**Description:** These funds will be used for operations of the national park system. Eligible projects to be funded within this account include, but are not limited to, repair and rehabilitation of facilities and other infrastructure, trail maintenance projects and other critical infrastructure needs. The selection of individual projects will be done by the National Park Service. It will be based on a prioritization process that weighs the capacity of proposals to create the largest number of jobs and create lasting value.

The funding levels listed in this document are estimates based on the most recent information received to date.

**How to Apply:** Funds will be distributed at the National Park Service's discretion and not available for applicants. To learn more, please visit <http://www.doi.gov/recovery/index.html> .

**Program:** Construction  
**Funding Agency:** Department of Interior  
**Federal Funding:** \$589 million  
**Description:** Eligible projects include: major facility construction, road maintenance, abandoned mine cleanup, equipment replacement, and preservation and rehabilitation of historic assets.

**How to Apply:** The Department of Interior will have the discretion to award funding for projects currently backlogged. Please visit <http://www.doi.gov/recovery/index.html> .

**Program:** Surveys, Investigations and Research  
**Funding Agency:** United States Geological Survey  
**Federal Funding:** \$140 million  
**Description:** The surveys should consider a wide variety of activities, including repair, construction and restoration of facilities, equipment replacement and upgrades, national map activities, and other critical deferred maintenance and improvement projects.

**How to Apply:** Discretionary funding will be administered through the United States Geological Survey. Visit <http://www.usgs.gov> for more information.

### **Department of Labor**

**Program:** Dislocated Worker Assistance National Reserve  
**Funding Agency:** Department of Labor  
**Federal Funding:** \$200 million  
**Massachusetts Funding:** \$ 21,223,446<sup>4</sup>  
**Description:** These funds will allow the Secretary of Labor to award national emergency grants to respond to plant closings, mass layoffs and other worker dislocations.

The funding levels listed in this document are estimates based on the most recent information received to date.

**How to Apply:** These funds can be applied for through the Department of Labor as necessary.

**Program:** Youth Build  
**Funding Agency:** Department of Labor  
**Federal Funding:** \$50 million  
**Description:** These funds will allow for expanded services for at-risk youth, who gain education and occupational credentials while constructing or rehabilitating affordable housing.

**How to Apply:** These funds will be distributed through competitive grants through the Department of Labor. Grant information will be available as the Department of Labor administers the program at <http://www.grants.gov>.

**Program:** “Green” and Health Care Worker Training  
**Funding Agency:** Department of Labor  
**Federal Funding:** \$750 million  
**Description:** These funds will be available through competitive grants for worker training and placement in high growth and emerging industry sectors. Grants will be awarded for projects that prepare workers for careers in energy efficiency and renewable energy; the health care sector; and to train workers for wireless and broadband deployment.

**How to Apply:** The Department of Labor will provide additional information as to how to apply as they administer this program. Please check <http://www.grants.gov> and <http://www.dol.gov> for more information.

**Program:** Community Service Employment for Older Americans  
**Funding Agency:** Department of Labor  
**Federal Funding:** \$120 million  
**Massachusetts Funding:** \$516,999<sup>5</sup>  
**Description:** The Community Service Employment grants for older Americans are a community service and work based training program created in 1965. Through this program, older workers have access to the SCSEP services as well as other employment assistance available through the One-Stop Career Centers of the workforce investment system. The wages paid to these low-income seniors will provide a direct stimulus to the economies of local communities.

**Program:** Job Corps  
**Funding Agency:** Department of Labor  
**Federal Funding:** \$250 million

**Description:** These funds will support construction and modernization of a network of residential facilities serving at-risk youth. The funds will allow the Office of Job Corps to move forward on a number of ready-to-go rehabilitation and construction projects. A portion of the funds will be available to provide additional training for careers in the energy efficiency, renewable energy, and environmental protection industries.

**How to Apply:** Discretionary funding will be used by the Office of Job Corps within the Department of Labor. To learn more, please visit <http://www.doleta.gov/recovery/> and <http://www.grants.gov>.

### **Department of Energy**

**Program:** Biomass from Energy Efficiency and Renewable Energy Program

**Funding Agency:** Department of Energy  
**Federal Funding:** \$800 million

**Description:** The Department of Energy will disburse this funding through competitive grants and discretionary spending for biomass research and development.

**How to Apply:** Please check <http://www1.eere.energy.gov/biomass/> for additional information as the Department of Energy implements this program. Federal grants can be found at <http://www.grants.gov> .

**Program:** Geothermal from Energy Efficiency and Renewable Energy Program

**Funding Agency:** Department of Energy

The funding levels listed in this document are estimates based on the most recent information received to date.

**Federal Funding:** \$400 million

**Description:** The Department of Energy will disburse this funding through competitive grants and discretionary spending for geothermal technologies research and development.

**How to Apply:** Please check <http://www1.eere.energy.gov/geothermal/> for additional information as the Department of Energy implements this program. Federal grants can be found at <http://www.grants.gov>.

**Program:** **Energy Efficiency & Conservation Block Grant**

**Funding Agency:** Department of Energy

**Federal Funding:** \$400 million

**Description:** The Department of Energy will disburse this funding (EECBG) through competitive grants to local governments that are not eligible entities for grants through the formula. This program will assist eligible entities in implementing energy efficiency and conservation strategies to reduce fossil fuel emissions, to reduce total energy use, and to improve energy efficiency in the transportation, building and other appropriate sectors

**How to Apply:** Please check <http://www.doe.gov> for additional information as the Department of Energy implements this program. Federal grants can be found at <http://www.grants.gov>.

**Program:** **Advanced Battery Manufacturing grants**

**Funding Agency:** Department of Energy

**Federal Funding:** \$2 billion

**Description:** Domestic manufacturing facilities are eligible for this funding. The Department of Energy will disburse this funding through competitive grants to support the manufacturing of advanced vehicle batteries and components.

**How to Apply:** Please check <http://www.doe.gov> for additional information as the Department of Energy implements this program. Federal grants can be found at <http://www.grants.gov>.

**Program:** **Alternative Fueled Vehicles Pilot Grant**

**Funding Agency:** Department of Energy

**Federal Funding:** \$300 million

The funding levels listed in this document are estimates based on the most recent information received to date.

**Description:** Funds will be distributed by competitive grants for the purchase of alternative fuel vehicles through the DOE's Clean Cities program.

**How to Apply:** The Department of Energy will administer these grants on a competitive basis through its Clean Cities Program, to state and local governments, metropolitan transportation authorities, air pollution control districts, and appropriate private entities to be used to purchase and demonstrate alternatively fueled vehicles that utilize fuel cell, electric, or hybrid drive system technologies. Please visit <http://www.energy.gov> and <http://www.grants.gov> for the announcement following the program's implementation.

**Program:** **Transportation Electrification**

**Funding Agency:** Department of Energy

**Federal Funding:** \$400 million

**Description:** This funding is for a transportation electrical system construction program, authorized by the 2007 Energy Independence and Security Act, at transportation facilities, including seaports and truck stops.

**How to Apply:** The Department of Energy will administer these grants on a competitive basis. Please visit <http://www.energy.gov> and <http://www.grants.gov> for the announcement following the program's implementation.

**Program:** **Energy Efficient Appliance Rebate; Energy Star**

**Funding Agency:** Department of Energy

**Federal Funding:** \$300 million

**Description:** This funding will provide rebates for residential consumers for the purchase of residential Energy Star products to replace used appliances with more efficient models.

