UNIVERSITY OF NORTH TEXAS SYSTEM

Office of the Vice Chancellor for Finance

November 20, 2006

Lee Jackson
Chancellor
University of North Texas
Denton, Texas

Dear Mr. Jackson:

We are pleased to submit the Annual Financial Report of the University of North Texas System for the year ended August 31, 2006, in compliance with TEX. GOV'T CODE ANN §2101.011 and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the significant changes related to Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with GAAP. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Ginny Anderson at (940) 565-3231. Liz Linder may be contacted at (940) 565-3214 for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely,

Phillip C. Diebel

UNIVERSITY OF NORTH TEXAS SYSTEM (794) Management's Discussion and Analysis For the Year Ended August 31, 2006

Introduction

This section of the report represents management's discussion and analysis of the financial performance of the University of North Texas System (the System). It provides an overview of the System's financial activities for the fiscal year ended August 31, 2006 as compared to the prior fiscal year. The following discussion should be read in conjunction with the accompanying transmittal letter, financial statements and note disclosures.

The University of North Texas System (UNT System) was created by the 76th Legislature, and legislative funding was provided for the fiscal year beginning September 1, 1999. The UNT System is currently comprised of three components funded by the Legislature: the University of North Texas System Administration, the University of North Texas, and the University of North Texas Health Science Center (HSC) at Fort Worth. The UNT System components are agencies of the State of Texas.

Legislative appropriations for the University of North Texas System Administration in the 2006-2007 biennium included funding for the University of North Texas System Center at Dallas. Governor Rick Perry signed into law the creation of the University of North Texas at Dallas in May of 2001. The UNT System Center at Dallas will become the University of North Texas at Dallas when full-time equivalent enrollment at UNT-Dallas reaches 1,000. Full-time equivalent enrollment at the UNT Dallas System Center was 617 in the 2006 fall semester.

This report is prepared in accordance with Governmental Accounting Standards Board (GASB) pronouncements and the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies. The Combined System financial records comply with state statutes and regulations.

Financial Highlights

- The 2006 fall semester headcount enrollment at the University, the UNT System Center at Dallas, and the HSC continued to increase compared to the previous fall semester (increases of approximately 4.2% at the University, 10.4% at the System Center at Dallas, and 7.6% at the HSC). Even with the increasing enrollment, the System was able to meet the instructional and service needs of its students.
- Approximately \$10.9 million in cash contributions, non-cash capital donations, and pledged gifts were recognized as revenue in the System during the 2006 fiscal year.
- Bonds were issued November 2005 in the amount of \$76,795,000. The bonds proceeds were allocated as follows: \$39,540,000 for advance refunding on System bonds in order to reduce debt service and to refund commercial paper debt; \$14,600,000 in new bonds to finance the construction of a Student Wellness and Career Center at UNT; and \$22,655,000 to finance the construction and equipping of a building at UNT Dallas. See the Capital Asset and Debt Administration section of the MD&A for details of this series and future projects.
- Additional commercial paper was sold during FY 2006. The outstanding balance at August 31, 2006 is \$26,104,000 with interest rates of 3.54%, 3.60% and 3.48%.

For additional information about the commercial paper program, see Note 5 in the Notes to the Combined Financial Statements.

Overview of the Financial Statements and Financial Analysis

The System's combined financial report includes three financial statements: the Statement of Net Assets, the Statement of Revenues, Expenses, and Changes in Net Assets, and the Statement of Cash Flows. This report has been prepared in accordance with the GASB Statement No. 35, Basic Financial Statements – and Management's Discussion and Analysis—for Public College and Universities, GASB Statement No. 37, Basic Financial Statements

UNAUDITED

UNIVERSITY OF NORTH TEXAS SYSTEM (794) Management's Discussion and Analysis For the Year Ended August 31, 2006

– and Management's Discussion and Analysis – for State and Local Governments: Omnibus, GASB Statement No. 38, Certain Financial Statement Disclosures and GASB Statement No. 40, Deposit and Investment Risk Disclosures. These reporting standards were established to make financial statements presented by public colleges and universities more comparable to those issued by the private sector. GASB 35 reporting format was implemented with the fiscal year ended August 31, 2002. GASB 40 reporting was implemented with the fiscal year ended August 31, 2005.

These statements are prepared applying the following principles and standards:

- Reporting is on a full accrual basis of accounting. All current year's revenues and expenses are recognized when earned or incurred, regardless of when the cash is received or disbursed.
- Depreciation expense on capital assets is reported as an operating expense on the Statement of Revenues, Expenses, and Changes in Net Assets. The historical value of capital assets, and the accumulated depreciation are reported on the Statement of Net Assets.
- Revenues and expenses are categorized as operating or nonoperating. Revenues from state appropriations, gifts, and investment income are reported as nonoperating revenue in accordance with GASB Statement No. 35.

Statement of Net Assets

The Statement of Net Assets reports all financial and capital resources (assets, liabilities, and net assets) of the System as of the end of the fiscal year using the accrual basis of accounting. This is consistent with the accounting method used by private-sector institutions. The statement reports the difference between the assets and liabilities as net assets rather than fund balances or equity. This statement represents the System's financial health or position. Nonfinancial factors such as student enrollment trends and the condition of the campus buildings are also important considerations. Definitions of the various categories of assets, liabilities and net assets reported on the Statement of Net Assets are included in Note 1 of the accompanying Notes to the Combined Financial Statements.

The net assets section of the statement is reported by three major categories: 1) Invested in Capital Assets, Net of Related Debt; 2) Restricted Net Assets; and 3) Unrestricted Net Assets. The Invested in Capital Assets, Net of Related Debt section, represents the System's equity in property, plant, and equipment, net of accumulated depreciation, and reduced by outstanding balances for bonds and other debt that are attributed to the acquisition, construction or improvement of those assets. Restricted Net Assets are divided into four categories: 1) Restricted for Debt Retirement; 2) Restricted for Capital Projects; 3) Funds Held as Permanent Investments (endowment funds); and 4) Other Restricted.

