injury or illness named is amputation--decapitation, select **Head, n.e.c.**, code 09.

**00**     **Head, unspecified**

This code is typically used for gunshot wounds to the head when a more specific location, such as face, is not available.

**01\***     **Cranial region, including skull**

This major group classifies the region that is bordered by the face in front and the neck below.

Select code 011 when concussion or other intracranial injury is named as the nature of the injury. It is also used for migraines. It should not be used for gunshot wounds.

Select code 013 when a nonfatal skull fracture is the nature of injury.

*Includes:*           brain and brain stem (011), hair (012), occipital, parietal, and temporal bones (013), skin (012), subcutaneous connective tissue, cartilage, and muscles of the cranial region (019)

- 010**     **Cranial region, unspecified**
- 011**     **Brain**
- 012**     **Scalp**
- 013**     **Skull**
- 018**     **Multiple cranial region locations**
- 019**     **Cranial region, n.e.c.**

**02**     **Ear(s)**

This major group classifies the sense or receptor organs located on either side of the head. The code can be used when either one or both ears are affected.

*Includes:*           anvil, auditory nerve, auricle or pinna, cochlea, concha, eardrum, eustachian tube, hammer, helix, lobule, middle ear or tympanic cavity, outer ear canal, scapha, semicircular canals, stirrup (stapes), and tragus

**03\***     **Face**

This major group classifies the anterior or frontal portion of the head, which is bounded by the cranial region to the top and back (hairline) and by the neck below.

*Includes:*           bony structures, cartilage, muscle, skin, subcutaneous tissue, underside of the jaw/chin, and veins and arteries

- 030**     **Face, unspecified**
- 031**     **Forehead**

*Includes:*           eyebrow(s)

**032**     **Eye(s)**

This part of body group classifies the sense organs of sight located in the frontal portion of the head. The code can be used for either one or both eyes and when loss or impairment of sight is involved.

---

\*- Asterisks indicate division, major group, or group titles.

*Includes:* conjunctiva, cornea, eyeball, inside and outside of the eyelids, iris, lacrimal glands, lens, optic nerve, orbit, retina, and upper and lower eyelashes

**033\*** **Nose, nasal cavity**

This part of body group classifies the prominent sensory organ in the center of the face that functions as the organ of smell and as a part of the respiratory system.

Generally, select code 0330 when the nature of injury or illness named is from **Traumatic Injuries or Disorders**, Nature of Injury or Illness Division 0, such as fracture or contusion.

**0330** **Nose, except internal location of diseases or disorders**

**Internal Nasal Location of Diseases or Disorders:**

Generally, select codes 0331-0339 when the nature of injury or illness named is found in Division 1 through 5 of the Nature of Injury or Illness structure.

**0331** **Internal nasal location, unspecified**  
**0332** **Nasopharynx**  
**0333** **Nasal passages**  
**0334** **Sinuses**  
**0338** **Multiple internal nasal locations**  
**0339** **Internal nasal location, n.e.c.**

**034** **Cheek(s)**  
**035** **Jaw/chin**  
**036\*** **Mouth**

This nature group classifies the opening of the alimentary canal which is bounded by the lips and includes the cavity which houses the tongue and teeth.

Select code 0369 if loss of taste has been named as the nature of injury or illness.

**0360** **Mouth, unspecified**  
**0361** **Lip(s)**  
**0362** **Tongue**  
**0363** **Tooth(teeth)**  
**0364** **Gum**  
**0368** **Multiple mouth locations**  
**0369** **Mouth, n.e.c.**

**038** **Multiple face locations**  
**039** **Face, n.e.c.**

**08** **Multiple head locations**

**09** **Head, n.e.c.**

Select **Head, n.e.c.** if the nature of injury or illness named is amputation--decapitation.

\*- Asterisks indicate division, major group, or group titles.