**How to Apply:** The Department of Energy will administer these rebates through the Energy Star program. Please visit <http://www.energystar.gov> for more information as the program is implemented.

**Program:** **Electricity Delivery and Energy Reliability-Smart Grid Investment**

**Funding Agency:** Department of Energy

The funding levels listed in this document are estimates based on the most recent information received to date.

**Federal Funding:** \$4.5 billion

**Description:** The existing transmission system in the United States requires modernization in light of increasing demand. This funding will provide for research and development, pilot projects, and federal matching funds for the Smart Grid Investment Program to meet the goal of developing a modern electric grid, enhancing security and reliability of energy infrastructure, and facilitating recovery from disruptions to the energy supply. A smart grid is an approach to operating the nation's electricity transmission and distribution system using advanced digital technology to save energy and cost, and to allow demand response, use of storage technologies (including plug-in hybrid batteries), integration of dispersed renewable and distributed generators, enhanced reliability and quicker repair of outages, and improved power quality.

**How to Apply:** There will be a regional demonstration initiative administered through the Department of Energy. There will also be 50% matching grants to states provided by the Department. More information will be available at <http://www.energy.gov> and <http://www.grants.gov>.

**Program:** Fossil Energy Research and Development

**Funding Agency:** Department of Energy

**Federal Funding:** \$3.4 billion

**Description:** This funding is for research, development, and demonstration of carbon sequestration, also known as carbon capture projects.

**How to Apply:** Funds will be awarded competitively in the form of grants and contracts. Please check <http://www.energy.gov> and <http://www.grants.gov> for more information as it is announced.

**Program:** Non-Defense Environmental Cleanup

**Funding Agency:** Department of Energy

**Federal Funding:** \$483 million

**Description:** This funding will create jobs in environmental cleanup and remediation services; address legal requirements with states to perform mandated cleanup activities; and accelerate the completion of capital projects, shortening out-year mortgage costs. Sites related to past nuclear activities are excluded.

The funding levels listed in this document are estimates based on the most recent information received to date.

**How to Apply:** Funds will be awarded discretionally as well as competitively in the form of grants. Please check <http://www.energy.gov> and <http://www.grants.gov> for more information as it is announced.

**Program:** Science  
**Funding Agency:** Department of Energy  
**Federal Funding:** \$1.6 billion

**Description:** The Office of Science at the Department of Energy is the single largest supporter of basic research in the physical sciences in the United States, providing more than 40 percent of total funding for this vital area of national importance. It oversees the Nation's research programs in high-energy physics, nuclear physics, and fusion energy sciences. This funding will support improvements to DOE laboratories and scientific facilities to provide the foundation for research and development efforts.

**How to Apply:** Funds will be awarded by the Department of Energy. Please check <http://www.energy.gov> for more information.

**Program:** Advanced Research Projects  
**Funding Agency:** Department of Energy  
**Federal Funding:** \$400 million

**Description:** Energy to support high-risk, high-payoff research to accelerate the innovation cycle for both traditional and alternative energy sources and energy efficiency as authorized by the America COMPETES Act. The Department of Energy estimates that this amount of funding will support 50,000 jobs through research and construction of laboratory facilities.

**How to Apply:** Funds will be awarded by the Department of Energy. Please check <http://www.energy.gov> for more information.

**Program:** Innovative Technology Loan Guarantees  
**Funding Agency:** Department of Energy  
**Federal Funding:** \$6 billion

**Description:** This new program would provide loan guarantees for renewable technologies and transmission technologies. The \$6 billion is expected to support more than \$60 billion in loans for these projects. \$10 million from this \$6 billion will support the administrative expenses for the Advanced Technology Vehicles Manufacturing Loan program.

The funding levels listed in this document are estimates based on the most recent information received to date.

**How to Apply:** After implementing this new loan program, more information will be available at <http://www.energy.gov>.

**Program:** **Biomass from Energy Efficiency and Renewable Energy Program**

**Funding Agency:** Department of Energy

**Federal Funding:** \$800 million

**Description:** The Department of Energy will disburse this funding through competitive grants and discretionary spending for biomass research and development.

**How to Apply:** Please check <http://www1.eere.energy.gov/biomass/> for additional information as the Department of Energy implements this program. For more information, visit <http://www.grants.gov>.

**Program:** **Geothermal from Energy Efficiency and Renewable Energy Program**

**Funding Agency:** Department of Energy

**Federal Funding:** \$400 million

**Description:** The Department of Energy will disburse this funding through competitive grants and discretionary spending for geothermal technologies research and development.

**How to Apply:** Please check <http://www1.eere.energy.gov/geothermal/> for additional information as the Department of Energy implements this program. Federal grants can be found at <http://www.grants.gov>.

**Program:** **Energy Efficiency & Conservation Block Grant**

**Funding Agency:** Department of Energy

**Federal Funding:** \$3.2 billion

**Description:** This program, which was authorized by the 2007 Energy Independence and Security Act, provides EECBG grants to state, local, and tribal governments to fund public facility renovation projects that would install more energy efficient building technologies and materials, and energy efficient technology demonstration projects. \$2.8 billion will be distributed through a formula developed by the Department of Energy. The remaining \$400 million shall be awarded on a competitive basis to entities not qualifying through the formula.

The funding levels listed in this document are estimates based on the most recent information received to date.

**How to Apply:** Please check <http://www.doe.gov> for additional information. Federal grants can be found at <http://www.grants.gov> .

**Program:** **Advanced Battery Manufacturing grants**  
**Funding Agency:** Department of Energy  
**Federal Funding:** \$2 billion  
**Description:** The Department of Energy will disburse this funding through competitive grants to support the manufacturing of advanced vehicle batteries and components.

**How to Apply:** Please check <http://www.doe.gov> for additional information. Information about Federal grants may be found at <http://www.grants.gov> .

### **Environmental Protection Agency (EPA)**

**Program:** **Hazardous Substance Superfund**  
**Funding Agency:** EPA  
**Federal Funding:** \$600 million  
**Description:** Funds are limited to the Superfund Remedial program, which addresses contamination from uncontrolled releases at hazardous and toxic waste sites that threaten human health and the environment. Of the over 15,000 uncontrolled hazardous waste sites nation-wide, EPA currently has listed 1,255 sites on its National Priority List. It is these sites, selected based on a hazard ranking system, which would benefit from recovery funds.

**How to Apply:** The EPA will award these funds based on the National Priority List for Superfund Remedial sites. Please continue to check <http://www.epa.gov> or <http://www.epa.gov/superfund> for additional information.

**Program:** **Leaking Underground Storage Tank Trust**  
**Fund Account**  
**Funding Agency:** EPA  
**Federal Funding:** \$200 million  
**Description:** Through the Leaking Underground Storage Tanks (LUST) Program, EPA provides resources to states and territories for the oversight,

The funding levels listed in this document are estimates based on the most recent information received to date.

enforcement and cleanup of petroleum releases from underground storage tanks (USTs). EPA estimates that every year 7,570 new releases occur. Added to the number of sites not yet completed, there could be as many as 116,000 sites requiring clean up actions in 2009.

**How to Apply:** The EPA will award these funds based on their priority lists for the program. Please visit <http://www.epa.gov> as they continue to administer the program.

