

defined by section 773(a)(1)(B)(i) of the Act.

Home market prices were based on ex-factory prices. We reduced NV for packing costs incurred in the home market, in accordance with section 773(a)(6)(B)(i), and increased NV to account for U.S. packing expenses in accordance with section 773(a)(6)(A). We also made adjustments for differences in circumstances of sale (COS) in accordance with 773(a)(6)(C)(iii) of the Act and 19 CFR 351.410, by deducting home market direct selling expenses (*i.e.*, imputed credit) and adding U.S. direct selling expenses (*i.e.*, imputed and bank charges, where applicable).

Currency Conversion

We made currency conversions in accordance with section 773A of the Act based on the official exchange rates in effect on the dates of the U.S. sales as certified by the Federal Reserve Bank.

Preliminary Results of the Review

As a result of this review, we preliminarily determine that the weighted-average dumping margins for the period February 1, 2002, through July 31, 2002, are as follows:

Manufacture/exporter	Margin (percent)
PT Eka Timur Raya	0.00
PT Karya Kompos Bagas	0.00

We will disclose calculations used in our analysis to parties to this proceeding within five days of the publication date of this notice. *See* 19 CFR 351.224(b). Any interested party may request a hearing within 30 days of publication. *See* 19 CFR 351.310(c). If requested, a hearing will be held 44 days after the date of publication of this notice, or the first work day thereafter.

Interested parties who wish to request a hearing or to participate if one is requested, must submit a written request to the Assistant Secretary for Import Administration, Room B-099. Requests should contain: (1) The party's name, address and telephone number; (2) the number of participants; and (3) a list of issues to be discussed. *See* 19 CFR 351.310(c).

Issues raised in the hearing will be limited to those raised in the respective case briefs and rebuttal briefs. Case briefs from interested parties and rebuttal briefs, limited to the issues raised in the respective case briefs, may be submitted not later than 30 days and 37 days, respectively, from the date of publication of these preliminary results. *See* 19 CFR 351.309(c) and (d). Parties who submit case briefs or rebuttal briefs

in this proceeding are requested to submit with each argument (1) a statement of the issue and (2) a brief summary of the argument. Parties are also encouraged to provide a summary of the arguments not to exceed five pages and a table of statutes, regulations, and cases cited.

The Department will issue the final results of this new shipper review, including the results of its analysis of issues raised in any written briefs, not later than 90 days after the date of publication of this notice.

Assessment Rates

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. For assessment purposes, we do not have the actual entered values for all sales made by Etira. Accordingly, we intend to calculate customer-specific assessment rates by aggregating any dumping margins calculated for all of Etira's U.S. sales examined and dividing the respective amount by the total quantity of the sales examined. To determine whether the duty assessment rates are *de minimis* (*i.e.*, less than 0.50 percent), in accordance with the requirement set forth in 19 CFR 351.106(c)(2), we will calculate importer-specific ad valorem ratios based on export prices. With respect to KKB, we intend to calculate importer-specific assessment rates for the subject merchandise by aggregating any dumping margins calculated for the examined sales and dividing this amount by the total entered value of the sales examined.

The Department will issue appropriate appraisal instructions directly to the Customs Service upon completion of this review. We will instruct the Customs Service to assess antidumping duties on all appropriate entries covered by this review if any importer-specific assessment rate calculated in the final results of this review is above *de minimis* (*i.e.*, less than 0.50 percent). *See* 19 CFR 351.106(c)(1). The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.

Cash Deposit Requirements

Bonding will no longer be permitted to fulfill security requirements for shipments from Etira or KKB of certain preserved mushrooms from Indonesia entered or withdrawn from warehouse, for consumption on or after the publication date of the final results of

the new shipper review. Furthermore, the following cash deposit requirements will be effective upon publication of the final results of the new shipper review for all shipments of subject merchandise from Etira or KKB entered, or withdrawn from warehouse, for consumption on or after the publication date: (1) for subject merchandise manufactured and exported by Etira or KKB, no cash deposit will be required if the cash deposit rates calculated in the final results are zero or *de minimis*; and (2) for subject merchandise exported by Etira or KKB but not manufactured by them, the cash deposit rate will be 11.26 percent, the "All Others" rate made effective by the LTFV investigation. These requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This new shipper review and notice are published in accordance with sections 751(a)(2)(B) and 777(i)(1) of the Act and 19 CFR 351.214.