**1\***      **NECK, INCLUDING THROAT**

This division classifies that portion of the body that connects the head to the torso or trunk. This region is bounded by the jaw/chin and cranial region to the top and the shoulder to the bottom.

If the nature of injury or illness named is amputation, and the point of amputation is neck, select **Head, n.e.c.**, code 09.

**10**      **Neck, except internal location of diseases or disorders**

This major group classifies the external portion of the neck including the uppermost portion of the vertebra. Generally, select this code when the nature of injury or illness named is a member of Division 0 of the Nature of Injury or Illness structure.

*Includes:*            bony structures (cervical vertebrae C1 – C7), cartilage, muscle, skin, subcutaneous tissue, and veins and arteries of the neck

**Internal Neck Location of Diseases or Disorders:**

These major groups classify the underlying visceral structures of the neck. Generally, these codes should be chosen when the nature of injury or illness named is a member of Division 1 through 5 of the Nature of Injury or Illness structure.

**11**      **Internal neck location, unspecified**

Select this code when an irritated or sore throat is the nature of injury or illness.

**12**      **Vocal cord(s)**

This major group classifies either of two pairs of folds projecting in the larynx cavity.

**13**      **Larynx**

This major group classifies the organ of the voice, the voice box, located between the trachea and the base of the tongue.

**14**      **Laryngopharynx**

This major group connects the throat and esophagus and classifies the bottom portion of the pharynx which is also known as hypopharynx or laryngeal pharynx.

**15**      **Pharynx**

This major group classifies the musculomembranous tube in the back of the nose, mouth, and larynx. It extends from the skull to the esophagus and includes the oropharynx.

**16**      **Trachea**

This major group classifies the trachea, the cartilaginous and membranous tube that extends from the bottom of the larynx to the bronchi. Also known as the windpipe.

**18**      **Multiple internal neck locations****19**      **Internal neck location, n.e.c.**

---

\*- Asterisks indicate division, major group, or group titles.

**2\***      **TRUNK**

This division classifies the main part of the body, where the head and limbs are attached. The area is bounded by the neck, arms, and legs.

Select a code from this division when the nature of injury or illness is localized to a specific organ(s) and does not affect the entire system, otherwise, select a code from Division 5 of this structure.

*Includes:*            bones, cartilage, internal organs and structures, muscles, nerves, skin, subcutaneous tissue, tendons, veins and arteries, and internal organs and structures of the trunk.

**20**      **Trunk, unspecified**

*Includes:*            side

**21**      **Shoulder, including clavicle, scapula**

This major group classifies the region where the arm(s) join the trunk and includes the armpit.

If the nature of injury or illness named is amputation, and the point of amputation is shoulder, select **Upper arm(s)**, code 311.

*Includes:*            clavicle/collar bone, proximal humerus, scapula/shoulder blade, shoulder girdle, armpit and rotator cuff

*Excludes:*            mid-shaft humerus (311)

**22\***      **Chest, including ribs, internal organs**

This major group classifies the frontal region of the body or thorax. It is bounded by the respiratory diaphragm or abdomen below, the shoulder above, and the back in the rear.

**220**      **Chest, except internal location of diseases or disorders****Internal Chest Location of Diseases or Disorders:**

These part groups classify the underlying visceral structures of the chest. Generally, these codes should be chosen when the nature of injury or illness named is a member of Division 1 through 5 of the Nature of Injury or Illness structure. These codes are not to be used for internal injuries.

**221**      **Internal chest location, unspecified****222**      **Esophagus****223**      **Heart****224**      **Bronchus****225**      **Lung(s), pleura****226**      **Breast(s)--internal****228**      **Multiple internal chest locations****229**      **Internal chest location, n.e.c.****23\***      **Back, including spine, spinal cord**

This major group classifies the posterior part of the trunk that is bounded by the neck and the pelvis.

