### **Fiscal Year 2003 Discretionary Announcement for Head Start Partnerships With Tribally Controlled Land Grant Colleges/Universities (TCUs)**

#### **Part I. Purpose and Background**

##### *A. Purpose*

This announcement of financial assistance, to be competitively awarded to Tribally Controlled Land Grant Colleges and Universities (TCUs), is to utilize the capabilities of these institutions of higher education to improve the quality and long-term effectiveness of Head Start and Early Head Start programs. This will be achieved by providing academic training and forming partnerships between the TCUs and Head Start grantees and delegate agencies funded through the American Indian and Alaskan Native Programs Branch (AIANPB) of the Head Start Bureau. The institutions of higher education that will be funded under this announcement, together with those TCUs currently funded under this initiative, will form a consortium to share methods, approaches, experiences, and lessons learned. The consortium is a partner of the Head Start National Training and Technical Assistance (T&TA) network in providing assistance to AIANPB Head Start grantees.

Throughout this announcement, the term Head Start program or Head Start agency refers to both AIANPB funded Head Start and Early Head Start grantees or delegate agencies unless otherwise specifically noted.

##### *B. Background*

The overall goal of Head Start is to ensure that children of low-income families nearing the end of the preschool period and entering school

are ready for school success. In order to accomplish this goal, Head Start provides comprehensive services to the children and their families. Head Start enhances children's physical, intellectual, social, and emotional development. It supports parents in their efforts to fulfill their parental roles and provides for their involvement in implementing the Head Start program. Another goal of Head Start is to strengthen community supports for families with young children while they are working towards employment and self-sufficiency.

In an attempt to ensure quality services to children and their low-income families Head Start has conducted many demonstration projects, provided grantees with training and technical assistance, and given grantees funds to implement their own training efforts. For example, Head Start supported the creation of the Child Development Associate (CDA) credential designed for early childhood development teaching staff and implemented the Head Start Teaching Centers and other innovative projects.

The Head Start-Tribally Controlled Land Grant Colleges/Universities Partnerships are closely aligned with the Head Start tradition of creating innovative programs and working with low-income children and their families. From 1999 to 2001, ACF awarded grants to 16 TCUs to form partnerships with Head Start programs funded through AIANPB and to provide training and education to Head Start staff members. A list of these 16 institutions can be found in Appendix A. This announcement will fund additional partnerships between AIANPB Head Start programs and TCUs.

In the 1998 reauthorization of the Head Start Act, a key priority of Congress was to continue to improve Head Start program quality and accountability. A number of provisions were included in the new law to achieve these goals, including new education performance standards and measures, expansion of program monitoring to incorporate evidence of progress on outcomes-based measures, expanded funding to upgrade program quality and staff compensation, and higher education standards for Head Start teachers. Among these provisions is the requirement that, by September 30, 2003, at least half of all Head Start teachers in center-based programs must have an AA, BA, or advanced degree in Early Childhood Education (ECE) or in a related field with preschool teaching experience. A degree in a field related to early childhood education means a program of study that includes six or

more courses in early childhood education and/or child development. Teachers who have degrees in related fields must also have experience teaching pre-school children. The Head Start Bureau is providing various forms of assistance to local Head Start programs to implement this teacher qualification legislative mandate. For example, to enhance the numbers of teachers with degrees in early childhood education, grantees have received \$43,000,000 in funding in 1999 and an additional \$43,000,000 in 2000 to increase teacher salaries and expand access to higher education courses and degree programs. Head Start-State Collaboration Offices and training and technical assistance providers currently help Head Start programs work with higher education institutions on challenges such as linking training obtained in conjunction with the CDA credential with academic credit and courses leading to AA and BA degrees in early childhood education.

In January 2001, the President signed into law the "No Child Left Behind Act" to make the education of every child in America one of the country's top priorities. The Act seeks to ensure that public schools teach children what they need to know to be successful in life and that they also set high education standards in the classroom. In his 2002 State of the Union address, the President indicated the need to prepare our children to read and succeed in school, including the improvement of Head Start and early childhood development programs. In response to these goals, the White House has developed an early childhood initiative, which is built on raising the bar for Head Start Education through researched methods that create a better learning environment and improved outcomes for children. In his announcement of the Good Start, Grow Smart Early Childhood Initiative in April 2002, the President identified children's early literacy as a key focus for Head Start program improvement. In this initiative, the President presented three areas of focus for Head Start: (1) Strengthening Head Start programs; (2) partnering with states to improve early childhood education, and (3) providing information to teachers, caregivers, and parents. The Head Start Bureau quickly responded to the President's mandate by developing the Strategic Teacher Education Project (STEP) in June 2002. The purpose of Project STEP is to ensure that all Head Start teachers engage in research-based strategies to support children's early literacy and positive social and emotional

development, which, in turn, will lead to positive child outcomes and school readiness.

Under this announcement, TCUs must form a partnership with one or more AIANPB Head Start grantees, to develop curriculums and provide education and/or training to Head Start teachers. The partnership agreements must be beneficial to both the TCUs and the participating Head Start grantees.

Partnership agreements must provide academic training and credit hours for a specified number of Head Start teachers. Partnership agreements must provide culturally appropriate education for Head Start teachers that would lead to academic degrees. These agreements must help Head Start teachers to provide courses on how to enhance early literacy, how to assess outcomes of Head Start children, and/or how to involve fathers in the lives of their children.

All project applications must address one of the following priority areas:

1. Partnerships to increase the number of center-based teachers with two-year degrees in early childhood education, and
2. Partnerships to increase the competency of Head Start in building quality Head Start programs, particularly in enhancing language development, early literacy and socio-emotional development, as well as assessing child outcomes.

## Part II. Program Information

### A. Statutory Authority

The Head Start Act, as amended, 42 U.S.C. 9801 *et seq.*

### B. Eligible Applicants

Tribally Controlled Land Grant Colleges and Universities are those institutions cited in section 532 of the Equity in Educational Land Grant Status Act of 1994 (7 U.S.C. 301 note), any other institution that qualifies for funding under the Tribally Controlled Community College Assistance Act of 1978, (25 U.S.C. 1801 *et seq.*), and Navajo Community College, Authorized in the Navajo Community College Assistance Act of 1978, Public Law 95-471, title II (25 U.S.C. 640a note). Those TCUs that are not accredited are not eligible to apply under this announcement. TCUs that received the Head Start Partnerships with TCUs grant in 2001 are not eligible to compete under this announcement. These institutions are listed in Appendix A.

### C. Project Duration

The length of the project period must not exceed 60 months. This

announcement is soliciting applications for project periods up to five years. Awards, on a competitive basis, will be for a one-year budget period, although project periods may be for five years. Applications for continuation grants funded under these awards beyond the one-year budget period but within the five-year project period will be reviewed in subsequent years on a non-competitive basis, subject to availability of funds, satisfactory progress of the grantee, and a determination that continued funding would be in the best interest of the Government.

### D. Federal Share of Project Costs

It is anticipated that up to \$1,500,000 in ACF funds will be made available annually. The maximum share for each project is not to exceed \$150,000 per year per project.

### E. Number of Projects To Be Funded

It is anticipated that up to 10 projects will be funded.

### F. Matching Requirement

There are no matching requirements, however applicants are encouraged to provide non-Federal contributions to the project.

## Part III. Application Requirements

The following Uniform Project Description (UPD) has been approved by OMB under control number 0970-0139.

### A. Purpose

The project description provides a major means by which an application is evaluated and ranked to compete with other applications for available assistance. The project description should be concise and complete and should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing your project description, all information requested through each specific evaluation criteria should be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application.

### B. General Instructions

ACF is particularly interested in specific factual information and statements of measurable goals in quantitative terms. Project descriptions are evaluated on the basis of substance, not length. Extensive exhibits are not required. Supporting information concerning activities that will not be

directly funded by the grant or information that does not directly pertain to an integral part of the grant funded activity should be placed in an appendix. Pages are to be numbered and included in a table of contents for easy reference.

#### Introduction

Applicants are required to submit a full project description and shall prepare the project description statement in accordance with the following instructions and the specified evaluation criteria. The instructions give a broad overview while the evaluation criteria expand and clarify more program-specific information that is needed.

##### a. Project Summary/Abstract

Provide a summary of the project description (a page) with reference to the funding request.

##### b. Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and or problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

##### c. Results or Benefits Expected

Identify the results and benefits to be derived. For example, using a comprehensive review of the current literature, justify how the research questions and the findings will add new knowledge to the field or how it will improve services for children and families.

##### d. Approach

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking

the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the proportion of data collection expected to be completed. When activity or function cannot quantify accomplishments, list them in chronological order to show the schedule of accomplishments and their target dates.

If any data are to be collected, maintained, and/or disseminated, clearance may be required from the U.S. Office of Management and Budget (OMB). This clearance pertains to any "collection of information that is conducted or sponsored by ACF." List organizations, cooperating entities, consultants, or other key individuals who will work on the project along with a short description of the nature of their effort or contribution.

#### C. Additional Information

Following is a description of additional information that should be placed in the appendix to the application:

##### a. Staff and Position Data

Provide a job description for each key position and a biographical sketch for each key person appointed. A biographical sketch with acceptable credentials will also be required for new key staff as appointed.

##### b. Organizational Profiles

Provide information on the applicant organization(s) and cooperating partners such as organizational charts, financial statements, audit reports or statements from CPAs/Licensed Public Accountants, Employer Identification Numbers, names of bond carriers, contact persons and telephone numbers, child care licenses and other documentation of professional accreditation, information on compliance with Federal/State/local government standards, documentation of experience in the program area, and other pertinent information. Any non-profit organization submitting an application must submit proof of its non-profit status in its application at the time of submission. The non-profit agency can accomplish this by providing a copy of the applicant's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in section 501(c)(3) of the IRS code, or by providing a copy of the currently valid

IRS tax exemption certificate, or by providing a copy of the articles of incorporation or similar document that clearly establishes non-profit status bearing the seal of the State in which the corporation or association is domiciled or a statement from a State taxing body, State attorney general, or other appropriate State official certifying the applicant organization has a non-profit status and none of the net earnings accrue to any private shareholders or individuals or any of the items in the subparagraphs immediately above for a State or national organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate. Faith-based institutions are encouraged to submit with their application the optional survey located under "Grant Manuals and Forms" at <http://www.acf.hhs.gov/programs/ofs/forms.htm>.

##### c. Dissemination Plan

Provide a plan for distributing reports and other project outputs to colleagues and the public. Applicants must provide a description of the kind, volume and timing of distribution.

##### d. Budget And Budget Justification

Provide line item detail and detailed calculations for each budget object class identified on the Budget Information form. Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. The detailed budget must also include a breakout by the funding sources identified in Block 15 of the SF-424.

Provide a narrative budget justification that describes how the categorical costs are derived. Discuss the necessity, reasonableness, and allocability of the proposed costs.

#### D. General Budget Information

The following guidelines are for preparing the budget and budget justification. Both Federal and non-Federal resources shall be detailed and justified in the budget and narrative justification. For purposes of preparing the budget and budget justification, "Federal resources" refers only to the ACF grant for which you are applying. Non-Federal resources are all other Federal and non-Federal resources. It is suggested that budget amounts and computations be presented in a columnar format: first column, object class categories; second column, Federal budget; next column(s), non-Federal budget(s), and last column, total budget. The budget justification should be a narrative.

##### a. Personnel

*Description:* Costs of employee salaries and wages.

*Justification:* Identify the project director or principal investigator, if known. For each staff person, provide the title, time commitment to the project (in months), time commitment to the project (as a percentage or full-time equivalent), annual salary, grant salary, wage rates, etc. Do not include the costs of consultants or personnel costs of delegate agencies or of specific project(s) or businesses to be financed by the applicant.

*b. Fringe Benefits*

*Justification:* For each type of equipment requested, provide a description of the equipment, the cost per unit, the number of units, the total cost, and a plan for use on the project, as well as use or disposal of the equipment after the project ends. An applicant organization that uses its own definition for equipment should provide a copy of its policy or section of its policy which includes the equipment definition.

*e. Supplies*

*Description:* Costs of all tangible personal property other than that included under the Equipment category.

*Justification:* Specify general categories of supplies and their costs. Show computations and provide other information that supports the amount requested.

Such costs, where applicable and appropriate, may include but are not limited to insurance, food, medical and dental costs (non-contractual), professional services costs, space and equipment rentals, printing and publication, computer use, training costs, such as tuition and stipends, staff development costs, and administrative costs.

*Justification:* Provide computations, a narrative description and a justification for each cost under this category.

*g. Indirect Charges*

*Description:* Total amount of indirect costs. This category should be used only when the applicant currently has an indirect cost rate approved by the Department of Health and Human Services (HHS) or another cognizant Federal agency.

*Justification:* An applicant that will charge indirect costs to the grant must enclose a copy of the current rate agreement. If the applicant organization is in the process of initially developing or renegotiating a rate, it should immediately upon notification that an award will be made, develop a tentative indirect cost rate proposal based on its most recently completed fiscal year in accordance with the principles set forth in the cognizant agency's guidelines for establishing indirect cost rates, and submit it to the cognizant agency. Applicants awaiting approval of their indirect cost proposals may also request indirect costs. It should be noted that when an indirect cost rate is requested, those costs included in the indirect cost pool should not also be charged as direct costs to the grant. Also, if the applicant is requesting a rate which is less than what is allowed under the program, the authorized representative of the applicant organization must submit a signed acknowledgement that the applicant is accepting a lower rate than allowed.

*h. Total Direct Charges, Total Indirect Charges, Total Project Costs*  
Self explanatory.

**Part IV. Evaluation Criteria and Review Process**

*A. Evaluation Criteria*

In considering how applicants will carry out the responsibilities addressed under this announcement, competing applications for financial assistance will be reviewed and evaluated against the following criteria:

Criterion 1. Approach: (45 points)

The extent to which the application, having met the minimum requirements, designs an acceptable plan of action pertaining to the scope of the project

which details how the proposed work will be accomplished. Include a timeline; lists of each organization, consultants, including key individuals who will work on the project along with a short description of the nature of their effort or contribution. Assure the adequacy of time devoted to the project by key staff. The key staff should be qualified and knowledgeable of Head Start. The applicant must fully describe the approach and/or methodology and delineate the relationship of each task to the accomplishment of the proposed objectives. There should be evidence that the planned approach reflects sufficient input from and partnership with AIANPB funded Head Start programs.

The Head Start Bureau is particularly interested in the following aspects of the approach:

1. Describe the planning the applicant will conduct during the start-up period to prepare for implementation of the program. Provide assurance that no more than six months will be devoted to planning activities.

2. Indicate how staff will be recruited and selected to participate in the program. Clearly describe how the training and/or coursework will be contextually and culturally relevant to the Head Start and Early Head Start environment and how it will contribute to enhancing the effectiveness of teachers, program quality and outcomes for Head Start children and families.

3. Describe efforts by the TCU and Head Start partners to make training and/or coursework accessible to Head Start participants and to support their successful completion of courses, training, and degrees. Include discussion of issues such as timing, scheduling, and location of classes or training; support to enhance the literacy and study skills of participants, and approaches to integrate training in the working environment of the Head Start program. Provide assurance that training/courses are offered at no cost to trainees.

4. Describe efforts to complement the Federal funds requested in this proposal with other sources to maximize the benefits to the TCU. Include any efforts or plans to assist Head Start staff in accessing sources of financial assistance or to make use of other funding for training and career development of early childhood program staff.

5. Document that the TCU currently offers training and/or credit courses, and proposes to offer credit courses in the priority areas.

6. In case of academic training, describe how the staff's CDA training and certification as well as previous

coursework and credits will be linked to academic credits and course sequences leading to academic degrees. Applicant should indicate how many Head Start and Early Head Start staff members will be included in this effort.

7. Describe the organizational structure that will support the project objectives. Indicate how joint planning and assessment with the AIANPB Head Start and Early Head Start grantees will be implemented with timelines and clear lines of responsibility. Indicate how project staff positions are assigned and describe their major functions and responsibilities.

8. Describe the role the institution will play in the TCU consortium funded under this initiative, and as a partner in the national training and technical assistance network.

9. Describe the activities that will continue after the completion of this project that will ensure that the TCU will continue to participate in providing educational opportunities for AIANPB Head Start and Early Head Start staff.

Criterion 2. Results or Benefits Expected: (20 points)

The extent to which the application identifies the results and benefits to be derived; describes the anticipated contribution to policy, practice, theory and/or research; specific benefits should be described for both the TCU and AIANPB Head Start program.

The Head Start Bureau is particularly interested in the following:

1. Based on the stated program objectives, identify the results and benefits to be derived. Identify the specific results or benefits that could be expected for the Head Start grantees and the TCU. Describe how Head Start children will benefit from the project.

2. Identify both qualitative and quantitative data the program will collect to measure progress towards the stated results or benefits. Identify how the program will determine the extent to which it has achieved its stated objectives.

3. To propose academic training leading to a college degree, provide a projection of the estimated number of teachers that will earn degrees over the duration of the project based on an analysis of the current levels of credits/courses earned by participants and a proposed sequence of courses.

Criterion 3. Budget and Budget Justification: (15 Points)

The extent to which the project's costs are reasonable in view of the activities to be carried out and the anticipated outcomes.

#### *Applicable Administrative Regulations*

Applicable administrative regulations include 45 CFR part 74, Administration of Grants, for profit agencies and 45CFR part 92, Uniform Administrative Requirements for Grants and Cooperative Agreements to State and local Governments.

#### *Post-Award Reporting Requirements*

Post-Award Reporting Requirements include submission of quarterly programmatic and budget reports. Program reports must clearly outline status on the accomplishment of stated goals and objectives. Financial reports must provide status of budget expenditures, as well as identifying any projected savings or shortages.

#### *Criterion 4. Objectives and Need for Assistance: (10 Points)*

The extent to which the application identifies relevant physical, economic, social, financial, institutional or other problems requiring a grant; demonstrates the need for assistance; states the principal and subordinate objectives of the project; provides supporting documentation or other testimonies from concerned interests other than the applicant.

The Head Start Bureau is particularly interested in the following:

1. State the objectives for the program. Indicate how these objectives are based on an assessment of community needs and how they relate to Head Start goals. Describe the process used to assess the need for the proposed program including the total number of staff needing training, including preschool and infant/toddler teachers. If an assessment already exists, the applicant should describe the process used and explain any additional consultation as it relates to the development of the proposed program.
