

Board of Governors of the Federal Reserve System

International Applications and Prior Notifications under Subparts A and C of Regulation K

General Information and Instructions

The following material has been prepared to assist in preparation of applications and prior notifications relating to international operations under the Board's Regulation K. Checklists are attached providing the types of information that will normally be required. Some of the items may not be applicable to a particular proposal. Applications and notifications that, in the judgment of the Reserve Bank, do not substantially contain the information specified in the checklists will not be accepted and may be returned to the applicant for resubmission.

Applications and notifications should be addressed to the Board of Governors of the Federal Reserve System in 10 copies and are to be submitted to the Federal Reserve Bank of the District in which the parent company is located or, if none, the District in which the applying organization is or will be located. Submissions may be in letter form, or by cover letter accompanied by a memorandum containing the required information. Prior consultations with the Reserve Bank, and, if necessary, the Board's staff, are suggested to resolve questions or to assure that applications and notifications for proposed Edge corporations or investments or branches with unusual characteristics are properly filed. Information regarding investments must be maintained and made available to examination staff upon request. Branch openings, closings, and relocations must be reported after the fact on the Report of Organizational Structure (FR Y-10; OMB No. 7100-0297) in accordance with the instructions for that form.

With respect to matters requiring the publication of notice in a newspaper of general circulation, an affidavit of publication should either accompany the application or notice, or should be provided as soon as possible after filing.

Attachment A should be used in filing 30-day prior notifications to establish initial foreign branches. Attachment B should be used for prior notifications by banking organizations that already operate branches in two or more foreign countries to establish branches in additional foreign countries pursuant to the 12 business day prior notification procedures.

For all applications or notifications filed pursuant to this form FR K-1, the following certification is required.

Certification

I certify that the information contained in this [application/notification] has been examined carefully by me and is true, correct, and complete, and is current as of the date of this submission to the best of my knowledge and belief. I acknowledge that any misrepresentation or omission of a material fact constitutes fraud in the inducement and may subject me to legal sanctions provided by 18 USC 1001 and 1007.

I also certify, with respect to any information pertaining to an individual and submitted to the Board in or in connection with this application/notification that the Applicant/Notificant has the authority, on behalf of the individual, to provide such information to the Board and to consent or to object to public release of such information. I certify that the Applicant/Notificant and the involved individual consent to public release of any such information, except to the extent set forth in a written request by the Applicant/Notificant or the individual, submitted in accordance with the Instructions to this form and the Board's Rules Regarding Availability of Information (12 CFR Part 261), requesting confidential treatment for the information.

I acknowledge that approval of this application/notification is in the discretion of the Board of Governors of the Federal Reserve System (the "Federal Reserve"). Actions or communications, whether oral, written, or electronic, by the Federal Reserve or its employees in connection with this filing, including approval if granted, do not constitute a contract, either express or implied, or any other obligation binding upon the agency, the United States or any other entity of the United States, or any officer or employee of the United States. Such actions or communications will not affect the ability of the Federal Reserve to exercise its supervisory, regulatory, or examination powers under applicable laws and regulations. I further acknowledge that the foregoing may not be waived or modified by any employee or agency of the Federal Reserve or of the United States.

General Information and Instructions—Continued

Confidentiality

Under the provisions of the Freedom of Information Act (the “FOIA”), 5 U.S.C. § 552, the application/notification is a public document and available to the public upon request. Once submitted, an application/notification becomes a record of the Board and may be requested by any member of the public. Board records generally must be disclosed unless they are determined to fall, in whole or in part, within the scope of one or more of the FOIA exemptions from disclosure. See 5 U.S.C. § 552(b)(1)–(9).

The exempt categories include (but are not limited to) “trade secrets and commercial or financial information obtained from a person and privileged or confidential” (exemption 4), and information that, if disclosed, “would constitute a clearly unwarranted invasion of personal privacy” (exemption 6). An Applicant/Notificant may request confidential treatment for any information submitted in or in connection with its application/notification that Applicant/Notificant believes is exempt from disclosure under the FOIA. For example, if Applicant/Notificant is of the opinion that disclosure of commercial or financial information would likely result in substantial harm to its competitive position or that of its subsidiaries, or that disclosure of information of a personal nature would result in a clearly unwarranted invasion of personal privacy, confidential treatment of such information may be requested.

The request for confidential treatment must be submitted in writing concurrently with the filing of the application, notification, or subsequent related submission, and must discuss in detail the justification for confidential treatment. Such justification must be provided for each portion of the application, notification, or submission for which confidential treatment is requested. Applicant’s/Notificant’s reasons for requesting confidentiality must specifically describe the harm that would result from public release of the information. A statement simply indicating that the information would result in competitive harm or that it is personal in nature is not sufficient. (A claim that disclosure would violate the law or policy of a foreign country is not, in and of itself, sufficient to exempt information from disclosure. Applicant must demonstrate that disclosure would fall within the scope of one or more of the FOIA exemptions from disclosure.) Applicant/Notificant must follow the steps outlined immediately below, and certify in the

application/notification that these steps have been followed. These same steps must be followed with respect to any subsequent submission related to this application/notification for which confidential treatment is sought.

Information for which confidential treatment is requested should be: (1) specifically identified in the public portion of the application/notification (by reference to the confidential section); (2) separately bound; and (3) labeled “CONFIDENTIAL.” As noted, Applicant/Notificant must follow this same procedure with regard to filing any supplemental information to the application/notification.

With respect to applications/notifications that include information regarding an individual or individuals associated with the proposed transaction, the Board expects Applicant/Notificant to certify that it has obtained the consent of the individual(s) to public release of such information prior to its submission to the Board or, in the absence of such consent, to submit (or ensure that the individual(s) submit(s)) a timely request for confidential treatment of the information in accordance with these instructions. Information submitted directly by an individual or individuals will become part of the relevant application/notification record and, accordingly, will be a Board record subject to being requested by any member of the public under the FOIA.

The Federal Reserve will determine whether information submitted as confidential will be so regarded, and will advise Applicant/Notificant of any decision to make available to the public information labeled “CONFIDENTIAL.” However, it shall be understood that, without prior notice to Applicant/Notificant, the Board may disclose or comment on any of the contents of the application/notification in the Order or Statement issued by the Board in connection with its decision on the application/notification. The Board’s staff normally will apprise Applicant/Notificant in the course of the review process that such information may need to be disclosed in connection with the Board’s action on the application/notification.

For further information on the procedures for requesting confidential treatment and the Board’s procedures for addressing such requests, consult the Board’s Rules Regarding Availability of Information, 12 CFR part 261, including 12 CFR 261.15, which governs requests for confidential treatment.