Dated: March 27, 2003.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and

be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 03-014. *Applicant:* Department of Health and Human Services, NIH/NIEHS, 111 T.W. Alexander Drive, Research Triangle Park, NC 27709. *Instrument:* Electron Microscope, Model Tecnai G² 12 BioTWIN, BioTWIN Upgrade, and Accessories. *Manufacturer:* FEI Company, The Netherlands. *Intended Use:* The instrument is intended to be used to examine the ultrastructure of biological tissues from control animals (usually rats and mice) and those genetically altered or chemically treated to induce possible aberrations similar to those seen in various human diseases exemplified by cancer, liver malfunction and growth, maturation and neuronal anomalies. Objectives of the experimentation will be to understand the cellular and subcellular processes involved in the progression of the disease state, make recommendations for future studies, and suggest possible treatments or preventive therapies. *Application accepted by Commissioner of Customs:* March 11, 2003.

Docket Number: 03-015. *Applicant:* North Carolina State University, Campus Box 7212, Raleigh, NC 27695-7212. *Instrument:* Electron Beam Melting Machine, Model EBM S12. *Manufacturer:* Arcam AB, Sweden. *Intended Use:* The instrument is intended to be used to fabricate three-dimensional metallic-components having arbitrarily complex geometries. Several new materials will be developed with the aim of achieving strength-to-weight ratios that were not previously possible. Research investigating the fabrication of novel geometric shapes includes:

(1) Design and testing of conformal cooling in production tools with the aim of reducing cycle time and improving geometric accuracy.

(2) Design and testing of non-random cellular structures for weight reduction of metal components for aerospace and military applications using aluminum and titanium.

(3) Design and fabrication of custom biomedical implants using titanium and cobalt-chromium.

(4) Design, development and testing of novel fuel cell material compositions.

In addition, the instrument will be used for educational purposes in courses such as:

(1) IE 216, Manufacturing Engineering Practicum.

(2) IE 316, Manufacturing Engineering I—Processes.

(3) IE 514, Product Engineering.

(4) IE 589U, Biomodeling and Fabrication.

Application accepted by Commissioner of Customs: March 10, 2003.

Docket Number: 03-016. *Applicant:* University of Wisconsin-Eau Claire, 105 Garfield Avenue, Eau Claire, WI 54701. *Instrument:* Automatic Fusion Machine, Model AutoFluxer 4. *Manufacturer:* Breitlander Eichproben und Labormaterial GmbH, Germany. *Intended Use:* The instrument is intended to be used to fuse sample whole rock powder for geochemical analysis. The instrument produces fused glass beads which present a homogeneous smooth surface to the X-Ray Florescence Spectrometer for analysis of major elements (Si, Al, Fe, Mn, Mg, Ca, K, P). In addition, the instrument will be used in the following university courses:

(1) Geology 312—Mineralogy and Petrology I.

(2) Geology 313—Mineralogy and Petrology II.

(3) Geology 320—Sedimentation and Stratigraphy.

(4) Geology 330—Geochemistry.

Application accepted by Commissioner of Customs: March 10, 2003.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.

Northwestern University, Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 03-005. *Applicant:* Northwestern University, Chicago, IL 60637. *Instrument:* MSM System Series 300 Yeast Manipulator and Micro Zapper. *Manufacturer:* Singer Instrument Company Limited, United

Kingdom. *Intended Use:* See notice at 68 FR 8210, February 20, 2003.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. *Reasons:* The foreign instrument provides a complete computer-controlled workstation for micromanipulation in yeast genetics by performing tetrad dissection, pedigree analysis, cell and zygote isolation, cell progression and other automated functions. The National Institutes of Health advises in its memorandum of February 26, 2003, that (1) this capability is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value to the foreign instrument which is being manufactured in the United States.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.

University of Colorado, Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 03-002. *Applicant:* University of Colorado, JILA, Boulder, CO 80309-0440. *Instrument:* DFB Fiber Laser with Amplifier, Model Y10. *Manufacturer:* Koheras A/S, Denmark. *Intended Use:* See notice at 68 FR 6415, February 7, 2003.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States. *Reasons:* The foreign instrument provides 1.0 W of laser light at the vacuum wavelength of 1126.275 nm