**Program:** **Brownfields Projects**

**Funding Agency:** EPA

**Federal Funding:** \$100 million

**Description:** Funds are provided for Brownfields competitive grants to address environmental site assessment and cleanup, 25 percent of which are mandated by law to address petroleum contamination. Funds will capitalize revolving funds and provide low interest loans, job training grants and technical assistance to local governments and non-profit organizations.

**How to Apply:** Eligible entities include state, local and tribal governments, legislatures, general purpose units of local government, land clearance authorities or other quasi-governmental entities and non-profit organizations. Grants will be distributed by federal agency on a competitive basis. Visit <http://www.epa.gov> or <http://www.grants.gov> for more information.

**Program:** **Diesel Emission Reduction Act (DERA) Grants**

**Funding Agency:** EPA

**Federal Funding:** \$300 million

**Description:** Created in 2005, the DERA program provides grants and loans to states and local governments for projects that reduce diesel emission. Priority projects include those that maximize public health benefits by significantly reducing particulate matter emissions which are a significant threat to human health and a likely contributor to global warming. The program also targets geographic areas with high air pollution and air toxins and areas that receive a disproportionate quantity of air pollution, such as truck stops and ports. EPA funds technologies to retrofit emission exhaust systems, such as on school buses and other vehicles, replace engines and vehicles, and establish anti-idling programs.

The funding levels listed in this document are estimates based on the most recent information received to date.

**How to Apply:** Eligible entities include US regional, State, local, tribal or port agencies with jurisdiction over transportation or air quality and non-profit organizations that represent or provide pollution reduction or educational services to persons or organizations that operate diesel fleets. Visit <http://www.grants.gov> or <http://www.epa.gov> for more information.

The funding levels listed in this document are estimates based on the most recent information received to date.

### **Funding Through the Commonwealth of Massachusetts**

**Program:** Transportation Projects  
**Funding Agency:** Massachusetts Department of Transportation  
**Federal Funding:** \$27.5 billion U.S. (Conference Report)  
**Massachusetts Funding:** \$437.9 million<sup>6</sup>  
**Description:** \$153.2 million is allocated to “shovel-ready” projects. An additional \$319 million will be allocated to the Regional Transit Authorities and the Massachusetts Bay Transportation Authority. Road and bridge projects will be selected for federal funding from a list of eligible projects, and will move forward on a competitive bid basis to meet the 120-day “use-it-or-lose-it” deadline. A list of already-approved projects in the Commonwealth can be found in Governor Patrick’s Press Release at [http://www.mass.gov/Agov3/docs/econ\\_recovery/Highway\\_proposed\\_MPO\\_20090306.pdf](http://www.mass.gov/Agov3/docs/econ_recovery/Highway_proposed_MPO_20090306.pdf).

**How to Apply:** Federal funds will be distributed by formula to the states. Please visit <http://www.mass.gov/recovery> .

**Program:** Weatherization Assistance Program  
**Funding Agency:** Massachusetts Department of Energy and Environmental Affairs  
**Federal Funding:** \$5 billion  
**Massachusetts Funding:** \$122,077,457<sup>7</sup>  
**Description:** This funding will support the weatherization of homes, including adding more insulation, sealing leaks, and modernizing heating and air conditioning equipment, measures which will pay for themselves many times over. The Weatherization Assistance Program will allow low-income families to reduce their heating bills by hundreds of dollars a year.

**How to Apply:** Individuals can apply for the Massachusetts Department of Energy and Environmental Affairs at

**Program:** State Energy Program

**Funding Agency:** Department of Energy

**Federal Funding:** \$3.1 billion

**Massachusetts Funding:** \$54,911,000<sup>8</sup>

**Description:** The State Energy Program (SEP) provides grants to states and directs funding to state energy offices. This funding will provide resources for activities in state energy offices, including key initiatives such as commercial and governmental energy efficiency upgrades. These funds will be available to consumers through rebates on home energy audits, clean energy generation and alternative fuels, and other innovative state efforts to help constituents save on their energy bills.

**How to Apply:** Funds will be distributed at the Commonwealth's discretion. Please visit <http://www.mass.gov/recovery> for more information and to apply through the State.

### **Environmental Protection Agency (EPA)**

**Program:** Clean Water State Revolving Funds

**Funding Agency:** EPA

**Federal Funding:** \$4 billion U.S. (Conference Report)

**Massachusetts Funding:** \$134,401,200<sup>9</sup>

**Description:** The U.S. Environmental Protection Agency's CWSRF program awards annual capitalization grants to states as a long-term source of state financing a) for the construction of publicly owned wastewater treatment facilities, b) for the implementation of non-point water quality management activities, and c) for the development and implementation of comprehensive estuary conservation and management plans. The recovery funds will help address the \$388 billion funding gap.

**How to Apply:** Funds will be distributed by formula to the states. Visit <http://www.mass.gov/recovery> for more information and to apply.

**Program:** Drinking Water State Revolving Funds

**Funding Agency:** EPA

**Federal Funding:** \$2 billion U.S. (Conference Report)

**Massachusetts Funding:** \$52,216,000<sup>10</sup>

**Description:** The Drinking Water State Revolving Fund (SRF) provides grants, distributed by formula, to states to capitalize their revolving loan funds which then finance drinking water infrastructure improvements. With the recovery funds, states will begin to address the \$274 billion funding gap estimated by the EPA.

**How to Apply:** Funds will be distributed by formula to the states. Visit <http://www.mass.gov/recovery> for more information and to apply.

### Department of Labor

**Program:** Workforce Investment Act Formula Grants

**Funding Agency:** Department of Labor

**Federal Funding:** \$2.95 billion

**Description:** This funding is for formula grants to states for training and employment services. The \$2.95 billion in federal funding will be divided into services for adults (\$500 million), services for youths (\$1.2 billion), and services for dislocated workers (\$1.25 billion).

**How to Apply:** Funds will be distributed to the states by formula. Please visit <http://www.doleta.gov/recovery/> or <http://www.mass.gov/recovery> for more information.

**Program:** State Unemployment Insurance

**Funding Agency:** Department of Labor

**Federal Funding:** \$400 million

**Description:** These funds will be used for reemployment services to connect unemployment insurance claimants to employment and training opportunities that will facilitate reentry in to employment. The funds provided will be distributed by the existing Wagner-Peyser formula.

**Program:** Temporary Emergency Food Assistance  
**Funding Agency:** Department of Agriculture  
**Federal Funding:** \$150,000,000  
**Description:** TEFAP provides USDA commodities to states, who distribute the food through local emergency food providers. Available foods vary depending on market conditions

**How to Apply:** States will receive an allotment based on federal formula, which they will distribute to local food providers. Please visit <http://www.mass.gov/recovery> for more information.

**Program:** National School Lunch Program  
**Funding Agency:** Department of Agriculture through USDA  
**Federal Funding:** \$100 Million  
**Description:** Funds will be provided to states administering a school lunch program in a manner proportional to each states administrative expense allocation. States shall then provide competitive grants to school food authorities based on the need for equipment assistance. From these grants, priority will be given to schools that have 50% or more of students that are eligible to receive free or reduced priced meals.

**How to Apply:** To apply for a state grant please visit <http://www.mass.gov/recovery> .

**Program:** Supplemental Nutrition Assistance Program or Food Stamps  
**Funding Agency:** Department of Agriculture  
**Federal Funding:** \$19,900,000  
**Description:** This money will go directly to states to supplement their existing food stamp program. The money will be distributed based on the need of people in their state. The benefits will be given to recipients in April.