*Includes:*            cartilage, muscles, nerves, and neuroglia, spine, spinal cord, tendons, veins and arteries, vertebra (backbone)

*Excludes:*            neck or cervical vertebrae – C1- C7 (10)

**230**      **Back, including spine, spinal cord, unspecified****231**      **Lumbar region**

\*- Asterisks indicate division, major group, or group titles.

This group classifies the region of the back that includes 5 vertebrae (L1 – L5) on the spinal column and is located in the lower portion of the back. Also known as the lower back.

Select this code when low back pain or lumbago is named as the nature of injury or illness.

**232 Thoracic region**

This group classifies the region of the back that includes 12 vertebrae (T1 – T12) on the spinal column and is located just below the cervical vertebrae of the neck. Also known as the middle and upper back.

**233 Sacral region**

This group classifies the region of the back that includes 5 fused bones (S1 – S5) and is located just below the lumbar region.

*Includes:* sacrum

**234 Coccygeal region**

This group classifies the region of the back that includes 4, and sometimes 5, fused bones (CO1 – CO4) and is also known as the tailbone.

*Includes:* coccyx, tailbone

**238 Multiple back regions**

**239 Back, including spine, spinal cord, n.e.c.**

**24\* Abdomen**

This major group classifies that portion of the body which lies between the thorax and the pelvis.

**240 Abdomen, except internal location of diseases or disorders**

**Internal Abdominal Location of Diseases or Disorders:**

These groups classify the underlying visceral structures of the abdomen. Generally, these codes should be chosen when the nature of injury or illness named is a member of Division 1 through 5 of the Nature of Injury or Illness structure. These codes are not to be used for internal injuries.

For hernias, code the organ that was affected rather than the muscle through which the organ protruded. Use code 241 when the type of hernia and location are unspecified. Use code 2450, **Intestines, peritoneum, unspecified** for abdominal, femoral, inguinal, scrotal, and ventral hernias when the specific portion of the intestine affected is unknown. Use code 242 **Stomach** for diaphragmatic, esophageal, hiatal, and paraesophageal hernias.

*Includes:* abdominal cavity

**241 Internal abdominal location, unspecified**

**242 Stomach organ**

**243 Spleen**

**244\* Urinary organs**

**2440 Urinary organs, unspecified**

**2441 Bladder**

**2442 Kidney(s)**

**2448 Multiple urinary organs**

**2449 Urinary organs, n.e.c.**

**245\* Intestines, peritoneum**

**2450 Intestines, peritoneum, unspecified**

**2451 Peritoneum**

**2452 Small intestine**

**2453 Large intestine/colon, rectum**

\*- Asterisks indicate division, major group, or group titles.

- 2458 Multiple intestinal locations
- 2459 Intestines, n.e.c.
  
- 246\* Other digestive structures
  - 2460 Other digestive structures, unspecified
  - 2461 Liver
  - 2462 Gallbladder
  - 2463 Pancreas
  - 2468 Multiple other digestive structures
  - 2469 Other digestive structures, n.e.c.
  
- 248 Multiple internal abdominal locations
- 249 Internal abdominal location, n.e.c.
  
- 25\* Pelvic region
 

This major group classifies the lower portion of the trunk or torso that supports the lower extremities. This region is bounded by the coccyx of the vertebral column, the abdomen and the legs.

When inguinal hernia is the nature of injury or illness listed, select code 2450, **Intestines, peritoneum, unspecified** unless more specific information is available. If the nature of injury or illness named is amputation, and the point of amputation is hip, select **Thigh**, code 411.

*Includes:* sacroiliac (259)

*Excludes:* intestines (245)

  - 250 Pelvic region, unspecified
  - 251 Hip(s)
  - 252 Pelvis
  - 253 Buttock(s)
  - 254 Groin
  
  - 255\* External reproductive tract structures
    - 2550 External reproductive tract structures, unspecified
    - 2551 Scrotum
    - 2552 Penis
    - 2553 External female genital region
    - 2558 Multiple external reproductive tract structures
    - 2559 External reproductive tract structures, n.e.c.
  
