Minor in Study of Sexualities

A minor in the study of sexualities requires 18 hours, including at least 6 advanced hours. Courses across the curriculum address the impact of sexual attitudes and behaviors on history, politics, social arrangements, artistic and literary creation, and conceptions of the self. Students will investigate the ways in which human sexuality has been shaped by medical and scientific discourse, economic imperatives, philosophy, religion, law, politics, art, visual culture and literature. Students choose from a multidisciplinary list of approved courses updated annually. For more information, visit www.hist.unt.edu/sos. Students interested in this minor should contact Dr. Marilyn Morris, Department of History, Wooten Hall.

Introduction

Journalism concentrations prepare students to work in the fields of reporting, editing, design and photography on newspapers; reporting and editing news for radio and television stations; staff and

freelance writing for magazines; advertising in agencies, profit and nonprofit organizations, and media; public relations in agencies, and profit and nonprofit organizations; teaching in secondary schools; and desktop publishing.

Programs also are designed to educate students broadly; to develop their abilities to analyze, evaluate and inform; and to consider the ethical implications of mass communication and its impact in today's world.

Some journalism concentrations require completion of course work as beat reporters on *The North Texas Daily*, the campus newspaper. Students in the broadcast news concentration take one course in broadcast newswriting and have the opportunity to work at KNTU, the campus radio station, and in the campus television studio and web casts on the *NT Daily* web site. Students in the advertising concentration must complete one course of reporting and one of advanced advertising copywriting.

Internships provide additional experience in mass media, advertising and public relations agencies, and corporate offices and media sales in the Dallas–Fort Worth region and elsewhere in the state and nation.

Programs of Study

The department offers undergraduate and graduate programs in the following areas:

- Bachelor of Arts, and
- Master of Arts, both with a major in journalism;
- Master of Journalism; and
- Bachelor of Arts with a major in electronic news (offered in conjunction with the Department of Radio, Television and Film).

Concentrations at the undergraduate level under the major in journalism are available in advertising, newswriting-editorial, photojournalism and public relations.

Teacher certification also is available in journalism.

Admission to Journalism Major

All students entering UNT and wishing to pursue the bachelor of arts degree with a major in journalism enter as pre-majors. Before applying for journalism major status, pre-majors must complete at least 45 hours of college course work including the following:

1. JOUR 1210, 2310 and two other courses, based on concentration requirements, with a 2.5 GPA or better;
2. the journalism math requirement for all concentrations, MATH 1680; and
3. the university English composition requirement with a grade of C or better.

Pre-majors who have completed the above requirements and who have a UNT GPA of at least 2.5 may file a formal application for major status. Approved majors may enroll in those advanced courses designated “journalism majors/minors only.”

Admission for Transfer Students

Students transferring to UNT from other colleges and universities may fulfill many of these requirements through transfer course work. Transfer students need to apply for journalism major status upon admission and must pass the grammar/spelling/punctuation test, administered by the University Writing Lab, during their first term/semester at UNT.

Admission for Post-baccalaureate Students

Students who have already completed a baccalaureate degree from an accredited university may be admitted to the journalism major prior to completion of the pre-major requirements provided their overall GPA in all college work attempted is at least 2.5. Post-baccalaureate majors must still abide by all course prerequisites and sequence restrictions.

The department offers programs of study leading to the BA, MA, MS and PhD degrees with a major in mathematics, and the BSMTH. Its faculty is dedicated to excellence in scholarship and teaching. The faculty supports a strong program of instruction and research, having as its core a solid foundation of mathematical theory that furnishes the tools necessary to address and solve crucial problems in

maintaining, improving and protecting the world. The program also promulgates mathematics as a discipline in its own right, a body of pure knowledge with exceptional power, enabling its practitioners and those who diligently study it to be adaptable and effective forces in the workplace.

Students who earn degrees in mathematics readily obtain jobs with high-technology companies and in business, industry, government and teaching. Salaries and working conditions compare with those of engineers and scientists.

Students who plan to major in mathematics, physics, chemistry, biology or computer science should have had four years of mathematics in high school, including pre-calculus. Students who are required to take mathematics as part of their degree program in college should have had at least two years of algebra and one year of geometry in high school.

Required Placement and Testing

The Department of Mathematics enforces prerequisites for MATH 1100, 1190, 1350, 1400, 1650 and 1680. Students not meeting prerequisites for courses in which they enroll will be at risk of being administratively dropped from their mathematics classes.

Students who have successfully completed the prerequisites described below will be asked on the first day of class to provide proof in the form of:

- a grade report, transcript, or Degree Audit Reporting System (DARS) printout reflecting the transfer course,
- an AP or CLEP score report, or
- a UNT mathematics department permit form.

Students who cannot provide this proof must pass a placement exam and provide a copy of the results to the instructor.

Prerequisites

- MATH 1100: MATH 1010 with a passing grade, or a UNT mathematics department permit form. A passing THEA mathematics score does not substitute for the MATH 1010 prerequisite.
- MATH 1190, 1350, 1400, 1650, 1680: MATH 1100 or equivalent with grade of C or better, or a UNT mathematics department permit form. MATH 1350 or MATH 1351 does not satisfy the College of Arts and Sciences degree requirement.

Permit Forms

UNT mathematics department permit forms may be obtained in advance of, or during, the first week of classes from the Department of Mathematics during specified office hours.