**How to Apply:** Persons who need food stamps should contact Massachusetts Department of Health and Human Services at <http://www.mass.gov/?pageID=eohhs2subtopic&L=5&L0=Home&L1=Consumer&L2=Basic+Needs&L3=Food+%26+Nutrition&L4=Food+Stamp+Benefits&sid=Eeohhs2>.

The funding levels listed in this document are estimates based on the most recent information received to date.

**Program:** **Childcare and Development Block Grants**

**Funding Agency:** Department of Health and Human Services  
through Administration for Children and Families

**Federal Funding:** \$2 Billion

**Description:** The funding for these grants will be distributed to states for quality improvements for infant and toddler care. This additional funding will enable states to provide child care assistance for an additional 300,000 children in low-income working families who have been suffering from the economic downturn. It is estimated that it will generate paid employment for roughly 125,000 caregivers.

**How to Apply:** To apply for state grants visit

<http://www.mass.gov/recovery>.

**Program:** **Congregate Nutrition Services**

**Funding Agency:** Department of Health and Human Services  
through the Administration on Aging

**Federal Funding:** \$65 Million

**Description:** Programs that bring seniors together to eat in group settings.

**How to Apply:** There is a federal formula that is used to distribute this funding to states. States will automatically receive the funding for disbursement. To apply for a state grant please visit

<http://www.mass.gov/recovery>.

**Program:** **Home-Delivered Nutrition Services**

**Funding Agency:** Department of Health and Human Services

**Federal Funding:** \$32 Million

**Description:** Programs that bring nutritional and dietary safe meals to seniors.

**How to Apply:** There is a federal formula that is used to distribute this funding to states. States will automatically receive the funding for disbursement. To apply for a state grant please visit

<http://www.mass.gov/recovery>.

**Program:** **Community Services Block Grants**

**Funding Agency:** Department of Health and Human Services

**Federal Funding:** \$1 billion

The funding levels listed in this document are estimates based on the most recent information received to date.

**Description:** The Community Service Block Grant (CSBG) is a formula grant that provides funds to States, Territories, and federally and State-recognized Indian tribes/tribal organizations so that they may provide supportive services and activities to assist low-income individuals and families to become self-sufficient. Typically, States fund these services by making sub-grants to locally based Community Action Agencies and other eligible entities that provide services to low-income individuals and families.

**How to Apply:** This money will be disbursed directly to states who will then allocate the funds to eligible institutions. One percent of state allocations must be used for benefit coordination services. States will receive this money from the Dept. of Health and Human Services. To apply for state grants go to <http://www.mass.gov/recovery>.

### **Housing and Urban Development Programs**

**Program:** Neighborhood Stabilization Program (NSP)  
**Funding Agency:** Department of Housing and Urban Development  
**Federal Funding:** \$2 billion  
**Massachusetts Funding:** \$43,466,030<sup>15</sup>

**Description:** Provides federal funding to counties and cities to address the foreclosure crisis. The funding was provided to local governments and states with high levels of foreclosure to purchase and rehabilitate vacant housing. The intent of the program is to eliminate blight and return vacant units to use as affordable rental housing and create affordable homeownership opportunities.

**How to Apply:** The money will be distributed through formula to NSP entitlement communities. For addition information visit: [www.mass.gov/recovery](http://www.mass.gov/recovery).

**Program:** Community Development Block Grants

## **Tax Provisions**

### **Program: Computers as Qualified Education Expenses in 529 Education Plans**

Tax-advantaged savings plans that cover all qualified education expenses, including: tuition, room & board, mandatory fees and books. The bill provides that computers and computer technology qualify as qualified education expenses.

**How to Apply:** Families that use 529 Education Plans will now be able to withdraw funds from the 529 account, tax free, to go toward to purchase of computers or computer technology. For more information, visit Massachusetts' 529 Plan website:  
[http://www.savingforcollege.com/529\\_plan\\_details/index.php?state\\_id=22&page=plans\\_by\\_state](http://www.savingforcollege.com/529_plan_details/index.php?state_id=22&page=plans_by_state) .

### **Program: Work Opportunity Tax Credit**

Under current law, businesses are allowed to claim a work opportunity tax credit equal to 40 percent of the first \$6,000 of wages paid to employees of one of nine targeted groups: families receiving Temporary Assistance to Needy Families, certain veterans receiving food stamps or disability compensation, certain ex-felons, residents of designated communities, individuals in vocational rehabilitation, certain youths employed during the summer, certain food stamp recipients, certain recipients of SSI, and long-term recipients of family assistance. The bill creates two new targeted groups of prospective employees: unemployed veterans and disconnected youth. An individual would qualify as an unemployed veteran if they were discharged or released from active duty from the Armed Forces during the five-year period prior to hiring and received unemployment compensation for more than four weeks during the year before being hired. An individual qualifies as a disconnected youth if they are between the ages of 16 and 25 and have not been regularly employed or attended school in the past 6 months. This proposal is estimated to cost \$231 million over 10 years.

**How to Apply:** The participating business will receive the work opportunity tax credit when taxes are filed with the IRS. Visit <http://www.irs.gov> or <http://www.irs.gov/pub/irs-pdf/p954.pdf> .

The funding levels listed in this document are estimates based on the most recent information received to date.

**Program: Qualified School Construction Bonds**

The bill creates a new category of tax credit bonds for the construction, rehabilitation, or repair of public school facilities or for the acquisition of land on which a public school facility will be constructed. There is a national limitation on the amount of qualified school construction bonds that may be issued by State and local governments of \$22 billion (\$11 billion allocated initially in 2009 and the remainder allocated in 2010). There is a national limitation on the amount of qualified school construction bonds that may be issued by Indian tribal governments of \$400 million (\$200 million allocated initially in 2009 and the remainder allocated in 2010). This proposal is estimated to cost \$9.877 billion over 10 years.

**How to Apply:** The taxpayer holding qualified school construction bonds on a credit allowance date is entitled to a tax credit. The amount of the tax credit is determined by multiplying the bond's credit rate by the face amount on the holder's bond. The tax credit will be received when taxes are filed with the IRS. Visit <http://www.irs.gov>.

**Program: Extension and Increase in Authorization for Qualified Zone Academy Bonds (QZABs)**

The bill allows an additional \$1.4 billion of QZAB issuing authority to State and local governments in 2009 and 2010, which can be used to finance renovations, equipment purchases, developing course material, and training teachers and personnel at a qualified zone academy. In general, a qualified zone academy is any public school (or academic program within a public school) below college level that is located in an empowerment zone or enterprise community and is designed to cooperate with businesses to enhance the academic curriculum and increase graduation and employment rates. QZABs are a form of tax credit bonds, which offer the holder a Federal tax credit instead of interest. This proposal is estimated to cost \$1.045 billion over 10 years.

**How to Apply:** The taxpayer holding qualified school construction bonds on a credit allowance date is entitled to a tax credit. The amount of the tax credit is determined by multiplying the bond's credit rate by the face amount on the holder's bond. The tax credit will be received when taxes are filed with the IRS. Visit <http://www.irs.gov/publications/p954/ar02.html#d0e3636>.

The funding levels listed in this document are estimates based on the most recent information received to date.

**Program: “Making Work Pay” Tax Credit**

For 2009 and 2010, the bill would provide a refundable tax credit of up to \$400 for working individuals and \$800 for working families.