  - 256\* Internal reproductive tract structures
    - 2560 Internal reproductive tract structures, unspecified
    - 2561 Prostate
    - 2562 Testis(testes)
    - 2563 Ovary(ies)
    - 2564 Uterus
    - 2565 Female genitals, n.e.c.
    - 2568 Multiple internal reproductive tract structures
    - 2569 Internal reproductive tract structures, n.e.c.
  
  - 258 Multiple pelvic region locations
  - 259 Pelvic region, n.e.c.
  
- 28 Multiple trunk locations
  
- 29 Trunk, n.e.c.

---

\*- Asterisks indicate division, major group, or group titles.

**3\***      **UPPER EXTREMITIES**

This division classifies the extremities that are bounded by the shoulder at the top with the fingers as the lowermost part included.

*Includes:*            bones, cartilage, muscles, skin, subcutaneous tissue, veins and arteries

**30**      **Upper extremities, unspecified****31\***      **Arm(s)**

This major group classifies the upper extremities from the area above the wrist up to the shoulder and includes the mid-shaft (311) and distal (312) parts of the humerus. The proximal humerus and armpit are coded as the shoulder (21).

If the injury or illness involves the same part of the left, right, or both arms, select a code from this major group.

If the nature of injury named is amputation, and the point of amputation is elbow, select **Forearm(s)**, code 313.

**310**      **Arm(s), unspecified****311**      **Upper arm(s)****312**      **Elbow(s)****313**      **Forearm(s)****318**      **Multiple arm(s) locations****319**      **Arm(s), n.e.c.****32**      **Wrist(s)**

This major group classifies the region between the forearm and the hand.

When the nature of injury or illness named is carpal tunnel syndrome, select this code. Select this code whether the injury or illness involves wrist(s) from the right, left, or both arms.

If the nature of injury or illness named is amputation, and the point of amputation is the wrist, select **Hand(s), except finger(s)**, code 33.

**33**      **Hand(s), except finger(s)**

This major group classifies the part of the upper extremity at the end of the forearm. Select this code whether the injury or illness involves hand(s) from the right, left, or both arms.

If the nature of injury or illness named is amputation, and the point of amputation is the wrist or hand, select this code. If the only information on the source document is hand, with no mention of fingers being included or excluded, select this code.

*Includes:*            knuckles and the areas between the fingers

*Excludes:*            fingers (34) and wrist (32)

**34**      **Finger(s), fingernail(s)**

This major group classifies the digits of the hand.

Select this code whether the injury or illness involves finger(s) from the right, left, or both hand(s).

*Includes:*            distal phalanx (phalanges), medial phalanx (phalanges), proximal phalanx (phalanges), thumb

\*- Asterisks indicate division, major group, or group titles.

**38\*** Multiple upper extremities locations

This major group classifies combinations of differing parts of the body within this division.

**380** Multiple upper extremities locations, unspecified**381** Hand(s) and finger(s)

*Includes:* combinations of at least one hand and one finger

**382** Hand(s) and wrist(s)

*Includes:* combinations of at least one hand and one wrist

**383** Hand(s) and arm(s)

*Includes:* combinations of at least one hand and one arm

**389** Multiple upper extremities locations, n.e.c.**39** Upper extremities, n.e.c.

---

\*- Asterisks indicate division, major group, or group titles.

**4\* LOWER EXTREMITIES**

This division classifies the appendages that are bounded by the hip to the top with the toes as the lowermost part included.

*Includes:* bones, cartilage, muscles, skin, subcutaneous tissue, veins and arteries

**40 Lower extremities, unspecified****41\* Leg(s)**

This major group classifies the lower extremities between the hip and the ankle.

If the injury or illness involves the same part of the left, right, or both legs, select a code from this major group.

