Such acts of dishonesty include cheating or copying, plagiarizing, submitting another person's work as one's own, using internet sources without citation, fabricating field data or citations, "ghosting" (taking or having another student take an exam), stealing examinations, tampering

with the academic work of another student, facilitating other students' acts of academic dishonesty, etc. Students charged with a breach of academic integrity will receive due process and, if the charge is found valid, academic sanctions ranging from, depending on the severity of the offence, from a F for assignments to a F for the course. Additional University sanctions may also apply, given the severity of the offence. The University's statement on academic integrity is contained within

(jury duty; U.S. military service) or other “extraordinary” reasons. These reasons must persist for a significant period of time to be considered grounds for an incomplete.(See UNT course catalog).

2. Plagiarism: Plagiarism is the representation of the written work of another as the product of one’s own efforts.

Writing Rubric

Clarity: The writer expresses ideas in a natural voice that permits a smooth reading and clear communication of ideas. The writer writes so the ideas can be easily understood and so that the reader does not have to struggle to understand with the writer is saying.

Flow and Logic: Is an introductory paragraph included to grab the writer’s attention?

The main idea should be clear before the end of the introduction. There should be an obvious sense of the writer’s direction at the beginning of the paper, as well as throughout the paper.

Critical Thinking: The writer needs to demonstrate the ability to analyze a subject from different perspectives, identify what is at stake in each perspective and connect conclusions to the paper’s central thesis. The writer will avoid presenting supportive examples without making clear the significance of these examples and how each advances the writer’s point.

Bloom’s taxonomy is useful in the application of critical thinking.

Grammar: The effective use of language and diction needs to be employed.

Suitable verbiage to the subject and the audience is also important. Mechanics & Usage: Mechanics include standard conventions of spelling, capitalization, punctuation and paragraph indentation. Correct use of verb tense, the apostrophe, subject-verb and noun-pronoun agreement, run-on and fragmented sentences and misplaced and or dangling modifiers.

APA: Use of APA formatting within essays, papers, citation of sources and reference lists must be adhered to.

APA Formatting and Avoiding Plagiarism:

Students are expected to use APA format & style in their writing. This includes proper citation and reference listing. The suggested APA handbook is a great guidance tool. There are also various on-line sources that are available to students. One such online tool is the Citation Machine, which allows students to input requested sources of information and then place the source in its proper APA format. Go to www.citationmachine.net. All essays/papers must include APA Title (cover) page. See Rubric and APA Title page attachment at the end of the syllabus.
