Results of the 2009 Biennial Survey of FDLP libraries are available at:
http://www.fdlp.gov/home/about/723-crp-segmentation-needsassessment

In all there were 1,127 respondents but not all answered every question. The following four tables are the results by library type and size for Q18b, which concerned interest and support for receiving digital files of online publications. (NOTE: Per Kristina Bobe of GPO's Library Services & Content Management, this response is about the same as on the 2007 survey.)
