1. Includes finance company subsidiaries of bank holding companies but not of retailers and banks.
2. Owned receivables are those carried on the balance sheet of the institution. Managed receivables include outstanding balances of pools upon which securities have been issued; these balances are no longer carried on the balance sheets of the loan originator. Data are shown before deductions for unearned income and losses. Components may not add to totals because of rounding.
3. Seasonally adjusted series have been revised from January 1998 forward as a result of new seasonal factors.
4. The series may contain breaks that result from discontinuities in source data. Growth rates are adjusted to exclude the effect of such breaks.
5. Data are from the subsidiaries of the three major U.S. automobile manufacturers and are volume-weighted averages covering all loans of each type purchased during the month.
