U.S. Department of Commerce  
Economics and Statistics Administration  
U.S. CENSUS BUREAU

## ACKNOWLEDGMENTS

This report was prepared under the general direction of **Carl A. Konschnik**, Assistant Division Chief for Research and Methodology, Economic Planning and Coordination Division. **Paul Hanczaryk**, Chief, Register Analysis Branch, supervised the preparation of this report and was assisted by **Phil Thompson**, **Thomas Bell**, and **Gerald Feuer**. **Kasey Dickens**, **Yolanda Funderburk**, **Mary Green**, **Marilyn Italiano**, **Alan Pines**, **Mary Thomas**, and **Jon Youngman** contributed in resolving establishment processing problems and in data analysis. Statistical methodology and quality assurance operations were performed by **Ken Sausman**, **Michael Kornbau**, **Thomas Cewis**, **Lindsay Lovette**, and **Roberta Custard**.

**Mitchell L. Trager**, Assistant Division Chief for Evaluation and Information Systems, Governments Division, assisted by **John Sullivan**, provided guidance for computer processing. **John Studds** and **Glenn Eanes** implemented these operations and provided general technical support.

**Steven McCraith**, Chief, Quinquennial Surveys Branch, Economic Statistical Methods and Programming Division, assisted by **Dan Vacca**, supervised computer support operations. **Ed Carr** was assigned primary responsibility for programming this report. **Emory Fuller** provided additional support for computer operations.

**David Chapman** of the Economic Statistical Methods and Programming Division contributed to the editing system and provided other methodological improvements.

The staff of the Administrative and Customer Services Division, **Walter C. Odom**, Chief, performed publication planning, design, composition, editorial review, and printing planning and procurement for publications, Internet products, and reports forms. **Barbara Abbott** provided publication coordination and editing.

# General Explanation

---

## INTRODUCTION

County Business Patterns is an annual series that provides subnational economic data by industry. The series is useful for studying the economic activity of small areas; analyzing economic changes over time; and as a benchmark for statistical series, surveys, and databases between economic censuses. The series serves various business uses such as analyzing market potential, measuring the effectiveness of sales and advertising programs, setting sales quotas, and developing budgets. The data also are used by government agencies for administration and planning.

Most of the country's economic activity is covered in this series. Data are excluded for self-employed people, domestic service workers, railroad employees, agricultural production workers, most government employees, and employees on ocean-borne vessels or in foreign countries. Data are provided by industry in the following economic divisions: agricultural services, forestry, and fishing; mining; construction; manufacturing; transportation and public utilities; wholesale trade; retail trade; finance, insurance, and real estate; and services. Data are tabulated by industry as defined in the *Standard Industrial Classification Manual: 1987*.

This series has been published annually since 1964 and at irregular intervals dating back to 1946. The comparability of data over time may be affected by definitional changes in establishments, activity status, and industrial classifications. For more details on these changes, see the section "Comparability With Other Data."

## CHANGES FOR NEXT YEAR

The North American Industry Classification System (NAICS) will replace the U.S. Standard Industrial Classification (SIC) system in Federal statistical programs. NAICS is an industry classification system that groups establishments into industries based on the activities in which they are primarily engaged. The 1998 County Business Patterns program will tabulate on a NAICS basis. For more information on NAICS and changes from the 1987 SIC system, go to <http://www.census.gov/epcd/www/naics.html>.

## DATA PRODUCTS

### Printed Reports

The County Business Patterns data series includes a separate printed report for each state, the District of Columbia, Puerto Rico, and the United States. Individual

state reports present payroll and employment data for the state and counties by industry. The reports also include the number of establishments by industry and employment size class.

The United States report presents similar data for the country as a whole. In addition, the U.S. report provides employment and payroll data by employment size class for major industry groups.

Data for industries with fewer than 100 employees, as well as data for detailed industries withheld to avoid disclosing data for individual companies, are not shown in the printed reports. However, these data are available on CD-ROM and other computer products. To order printed County Business Patterns reports, contact the Government Printing Office at 202-512-1800.

