--- Data not available.

- 1/ Rates computed by relating total births to married women, regardless of age of mother, to married women aged 15-44 years.
- 2/ Rates computed by relating births to married women aged 40 years and over to married women aged 40-44 years. Rates by race for years prior to 1969 are computed by relating births to married women aged 35 years and over to married women aged 35-44 years.
- 3/ Includes races other than white and black.
- 4/ Data for States in which marital status was not reported have been inferred from other items on the birth certificate and included with data from the reporting States; see Technical Appendix.
- 5/ Rates are revised and may differ from those published in Vital Statistics of the United States, Volume 1, Natality, for 1989 and previous years; see Technical Appendix.
- 6/ Based on 100 percent of births in selected States and on a 50-percent sample of births in all other States; see Technical Appendix.
- 7/ Births to married women are estimated for the United States from data for registration areas in which marital status of mother was reported; see Technical Appendix.
- 8/ Based on a 50-percent sample of births.
- 9/ Based on a 20- to 50-percent sample of births.
- 10/ Persons of Hispanic origin may be of any race.
- 11/ Data are based on 49 States and the District of Columbia which reported Hispanic origin on the birth certificate.
- 12/ Data are based on 48 States and the District of Columbia which reported Hispanic origin on the birth certificate.

NOTE: Rates cannot be computed for married non-Hispanic black women because the necessary populations are not available.