Those funds held as permanent investments are further categorized by non-expendable and expendable. The non-expendable portion represents the corpus balance of the endowment funds that must continue in perpetuity. The Other Restricted category represents funds that have been restricted by bond covenants or an external donor/agency. Unrestricted net assets are available for any lawful purpose of the institution.

UNAUDITED

UNIVERSITY OF NORTH TEXAS SYSTEM (794) Management's Discussion and Analysis For the Year Ended August 31, 2006

Unrestricted net assets represent funds that have not been designated for specific purposes by external parties; however, the System's administration has committed most of these funds to meet institutional initiatives and for future operating budgets related to academic programs, special activities, and capital projects. In addition, the Permanent Health Fund endowment of \$27 million at the HSC established in 1999 from tobacco-related litigation funds received from the State is also included in unrestricted net assets at August 31, 2006, since the State is not considered an external source for financial reporting purposes. The statute governing these funds does restrict the corpus and requires that it remain in perpetuity. The earnings from this endowment are required to be utilized for public health activities.

Statement of Revenues, Expenses, and Changes in Net Assets

The Statement of Revenues, Expenses, and Changes in Net Assets reports the System's operations for the fiscal year. Revenues are reported by major source and expenses are reported on the face of the statement by the National Association of College and University Business Officers' functional (programmatic) categories. A matrix immediately follows the statement showing the expenses by natural classifications. Both revenues and expenses on the statement are reported as either operating or nonoperating. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the primary mission of the System. Nonoperating activities are those activities not related to the provision of goods or services to customers. Examples of nonoperating items include the revenue appropriated to the System by the State Legislature and revenue and expenses related to capital financing and investing activities.

The System's significant operating loss reported for the current and prior fiscal years on this statement is reflective of GASB Statement No. 35 reporting requirements, which stipulate that revenue from legislative appropriations is to be reported as nonoperating revenue, but the expenditure of these funds must be reported as operating expenses.

Included in nonoperating revenue above are legislative appropriations for the current fiscal year totaling \$150.0 million and additional appropriated revenue for state-paid fringe benefits of \$31.0 million. Also, the System's Higher Education Fund (HEF) annual revenue totaling \$22.9 million that is constitutionally-appropriated by the State for capital asset acquisitions and major improvements is reported as Other Revenue rather than operating revenue or nonoperating revenue, but the HEF expenditures are reported as operating expenses.

As the operating revenue pie chart below shows, 46.1 percent of the System's operating revenue for this fiscal year was generated from student tuition and fees. The total tuition and fee revenue for the fiscal year amounted to \$166.7 million. This figure is net of the scholarship discounts that have been subtracted from the gross tuition and fee revenue in accordance with GASB 35 reporting requirements.

The System's operating revenue from all federal, state, and private grants and contracts, including pass through grant revenue, increased approximately 9.5 percent during this fiscal year. Faculty members of the University, in particular, have been strongly encouraged to pursue research funding in an effort to provide more funding and to more fully develop the University's image as a comprehensive graduate and research institution.

State appropriations, which represent the largest percentage of other nonoperating revenues increased by 9 percent in the first year of the 2006-2007 biennium. Other nonoperating revenues such as gift income are fairly consistent with the prior fiscal year.

The System's operating expenses reflect an 11.0% increase during the fiscal year primarily as a result of state-mandated salary and longevity increases, higher medical insurance premium costs, and larger student enrollments. Additionally, with the increase in capital assets, there was a corresponding increase in depreciation expense.

The first table below shows the percentage of each NACUBO functional (programmatic) operating expense classification of total operating expenses. The second table shows the percentages of each type of operating expense based on a natural classification.

Statement of Cash Flows

The Statement of Cash Flows reports the major sources and uses of the System's cash and cash equivalents during the fiscal year. Cash equivalents are short-term highly liquid investments with an original maturity of three months or less. When used with the information provided on the two statements previously discussed, the information from the cash flow statement should assist the financial statement user in evaluating the System's ability to generate future cash flows, its ability to meet obligations as they come due, its needs for external financing, and the reasons for the differences between the operating income /(loss) and associated cash receipts and payments.

The statement consists of five sections. The first section reports cash receipts and payments from operating activities. The second section reflects the cash flows from non-capital financing activities, including such items as receipts from state appropriations and gifts. The third section shows cash flows related to capital and related financing activities, including HEF appropriations, gift receipts designated for capital-related items, all payments for capital-related acquisitions, and receipts and payments associated with capital-related debt financing. The fourth

UNAUDITED

section reports cash flows from investing activities and shows the purchases, proceeds, and interest received from investing. The fifth section is a reconciliation of the net cash used to the operating income or loss reflected on the Statement of Revenues, Expenses, and Changes in Net Assets. The table below is a condensed Combined System Statement of Cash Flows.

Comparative Statement of Cash Flows			
(\$ in millions)			
	<u>2006</u>	<u>2005</u>	%
	<u>2006</u>	<u>2005</u>	<u>Inc.(Dec.)</u>

Cash & Cash Equivalents, End of Year	<u>160.1</u>	<u>\$ 166.1</u>	<u>(3.61%)</u>

It is important to note that state appropriations provide a significant portion of the cash used to fund operating activities related to academic programs, the administration of the System, and the debt service on tuition revenue bonds. The appropriations, however, are reported in the noncapital financing activities section of the Statement of Cash Flows in accordance with GASB Statement No. 35 guidelines.

An increase in the use of cash for operating activities was primarily due to an increase in accounts receivable and a decrease in payables, resulting in a reduction of cash available for operating activities.

The 4.72 percent increase in cash from noncapital financing activities is attributable to the increase in proceeds from State Appropriations and increased revenues reported by HSC Foundation.