If the nature of injury or illness named is amputation, and the point of amputation is knee, select **Lower leg(s)**, code 413.

- 410 Leg(s), unspecified**
- 411 Thigh(s)**
- 412 Knee(s)**
- 413 Lower leg(s)**
- 418 Multiple leg(s) locations**
- 419 Leg(s), n.e.c.**

**42 Ankle(s)**

This major group classifies the hinge joint area between the foot and the lower leg.

Select this code if the injury or illness involves the left, right, or both ankles.

If the nature of injury or illness named is amputation, and the point of amputation is ankle, select **Foot (feet), n.e.c.**, code 439.

**43\* Foot(feet), except toe(s)**

This major group classifies the final or lowest extremity of the leg.

Select this code if the injury or illness involves the left, right, or both feet.

If the nature of injury or illness named is amputation and the point of amputation is foot, select **Foot(feet), n.e.c.**, code 439. If the source document states foot, with no mention of toes being included or excluded and the nature of injury or illness is not amputation, select **Foot(feet), except toe(s),unspecified**, code 430.

*Includes:* the areas between the toes

- 430 Foot(feet), except toe(s), unspecified**
- 431 Instep(s)**
- 432\* Sole(s)**
  - 4320 Sole(s), unspecified**
  - 4321 Ball(s) of the foot**
  - 4322 Arch(es)**
  - 4323 Heel(s)**
  - 4328 Multiple sole(s) locations**
  - 4329 Sole(s), n.e.c.**
- 438 Multiple foot(feet) locations**
- 439 Foot(feet), n.e.c.**

\*- Asterisks indicate division, major group, or group titles.

**44 Toe(s), toenail(s)**

This major group classifies the digits of the foot.

Select this code whether the injury or illness involves toe(s) from the left, right, or both feet.

**48\* Multiple lower extremities locations**

This major group classifies combinations of differing parts of the body within this division.

**480 Multiple lower extremities locations, unspecified****481 Foot(feet) and leg(s)**

*Includes:* combinations of at least one foot and one leg

**482 Foot(feet) and ankle(s)**

*Includes:* combinations of at least one foot and one ankle

**483 Foot(feet) and toe(s)**

*Includes:* combinations of at least one foot and one toe

**489 Multiple lower extremities locations, n.e.c.****49 Lower extremities, n.e.c.**

---

\*- Asterisks indicate division, major group, or group titles.

**5 BODY SYSTEMS**

This division classifies the various systems of the body. This code applies when the functioning of an entire body system has been affected without specific injury to any other part of the body. It is used as the part of body for hypothermia and asthma. It does not apply when the systemic damage results from an external injury affecting an external part such as a back injury that includes damage to the nerves of the spinal cord. Nor does it apply when the injury or illness is localized and affects a particular internal organ. If the nature of injury or illness selected is a subset of the Systemic Diseases or Disorders (Division 1), the part of body affected is not necessarily body systems. Generally neoplasms will be coded to the individual body part (or organ) rather than body systems.

**8 MULTIPLE BODY PARTS**

This division classifies multiple body parts from two or more divisions.

**9\***      **OTHER BODY PARTS**

This division classifies any parts of the body which are not classified or listed under any other division.

**91**      **Prosthetic devices**

This major group classifies synthetic, mechanical, and otherwise artificial device(s) that replace or enhance missing or malfunctioning human body part(s).

Select this code when only a prosthetic device(s) is involved; otherwise select the human part of body affected.

*Includes:*            corrective lens(es), denture(s), artificial eye(s), hearing aid(s), and artificial limb(s)

*Excludes:*           pins, rods, replaced joints, artificial medical implants, and other internal repair devices or interbody fusion devices; damage to the worker's actual body

**98**      **Other body parts, n.e.c.**

This major group classifies any human parts of the body which are not classified or listed under any other division.

**9999**    **Nonclassifiable**

---

\*- Asterisks indicate division, major group, or group titles.
