Bachelor of Arts and Bachelor of Science

A student majoring in journalism may earn either the BA or BS degree, each requiring a minimum of 128 semester hours. General requirements for the BA are given in the College of Arts and Sciences section and under "University Core Curriculum Requirements" in the Academics section of this catalog. General requirements for the BS are the same, including the arts and sciences core; however, some alternative courses are available for some of the core requirements.

For the BS degree, a concentration in a field outside journalism may be fulfilled in one of two ways: (1) two 18-hour concentrations, each including at least 6 advanced hours; or (2) one 30-hour concentration, including at least 18 advanced hours, with courses approved in advance by the Department of Journalism. All BS students must take MATH 1680 rather than MATH 1600 or 1650.

The University Core Curriculum competence requirement in oral communication is met by the 33-hour major in journalism.

Major in Journalism

Following is **one** suggested four-year degree plan. Students are encouraged to see their adviser each semester for help with program decisions and enrollment.