The System received proceeds from debt issuance in FY06 for two large capital projects – UNT Student Wellness and Career Center and the UNT Dallas facility. Approximately 45 percent of proceeds remained unspent at the end of the fiscal year, resulting in a decrease in cash used for capital and related financing activities.

The increase in cash used by investing activities was a result of the timing of investment maturities and cash management during the fiscal year. Cash held in cash equivalent pools during the year decreased, resulting in an increase in cash used for investment purchases.

Capital Asset and Debt Administration

The System's net capital asset additions from acquisitions, donations, and construction during the fiscal year totaled \$52.2 million. Included in the increase in capital assets were the completion of the UNT Chemistry Building and partial completion of the UNT Student Wellness and Career Center and UNT Dallas facility.

As discussed in the Financial Highlights section, Revenue Financing System Bonds, Series 2005 were issued November 9, 2005, totaling \$76,795,000. The proceeds were used for the following purposes: to advance refund a portion (\$37.7 million par value) of the outstanding University and HSC bonds in order to reduce debt service requirements; to refund a portion of the System's outstanding commercial paper notes which were issued to provide interim financing for various System improvement projects; to purchase, construct, improve, renovate, and equip property, buildings, and infrastructure for the University, including \$14.6 million for the construction of a \$17.1 million student wellness and career center; and \$23.3 million to construct and equip a building for the UNT-Dallas campus including a library, classrooms, offices, and related parking. A portion of the \$17.1 million construction cost for the student wellness and career center will be funded by a combination of student services fees, student services fees reserves, and gifts.

The Legislature authorized the System to issue \$25.5 million in tuition revenue bonds, and appropriated the first two years of debt service in the 2004-2005 biennium. This authorization was for the purpose of developing the campus and facilities at the new University of North Texas at Dallas campus located in the southern part of Dallas County. It will be built on 250 acres that were jointly donated to the System by the City of Dallas and private developers. Of the original authorization, \$23.3 million was issued as a portion of the Series 2005 bonds sold in November 2005 discussed above. A portion of the remaining authorization was used to repay \$1.9 million in commercial paper notes for costs related to the construction of the UNT-Dallas facility.

Phase III of the renovation of the Research Park facility funded by the Series 2002 bonds was completed in the current fiscal year. The Research Park facility was purchased from Texas Instruments in the 2002 fiscal year for approximately \$9 million for the purpose of establishing a research facility to house the new College of Engineering as well as research activities and computing functions.

Of the \$26.1 million of commercial paper outstanding at the end of FY06, \$18.55 million was used to purchase the Osteopathic Medical Center of Texas hospital and additional property adjacent to the HSC in Fort Worth. Approval has been given to issue Higher Education Fund (HEF) bonds in FY 2007 to repay the commercial paper and to cover additional costs related to the purchase and razing of the hospital thereby providing space for future expansion at the HSC. These bonds will not be issued if Tuition Revenue Bonds are approved by the Texas legislature for this purpose.

Construction began in 2006 on two additional residence halls to provide a total of approximately 550 new beds, with expected occupancy in September 2007. In January 2007, the Board of Regents of the University of North Texas System will issue bonds for approximately \$60,000,000. The proceeds will be used to finance the construction of the two residence halls at the Denton campus and to purchase and renovate property in downtown Dallas. The Dallas property will be used for academic and administrative purposes.

There were no changes in bond credit ratings during fiscal year 2006 or debt limitations that may affect future financing for the System. More detailed information regarding the System's bonded indebtedness is provided in Note 13 of the accompanying Notes to the Combined Financial Statements.

UNIVERSITY OF NORTH TEXAS SYSTEM (794) Management's Discussion and Analysis For the Year Ended August 31, 2006

Economic Outlook

The State Legislature of Texas passed several statutes in the 2003 session that had a material impact on institutions of higher education in the 2004 fiscal year. Of particular significance was the reduction in the level of formula funding the State would provide. To offset the reduction, the Legislature removed the cap from Board Designated (BD) tuition that is set by the System's Board of Regents. The cap was previously set at the state-mandated tuition rate per semester credit hour. Although the BD tuition cap was eliminated, the statute provides that 20% of any increase in BD tuition must be set aside and used for financial aid to students. In response to the new legislation, the System's Board approved incremental increases in BD tuition at the University. BD Tuition increases are as follows: \$46/SCH in Fall 2003, \$75/SCH in Fall 2004, \$81/SCH in Fall 2005, and \$90.50/SCH in Fall 2006.

Funding for research/sponsored grants and contracts continues to be a priority for the University. It is anticipated that the University's new College of Engineering that opened in the 2003 fall semester will enhance this funding as already evidenced by significant federal funding. The 2004 Defense Appropriations bill included a \$3.1 million appropriation for the new, state-of-the-art Center for Advanced Research and Technology (known as CART). Additional funding of \$4.8 million for CART was included in the 2005 Defense Appropriations bill. The \$4.8 million is being used to fund a new laboratory for Micro and Nano Electro Mechanical Systems. The lab's first focus will be on sensor devices that will play important roles in homeland security. The 2007 Department of Defense Appropriations bill recently passed by the U.S. Senate and House of Representatives allocates \$4 million to the University for nanotechnology research. Beginning in Fall 2007, UNT's College of Engineering will offer the nation's first bachelor's and master's degrees in mechanical and energy engineering.

Increases in the HEF allocation to the University and HSC have been established by Texas Education Code §62.021[0](2) and (3) beginning with fiscal year 2008. The University's allocation will increase from \$17,424,822 to \$26,137,233, and HSC's allocation will increase from \$5,426,261 to \$8,139,391.