**How to Apply:** Taxpayers will receive this benefit through a reduction in the amount of income tax withheld from their paychecks. Taxpayers may consult with their employer and visit <http://www.irs.gov> for more information.

**Program: Economic Recovery Payment to Recipients of Social Security, SSI, Railroad Retirement and Veterans Disability Compensation Benefits**

This provision would provide a one-time payment of \$250 to retirees, disabled individuals and SSI recipients receiving benefits from the Social Security Administration, Railroad Retirement beneficiaries, and disabled veterans receiving benefits from the U.S. Department of Veterans Affairs. The one-time payment is a reduction to any allowable Making Work Pay credit.

**How to Apply:** For more information, please visit <http://www.irs.gov> or <http://www.treasury.gov>.

**Program: Refundable Credit for Certain Federal and State Pensioners**

The bill would provide a one-time refundable tax credit of \$250 in 2009 to certain government retirees who are not eligible for Social Security benefits. This one-time credit is a reduction to any allowable Making Work Pay credit.

**How to Apply:** For more information, please visit <http://www.irs.gov>.

**Program: Increase in Earned Income Tax Credit**

The earned income tax credit (EITC) is a tax credit for low-income working individuals and families that is refundable for certain taxpayers, meaning it can be claimed even if the credit is worth more than the taxes owed. This provision would temporarily increase the earned income tax credit from 40% to 45% for working families with three or more children.

**How to Apply:** Taxpayers will receive this credit by claiming the credit on their tax returns. The provision is effective for taxable years beginning after

The funding levels listed in this document are estimates based on the most recent information received to date.

December 31, 2008. For more information about the EITC, please contact <http://www.irs.gov> .

**Program: Sales Tax Deduction for Vehicle Purchases**

The provision provides all taxpayers with a deduction for State and local sales and excise taxes paid on the purchase of new cars, light trucks, recreational vehicles, and motorcycles through 2009. This deduction is subject to a phase-out for taxpayers with adjusted gross income in excess of \$125,000 (\$250,000 in the case of a joint return).

**How to Apply:** Taxpayers can seek this deduction by claiming the deduction on their 2009 tax return. For more information, visit <http://www.irs.gov>.

**Program: Temporary Suspension of Taxation of Unemployment Benefits**

Under current law, all federal unemployment benefits are subject to taxation. The average unemployment benefit is approximately \$300 per month. The proposal temporarily suspends federal income tax on the first \$2,400 of unemployment benefits per recipient. Any unemployment benefits over \$2,400 will be subject to federal income tax. This proposal is in effect for taxable year 2009.

**How to Apply:** The provision will take effect and suspend the withholding of federal income tax on unemployment benefits automatically. For more information, visit <http://www.irs.gov>.

**Program: Industrial Development Bonds (IDB)**

Under current law, certain manufacturing facilities are eligible for tax exempt bond financing. Section 144(a) (12) (C) specifically limits the definition of a manufacturing facility for the purposes of such financing to facilities that are used in the manufacturing or production of tangible personal property. This provision amends the definition of manufacturing facility to any facility used in the manufacturing, creation, or production of tangible or intangible property described in section 197(d)(1)(C)(iii). Intangible property is any patent, copyright, formula, process, design, pattern, knowhow, format, or other similar item. The proposal also clarifies which physical components of a manufacturing facility qualify as "ancillary"

The funding levels listed in this document are estimates based on the most recent information received to date.

and therefore are subjected to a 25% limitation in the amount of bond issuance used to build or re-construct those components.

**How to Apply:** This provision adds to the definition for tax exempt bonds. For more information, visit <http://www.irs.gov>.

**Program: Advanced Energy Investment Credit**

This provision establishes a new 30% investment tax credit for facilities engaged in the manufacturing of advanced energy property. Credits are available only for projects certified by the Secretary of Treasury, in consultation with the Secretary of Energy, through a competitive bidding process. The Secretary of Treasury must establish a certification program no later than 180 days after date of enactment, and may allocate up to \$2.3 billion in credits. Advanced energy property includes technology for the production of renewable energy, energy storage, energy conservation, efficient transmission and distribution of electricity, and carbon capture and sequestration.

**How to Apply:** Please check <http://www.energy.gov> for more information as the Advanced Energy Investment Credit is implemented.

**Program: Modify Speed Requirement for High-Speed Rail Exempt Facility Bonds**

Under current law, States are allowed to issue private activity bonds for high-speed rail facilities; which are defined as facilities that transport passengers between metropolitan areas using vehicles that are reasonably expected to operate at speeds in excess of 150 miles per hour between scheduled stops. This provision would allow these bonds to be used to develop rail facilities that are used by trains that are capable of attaining speeds in excess of 150 miles per hour.

**How to Apply:** This provision adds to the definition of an existing bond. More information can be found at <http://www.treasury.gov>.

**Program: Tax Credit Bond Option for State and Local Governments (“Build America Bonds”)**

The Federal government provides significant financial support to State and local governments through the federal tax exemption for interest on municipal bonds. Both tax credit bonds and tax-exempt bonds provide a

The funding levels listed in this document are estimates based on the most recent information received to date.

subsidy to municipalities by reducing the cash interest payments that a State or local government must make on its debt. Tax credit bonds differ from tax-exempt bonds in two principal ways: (1) interest paid on tax credit bonds is taxable; and (2) a portion of the interest paid on tax credit bonds takes the form of a Federal tax credit. The Federal tax credit offsets a portion of the cash interest payment that the State or local government would otherwise need to make on the borrowing. For 2009 and 2010, this proposal provides State and local governments with the option of issuing a tax credit bond instead of a tax-exempt governmental obligation bond. Because the market for tax credits is currently small given current economic conditions, the bill would allow the State or local government to elect to receive a direct payment from the Federal government equal to the subsidy that would have otherwise been delivered through the Federal tax credit for bonds.

**How to Apply:** Please check <http://www.treasury.gov> for more information as they implement this program.

**Program: Long-term Extension and Modification of Renewable Energy Production Tax Credit**

This proposal would extend the placed-in-service date for wind facilities for three years (through December 31, 2012); as well as extend the placed-in-service date for three years (through December 31, 2013) for certain other qualifying facilities: closed-loop biomass; open-loop biomass; geothermal; small irrigation; hydropower; landfill gas; waste-to-energy; and marine renewable facilities.

**How to Apply:** This proposal extends existing tax credits. Information on how to file can be found at <http://www.irs.gov>.

**Program: Temporary Election to Claim the Investment Tax Credit in Lieu of the Production Tax Credit**

Under current law, facilities that produce electricity from solar facilities are eligible to take a thirty percent (30%) investment tax credit in the year that the facility is placed in service. Facilities that produce electricity from wind, closed-loop biomass, open-loop biomass, geothermal, small irrigation, hydropower, landfill gas, waste-to-energy, and marine renewable facilities are eligible for a production tax credit. The production tax credit is payable over a ten-year period. Because of current market conditions, it is difficult for many renewable projects to find financing due to the uncertain future tax

The funding levels listed in this document are estimates based on the most recent information received to date.

positions of potential investors in these projects. The bill would allow facilities to elect to claim the investment tax credit in lieu of the production tax credit.

**How to Apply:** Participants will be able to file the tax credit on their tax return. For more information, visit <http://www.irs.gov>.