### Electronic Data Formats

County Business Patterns series data are available on CD-ROM, computer tapes and diskettes. The CD-ROM contains 1997 and 1996 County Business Patterns data and menu-driven access software. The CD-ROM also includes software for creating County Business Patterns data files compatible with popular database and spreadsheet software. For information and to order other County Business Patterns data products, contact:

Customer Services Branch  
Administrative and Customer Services Division  
U.S. Census Bureau  
Washington, DC 20233

Telephone: 301-457-4100  
Internet address: <http://www.census.gov/>

### Special Tabulations

Special tabulations, including data for ZIP Codes and aggregated by firm, are available on a cost-reimbursable basis. For more information, contact:

U.S. Census Bureau  
Economic Planning and Coordination Division

Fax: 301-457-4433  
E-mail: [cbp@census.gov](mailto:cbp@census.gov)

### SOURCES OF DATA

County Business Patterns basic data items are extracted from the Standard Statistical Establishment List, a file of all

---

known single and multiestablishment employer companies maintained and updated by the U.S. Census Bureau. The annual Company Organization Survey provides individual establishment data for multiestablishment companies. Data for single-establishment companies are obtained from various Census Bureau programs, such as the Annual Survey of Manufactures and Current Business Surveys, as well as from administrative records of the Internal Revenue Service and the Social Security Administration.

## DEFINITIONS OF BASIC DATA ITEMS

### Establishments

An establishment is a single physical location at which business is conducted or services or industrial operations are performed. It is not necessarily identical with a company or enterprise, which may consist of one or more establishments. When two or more activities are carried on at a single location under a single ownership, all activities generally are grouped together as a single establishment. The entire establishment is classified on the basis of its major activity and all data are included in that classification.

Administrative and auxiliary establishments primarily manage, administer, service, or support the activities of other establishments of the same company rather than the establishments of other companies or the general public. Data for these establishments are shown separately by industry division.

Establishment-size designations are determined by paid employment in the mid-March pay period. The size group "1 to 4" includes establishments that did not report any paid employees in the mid-March pay period but paid wages to at least one employee at some time during the year.

Establishment counts represent the number of locations with paid employees any time during the year. This series excludes governmental establishments except for liquor stores (SIC 592), wholesale liquor establishments (SIC 518), depository institutions (SIC 60), Federal and Federally-sponsored credit agencies (SIC 611), and hospitals (SIC 806).

### Payroll

Total payroll includes all forms of compensation, such as salaries, wages, reported tips, commissions, bonuses, vacation allowances, sick-leave pay, employee contributions to qualified pension plans, and the value of taxable fringe benefits. For corporations, it includes amounts paid to officers and executives; for unincorporated businesses, it does not include profit or other compensation of proprietors or partners. Payroll is reported before deductions for Social Security, income tax, insurance, union dues, etc. First-quarter payroll consists of payroll during the January-to-March quarter.

### Mid-March Employment

Paid employment consists of full- and part-time employees, including salaried officers and executives of corporations, who are on the payroll in the pay period including March 12. Included are employees on paid sick leave, holidays, and vacations; not included are proprietors and partners of unincorporated businesses.

## INDUSTRY AND GEOGRAPHY CLASSIFICATIONS

The quinquennial economic censuses are the primary source for industry and geography classifications. The annual Company Organization Survey, Annual Survey of Manufactures, Current Business Surveys, and other Census Bureau programs provide regular updates.

### Industry Classification

Additional sources for assigning industry classifications are the Social Security Administration, the Internal Revenue Service, and the Bureau of Labor Statistics. These sources provide industry classification information for new businesses and businesses not canvassed in the Census Bureau programs. Establishments without sufficient industry information are tabulated in the "unclassified establishments" group.

In a few instances, the most detailed industry classifications for which data are shown represent a combination of more detailed SIC industries. The data for these establishments are included in the tabulations at a broader industry level. For this reason, the sum of industry components published in this series may not equal the total shown.

Industry classifications are explained in an appendix in the U.S. Summary. The industry titles used throughout this series are the short SIC titles; complete descriptions are contained in the SIC manual.