Changes in leadership occurred at both the University and HSC during 2006. In August 2006 Gretchen M. Bataille became UNT's 14th president and the first woman in the university's 116-year history to hold the position of chief executive officer. Prior to becoming President, she served as the chief academic officer of the 16-campus University of North Carolina system from 2000 to 2006. In her final year in the UNC system, she had an additional assignment as interim chancellor of the North Carolina School of the Arts, the public performing arts conservatory of UNC. Dr. Bataille also served as a tenured professor of English at UNC-Chapel Hill. Dr. Bataille has served as an academic administrator at Washington State University, the University of California at Santa Barbara, Arizona State University, and California State Polytechnic University at Pomona. She earned her bachelor's degree in English and a master's degree in English from California Polytechnic State University at San Luis Obispo. She earned a doctorate in English from Drake University and has completed management development programs at Harvard University and the University of California.

Scott Ransom became the President of the Health Science Center at Fort Worth on August 7, 2006. A graduate of the former University of Health Sciences in Kansas City, Mo. (currently Kansas City University of Medicine and Biosciences College of Osteopathic Medicine), Dr. Ransom is a fellow in many professional organizations and is board certified by the American Board of Obstetrics and Gynecology, the American Board of Medical Management, and the Certifying Commission in Medical Management. Dr. Ransom earned a master of business administration degree from the University of Michigan at Ann Arbor and a master of public health degree from Harvard University. Prior to joining the Health Science Center, Dr. Ransom served as the executive director of the program for healthcare improvement and leadership development and as a professor with tenure in the obstetrics and gynecology department in the medical school, and the health management and policy department in the school of public health at the University of Michigan in Ann Arbor. Prior to joining the University of Michigan, Dr. Ransom was senior vice president and chief quality officer at the Detroit Medical Center, a \$1.8 billion, seven-hospital health care system. While there, he was instrumental in implementing a comprehensive quality improvement program and clinical information system.

Management's Discussion and Analysis
For the Year Ended August 31, 2006**

The System is not currently aware of any facts or conditions that are expected to have a significant impact on the financial position or results of operations during the 2006 fiscal year. Improving market conditions have resulted in an increase in the fair value of the System's endowment funds in the 2006 fiscal year. Future positive results in operations are largely dependent upon the System's effective management of operating costs while striving to continue to maintain its high quality in recruiting the best faculty, staff and students, and the continued financial and political support from the State.

The System is committed to increasing its resources from endowed gifts and other contributions through ambitious development efforts. These contributions are an important supplement to the funding received from the state and a significant factor in the growth of academic and research programs.

NOTES TO THE COMBINED FINANCIAL STATEMENTS
AUGUST 31, 2006

Note 1: Summary of Significant Accounting Policies

General Introduction

The University of North Texas is the fourth-largest university in Texas and defines itself as a metropolitan research university and is viewed as a leader among its peers in the United States for its diverse degree programs, quality research and creative activities, leadership in the Coalition of Urban and Metropolitan Universities, and partnerships with the public and private sector. The UNT Health Science Center at Fort Worth's mission is to improve the health and quality of life for the people of Texas and beyond through excellence in education, research, clinical care, community engagement and to provide national leadership in primary care.

The UNT System has no blended component units. The UNT System is reporting The University of North Texas Foundation, Inc. as a discrete component unit.

Due to the significant changes related to Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Fund Structure

The accompanying financial statements are presented on the basis of funds each of which is considered a separate accounting entity.

Proprietary Fund Types

Enterprise Funds

Enterprise funds are used to account for any activity where a fee is charged to external users for goods or services. Activities must be reported as enterprise funds if any one of the following criteria is met.

1. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity.
2. Laws or regulations require that the activity's costs of providing services, including capital costs such as depreciation or debt service, be recovered with fees and charges.
3. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs.

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments. Agency funds in institutions of higher education are reported in the proprietary funds.

Component Units

The UNT System has no blended component units. The University of North Texas Foundation, Inc. is reported as a discrete component unit because the Foundation's governing body is not substantively the same as the governing body of the UNT System. Additional information may be found in Note 17.

NOTES TO THE COMBINED FINANCIAL STATEMENTS

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Proprietary funds are accounted for on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary fund's principal ongoing operations. Operating expenses for the enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Restricted Net Assets

When both restricted and unrestricted net assets are available for use, restricted resources are used first, and then unrestricted resources are used as they are needed.

Budgets and Budgetary Accounting

The UNT System component institutions' budgets are prepared annually and approved by the Board of Regents. The budgets for appropriated funds are prepared biennially and represent appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they are appropriated.

Assets, Liabilities, and Fund Balances/Net Assets

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Securities Lending Collateral

The UNT System had no securities lending collateral transactions during the fiscal year.

Derivatives

The University has entered into forward contracts that guarantee a specified exchange rate on a specified date. Since no money has been exchanged for these contracts, no general ledger entries have been recorded.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the first-in-, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the proprietary fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if any purchased, at appraised fair value as of the date of acquisition. Depreciation is reported on all “exhaustible” assets. “Inexhaustible” assets such as works of art and historical treasures are not depreciated.

All capital assets acquired by proprietary funds are reported at cost or estimated historical cost if actual historical cost is not available. Donated assets are reported at fair value on the acquisition date. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

Current Receivables – Other

Other Receivables include year-end revenue accruals not included in any other receivable category.

Non-Current Receivables – Other

There are no Non-Current Receivables – Other reported for fiscal year 2006.

LIABILITIES

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the statement of net assets date for which payment is pending.

Other Payables

Other Payables are the accrual at year-end of expenditure transactions not included in any of the other payable descriptions.

Employees’ Compensable Leave

Employees’ Compensable Leave represents the liability that becomes “due” upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net assets.

Capital Lease Obligations

Capital Lease Obligations represent the liability for future lease payments under capital lease contracts. Liabilities are reported separately as either current or non-current in the statement of net assets.

Bonds Payable – Revenue Bonds

Revenue bonds are generally accounted for in the proprietary funds. The bonds payable are reported at par. Bond discounts and premiums are not amortized over the life of the bonds in proprietary funds if they are not individually greater than 10 percent of the par value of the bond issue. Revenue Bonds Payable is reported separately as either current or non-current in the statement of net assets.