**Program: Repeal Subsidized Energy Financing Limitation on the Investment Tax Credit**

Under current law, the investment tax credit must be reduced if the property qualifying for the investment tax credit is also financed with industrial development bonds or through any other Federal, State, or local subsidized financing program. The provision in the American Recovery and Reinvestment Act would repeal this subsidized energy financing limitation on the investment tax credit in order to allow businesses and individuals to qualify for the full amount of the investment tax credit even if such property is financed with industrial development bonds or through any other subsidized energy financing.

**How to Apply:** Participants will find that the financing limitation for subsidized energy has been removed. For more information, visit <http://www.irs.gov>.

**Program: Tax Credits for Alternative Refueling Property**

The alternative refueling property credit provides a tax credit to businesses (e.g., gas stations) that install alternative fuel pumps, such as fuel pumps that dispense E85 fuel, electricity, hydrogen, and natural gas. For 2009 and 2010, this provision would increase the 30% alternative refueling property credit for businesses (capped at \$30,000) to 50% (now capped at \$50,000). Hydrogen refueling pumps would remain at a 30% credit percentage; however, the cap for hydrogen refueling pumps will be increased to \$200,000. In addition, this provision would increase the 30% alternative refueling property credit for individuals (capped at \$1,000) to 50% (capped at \$2,000).

**How to Apply:** Participants will be able to file for this tax credit on their tax return. For more information, visit <http://www.irs.gov>.

**Program: Removal of Dollar Limitations on Certain Energy Credits**

The funding levels listed in this document are estimates based on the most recent information received to date.

Under current law, businesses are allowed to claim a thirty percent (30%) tax credit for qualified small wind energy property (capped at \$4,000). Individuals are also allowed to claim a thirty percent (30%) tax credit for qualified solar water heating property (capped at \$2,000), qualified small wind energy property (capped at \$500 per kilowatt of capacity, up to \$4,000), and qualified geothermal heat pumps (capped at \$2,000). This provision would repeal the individual dollar caps. As a result, each of these properties would be eligible for an uncapped thirty percent (30%) credit.

**How to Apply:** Participants will be able to file for the tax credit on their tax return. For more information, visit <http://www.irs.gov> .

**Program: Plug-in Electric Drive Vehicle Credit**

This provision modifies and increases a tax credit passed into law at the end of last Congress for each qualified plug-in electric drive vehicle placed in service during the taxable year. The base amount of the credit is \$2,500. If the qualified vehicle draws propulsion from a battery with at least 5 kilowatt hours of capacity, the credit is increased by \$417, plus another \$417 for each kilowatt hour of battery capacity in excess of 5 kilowatt hours and up to 16 kilowatt hours. Taxpayers may claim the full amount of the allowable credit up to the end of the first calendar quarter in which the manufacturer records its 200,000th sale of a plug-in electric drive vehicle. The credit is reduced in following calendar quarters. The credit is allowed against the alternative minimum tax (AMT). This bill also restores and updates the electric vehicle credit for plug-in electric vehicles that would not otherwise qualify for the larger plug-in electric drive vehicle credit and provides a tax credit for plug-in electric drive conversion kits.

**How to Apply:** Participants will be able to file for the tax credit on their tax return. Please visit <http://www.irs.gov> for more information.

**Program: Clean Renewable Energy Bonds (“CREBs”)**

This provision authorizes an additional \$1.6 billion of new clean renewable energy bonds to finance facilities that generate electricity from the following resources: wind; closed-loop biomass; open-loop biomass; geothermal; small irrigation; hydropower; landfill gas; marine renewable; and trash combustion facilities. This \$1.6 billion authorization will be subdivided into thirds: 1/3 will be available for qualifying projects of State/local/tribal governments;

The funding levels listed in this document are estimates based on the most recent information received to date.

1/3 for qualifying projects of public power providers; and 1/3 for qualifying projects of electric cooperatives.

**How to Apply:** Qualified participants will be able to utilize this bond program as it is developed. Check <http://www.treasury.gov> for additional information after this program is implemented.

**Program: Tax Credits for Energy-Efficient Improvements to Existing Homes**

This provision would extend the tax credits for improvements to energy-efficient existing homes through 2010. Under current law, individuals are allowed a tax credit equal to ten percent (10%) of the amount paid or incurred by the taxpayer for qualified energy efficiency improvements installed during the taxable year. This tax credit is capped at \$50 for any advanced main air circulating fan, \$150 for any qualified natural gas, propane, oil furnace or hot water boiler, and \$300 for any item of energy-efficient building property. For 2009 and 2010, this provision would increase the amount of the tax credit to thirty percent (30%) of the amount paid or incurred by the taxpayer for qualified energy efficiency improvements during the taxable year. This provision would also eliminate the property-by-property dollar caps on this tax credit and provide an aggregate \$1,500 cap on all property qualifying for the credit. This provision would update the energy-efficiency standards of the property qualifying for the credit.

**How to Apply:** Participants will be able to file for the tax credit on their tax return. Please visit <http://www.irs.gov> for more information.

**Program: Qualified Energy Conservation Bonds**

This provision authorizes an additional \$2.4 billion of qualified energy conservation bonds to finance State, municipal and tribal government programs and initiatives designed to reduce greenhouse gas emissions. This provision would also clarify that qualified energy conservation bonds may be issued to make loans and grants for capital expenditures to implement green community programs. This provision also clarifies that qualified energy conservation bonds may be used for programs in which utilities provide ratepayers with energy-efficient property and recoup the costs of that property over an extended period of time.

The funding levels listed in this document are estimates based on the most recent information received to date.

**How to Apply:** Qualified participants will be able to utilize this bond program as it is developed. Check <http://www.treasury.gov> for additional information after this program is implemented.

**Program: Addition of Permanent Sequestration Requirement to CO2 Capture Tax Credit**

Last year, Congress provided a \$10 credit per ton for the first 75 million metric tons of carbon dioxide captured and transported from an industrial source for use in enhanced oil recovery, and \$20 credit per ton for carbon dioxide captured and transported from an industrial source for permanent storage in a geologic formation. Facilities were required to capture at least 500,000 metric tons of carbon dioxide per year to qualify. This provision would require that any taxpayer claiming the \$10 credit per ton for carbon dioxide captured and transported for use in enhanced oil recovery must also ensure that such carbon dioxide is permanently stored in a geologic formation.

**How to Apply:** New provision does not change the way participants file for the tax credit, just the qualifications to be able to apply for the tax credit. For more information, visit <http://www.irs.gov>.

**Program: Parity for Transit Benefits**

Current law provides a tax-free fringe benefit employers can provide to employees for transit and parking. Those benefits are set at different dollar amounts. This provision would equalize the tax-free benefit employers can provide for transit and parking. The proposal sets both the parking and transit benefits at \$230 a month for 2009, indexes them equally for 2010, and clarifies that certain transit benefits apply to federal employees.

**How to Apply:** Eligible participants will receive information on how to apply through their workplace as this program is implemented. For more information, visit <http://www.irs.gov>.

**Program: Treasury Department Energy Grants in Lieu of Tax Credits**

Under current law, taxpayers are allowed to claim a production tax credit for electricity produced by certain renewable energy facilities and an investment tax credit for certain renewable energy property. These tax credits help attract private capital to invest in renewable energy projects. Current economic conditions have severely undermined the effectiveness of these tax

The funding levels listed in this document are estimates based on the most recent information received to date.

credits. As a result, this provision would allow taxpayers to receive a grant from the Treasury Department in lieu of tax credits. This grant will operate similarly to the current-law investment tax credit.

