

STUDENT INSURANCE OPTIONS

The health and welfare of the students at the Health Science Center is a high priority of the administration and faculty. All students are required to have annual health insurance to be in compliance with Health Science Center policy. All students are required to complete and **Insurance Requirement Form** which can be found under the “Forms” link, and file this confirmation with the Office of Student Affairs as part of their initial registration process. Students have the right and option to choose any health insurance plan they feel is best suited to their needs. When indicated, it is highly recommended that spousal and family insurance is a component of the policy chosen. Having chosen a plan, the student is responsible to follow the rules, regulations and guidelines of his/her particular plan.

Insurance Options

Currently three insurance companies offer options for students attending UNT Health Science Center. Through their web site students may obtain information to compare coverage and/or purchase a policy.

Archer’s Insurance Solutions
Health Insurance for Students – www.students.archersinsurance.com
Toll-Free number 888-881-4640
email: info@archersinsurance.com

The Central Family Practice Clinic is located on the 2nd floor of the Patient Care Building at 855 Montgomery Street, and serves as the Student Health Clinic. All student health appointments should be made through this clinic. Health appointments include acute and chronic visits, review of immunization records, administration of vaccinations and TB skin tests, medication refills, and completion of forms required. Appointments are necessary to assure that there are personnel available to meet your needs and to allow time to obtain your medical record from the records room. However, minor medical emergencies may be accommodated. Call (817) 735-2228 for an appointment. Please be sure to identify yourself as a UNT Health Science Center student.

The Student Health Fee, assessed at the time of registration, covers most expenses incurred while obtaining student health care at the Central Clinic. These benefits do not extend to care provided for dependents of any student. A sliding scale payment plan may be established to assist students with dependents if needed. **Charges incurred due to referral out of the Clinic are considered the student’s responsibility. Fees associated with laboratory work or x-rays are not covered by the health service fee and must be filed with your insurance carrier.**