FUND BALANCE/NET ASSETS

The difference between fund assets and liabilities is ‘Net Assets’ on the proprietary fund statements.

Invested in Capital Assets, Net of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Assets

Restricted Net Assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Assets

Unrestricted Net Assets consist of net assets which do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

INTERFUND TRANSACTIONS AND BALANCES

Not Applicable to proprietary funds.

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the agency will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The University of North Texas Foundation, Inc., presented as a discrete component unit, maintains cash balances at times in excess of \$100,000 in banks, which are insured by the Federal Deposit Insurance Corporation up to \$100,000. The Foundation’s depository bank, Wells Fargo N.A., has pledged government backed securities with a par value of \$523,097 to secure Foundation deposits in excess of \$100,000. The pledged security is held by a third-party safekeeping bank under a pledged collateral agreement. The market value of the pledged security at December 31, 2005 was \$523,318. The total amount of checking account deposits with Wells Fargo Bank N.A. as of December 31, 2005 was \$100,008. In addition to the checking account balance, the Foundation had cash balances of \$790,797 at December 31, 2005 invested with Wells Fargo Bank N.A. under a fully collateralized repurchase agreement. The Foundation also maintains short-term cash investments in money-market mutual funds, which are not insured.

Reverse Repurchase Agreements

The UNT System components, by statute, are authorized to enter into reverse repurchase agreements. The UNT System did not enter into any reverse repurchase agreements during the current fiscal year.

Securities Lending Transactions

The UNT System did not participate in any securities-lending program.

Derivatives

Because of a donation of \$1,100,000 plus a pledge for another \$400,000, the University of North Texas College of Music has the opportunity to have constructed a pipe organ and case design for the Murchison Performing Arts Center. Wolff & Associés Ltée Corporation, a Canadian company, is building the organ over a period of approximately four years. The total cost of the organ is \$2,000,000 Canadian dollars (projected to be \$1,500,000 American plus an inflation factor).

There is a financial risk associated with entering into a contract with Wolff & Associés. Wolff & Associés insists on being paid in Canadian dollars. Should exchange rates fluctuate with the Canadian dollar gaining in value relative to the American dollar then the University would have to pay some amount greater than \$1,500,000 for the organ. Should the American dollar rise in value relative to the Canadian dollar, the University would pay less (not considering the inflation factor of the contract).

In order to minimize risk, the University decided to enter into forward contracts with Wells Fargo Bank. The forward contracts guarantee the US dollar amount at each scheduled payment. At each payment date the University is required to wire \$112,500 Canadian dollars. As gift money has been received, the University has entered into forward contracts to closely match the scheduled payment dates. Since no money has been exchanged for these forward contracts, no general ledger entry has been recorded.

If the forward contracts were offset (cancelled) there would be a positive value for the University of \$40,040.81 however, this could change as money markets fluctuate.

The University of North Texas System established a commercial paper program and permits the issuance of commercial paper notes which may not exceed, in aggregate, the principal amount of \$50,000,000 at any one time. Additional University of North Texas System Revenue Financing System Commercial Paper Notes, Series A were issued during the fiscal year to finance various capital projects. The outstanding balance at August 31, 2006 is \$26,104,000 with interest rates of 3.54%, 3.60%, and 3.48%.

The University of North Texas System will provide liquidity support for the initial \$30,000,000 in commercial paper notes by utilizing available funds of The University of North Texas System in lieu of or in addition to bank liquidity support. During the fiscal year, The University of North Texas System increased the liquidity support to \$50,000,000.

The maximum maturity for commercial paper is 270 days so the ending balance is shown to be due within one year. In practice, UNT System rolls, pays off, and/or issues new commercial paper at each maturity. Commercial paper will continue to be used as interim funding until long-term bonds are approved and issued or gifts are received to retire the commercial paper debt.

Long-Term Liabilities are presented for each component with an offsetting contra-account representing the amount due from/to other components.

Notes and Loans Payable

The UNT System did not have any long-term notes and loans payable during the current fiscal year.

Claims & Judgments

As of August 31, 2006, the UNT System did not have any material claims or judgments that were settled and unpaid.

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time and 1.5 compensatory time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. An expense and liability for proprietary fund types is recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

The detailed State Grant Pass Through information is listed on Schedule 1B – Schedule of State Grant Pass Through From/To State Agencies.

Note 9: Contingent Liabilities

The UNT System has received several federal grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to a request for reimbursements to grantor agencies for expenditures disallowed under the terms of the grant. Based on prior experience, management believes such disallowances, if any, will be immaterial.

As of August 31, 2006, there are no known contingent liabilities that are likely to have a material effect on the System.

Note 10: Continuance Subject to Review

Not Applicable.

Note 11: Risk Financing and Related Insurance

The UNT System is exposed to a variety of civil claims resulting from the performance of its duties. It is the UNT System policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

The UNT System assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently there is no purchase of commercial general liability insurance for any of the UNT System components as an entity, nor is the UNT System involved in any risk pools with other government entities.

The UNT System's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated.

All state employees are insured by the State. The UNT System has various self-insured arrangements for coverage of local employees in the areas of workers' compensation and liability. There are no claims pending or significant nonaccrued liabilities, as stated in Note 5.

The State provides coverage for unemployment benefits from appropriations made to other state agencies for UNT System employees. The current General Appropriations Act provides that the UNT System components must reimburse General Revenue Fund – Consolidated, from UNT System appropriations, one-half of the unemployment benefits for former and current employees. The Comptroller of Public Accounts determines the proportionate amount to be reimbursed from each appropriated fund type. The UNT System Administration component has only one appropriated fund type. The UNT System components must reimburse the General Revenue Fund 100% of the cost for unemployment compensation for any employees paid from funds held in local bank accounts and local funds held in the state treasury.