### Geography Classification

Most geography codes are derived from the physical location address reported in Census Bureau programs. The Internal Revenue Service provides supplemental address information. Those employers without a fixed location within a state (or of unknown county location) are included under a "statewide" classification at the end of the county tables. This incomplete detail causes only slight understatement of county employment. The independent cities in Virginia, and the cities of Baltimore, MD; Carson City, NV; and St. Louis, MO, are treated as separate counties.

## COMPARABILITY WITH OTHER DATA

### Earlier County Business Patterns

The comparability of data with previous County Business Patterns series may be affected by the following definitional changes:

- The change from a “reporting unit” concept to establishment based data in 1974
- The change in definition of “active” establishments in 1983
- The change in industrial classification definitions, the most recent occurring in 1988

A description of previous County Business Patterns publications is provided on the inside back cover.

## **1997 Economic Census**

Definitional and coverage differences may affect the direct comparison of 1997 Economic Census and County Business Patterns data. Definitions of an establishment, employment, and payroll are detailed in the introductory text of each publication.

The 1997 Economic Census generally uses respondent-reported data. The County Business Patterns uses administrative record data for small establishments. Although efforts are made to resolve significant differences in the data, differences are known to exist.

Some large companies report different activities at the same location as separate profit centers. The County Business Patterns program treats each profit center as a separate establishment. The 1997 Economic Census may combine the profit centers into one establishment. This results in establishment count differences.

## **DATA WITHHELD FROM PUBLICATION**

In accordance with U.S. Code, Title 13, Section 9, no data are published that would disclose the operations of an individual employer. However, the number of establishments in an industry classification and the distribution of these establishments by employment-size class are not considered to be disclosures, and so this information may be released even though other information is withheld from publications.

## **RELIABILITY OF DATA**

All data are tabulated from universe files and are not subject to sampling errors. However, the data are subject to nonsampling errors. Nonsampling errors can be attributed to many sources: inability to identify all cases in the universe; definition and classification difficulties; differences in interpretation of questions; errors in recording or coding the data obtained; and estimation of employers who reported too late to be included in the tabulations and for records with missing or misreported data.

The accuracy of the data is determined by the joint effects of the various nonsampling errors. No direct measurement of these effects has been obtained; however, precautionary steps were taken in all phases of collection, processing, and tabulation to minimize the effects of non-sampling errors.

## **ABBREVIATIONS AND SYMBOLS**

The following abbreviations and symbols are used in this publication:

—	Represents zero.
A-C, E-M	Entered in place of employment data, represents an employment-size class as defined in the footnote of the tables.
(D)	Withheld to avoid disclosing data for individual companies; data are included in broader industry totals.
n.e.c.	Not elsewhere classified.
SIC	Standard Industrial Classification.

# County Business Patterns--Colorado

**Table 1a. The State—Establishments, Employees, and Payroll, by Major Group:  
1997 and 1996**

[Excludes most government employees, railroad employees, and self-employed persons. (D) denotes figures withheld to avoid disclosing data for individual companies; the data are included in broader industry totals. For explanation of terms, abbreviations, and data reliability/comparability, see introductory text]

Note: Employment-size classes are indicated as follows: A—0 to 19; B—20 to 99; C—100 to 249; D—250 to 499; E—500 to 999; F—1,000 to 2,499; G—2,500 to 4,999; H—5,000 to 9,999; J—10,000 to 24,999; K—25,000 to 49,999; L—50,000 to 99,999; M—100,000 or more.

**Table 1b. The State—Employees, Payroll, and Establishments, by Industry: 1997—Con.**

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 includes establishments with payroll but no employees during mid-March pay period. (D) denotes figures withheld to avoid disclosing data for individual companies; the data are included in broader industry totals. For explanation of terms, abbreviations, and data reliability/comparability, see introductory text]

SIC code	Industry	Number of employees for week including March 12	Payroll (\$1,000)		Total number of establish- ments	Number of establishments by employment-size class								
			First quarter	Annual		1 to 4	5 to 9	10 to 19	20 to 49	50 to 99	100 to 249	250 to 499	500 to 999	1,000 or more

Note: Employment-size classes are indicated as follows: A—0 to 19; B—20 to 99; C—100 to 249; D—250 to 499; E—500 to 999; F—1,000 to 2,499; G—2,500 to 4,999; H—3,000 to 9,999; I—4,000 to 14,999; J—5,000 to 24,999; K—6,000 to 49,999; L—7,000 to 50,000 to 99,999; M—100,000 or more.