**How to Apply:** The Treasury Department will issue a grant in an amount equal to thirty percent (30%) of the cost of the renewable energy facility within sixty days of the facility being placed in service or, if later, within sixty days of receiving an application for such grant. For more information, visit <http://www.treasury.gov>.

**Program: Extension of Emergency Unemployment Compensation**  
Through December 31, 2009, this provision continues the Emergency Unemployment Compensation program, which provides up to 33 weeks of extended unemployment benefits to workers exhausting their regular benefits.

**How to Apply:** Those receiving unemployment compensation will automatically receive this extension. For more information, visit <http://www.doleta.gov>.

**Program: Increase in Unemployment Compensation Benefits**  
The bill increases unemployment weekly benefits by an additional \$25 through 2009.

**How to Apply:** Those receiving unemployment compensation will automatically receive this extension. For more information visit <http://www.doleta.gov>.

**Program: Unemployment Compensation Modernization**  
This provision provides one-time grants to reward and encourage States enacting specific reforms designed to increase UC coverage among low-wage, part-time and other jobless workers, as well as provides an additional \$500 million in administrative funding to all States.

**How to Apply:** States will receive this funding to support unemployment compensation modernization. For more information, visit <http://www.doleta.gov>.

The funding levels listed in this document are estimates based on the most recent information received to date.

**Program: Temporary Assistance to States with Advances to Unemployment Trust Funds**

This provision temporarily waives interest payments and the accrual in interest on loans received by state unemployment trust funds through December 31, 2010.

**How to Apply:** Application not necessary as interest payments are waived as this program is implemented. For more information visit <http://www.doleta.gov> or <http://www.irs.gov>.

**Program: Expansion of Trade Adjustment Assistance (TAA) Programs**

This provision expands current Trade Adjustment Assistance Programs. Among other things, it extends TAA to trade-affected service sectors' workers and workers affected by outsourcing to other countries, including China or India. It increases training funds available to states by 160 percent to \$575 million per fiscal year; creates a new TAA program for trade-affected communities; allows for automatic TAA eligibility for workers suffering from import surges and unfair trade; makes training, healthcare, and reemployment TAA benefits more accessible and flexible; and improves the TAA for Firms and TAA for Farmers programs. It reauthorizes all TAA programs (which expired December 31, 2007) through December 31, 2010. Priority will be given to those applications where: the layoffs resulted in an increase of 1 percent in the local area unemployment during the preceding 12 months; layoffs at multiple locations (multi-company) that occur within a 4 month period and in which each layoff impacts 50 or more workers; closures and realignments of military installations; emergencies or disasters that have been declared eligible for public assistance by the Federal Emergency Management Agency (FEMA); and special assistance, including health insurance coverage assistance to trade-impacted workers and other individuals eligible under the Trade Adjustment Assistance Reform Act of 2002.

**How to Apply:** TAA is administered through the Department of Labor Employment and Training Administration. For more information, visit <http://www.doleta.gov/tradeact/> .

**Program: Duty Refund Recollection**

This provision prohibits U.S. Customs and Border Protection (CBP) from demanding that U.S. lumber, steel, and other companies repay duties that

The funding levels listed in this document are estimates based on the most recent information received to date.

CBP collected on Canadian and Mexican imports, and distributed to the companies between 2001 and 2005.

**How to Apply:** Application not necessary as the program is implemented. For information, visit <http://www.cbp.gov> .

**Program: Refundable First Time Home Buyer Tax Credit**

There is an \$8,000 tax credit for first-time home buyers who purchase a home from Jan 1, 2009 to December 1, 2009. It also eliminates repayment obligations that are under current law unless the home is sold within three years of purchase; in which case, the credit would still be subject to the current-law recapture rules.

**How to Apply:** Eligible taxpayers can claim this credit when filing their taxes. For more information, visit <http://www.irs.gov>.

**Program: Child Tax Credit**

The child tax credit is based on the number of dependent children in a family. This provision would increase the eligibility of the refundable child tax credit.

**How to Apply:** The provision is effective for taxable years beginning after December 31, 2008. The tax credit will be given after filing for taxes. For more information, visit <http://www.irs.gov> .

**Program: Low Incoming Housing Grants in Lieu of Tax Credits**

Under current law, taxpayers are allowed to claim a low-income housing tax credit for certain investments made in low-income housing. These tax credits help attract private capital to invest in the construction, acquisition, or rehabilitation of qualified low-income housing buildings. Current economic conditions have severely undermined the effectiveness of these tax credits. As a result, the bill would allow taxpayers to receive a grant from the Treasury Department in lieu of tax credits. Under this provision, state housing agencies would receive a grant equal to up to 85 percent of 40 percent of the state's low-income housing tax credit allocation in lieu of the low-income housing tax credits they would have received. The sub-awards are subject to the same requirements (including rent, income, and use restrictions on such buildings) as the low-income housing tax credit allocations. The grant program would apply to each state's 2009 low-

income housing tax credit allocation.

**How to Apply:** Qualified housing agencies can apply at [www.mass.gov/recovery](http://www.mass.gov/recovery).

**Program: Alternative Minimum Tax**

This provision would provide more than 26 million families with tax relief in 2009 by extending AMT relief for nonrefundable personal credits and increasing the AMT exemption amount to \$70,950 for joint filers and \$46,700 for individuals.

**How to Apply:** This benefit will automatically go into effect without any action from the taxpayer. For more information, visit <http://www.irs.gov>.

**Program: Extension of Bonus Depreciation**

Businesses are allowed to recover the cost of capital expenditures over time according to a depreciation schedule. Last year, Congress temporarily allowed businesses to recover the costs of capital expenditures made in 2008 faster than the ordinary depreciation schedule would allow by permitting these businesses to immediately write-off 50 percent of the cost of depreciable property (e.g., equipment, tractors, wind turbines, solar panels, and computers) acquired in 2008 for use in the United States. The bill would extend this temporary benefit for capital expenditures incurred in 2009.

**How to Apply:** The extension of the first-year depreciation deduction is generally effective for property placed in service after December 31, 2008. This benefit can be claimed when filing for taxes. For more information, visit <http://www.irs.gov>.

**Program: Extension of Small Business Expensing**

In order to help small businesses quickly recover the cost of certain capital expenses, small business taxpayers may elect to write-off the cost of these expenses in the year of acquisition in lieu of recovering these costs over time through depreciation. Until the end of 2010, small business taxpayers are allowed to write-off up to \$125,000 of capital expenditures subject to a phase-out once capital expenditures exceed \$500,000. Last year, Congress temporarily increased the amount that small businesses could write-off for capital expenditures incurred in 2008 to \$250,000 and increased the phase-

out threshold for 2008 to \$800,000. The bill would extend these temporary increases for capital expenditures incurred in 2009.

**How to Apply:** Small business can obtain this credit when filing for taxes. For more information, please visit <http://www.irs.gov>.

**Program: 5-Year Carryback of Net Operating Losses for Small Businesses**

A net operating loss means the amount by which a taxpayer's business deductions exceed the gross income. Under current law, net operating losses may be carried back to the two taxable years before the year that the loss arises and carried forward to each of the succeeding twenty taxable years after the year that the loss arises. For 2008, the bill would extend the maximum NOL carryback period from two years to five years for small businesses with gross receipts of \$15 million or less.

**How to Apply:** This provision is effective for net operating losses arising in taxable years ending after December 31, 2007. The taxpayer can file for this benefit when filing for taxes. Please visit <http://www.irs.gov> for more information.