Unemployment compensation is on a pay-as-you-go basis through the State of Texas, with the exception of locally funded enterprises that have fund expenses and set-aside amounts based on a percentage of payroll as detailed below. No material outstanding claims are pending at August 31, 2006.

Changes in the balances of the UNT System’s reserves for unemployment compensation for payments made for all claims and settlements, including unemployment compensation, for fiscal years 2005 and 2006 are shown below. No material outstanding claims were pending at August 31, 2006.

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year-End
2005	\$ 1,991,322.64	\$ 483,448.81	(\$203,191.61)	\$ 2,271,579.84

Health benefits are provided through the various state contracts administered by the Employee Retirement System (ERS).

The University of North Texas (University) and the Health Science Center (HSC) are required by certain bond covenants to carry fire and/or extended coverage and boiler insurance on buildings financed through the issuance of bonds using pledged Auxiliary or other non-Educational and General Funds. The insurance protects the bondholders from a disruption to the revenue stream that is being utilized to make the bond interest and principal payments. The following insurance coverage was in force and all premium payments paid in full at the close of the fiscal year:

Standard Fire and Extended Coverage (Property) – Limit of liability exceeds bond requirements. Carriers: Lexington Insurance Company and Fireman’s Fund Insurance Company.

Vehicle Liability and Property Damage – Limit of liability, bodily injury \$250,000/\$500,000; property damage \$100,000, exceeds requirements. Carrier: Crum & Forster Insurance Company.

The Texas Motor Vehicle Safety Responsibility Act requires that every non-governmental vehicle operated on a state highway be insured for minimum limits of liability in the amount of \$20,000/\$40,000 bodily injury and \$15,000 property damage. In addition, the University has chosen to carry liability insurance on its licensed vehicles in the amount of \$250,000/\$500,000 bodily injury and \$100,000 property damage.

The University’s Student Health and Wellness Center has medical professional liability coverage with Columbia Casualty Company for a maximum per incident limit of \$250,000 and an aggregate of \$750,000 with a \$10,000 deductible.

The HSC manages a self-insurance plan for its clinical operations.

A Directors & Officers Liability policy is maintained with AXIS Reinsurance Company that covers all UNT System employees and volunteers and also, entity coverage. The policy provides for a maximum limit of \$5,000,000 with a \$100,000 deductible per insured individual, and \$50,000 deductible for entity, and a \$25,000 deductible for volunteers.

Advance Refunding Bonds

In prior years, the UNT System has defeased certain revenue bond issues by placing the proceeds of new bond issues in irrevocable trusts to provide for all future debt service payments on the issues. Accordingly, the liability for the bonds is not included in the financial statements. At August 31, 2006, the principal balance outstanding for the defeased bonds is \$37,685,000.

Note 14: Subsequent Events

In January 2007, the Board of Regents of the University of North Texas System will issue bonds for approximately \$60,000,000. The proceeds will be used for the construction of two residence halls at the Denton campus and to purchase and renovate property in downtown Dallas. The Dallas property will be used for academic and administrative purposes. At August 31, 2006 approval by The Coordinating Board and Bond Review Board was pending. The approvals have since been received.

The University of North Texas Health Science Center may issue Constitutional Appropriation Bonds during fiscal year 2007. These bonds will not be issued if tuition revenue bonds are approved by the Texas legislature for this purpose.

Note 15: Related Parties

The Professional Development Institute Inc. (PDI) is a non-profit corporation whose purpose is to provide continuing education for the business and governmental community through seminars, workshops, conferences and the establishment of ongoing programs of study designed to further professionalize certain areas of specialization within the total business and governmental community and to assist in maintaining and enhancing, through financial support, the University as a leading academic institution. PDI, Inc. remitted gifts of \$41,000 that were recorded as revenue to the University during the year ended August 31, 2006. PDI maintains an agency account on the books of the University from which incidental expenses such as postage, telephone, printing, and office supplies are paid. These expenditures totaled \$16,776.57 for the fiscal year ended August 31, 2006.

The North Texas Research Institute, Inc. (NTRI) is a separate non-profit corporation. The purposes of the Research Institute are: to perform research, development and service activities, alone and cooperatively with other institutions, government agencies, and business organizations; to provide research facilities, expertise and services for business and government organizations; and to assist in maintaining and enhancing, through financial support, the University of North Texas as a leading academic institution. In fiscal year 1996, the NTRI Board adopted a resolution to deactivate, but not dissolve NTRI. In accordance with this resolution, all research projects were closed the following fiscal year. During the current fiscal year there were no active projects in NTRI. No project income was generated during the fiscal year. There were no transfers to the University from NTRI.

The University of North Texas Health Science Center at Fort Worth Texas College of Osteopathic Medicine Foundation, Inc. is a non-profit organization with the sole purpose of supporting the educational and other activities of the Health Science Center. The Foundation solicits donations and acts as coordinator of gifts made by other parties. The financial operations of the Foundation are overseen by a 25 member board of community business leaders, elected for a three year term, which includes the four Alumni Association/Society presidents during their

respective terms of office. The Executive Director, who is appointed by the Board and approved by the President of UNTHSC, is also the Vice President of the Office of Institutional Advancement. The books and accounts of the Foundation are maintained by the Health Science Center. The activity for the Foundation is reported in Health Science Center's agency funds.

Note 16: Stewardship, Compliance and Accountability

Not Applicable.

Note 17: The Financial Reporting Entity

The University of North Texas Foundation, Inc. is reported as a discrete component unit. The Foundation is a separate nonprofit organization that has as its central purpose the advancement and support of the University of North Texas. The governing board is comprised of elected members separate from the University Regents. The direction and management of the affairs of the Foundation and the control and disposition of its assets are vested in the directors of the Foundation. The University has no liability with regard to the Foundation's liabilities. The majority of endowments supporting University scholarships and other University programs are owned by the Foundation; therefore, it would be misleading to exclude the Foundation's financial reports. The Foundation is a necessary and beneficial component of the UNT System's overall program for university advancement and for the development of private sources of funding for capital acquisition operations, endowments, and other purposes relating to the mission of the UNT System.

