Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking (202) 267-9677, to request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

This notice proposes to amend Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to establish Class E airspace designated as a surface area for an airport at Hutchinson, KS. Controlled airspace extending upward from the surface of the earth is needed to contain aircraft executing instrument approach procedures. This airspace would be in effect during those times when the ATCT is closed. Weather observations would be provided by an Automated Surface Observing System (ASOS) and communications would be direct with Wichita ATCT.

This notice also proposes to revise the Class E airspace area extending upward from 700 feet above the surface at Hutchinson, KS. An examination of this Class E airspace area for Hutchinson, KS revealed a discrepancy in the identified type of one navigational aid and a discrepancy in the location of another navigational aid serving Hutchinson Municipal Airport and used in the Class E airspace legal description. The Hutchinson Very High Frequency Omni-

Directional Range (VOR)/Distance Measuring Equipment (DME) is misidentified as a VHF Omni-Directional range/Tactical Air Navigation (VORTAC). The location of the SALTT Outer Compass Locator (LOM) is erroneous. This proposal would correct these discrepancies. The areas would be depicted on appropriate aeronautical charts.

Class E airspace areas designated as surface areas are published in Paragraph 6002 of FAA Order 7400.9L, dated September 2, 2003, and effective September 16, 2003, which is incorporated by reference in 14 CFR 71.1. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in Paragraph 6005 of the same Order. The Class E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

1. The authority citation for part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9L, Airspace Designation and Reporting Points, dated September 2, 2003, and effective September 16, 2003, is amended as follows:
