Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with part 211 of title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

Cass Scenic Railroad

[Docket Number FRA-2003-15851]

The Cass Scenic Railroad (Cass) seeks a waiver of compliance from the Inspection and Maintenance Standards for Steam Locomotives, 49 CFR part 230, published November 17, 1999. As stated in section 230.3(c)(1) Petition Process, Petitions for Special Consideration were to have been filed by January 18, 2001. It was to have been accompanied by all relevant documentation for support, including a FRA Form No. 4 that was calculated in accordance with § 230.17 One thousand four hundred seventy-two service day inspection, and all records that demonstrate the number of days the locomotive has been in service.

Cass seeks this waiver for one locomotive, number (Western Maryland) 6, which had the flue tubes replaced in accordance with the requirements of 49 CFR 230.17 and was returned to service in October 1996. At that time, Cass was eligible to file a Petition for Special Consideration because their locomotive was placed into service after the September 25, 1995 cutoff date. However, Cass was not able to verify the FRA Form 4 and supporting calculations until September 18, 2001, thus missing the required January 18, 2001 filing date. The locomotive was removed from service having only used 930 service days and has remained out

of service. Therefore, Cass seeks a waiver from the January 18, 2001 filing date for their Petition for Special Consideration.
