Restrictions

UNT computing and IT systems may be used only for activities related to academic work or student life. Sending email to a friend is permitted for example, but advertising a business is not. Learn the rules by reading the online policies.

<https://policy.unt.edu/policy-bynumber/3>

Research and Statistical Support

The R&SS office's research IT managers provide training and consultation services for UNT faculty, honors- and graduate-student researchers.

UNIVERSITY
OF NORTH TEXAS

UIT Help Desk

How may we help you?

UNT IT Resources

The University of North Texas offers numerous information technology resources for students, many of which are supported or provided by the **University Information Technology** Department, part of the University Information Systems Office. The following information has been compiled by the Help Desk staff for your reference.

UIT Help Desk

You are welcome to call, click or come by for assistance with IT-related, non-hardware issues.

TIP: Add this information to your phone now!

Telephone: 940-565-2324

Email: helpdesk@unt.edu

Online: <https://it.unt.edu/helpdesk>

In Person: Sage Hall, Room 330

IMPORTANT: The information in this handout is provided – in more detail – through the online

Technology Tour.

<https://it.unt.edu/techtour>

My UNT • University Business

The **myUNT** portal allows you to register for

classes, pay tuition and fees, view your financial aid and grades, and much more. Blackboard Learn

delivers your academic business, myUNT delivers your financial business and official records.

<https://my.unt.edu/>

UNIVERSITY OF NORTH TEXAS

EagleConnect: UNT Official Email

EagleConnect is the UNT student email and collaboration system. Features include shared calendars, address books and chat capabilities.

NOTE: Students are required by university policy to read their official UNT EagleConnect email. EagleConnect email may be redirected to a different email address. The Help Desk technicians can help you redirect your email.

For more information or to log in to your UNT EagleConnect email, visit the following link.

<https://it.unt.edu/eagleconnect>

UNT Account Management

The Account Management System, AMS, is the online portal to change or reset your password when it is expiring.

<https://ams.unt.edu/>

Mobile Web Site

A mobile website is available for accessing UNT information and services from your smart phone.

<https://m.unt.edu>

Wireless Networking at UNT

UNT offers several methods of connecting access the wireless network. For further information, go online to the following link.

<https://it.unt.edu/wireless>

General Access Labs

UNT's general access computer labs and an adaptive computer lab are open to anyone with a valid UNT identification card. The labs are found throughout the main Denton campus plus two at Discovery Park.

The Adaptive Computing and Learning Lab, located in Sage Hall, Room 330, is available to students who benefit from adaptive hardware and software. Find the computer labs online at the following links.

<https://computerlabs.unt.edu/>

<https://it.unt.edu/adaptivelab>

Virtual Statistics Lab

University IT offers quick access to the statistics, analytics and modeling software packages through the Virtual Statistics Lab. These applications are hosted on UNT servers and presented virtually to your on- or off-campus computer, meaning that you may use these full applications without the need to install them on your local computer.

EViews 10	LISREL 9.3	MATLAB R2017
NVivo 11	RStudio	SAS 9.4
SPSS Statistics 25		Stata/IC 15

<https://it.unt.edu/virtual-lab>

Network Access in Residence Halls

UNT has partnered with Apogee, Inc., in order to provide ResNet, the network service for all UNT residence halls. For more information, go online to the following link.

<https://www.myresnet.com/>

Research Data Services

Services are offered to **graduate and post-graduate students** completing a thesis or doctoral dissertation with approval of the major professor. Services include key-entry of survey or research projects into a custom data file, ready for analysis and customized scannable survey forms created using any current form.