In August of 2003, the University of North Texas entered into an agreement with the University of North Texas Foundation, Inc. to better define the relationship between the two entities and to comply with the statutory requirements of Chapters 2255 and 2260 of the Texas Government Code. The 2003 agreement provided that the development leadership for the University would be provided by the Foundation's Chief Executive Officer.

An amended agreement was approved by the UNT Foundation Board of Directors in their September 2004 meeting, and was subsequently approved by the UNT Board of Regents in October 2004. Under the amended agreement, a dual reporting position was created. The position of Senior Vice President for Advancement and President of the UNT Foundation (Senior VP/President) has the responsibility for integrating development, endowment management, stewardship, and alumni relations. Although the position is split between UNT and UNT Foundation, the Senior VP/President works under the immediate supervision of the President of UNT and reports to the UNT President. The position is funded by UNT.

Based on this amended agreement, UNT System continues to report UNT Foundation, Inc. as a discrete component unit in the UNT System Financial Reports. Although the position of Senior VP/President is jointly held between the two entities, the position has minimal authority over the management of the UNT Foundation, serving primarily as a liaison and coordinator between the two entities.

The Foundation has a fiscal year end of December 31. The Foundation issued scholarships totaling \$725,015 to the University, made direct cash transfers totaling \$2,644,435, and made payments of \$243,302 on the University's behalf during the year ended August 31, 2006.

Note 20: Deferred Compensation

Note 21: Donor Restricted Endowments

The University's spending policy for unitized endowments reflects an objective to distribute as much total return as is consistent with overall investment objectives while protecting the real value of the endowment principal. An endowment is excluded from target distribution until the endowment has been established for one year.

The target distribution of spendable income to each unit of the endowment fund will be between 3 to 6 percent of the moving average market value of a unit of the endowment fund for the preceding 12 quarters. Unless otherwise determined by the Budget and Finance Committee of the Board of Regents, the target annual distribution rate shall be 4 percent of the average unit market value. Distribution shall be made quarterly, as soon as practicable, after the last calendar day of November, February, May and August. This distribution amount shall be recalculated each quarter based on a 12-quarter rolling average. If, at any point of distribution, the fair market value of the endowment is below the corpus of the endowment the distribution shall be net current yield.

If, in any given fiscal year, the total return, excluding the net unrealized appreciation, shall be less than the target annual distribution, the actual distribution shall be limited to the net current yield, not to exceed the target distribution rate. The amount of net appreciation on University donor-restricted endowments that was available for

UNAUDITED

distribution and expenditure during the fiscal year was \$595,848.60. All distributions had been made as of the end of the fiscal year; therefore, none of this appreciation amount is reflected in the Net Assets section.

University endowments that do not provide for investments in equities will not be unitized, and they will receive interest and dividends on their funds invested in fixed income securities.

The HSC does not unitize its endowments. The HSC returns all investment earnings to their corresponding operation accounts unless directed otherwise by the donor. Currently, only one endowment requires a portion of earnings to be returned to the corpus. The operations accounts are only limited to the present available balance for spending authority. This authority cannot be exceeded based on future projections. The fair value of these endowments did not change during fiscal year 2006.

UNIVERSITY OF NORTH TEXAS FOUNDATION, INC.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2005

NOTE 1 – PURPOSE AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Purpose

The University of North Texas Foundation, Inc. (Foundation) is a nonprofit organization with the purpose of providing financial support to the University of North Texas. This purpose is accomplished by the Foundation receiving and managing donations (cash and non-cash) from individuals and organizations.

The Foundation is a nonprofit organization as described in Section 501(c)(3) of the Internal Revenue Code and is exempt from federal and state income taxes.

Basis of Presentation

The financial statements have been prepared on the accrual basis of accounting. The financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Foundation's financial statements for the year ended December 31, 2004, from which the summarized information was derived.

Contributions

Contributions are generally temporarily or permanently restricted by the donor to support specific programs within the University of North Texas. Unconditional promises to give are recorded as received. Contributions receivable due in the next year are recorded at their net realizable value. Contributions receivable due in subsequent years are recorded at the present value of their net realizable value, using interest rates applicable to the years in which the promises are received to discount the amounts. An allowance of \$288,056 for uncollectible promises to give has been provided based on management's evaluation of contributions receivable at year end.

Contributions of cash and other assets are reported as temporarily restricted support if they are received with donor stipulations that limit the use of the donated assets.

Endowment contributions and investments are permanently restricted by the donor. Investment earnings available for distribution are recorded in temporarily restricted net assets because of program restrictions. The portion of the fair value of endowment funds which is below the endowment fund's historical cost is recorded as a reduction in unrestricted net assets.

Contributions of donated noncash assets are recorded at their fair values in the period received. Contributions of donated services that create or enhance nonfinancial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are recorded at their fair values in the period received.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005

**NOTE 1 – PURPOSE AND SUMMARY OF SIGNIFICANT ACCOUNTS POLICIES
(Continued)**

Cash and Cash Equivalents

Cash equivalents consist of highly liquid investments with an initial maturity at the time of purchase of three months or less.

Investments

The Foundation carries investments in marketable securities with readily determinable fair values and all investments in debt securities at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets in the accompanying statement of activities.

Real Estate

Real estate consists of property that has been purchased by or donated to the Foundation. The property is stated at cost or the estimated fair value at the time of the donation.

Inventory

Inventory consists of paintings donated to the Foundation and held for sale. The paintings are recorded at their fair value as of the date of the donation.

Agency Funds

Agency funds consist of resources held by the Foundation as an agent for resource providers and will be transferred to third-party recipients specified by the resource provider.