**Program: Temporary Reduction of Small Business Corporation Built-In Gains Holding Period from 10 Years to 7 Years**

Under current law, if a taxable corporation converts into an S corporation, the conversion is not a taxable event. An S Corporation pays no corporate level tax. Instead a loss of gain goes directly to their shareholders. When a company converts to an S corporation, they must hold its assets for ten years in order to avoid a tax on any built-in gains that existed at the time of the conversion. The bill would temporarily reduce this holding period from ten years to seven years for sales occurring in 2009 and 2010.

**How to Apply:** This provision will go into effect for businesses for taxable year beginning after December 31, 2008. For more information, visit <http://www.irs.gov>.

**Program: Small Business Capital Gains**

This provision increases the percentage of exclusion for qualified business stock sold by an individual from 50 percent to 75 percent.

The funding levels listed in this document are estimates based on the most recent information received to date.

**How to Apply:** This provision is effective for stock issued after the date of enactment and before Jan. 1, 2011. Businesses can claim this credit when filing for taxes. For more information, please visit <http://www.irs.gov>.

**Program: Delayed Recognition of Certain Cancellation of Debt Income**

Under current law, a taxpayer generally has income where the taxpayer cancels or repurchases debt for an amount less than its adjusted issue price. The amount of cancellation of debt income (“CODI”) is the excess of the old debt’s adjusted issue price over the repurchase price. Certain businesses will be allowed to recognize CODI over 10 years (defer tax on CODI for the first four or five years and recognize this income ratably over the following five taxable years) for specified types of business debt repurchased by the business after December 31, 2008 and before January 1, 2011.

**How to Apply:** Business can claim this when they file for taxes. For information on qualifications, visit <http://www.treasury.gov>.

**Program: Delay Application of Withholding Requirement on Certain Governmental Payments for Goods and Services**

For payments made after December 31, 2010, the Code requires withholding at a three percent rate on certain payments to persons providing property or services made by Federal, State, and local governments. The withholding is required regardless of whether the government entity making the payment is the recipient of the property or services. Numerous government entities and small businesses have raised concerns about the application of this provision. The provision would delay for one year (through December 31, 2011) the application of the three percent withholding requirement on government payments for goods and services in order to provide time for the Treasury Department to study the impact of this provision on government entities and other taxpayers.

**How To Apply** This provision is effective on the date of enactment. For more information on this provision, please visit <http://www.speaker.gov/legislation?id=0103>.

**Program: New Market Tax Credits**

New Market Tax Credits are given to qualified equity investment made to acquire stock in a corporation or a capital interest in a partnership that is a qualified community development entity (CDE). Under current law, there

are \$3.5 billion of New Markets Tax Credits available for 2008 and 2009. The provision increases the available credits for 2008 to \$5 billion and the available credits for 2009 to \$5 billion.

**How to Apply:** This tax credit will go directly to state certified CDE's. Please visit <http://www.irs.gov> for more information.

**Program: Eliminate Costs Imposed on State and Local Governments by the Alternative Minimum Tax**

The alternative minimum tax (AMT) can increase the costs of issuing tax-exempt private activity bonds imposed on State and local governments. Under current law, interest on tax-exempt private activity bonds is generally subject to the AMT. This limits the marketability of these bonds and, therefore, forces State and local governments to issue these bonds at higher interest rates. Last year, Congress excluded one category of private activity bonds (i.e., tax-exempt housing bonds) from the AMT. The bill would exclude the remaining categories of private activity bonds from the AMT if the bond is issued in 2009 or 2010. The bill also allows AMT relief for current refunding of private activity bonds issued after 2003 and refunded during 2009 and 2010.

**How to Apply:** Municipalities will not need to apply; this provision will automatically take effect. For more information, please visit <http://www.irs.gov>.

**Health Insurance Assistance**

**Program: COBRA (Consolidated Omnibus Budget Reconciliation Act)**

To assist individuals in maintaining health coverage, the bill provides a 65% subsidy for COBRA continuation premiums for up to 9 months for workers who have been involuntarily terminated, and for their families. This subsidy also applies to health care continuation coverage if required by states for small employers. To qualify for premium assistance, a worker must be involuntarily terminated between September 1, 2008 and December 31, 2009. The subsidy would terminate upon offer of any new employer-sponsored health care coverage or Medicare eligibility. Workers who were involuntarily terminated between September 1, 2008 and enactment, but

failed to initially elect COBRA because it was unaffordable, would be given an additional 60 days to elect COBRA and receive the subsidy. To ensure that this assistance is targeted at workers who are most in need, participants must attest that their same year income will not exceed \$125,000 for individuals and \$250,000 for families.

**How to Apply:** Current law requires employers to work with employees and former employees on accessing COBRA and receiving this benefit.

**Program: Temporary Federal Medical Assistance Percentage (FMAP) Increase**

The bill increases FMAP funding for a 27-month period beginning 10/1/2008 through 12/31/2010, with an across-the-board 6.2% increase to all states and territories. A bonus structure (in addition to the across-the-board increase in funding) provides an additional decrease in State financial obligations for Medicaid based on increases in the State's unemployment rate. States will also be required to maintain effort on eligibility.

**How to Apply:** States will automatically receive this benefit. For more information, please visit <http://aspe.hhs.gov/health/fmap.htm> .

**Program: Temporary Increase in Disproportionate Share Hospital (DSH) Payments**

The bill increases states' FY2009 annual DSH allotments by 2.5 percent, and increases states' FY 2010 by 2.5 percent above the new FY2009 DSH allotment. After FY2010, states' annual DSH allotments would return to 100% of the annual DSH allotments as determined under current law.

**How to Apply:** DSH hospitals will automatically benefit from this provision. To learn more about DSH policies, please visit [http://www.cms.hhs.gov/AcuteInpatientPPS/05\\_dsh.asp](http://www.cms.hhs.gov/AcuteInpatientPPS/05_dsh.asp).

**Program: Extension of Moratoria on Medicaid Regulations**

The bill extends moratoria on Medicaid regulations for targeted case management, provider taxes, and school-based administration and transportation services through June 30, 2009. The bill also adds a moratorium on the Medicaid regulation for hospital outpatient services

through June 30, 2009. The provision includes a Sense of Congress that the Secretary of HHS should not promulgate regulations concerning payments to public providers, graduate medical education, and rehabilitative services.

**How to Apply:** The moratoria will automatically go into effect. For more information on Medicaid, please visit <http://www.cms.hhs.gov/home/medicaid.asp>.

**Program: Extension of the Qualified Individual Program**

The bill extends the Qualified Individual program, which assists certain low-income individuals with Medicare Part B premiums, through December 31, 2010. The program helps Medicare beneficiaries who have a limited income but are not poor enough to qualify for Medicaid with financial assistance to help pay their Medicare premiums. For more information on Medicare, please visit <http://www.cms.hhs.gov/home/medicare.asp>; for Medicaid, visit <http://www.cms.hhs.gov/home/medicaid.asp>.

**Program: Prompt Payment Requirements for Nursing Facilities and Hospitals.**

The bill temporarily applies Medicaid prompt pay requirements to nursing facilities and hospitals.

**How to Apply:** This benefit will automatically be provided for Nursing facilities and hospitals. For more information on Medicare, please visit <http://www.cms.hhs.gov/home/medicare.asp>.
