

This databank provides patients, family members, healthcare providers, researchers, and members of the public easy access to information on clinical trials for a wide range of diseases and conditions. The U.S. National Library of Medicine has developed this site in collaboration with NIH and FDA. The databank is available to the public through the Internet at <http://clinicaltrials.gov>. (FDA has verified the Web site address, but we are not responsible for subsequent changes to the Web site after this document publishes in the **Federal Register**.)

The CTDB contains: (1) Information about clinical trials, both federally and privately funded, of experimental treatments for patients with serious or life-threatening diseases; (2) a description of the purpose of each experimental drug; (3) patient eligibility criteria; (4) the location of clinical trial sites; and (5) point of contact for those wanting to enroll in the trial.

All applications that are funded through the OPD grant program are required to enter into the CTDB information about the study being funded. The OPD program staff will provide more information to grantees about entering the required information in the CTDB after awards are made.

Dated: July 30, 2003.