NOTE 2 – INVESTMENTS

Investment securities consist of the following at December 31, 2005:

	<u>Cost</u>	<u>Fair Value</u>
Fixed income mutual funds	\$ 6,967,055	\$ 7,033,584
Marketable stocks	17,561,455	23,221,067
Equity mutual funds	<u>9,589,048</u>	<u>12,828,874</u>
	<u>\$34,117,558</u>	<u>\$43,083,525</u>

Investment income consists of interest and dividends on investment securities and is shown net of investment fees and expenses.

 Less allowance for uncollectible amounts	 (288,056)
Less discounts to net present value	<u>(844,883)</u>
 Net Contributions Receivable	 2,792,501
 Other amounts receivable	 <u>592,711</u>
 Total Contributions and Other Receivables	 <u>\$3,385,212</u>

NOTE 4 – UNRESTRICTED NET ASSETS

Unrestricted net assets at December 31, 2005 include \$508,427 which has been designated by the Foundation's Board of Directors as a reserve for future operations.

NOTE 5 – TEMPORARILY RESTRICTED NET ASSETS

Temporarily restricted net assets consist of contributions from donors who have specified certain programs or scholarships within the University of North Texas for use of the contributions. Temporarily restricted net assets also includes income from endowment funds that are available for distribution upon satisfaction of the specific program restriction stated in the endowment agreement.

NOTE 6 – PERMANENTLY RESTRICTED NET ASSETS

Net assets were permanently restricted for the following purposes at December 31, 2005:

Endowments to support various programs, scholarships and other activities of the University of North Texas	\$35,598,176
Cash value of life insurance policies that will provide proceeds upon death of insured for endowments	<u>309,609</u>
Total	<u>\$35,907,785</u>

UNIVERSITY OF NORTH TEXAS FOUNDATION, INC.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005

NOTE 7 – REAL PROPERTY

Real property donated to the Foundation is recorded at fair value at the date of the donation. Real estate purchased by the Foundation is recorded at cost. Real property consists of the following at December 31, 2005:

	<u>Fair Value Recorded</u>	<u>Current Fair Value</u>
Mineral rights 1/4 undivided interest 34 acres – Loop 288	\$ 12,860	Not Determined
	<u>98,875</u>	Not Determined
	<u>\$111,735</u>	

NOTE 8 – LIFE INSURANCE POLICIES

Several endowments have been established which are to be funded or partially funded by life insurance policies for which the Foundation has been named owner and beneficiary. Premium payments made by the Foundation are reimbursed by donors of the policies. As of December 31, 2005, there were a total of 24 such policies with death benefits totaling \$1,689,749 and cash values totaling \$309,609.

NOTE 9 – INCOME TAX STATUS

The Foundation has received a letter of determination from the Internal Revenue Service advising that it qualifies as a non-profit corporation under Section 501(c)(3) of the Internal Revenue Code and, therefore, is not subject to income tax. The Foundation is not a private foundation within the meaning of section 509(a) of the Internal Revenue Code.

NOTE 10 – RETIREMENT PLAN

The Foundation sponsors a defined contribution retirement plan covering all full time employees of the Foundation. The Foundation contributes 8.5% of eligible employees' compensation to the plan, and employees are required to contribute a minimum of 6.65% of compensation to the plan.

Employees may make voluntary contributions in addition to the required contribution, up to the limits prescribed by the Internal Revenue Code. The expense to the Foundation for retirement plan contributions for 2005 was \$22,257.

UNIVERSITY OF NORTH TEXAS FOUNDATION, INC.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2005

NOTE 11 – ASSETS HELD UNDER SPLIT INTEREST AGREEMENTS AND REFUNDABLE ADVANCES

The Foundation is the Trustee or Co-Trustee of various charitable remainder trusts and administers several gift annuity contracts. The agreements require annuity payments to the income beneficiaries for life, with the remaining assets of the trusts or agreements creating endowments upon the death of the income beneficiary. The Foundation has recorded the present value of the annuity payments as annuity obligations.

Two trusts for which the Foundation serves as Trustee currently name the Foundation as the remainder beneficiary, however, the donors have retained the right to change the remainder beneficiary to other charitable organizations. As a result, the Foundation has recorded the assets held under these trusts as refundable advances.

The assets held under these agreements are included in the statement of financial position at fair value. The annuity obligations are recorded at the present value of the expected future cash payments based on published life expectancy tables using a discount rate of eight percent.

NOTE 12 – DEFERRED GIFTS

The Foundation has been advised by many donors of bequests and other deferred gifts to the Foundation to be made in the future. The total of such deferred gifts that the Foundation has been informed of is approximately \$103.2 million.

The Foundation has also received a conditional pledge in support of the University of North Texas Club Management Program. The pledge consists of stock to be transferred to the Foundation in 2006. The fair value of the stock at the time of the pledge was approximately \$900,000. The fair value at December 31, 2005 was approximately \$1,062,532.

These gifts do not meet the requirements of unconditional promises to give, therefore have not been recorded in the financial statements of the Foundation.

NOTE 13 – CONCENTRATIONS OF CREDIT RISK

The Foundation maintains cash balances at times in excess of \$100,000 in banks, which are insured by the Federal Deposit Insurance Corporation up to \$100,000. The Foundation's depository bank, Wells Fargo Bank N.A., has pledged government backed securities with a par value of \$523,097 to secure Foundation deposits in excess of \$100,000. The pledged security is held by a third-party safekeeping bank under a pledged collateral agreement. The market value of the pledged security at December 31, 2005 was \$523,318. The total amount of checking account deposits with Wells Fargo Bank N.A. as of December 31, 2005 was \$100,008. In addition to the checking account balance, the Foundation had cash balances of \$790,797 at December 31, 2005 invested with Wells Fargo Bank N.A. under a fully collateralized repurchase agreement.

The Foundation also maintains short-term cash investments in money-market mutual funds, which are not insured.
