## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

#### Northern Power Corporation (Xcel Energy) Project No. 2056-016, Minnesota; Notice of Availability of Draft Environmental Assessment

July 31, 2003.

In accordance with the National Environmental Policy Act of 1969 and part 380 of the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380; FERC Order No. 486 and 52 FR 47,897, the Office of Energy Projects Staff (staff) reviewed the application for a new license for the St. Anthony Falls Hydroelectric Project, located on the Mississippi River in the city of Minneapolis in Hennepin County, Minnesota, and prepared a draft environmental assessment (DEA) for the project. The project does not use or occupy any Federal facilities or lands.

In this DEA, the staff analyzes the potential environmental effects of the existing project and concludes that licensing the project, with staff's recommended measures, would not constitute a major Federal action significantly affecting the quality of the human environment.