**Table 1b. The State—Employees, Payroll, and Establishments, by Industry: 1997—Con.**

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 includes establishments with payroll but no employees during mid-March pay period. (D) denotes figures withheld to avoid disclosing data for individual companies; the data are included in broader industry totals. For explanation of terms, abbreviations, and data reliability/comparability, see introductory text]

SIC code	Industry	Number of employees for week including March 12	Payroll (\$1,000)		Total number of establish- ments	Number of establishments by employment-size class								1,000 or more

**Table 2. Counties—Employees, Payroll, and Establishments, by Industry: 1997—Con.**

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 includes establishments with payroll but no employees during mid-March pay period. (D) denotes figures withheld to avoid disclosing data for individual companies; the data are included in broader industry totals. Detailed industries with 100 or more employees are shown if industry was not a (D). For explanation of terms, abbreviations, and data reliability/comparability, see introductory text]

**Table 2. Counties—Employees, Payroll, and Establishments, by Industry: 1997—Con.**

[Excludes most government employees, railroad employees, and self-employed persons. Size class 1 to 4 includes establishments with payroll but no employees during mid-March pay period. (D) denotes figures withheld to avoid disclosing data for individual companies; the data are included in broader industry totals. Detailed industries with 100 or more employees are shown if industry was not a (D). For explanation of terms, abbreviations, and data reliability/comparability, see introductory text]

SIC code	Industry	Number of employees for week including March 12	Payroll (\$1,000)		Total number of establish-ments	Number of establishments by employment-size class

## **Description of Publications Issued in Previous Years**

### **1974 through 1996**

Data are provided for mid-March employment, first-quarter and annual payrolls, and establishments, by industry, for each county in the state and, in a separate report, for the United States. Data are included for every industry having a significant number of employees or establishments. Refer to General Explanation for a description of the types of employment covered.

### **1964 through 1973**

Data are provided for first-quarter reporting units, employment, and taxable payrolls for each county and metropolitan area in the state and, in a separate report, for the United States. Data are included for every industry having a significant number of employees or reporting units.

### **1959 and 1962**

Data are provided for first-quarter reporting units, employment, and taxable payrolls for each county in the state and, in a separate report, for the United States. Data are included for every industry having a significant number of employees or reporting units. Data are combined for some counties in eight states.

### **1956**

Data are provided for first-quarter reporting units, employment, and taxable payrolls for each county in the state and, in a separate report, for the United States. Data are included for SIC economic divisions, major groups, and selected three-digit SICs. Data are combined for some counties in eight states.

### **1949 and 1950**

Data are provided for first-quarter manufacturing establishments, employment, and taxable payrolls for each large county in the state and, in a separate report, for the United States. Data are included for manufacturing major industry groups and selected three-digit SICs. Manufacturing totals are included for small counties. Data are combined for some counties in eight states.

### **1947, 1948, 1951, and 1953**

Data are provided for first-quarter reporting units, employment, and taxable payrolls for each large county in the state and, in a separate report, for the United States. Data are included for SIC economic divisions, major groups, and selected three-digit SICs. Economic division totals are included for small counties. Data are combined for some counties in eight states.

### **1946**

Data are provided for first-quarter reporting units, employment, and taxable payrolls for each large county in the state and, in a separate report, for the United States. Data are included for SIC economic divisions and major groups. Economic division totals are included for small counties. Data are combined for some counties in eight states.

### **Availability**

The most recent edition of County Business Patterns can be examined in field offices of the Department of Commerce, located in principal cities across the country. Earlier editions are available in depository libraries for Federal publications, which are also conveniently located in all areas of the country.

For information on the coverage of individual series, write to Chief, Economic Planning and Coordination Division, U.S. Census Bureau, Washington, DC 20233.
